UK Officials Predict Summer Will Be Busy

The '62 summer session has begun and officials predict an active and interesting program.

Dr. Charles F. Elton, dean of Admissions and Registrar, said the enrollment as of those registering Tuesday was 2,720. These figures are expected to increase to about 3,300 when the short session classes begin.

The summer opera workshop will run June 19-Aug. 10 under the direction of Miss Phyllis Jenness, assistant professor of music. The opera is "The Mikado" and tryouts are Sunday, at Guignol Theatre, 2 p.m. for principal roles, and 3 p.m. for the chorus.

The College of Education has approximately 16 workshops scheduled covering elementary and secondary education. These courses

include studies of exceptional and handicapped children.

The College Business Management Institute will be held July 22-28 at the University.

For the past week the county health officers from throughout the state have been visiting the campus for the Chronic Disease Institute at the University Med Center. The institute is sponsored by the Medical Center and the State Department of Health's Division of Chronic Disease Control.

The College of Education counseling and guidance training institute has selected 30 guidance counselors, 23 from Kentucky and 7 out-of-state, to participate in the counseling and guidance training institute.

It will run from June 18-Aug. 10.

Sunday, a group of 10 women from the Instituto Tecnologico, Monterrey, Mexico, will arrive for a six-week stay at the University. Dr. J. R. Schwendeman, head of

the department of geography, has taken charge of the group.

The women will study English under their professor, Signora Vilarreal, as a part of the International Summer School sponsored by the Sears-Roebuck Foundation.

Recreation available for summer students includes golf, horeback riding, swimming, handball, basketball, shuffleboard and table tennis. Instruction is also available in sports. For further information contact Don C. Seaton, head of the department of physical education, or the personnel at the Alumni Gymnasium.

Philosophy Club

The Philosophy Club will meet at 1 p.m. today in Room 206 of the Student Union Building. Eric Henson will discuss "Language and Thought: An Examination of the Theories of Benjamin Whorf."

DEAN WELCH LEAVES UK

Dr. Frank J. Welch, Dean of the UK College of Agriculture and Home Economics has submitted his resignation to University President Frank G. Dickey.

Dr. Welch, a native of Winfield, Texas, came to the University of Kentucky in 1951. Prior to that he was a high school principal in Mississippi in 1928. Six years later he became the State Director of Adult Education.

In 1937 Dr. Welch became the head of the Department of Economics and Sociology at Mississippi State College. He was named Dean of the School of Agriculture in 1945, and in addition became the director of the school's experiment station in 1947.

Dr. Welch was graduated from the University of Mississippi in 1927 with a B.A. degree in economics. He received his master's degree in 1932 from the University

of Colorado in economics, marketing, and public administration.

He received his doctorate in agricultural economics from the University of Wisconsin in 1943.

Between December 1957 and February 1959 Dr. Welch took a leave of absence from UK to become one of the three directors of the Tennessee Valley Authority.

Commenting on Dr. Welch's resignation President Dickey said "It will be with real regret that I recommend to the Board of Trustees its acceptance of Dean Welch's resignation. He has provided excellent leadership for the complex programs of agriculture and home economics and he will be sorely missed."

Dr. Dickey said the University will begin to look immediately for the best qualified person to fill Dr. Welch's post.

Health Officers Meet At UK

Health officers from all over the state have been meeting at the Medical Center this week for a Chronic Disease Institute.

Dr. Edmund Pellegrino, chairman of the Department of Medicine, will describe the Medical Center's approach to patient care at the institute's last session today.

During the week health officials from throughout the state have toured the Medical Center, and attended lectures and discussions on various roles of county health officers in cases involving chronic illness.

The institute is sponsored by the Medical Center and the State Department of Health's Division of Chronic Disease Control.

Library

The Margaret I. King Library will observe the same schedule during the summer as during the regular school year.

Monday through Friday, 7 a.m. to 10 p.m.

Saturday, 8 a.m. to 5 p.m.

Sunday, 2 p.m. to 5 p.m.

The library will be closed on July 4.

Tobin Named Outstanding Coed

Myra Tobin, a June graduate, from Harned, was named one of the six outstanding members of Delta Delta Delta, international collegiate fraternity at the sorority's national convention held last week at Hot Springs, Arkansas.

Miss Tobin is past president of the University chapter of Delta Delta Delta. She was a member of Alpha Lambda Delta, Cwens, Links and Mortar Board, freshman, sophomore, junior and senior honoraries. She was named the outstanding Greek woman during her junior year and was also co-chairman of the Little Kentucky Derby. In her freshman year she was president of her dormitory.

