Dear Miss Bungey,

I'm sorry but I can't think of anything to write.

I suppose you are very busy with your work and are rapidly becoming a regular customer of our store. I'm sure you'll find our goods very interesting. I'm afraid you are a little too speedy to drop at 'Smoky City' again. We will be glad to see you there all about your work.

John is leaving on the 31st of October. I suppose you'll be here but I'm not sure yet. It is too late to know tomorrow. I've been a night duty at the Passavant and last night I reported for duty and had had my very first patient.

and told me to go on another case. Of course I didn't go. I came home. I thought I had been called since work is slack. I was just glad to get off the case. It was a factor wife and they tell me they never pay anyone. So I am glad to get off. Besides she was a mess with a capital M.

My father is sitting here reading "So Big" and every once in a while giving me a look. He had to watch the yard in our house. He still has the most thought of in the house as far as I know.

Waddy started to work Monday he is as happy as a kid. Well I hope you are my joy find so. It's all right. You are enjoying the best of health and like your work real well. Far that means so much.

Waddy still go down to the Old St. Lukes. She is making a name. Write soon and tell us all about the South.

Love and best regards and wishes of success. Friday

Thursday

Dear Betty

How are you today - and
please tell me - did I look so
happy and comfortable that you
thought you'd follow suit and take
your annual vacation in the
hospital too? Seriously though we

were surprised and sorry to hear
of your illness. I wish there
were something I could do to help
but my chores are now done as is.

Ann is a good baby and the two
boys and her father thinks she is just
wonderful. Can't you see what a spoiled
little miss she'll be next year at this
time?

Had so much to put on
the horse for the last two
days (a carload of mules) that
I was swamped.

Nothing new - I've just
been working & coming
home & going to bed. Oh
yes it has been cold -
down to 39 and I love it.
I'm sure this evening so I
suppose we will have a
nice week end.

Thanks for taking me to
P.B. and let me hear
from you.
Much Love
Stan

Thursday 17th

My dear Betty -

I hope you enjoyed
your trip Sunday just
half as much as I did
because if you hadn't
taken me to Palm Beach
I'm afraid we wouldn't
have had much of a visit.
It was so good to be with
you again for I've certainly
missed knowing you are
near.

Pat didn't get to take the

same train there was another section
and since she didn't have a reservation
had to wait for the second section. They
were only about 30 min late getting in. It
has been a busy week but well worth the
eff. - now I'm looking forward to New Year.

How is the renter wooling out? It took
all the mud Monday - I'm sure it was
a "no luck" day - but anyhow it was
fun trying. Hope you continue to buy
char.

Haven't seen Ruby yet but will
Saturday. simply haven't had a minute
to call her from the office and don't know
how to reach her at home.

Sat. morning I'm going to look
for an apt. and then go on down town.
Did you get your statements out? I just
washed mine today - isn't that awful.

really make me look forward
to all the minor irritations attendant
with having a baby. My ego gets a
boost up every time I look at the
orchids.

Your really a peach Betty, to
be so good to me.

Love, Anne

Dear Betty -

Here I am in style - and no
place to go. Three of the most
beautiful orchids are right here
beside me, giving me "teky feet".
They look as though they deserve to
go to the opening right at the Met.

Nevertheless they are giving me
and others a world of enjoyment.
They are still as beautiful as the day
they arrived. I never tire of
looking at them - they are different
from any angle. I have never seen
such a large white one with a
yellow throat - all in my experience
have ~~been~~ had purple throats, & these
are smaller. And the purple ones
are without a doubt the loveliest of
their kind I have ever seen.

Thanks ever so much! You

Dearest Betty:-

Well, you see mine moved! Since your letter arrived, a lot has happened. For instance, Harold was transferred to Chicago, the first of January and of course I couldn't pick up and leave with the youngsters in the dead of winter so I stayed on. He decided there was no use remaining in Jax when we could be at the sea-shore so we moved down here last month and were having the nicest time.

He went in bathing for the first time today. My! not a grand time!

Well Betty, Harold finally broke down. He has been at home (duh Brip)

for the past three weeks recovering
from gastric neuritis. The doctor did
not call it colitis. He is feeling
much better now though, but the
doctor warned him that if he continued
to work so hard, he'd have another
breakdown. You can imagine how
I felt marooned down here
and Harold at home sick.

I believe that if the weather
is anyway mild up North by
the first of April, we will leave.
Cyril's health has improved and
I am positively fit. Can you picture
me?

Do you think you could run up
some time this month to see me?

Everybody at home are fine. Did
you know Mary Hines broke her
wrist?

