Mr. William Green, Pres.
American Federation of Labor
Washington, D. C.

Dear Mr. Green:

It was a special pleasure to me to hear your address before the Dade County Bar Association at Miami a few weeks ago, and to have the opportunity of meeting and talking with you after the conclusion of the meeting.

I can well understand the high regard you are held both by labor and management and was particularly pleased with the information you mentioned in your address that such a small percent of the men connected with your Union were unconnected in strikes.

My I say that I wish there were more leaders for labor like you and that I hope to have the pleasure of seeing you at different times in the future.

My best personal wishes.

Very truly yours,

Joseph D. Harkins