Upon graduation the Home Economics major received a Borden Scholarship for graduate study in Home Economics.

MYRA TOBIN

Registration Proves Confused, Wearisome

More than 2,700 undergraduates and graduate students lined up outside the Coliseum to register on Tuesday.

The line at various times during the day extended from the Coliseum entrance down Euclid Avenue and up Lexington Avenue to the parking lot behind the Coliseum.

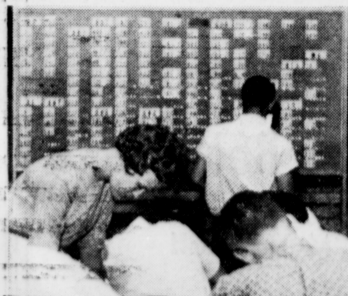

As the lines got longer and the sun hotter many students dropped out of line to sit under one of the trees on the Coliseum lawn. Many undergraduates returning to earn extra credit believed the delay in entering the Coliseum was uncalled for and expressed belief that it was easier to gain admittance during the fall and spring registration.

To add to the confusion an un-

identified coed fainted from the heat while standing in line.

Several students complained that they had come to summer school to finish their requirements to graduate in August and they found the classes they needed closed. Kyra Hackley, a senior from Louisville said "I'm just sick, I can't go to summer school now. I had to have the classes to graduate and no amount of pleading did any good. I think it's unfair."

Many students, however, believed it was far easier than fall registration and said they wished it would be as simple in September. Diane Street, a sophomore from Cadiz said, "I thought it was a snap, much easier than I expected it to be."

Are You Confused?

Confusion and crowds were the complaints of many students concerning Tuesday's summer school registration in the Coliseum. Closed courses,

a shortage of IBM cards and heat added to the aggravation of many.

Geological Maps Recently Published

Maps showing the location of ground water in nine Eastern Kentucky counties and the geology of Greenup, Boyd, and Carter Counties are among the series of new maps published by the U.S. Geological Survey in accordance with the Kentucky Geological Survey at UK.

The ground water map shows the amounts of water expected to be found in Breathitt, Floyd, Harlan, Knott, Letcher, Martin, Magoffin, Perry, and Pike Counties.

Dr. Wallace W. Hagan, state geologist and director of the Kentucky Geological Survey at UK, pointed out that similar maps have been issued for 43 Central Kentucky counties and have greatly aided in determining drilling sites.

"Geology of the Argillite Quadrangle, Kentucky," the map showing the geology of three Kentucky counties, was prepared by Richard A. Sheppard and John C. Fern of the U.S. Geological Survey staff.

It is a multicolored map, with a topographic overprint, and is complete with geologic explanations, diagrams, and a discussion of the area's potential mineral wealth.

Clergy To Attend UK Conference

The 12th annual University of Kentucky Summer Conference on Moral and Spiritual Values will highlight three Kentucky sectarian educators in a symposium to be held at 10:30 a.m. Monday in Memorial Hall.

The religious educators to appear are Dr. Herbert S. Waller, rabbi of Adath Israel Temple, Louisville; the Rev. Dr. John Reifsnnyder, associate professor of education administration at Villa Madonna College, Covington; and the Rev. Dr. Rollin S. Burhans, president of Kentucky Southern College, Louisville.

The speakers will discuss, "What should public schools do for the character development of children?" from the standpoint of the faith they represent.

The summer conference is being held in connection with a workshop in values, which will be held from June 20-July 13 at the University by Dr. Hartford and Dr. Charles Manker, UK associate professor of education.

The symposium is open to the public.

Fulbright Applications Are Now Available

Dr. Kenneth Harper, Fulbright Scholarship advisor at the University and chairman of the state Fulbright Committee, announced last week that applications for Fulbright Scholarships for 1963-64 will be accepted until Nov. 1.

Those interested in applying should consult with their campus

Fulbright advisors. Requests for applications must be postmarked by Oct. 15.

There are three types of scholarships available.