Patie had three puppies four weeks ago
this Thursday, but we don't know who the
father is, or what he could have been. They
are darling puppies though, and Muriel is
so cute with them. She will go over to
look at them, but run as soon as they
come near her.

Muriel only weighs 19.6, that was a little
over a week ago. She lost over a half pound
the day she was sick. Her eyes are still crossed
a little. Most of the time they are perfectly
straight though, so it is a little encouraging.

Do wish I could have you up here this
summer, as I am quite able to get around.

Will love to hear from you when you
have the time.

Dearest love to you, and best regards
from Chic and the folks.

Lovingly, Dorothy.

601 Lake Shore Drive,
Michigan City, Indiana.

Dearest Betty:-

I was so glad to hear from
you, and very much surprised to learn of
your move, because you seemed so crazy
about Pittsburg. I am sorry you are not really
satisfied about Atlanta, but maybe you will
like it a whole lot better, in time.

Newie's baby was a year old last
Saturday, does it seem possible? I can't
believe it yet, but I guess it has been a
long year to her, poor girl.

Marian Burt and her baby are
getting along just fine now. I saw them
when the baby was five weeks old.

Beil and Buddy are fine too, but
Beil is very thin, it is no wonder though,

with such a big boy to take care of.

We nearly lost our darling the fourth of July, and such a day to get a doctor. She came down sick at 8.30 in the morning and we weren't able to get a doctor until 12.20, then Dr. Sloan came, at 3.30 a baby specialist and another at 7. It was some day, she had spasm of the bowel and intestine, she had a temperature of 103. Dr. Sloan is to be married the fifteenth of August. He is marrying that little nurse he had to the dance when we took him to the club. We were quite surprised to hear the news.

Boraine is still with us. It gives us a good chance to go out evenings, you know. I am dying to have a baby next spring and Chic won't listen to it. Even now it is later than I wanted one, but I haven't given

up cooking, so yet. Chic doesn't think I am well ~~strong~~ now as I am in a very run down condition, in spite of being fat.

Chic's sister was with me for over six weeks, just left a week ago Monday, and then came up here the following day, but John just all in. Chic's mother and father were down a few days too, and his wife, who was put married and her husband, they were with me for a week.

I expect to go in the first part of August, for a few days to entertain my cousin from Cleveland, and then a little later my Aunt and two cousins arrive from Paris, they are sailing this Saturday, so it won't be so long before they show Chicago.

1201 East 72nd Street.

Do you remember Marian and Russell Burt? His mother was killed August 17th. She was struck by a train going to the train. The woman with her was so badly hurt, they said there wasn't a whole bone in her body. His father was buried the day Merrill was born, so the poor kid has gone through a whole lot.

I climbed up the sand hill last week with Merrill in my arms, and it was some job, never again.

I am wearing a reducing girdle now, and I do hope I get results, because oh boy, it's no fun.

My dearest love to you, and best regards from Elsie and the folks.
Sincerely, Dorothy.

My Dear Betty:-

I was so glad to get your happy letter, because the one before ~~surely~~ was otherwise. I was ~~so~~ surprised to hear of another move so soon, though.

Well, Betty, just a year ago this time you were here with me, and I do wish you were here now. We have had some very hot days, but thank goodness the evenings are cool.

Dr. Sloan was married three weeks ago tomorrow, and they are in California now on their honeymoon.

moon, we received a card from them last week. I guess they are having a wonderful time.

You should see Muriel now. She dances for us and we just laugh at her until she quits.

My two cousins, who were in Paris, are here with us now, and leave tomorrow. They are so sweet, I hate to think of them going.

I have been sewing quite a bit up here again this summer. I just finished a darling pair of orchid shields trimmed in french blue ^{silk} and smythist beads, for Louise's bed-room at home. They are like the rose and blue

I made for my guest-room at home. I may make a pair of them for my cousin Blanche's girl. They are to be married October 14th, and I thought they would make a very nice shower-gift, as I expect to give her a shower between the time I get home and her wedding. Do you remember them? They were sent for wedding. When you were with us at home, over to see baby.

It has been grand weather here for a summer now, but it has become rather quiet; however, we had plenty of company, and good times. We expect Dr. Grant's coming, Alice's friends come from Europe the end of ~~the~~ year.

1508 East 73rd Place.

My Dear Betty:-

I am just taking time to drop you a few lines, so I may learn of your whereabouts.

I have tried many, many times to reach you by phone, and I would either get busy signal or no answer. Then, last week they told me it was disconnected under the name of Burgoon, and they had no other name.

Please let me know where you are and what you are doing, and if you can get out here set a night, and come for dinner.

Dearest love from
Dorothy.
