NO. 5

FOREWORD

I am happy to present this bulletin which gives pertinent information concerning the program of secondary education in Kentucky. In it will be found a list of all high schools existing in the state for the school year 1966-67. A companion bulletin is being issued later which gives similar information for the elementary schools.

In presenting this bulletin I am mindful of the fact of the great improvement that is going on in the area of secondary education throughout the state. I want to commend all the personnel on the local level as well as on the state level for giving their efforts toward improving the education for our children and youth.

It is hoped that the materials given in this publication will be useful to the members of the profession as they strive to improve educational opportunities on all levels.

HARRY M. SPARKS

KENTUCKY HIGH SCHOOLS—1966-67

Kentucky public and private high schools are classified and accredited by the State Board of Education. This requirement is set forth in the law which requires that each school district in the state provide an approved twelve-grade school service and that rules and regulations be adopted governing the quality of this service. The law also provides that the "Superintendent of Public Instruction shall annually prepare or cause to be prepared and submit for approval and publication by the State Board of Education a list of all public and private high schools or other secondary schools in the state, showing their classifications." Accredited classifications are given each year by official action of the Kentucky State Board of Education on recommendations of the staff in the Division of Instructional Services, Section on Instruction, State Department of Education. The Commission on Secondary Schools of the Kentucky Association of Colleges and Schools has worked in close cooperation with the staff of the Division of Instructional Services in an advisory capacity on arriving at the recommended ratings.

The number of high schools classified and accredited annually continues to decline. This year, we have 438 high schools of all types of organizations or 10 fewer schools than existed in 1965-66. Table I which follows shows the number of schools classified according to the type of organization and the controlling authority under which they operate.

TABLE I
TYPES OF HIGH SCHOOL ORGANIZATIONS
AND NUMBER OF EACH

Types of Organization	County District	Independent District	State, Federal, and Regional	Private	Total
Grades 7-9	20	24	0	1	45
Grades 7-11	1	0	0	0	1
Grades 7-12	59	34	5	3	101
Grades 8-9	1	0	0	0	1
Grades 8-12	7	3	0	4	14
Grades 9-11	1	0	1	1	3
Grades 9-12	152	36	2	61	251
Grades 10-12	12	10	0	0	22
TOTALS.....	253	107	8	70	438

Of the 438 schools operating, 387 are high schools offering a Program of Studies through the twelfth grade, and are considered complete high schools. The complete high schools also show a decline from year to year which means that the high schools are becoming larger making it practicable to offer a broader Program of Studies for the youth of the State.

[Faint, illegible text, likely bleed-through from the reverse side of the page.]

Table II shows the number of complete high schools and the change in number for a sixteen-year period from 1951-52 to 1966-67. In this period of time, the number of high schools have decreased from 561 to 387 or 174 fewer than existed 16 years ago.

1966-67	17	59	55	92	112	52	387

It is the purpose of Table III to show the breakdown according to the size of the complete high schools and the control under which they are operated. In the county school district it will be seen that only 2 schools with an enrollment of 99 pupils or below remain. This year, there is a total number of 164 high schools with an enrollment of 500 and above. Last year, this number was 158 which represents that within the school year, 6 high schools had grown in size to an enrollment of more than 500 pupils.

TABLE III
COMPLETE HIGH SCHOOL ORGANIZATIONS
GROUPED ACCORDING TO SIZE AND CONTROL

Size by Enrollment	County District	District Independent	State, Federal and Regional	Private	Total
99 and below.....	2	1	1	13	17
100-199	22	14	2	21	59
200-299	31	13	2	9	55
300-499	58	21	13	92
500-999	80	22	2	8	112
1,000 and above	35	13	4	52
Totals.....	228	84	7	68	387

Of the 387 complete high schools, it will be noticed that 228 are operated by the county school districts, 84 are under control of independent districts, 7 are state, federal or regional schools and 68 are private schools.

The common type of high school organization conforms to either a six-year high school, grades 7-12; for a four-year high school, grades 9-12. For a number of years, the trend has been moving away from the six-year high school organization to the four-year high school organization. It will be observed, that this year there are 101 six-year high schools and 251 four-year high school organizations. Last year there were 111 six-year high schools and 260 four-year high schools.

The remaining high schools offer programs ranging from the seventh through the eleventh grade. By far the greatest number of these schools are organized as separate junior high schools, grades seven, eight, and nine.

In Table IV, there is an accumulation of information concerning the number of high schools representing approximately a half-century of growth. It will be noticed that for twenty years there was a gradual growth from 316 schools in 1915-16 to 848 in 1934-35. It is interesting to notice that since the school year of 1934-35 when there were 848 schools that there are now only 438 or a decrease of 410 schools in this period of time. This is evidence that the high schools of the Commonwealth of Kentucky are becoming larger and therefore offering the potentials of providing a stronger program of education.

The number of pupils enrolled in the high schools continues to increase. This year there has been an increase of over 2,000 pupils enrolled in grades 7-12 from 253,472 in 1965-66 to 255,532 in 1966-67. Table VI listed below, reveals that 63% of all pupils enrolled in grades 7-12 attend county high schools and 37% attend independent, state and federal, and private high schools.

Table VI which follows gives the enrollment in all types of high schools in the state, grades 7-12 classified according to the type of control under which the school operates.

TABLE VI
HIGH SCHOOL ENROLLMENTS BY
GRADES AND CONTROL

Grades	County Districts	Independent Districts	State, Federal, and Regional	Private	Total
7	12,412	9,593	367	70	22,442
8	13,054	9,868	339	174	23,435
9	40,121	14,918	636	6,055	61,730

11	30,490	11,874	384	5,137	47,885
12	26,659	10,606	386	5,045	42,696
Ungraded	919	581	10	1,510
Totals.....	159,526	71,057	2,650	22,299	255,532

The greatest increase in the number of pupils enrolled in the high schools this year occurred in the county school districts. This increase in the county school districts numbered 2,289 pupils from 157,237 in 1965-66 to 159,526 in 1966-67.

Table VII is presented to show the growth and the enrollment in the high schools of the State for 50 years, from 1915-16 to 1966-67, classified according to the white enrollment, the Negro enrollment and the enrollment in the private schools. Since integration of white and Negro pupils has occurred rather rapidly since 1954-55, the State Department of Education has discontinued in keeping separate statistics. Today almost all of the high schools are integrated schools and therefore nearly all of the enrollment for the public schools is represented in the column headed Public White High Schools.