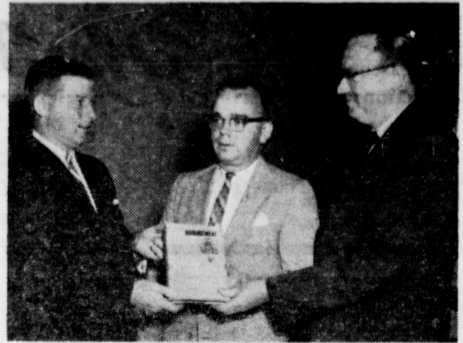

They are (1) a full U. S. government grant which provides transportation, room and board, tuition, and books, (2) a joint grant in which the U. S. provides a travel award and a foreign government offers tuition and full or partial living expenses, and (3) a travel grant which supplements a scholarship received from a foreign government, university, or private donor.

Texan is New Head Of Dept.

A professor of horticulture at Texas Agricultural and Mechanical College, College Station, Texas, has been appointed head of the UK Agriculture Experiment Station Horticulture Department.

Dr. Hubert C. Mohr will begin his duties July 1 the UK Board of Trustees announced recently. He succeeds Dr. G. W. Schneider.

Dr. Mohr is a graduate of Ohio State University and received his masters degree in horticulture and botany from Ohio State in 1939. He completed his doctorate at Texas A&M where he was staff botanist and horticulturist. He has been a member of the Texas A&M faculty since 1946 working on research and teaching.

Paul F. Davidson, Kentucky representative for Prentice-Hall publishers, is pictured at left presenting Dr. Massie and Dr. Haynes with a copy of their book.

UK Profs Economic Text Will Be Printed In Japan

Two UK economics professors have written a textbook which is scheduled for an Asian printing to be published in Japan.

The book which is being used in 40 colleges and universities is now

in its second printing. "Management: Analysis, Concepts, and Cases," the work of Dr. Joseph Logan Massie and Dr. William Warren Haynes, came off the presses last year.

Paul Davidson, a University of Kentucky alumnus, and Kentucky representative for the book's publisher, Prentice-Hall, Inc., said, "The book reflects the most modern trends in the fast developing field of management."

Both Dr. Haynes and Dr. Massie have had a number of articles published in different journals and periodicals.

Dr. Massie received two degrees from UK and his Ph.D. from the University of Chicago.

Dr. Haynes received his A.B. from the University of California and his master's degree and doctorate from Harvard.

Wildcats Ink 11th Pennsylvania Gridder

Rich Martha has become the eleventh outstanding school-boy gridiron prospect from Pennsylvania to sign a grant-in-aid with the Kentucky Wildcats.

The much-honored Martha whose services were sought by numerous other major schools in the Southeastern Conference and around the country, wound up a sensational high school career in 1961 by being named to the Sporting News All-America team and gaining mention as well on the Pennsylvania All-State unit, All-WPIAL and All Big 33 outfits.

Regarded by Kentucky Assistant Coach Dave Hart, who signed him, and others as one of the country's most promising backs, Martha was an all-sports standout at Wilkinsburg High in the Pittsburgh area. In his final year, he captained teams of all three sports in which he participated—football, basketball, and baseball.

During his football career, Rich

also saw duty as a quarterback and is considered a fine passer as well as an elusive runner. Last season, in guiding his team to an undefeated (9-0) regular season record and close loss (7-6) in the Class AA state championship playoff, he personally scored 73 points even though he sustained a shoulder injury in the third game of the season.

The Wilkesburg youth follows in the footsteps of a brother, Paul, who starred as a sophomore at University of Pittsburgh last year. He was coached in high school by Clark T. Miller, one of the state's top prep mentors who also tutored tackle Mike Angelo and center Bill Pechol—other Wilkesburg grid athletes who will enroll at Kentucky in 1962.

Frosh Batting Title Goes To Scroggins

Just as on the varsity, the 1962 freshman batting title at UK goes to a former Boone County High School baseball star.

Charles Scroggins, hefty yearling outfielder, hit a resounding .523 for the eight-game Kitten card to win the halo on the first frosh team fielded here since 1959.

Allen Feldhaus, former Boone County slugger, won the hitting crown with the varsity this spring on a .338 average and also was the leading batsman on the '59 Kitten squad with a .400 mark, giving Boone County the last two freshman batting championships.

As if these two aren't star-studded representation enough from the Boone County school, the top pitcher for the Wildcats this year was ex-Boone County flinger Skip Noelker, who posted a perfect 4-0 record in his first UK varsity campaign.

Scroggins compiled his potent percentage on 11 base hits in 21 times at bat. He also was an easy winner of the RBI crown as he drove in 12 runners in eight games, four more than his nearest teammate.

Scroggins was one of eight Kittens who bested the coveted .300 team batting average. While the UKittens were making all this noise, a three-man hurling staff was silencing opponent batters with a .217 batting average and a 2.40 ERA.

