

Aller is very sunny to me and I will not
bear it without some words

I cannot like him, come and see for
yourself you could get work near here
and I do not doubt but R would
employ you if you were here
but it is getting cold and the light is
dim perhaps I had better not write
any more tonight, will try to write
some to morrow.

Jan 19th Feel some tired to-day but hope
to feel better soon, my medicine froze
in the cold weather and it is not so good
for it. I hope the cold weather is most
over with, R has been talking about going up
to David's but will hardly get started
I fear, he is so easy there is a good deal
of difference between us about moving
around, but he is not well now and he has
to let his sonny do as he is a mind too.
while it makes me cold to not have things
go off as I would like to have them and
would have them if I could do it myself.

Dear - never has just think the, I like to have forget to

Scott Jan 18th 1860

Dear Brother

I have this day read yours
of the ninth and was glad to read
it & will try to write an answer.
I am about as usual, have had to work
too hard the past two days, which
makes me feel tired, M & Allera went
to town day before yesterday and M
stopped to be well so I was left
to do alone, she got home this morn-
ing. Richard is sick, has had an awful
sore throat all the week, could not
speak loud for two or three days but
yesterday felt a little better and Aller
was gone he went out too much so
is worse today.

The weather has been very cold for
some time, all this month certain
and it has snowed almost every
