ABOVE AND BEYOND

Mr. Willis (and the library staff received the following letter from Ruby Herald who recently retired as head of the Communications Reading Room:

My retirement party was excellent from beginning to end and something I will remember with pleasure for years. I know what great effort it takes on the part of many people to put such an affair together. So thank you and thanks to the library staff for making it such a memorable afternoon.

The beautiful framed print of the library will always remind me of many happy experiences at UK.

Thanks for a tremendous send-off.

I'll miss you.

Adil Razeeq of the Reference Department received the following letter from Dr. Ronald Bulbulian, Director of the Exercise Physiology Laboratory:

Thank you for taking the time to meet our class and acquaint them with the reference materials. Your presentation

was comprehensive and excellent. I received genuine positive responses from the students and I feel as if they have had their eyes opened to the wealth of information available to them. After all these years, even I was happy to know there are many more resources available to me than I have previously used. Thanks again for a job well done. I hope to be able to work with you again in the future.