Kittens who battled over 15 times for the season to join Scroggins as 300-plus hitters were shortstop Ronnie Kennigt at .433, outfielder Johnny Wells at .411, and catcher Bruce Martin at .312. With high averages but less than 15 trips plateward were first baseman Todd Young at .455, catcher Eddie Glasscock at .444, pitcher Kenny Lewis at .400, and outfielder Ronnie Taylor at .308.

Kennett, who doubles as a UK basketball player, led the team in hits (13) and was charged with the most trips to the plate (30). Home was the run-scoring leader with 15, a six-run edge over runner-up Embry. Young was the doubles leader as four of his five hits were

of the two-bag variety while Wells and Embry tied for the home run leadership with two each.

Track Team Signs Fifth Speedster

Somerset's outstanding schoolboy distance runner, John Sears, has become the fifth recipient of a Kentucky track scholarship.

Wildcat Track Coach Bob Johnson said the prospective presence of the Somerset boy and his chief rival in state cinder circles—previously signed Jim Gallagher—will give the UK freshmen a strong hand in cross country and track next season.

Sears and Gallagher this past season staged one of the most interesting personal duels for honors seen in the state in several years.

In track, both boys won their divisions of the indoor high school mile at the Mason Dixor Games in Louisville. Meeting again in the state meet at the UK Sports Center last month, Gallagher beat out Sears in the mile as both bettered the old state high school standard.

Sears' top time for the mile is 4:29 and he shows a good clocking of 9:59 for the two-mile. Probably his best performance of the year came in the Shamrock Run where he came in first ahead of three state champions—Kentucky, West Virginia, and Ohio—and clipped 28 seconds off the existing record with a time of 17:16. He also was voted the outstanding individual trophy for his feats in the invitational Hilltop Relays, where he won both the mile and 880.

Spring Squads Compile Record Aggregate Mark

Although not a single record was broken by any of the spring sports teams, the six squads compiled the best aggregate record in the school's history.

A perfect, 8-0, record by Abe Shannon's freshman baseballers was the main reason for the new aggregate mark. The undefeated mark of UK's first frosh nine since 1959 boosted the over-all spring score sheet to 52 wins, 22 losses, and one tie—a .700 percentage. Last year the school mark was established on a .653 percentage (48-22-1).

While Shannon's Kittens had the only perfect season, all other spring sports units but the varsity track team finished above .500.

Ballard Moore's team, posted a third straight season of a dozen or more victories under the form-

er Western Kentucky net ace. The sixth consecutive winning UK campaign was the second "winningest" team with a 13-4 record and .753 percentage. Canceled matches with Transylvania and Georgetown prevented bettering of the school record of 14-4 Moore's pupils set in '61.

The 10th place finishers in the Southeastern Conference meet with three points suffered three of their losses to SEC foes—LSU, Tulane, and Vanderbilt—and the fourth to the Blue Grass Tennis Club, a team composed of former local-area collegiate tennis players.

A .681 percentage on 15 wins and seven losses, a good mark in any league, was the plain to which the UK golfers dropped after the outstanding mark of 14-3-1 in 1961. Coached by Leslie L. Martin and Bert Cox, the links corps had a particularly good second-half season as they won their last four matches and 11 of their final 14 outings.

The golfers tied for fourth in the SEC championships and were deadlocked for the seventh position in the Southern Intercollegiate matches. They also ranked fifth in the Ohio State Invitational meet.

Although playing only three dual matches, the freshman tennis team of Ballard Moore posted a better record this year, a 2-1 showing, after an 0-2 performance last year. The Kitten racquetees tallied two SEC points, good for eighth in freshman competition.

Inability to win at home drop-

ped Harry Lancaster's baseball club to a 12-7-1 season, the worst mark in four seasons but still the fourth straight winning season. While only a 9-7 SEC record was posted for a fourth-place tie in the SEC's Eastern Division, the Cats did add to their success string against intrastate opposition as a pair of wins over Eastern Kentucky made it 19 straight conquests of Commonwealth teams.

Bob Johnson's trackmen were only 2-3 in dual meets but strengthened their stock with wins in some of the nation's top relays and invitational meets. The Florida Relays, Ohio Relays, News-Piedmont Relays, and Drake Relays drew UK participation as well as the SEC meet. The Cats were ninth in the conference with nine points.

Freshman thinnies of Coach E. G. Plummer placed fifth among freshman teams in the News-Piedmont Relays.

Citizens Committee Maps UK Future

Thirty-one Lexingtonians in a "Citizens Committee of 60" were named late in May by President Frank G. Dickey to map long range goals for the University and to determine ways and means of reaching them.

President Dickey selected 15 members, including the University's trustees, as the working core of the committee. The other 45 members came from various other fields.

Dr. Dickey said UK wanted a group of eminent, respected, and intelligent citizens to help in the redefinition of the future goals of the University.

He said, "We are not necessarily seeking a firm and fixed map for the future, but rather a navigational chart that will permit us to move with certainty, security, and flexibility, in terms of the hopes and desires of our people."

The members on the committee

from Lexington are: Floyd Fairman, John Ridgway, Fred Bullard, C. V. Whitney, Earl Wallace Sr., Fred Wachs, W. T. Young, Dr. H. L. Donovan, Dr. Irvin E. Lunger, Wes Morris, Miss Barbara Harkey, Floyd Wright, Dr. Ralph Angelucci, Robert Hillenmeyer, Dr. Aubrey Brown, Dr. Thomas D. Clark, Dr. A. D. Albright, Dr. Merl Baker.

Also attending will be Dr. H. L. Bost, Dr. Leo M. Chamberlain, Mrs. J. A. Estes, Dr. T. P. Field, Dr. Lyman V. Ginger, Dr. R. D. Haun, Dr. A. D. Kirwan, Dr. Frank D. Peterson, Dr. H. P. Riley, Dr. William A. Seay, Dean R. E. Shaver, Dr. Francis Massie, and J. S. Watkins.

Distinguished Alumni Honored At Dinner

A Lexington neurosurgeon, a managing editor of a national magazine, and a practicing civil engineer were presented distinguished alumnus awards at the annual University alumni reunion dinner June 9 in the Student Union Building.

The graduates who were honored were Dr. Ralph J. Angelucci, 34, Lexington; William B. Arthur, 37, managing editor of Look magazine, New York City; and R. R. Dawson, 25, Bloomfield.

Dr. Angelucci, chairman of the executive committee of the Board of Trustees, has been involved in several University projects such as the drive to obtain the Medical Center and the Century Fund campaign to raise funds for an Alumni House on the campus.

He is a member of the Board of Directors of the Kentucky Research Foundation; a member of the Council on Public Higher Edu-

cation in Kentucky; clinical associate professor in the College of Medicine; and a member of the Athletic Executive Committee.

Dr. Angelucci is past president of the Alumni Association.

Arthur is vice president of Cowles Publications and served as chief of the press branch of the War Department Bureau of Public Relations. He is a native of Louisville and a graduate of the University School of Journalism.

Tribute was made to Dawson as a "man who has spent his mature life in service to others."

Reference Room Will Be Closed Over Weekend

The Reference Room of Margaret I. King Library will be closed until Monday to facilitate the installation of new lights and air-conditioning ducts.

After Monday the Reference Room will have to be closed in the evenings until the lights are fully installed. The Library is urging all readers to do necessary work during the daylight hours.

Service in the Reference Room will be limited because part of the staff will be supervising the moving of federal documents. Anyone with a problem is urged to find another library employee if no one is at the reference desk.

The Reference Room will be open during the entire summer term.

Health Service In New Location

The University Health Service formerly located in the basement of the University Infirmary has been moved to the Medical Center.

The Health Service is located on the first floor of the University Hospital in Room N-102. The phone number of the Service has been changed to 2746. Health Service hours will be 8:30 a.m.-11:30 a.m. and 1:30 p.m.-4 p.m. All emergencies will be handled by the hospital.

According to the Florida Alcoholic Rehabilitation Program, the need for a drink of liquor before beginning the day is a sign of increasing dependence on alcohol and the progressing illness of alcoholism.

Contest Offers Free Vacation

Would you like to win a week's vacation with free lodging at a Kentucky State Park?

If you would like to recuperate from summer school finals on the shores of Kentucky Lake enter the "Name The Lodge Contest" being sponsored by the Kentucky Department of Parks.

The new lodge located at Kentucky Dam Village State Park near Gilbertsville has 56 rooms and will be the first of eight to be dedicated this summer.

The name for the new lodge should reflect the role of the park as a family vacation site.

Entries should be on a post card and mailed to the Kentucky Dam Village Contest, Box 500, Frankfort, Ky. on or before June 30.
