Viz. some phrase-droppings from the contents page: hypertext, CD-ROM, multimedia, paneuropean (multilingualism, information gatekeeper, graph-theoretic techniques for bio-sequence searching, PSI-KIOSK, technology transfer, building a searching community, expert system for bibliographic searching, Soviet Mission Control access, and the new role of academia in the information era.

UPCOMING STAFF DEVELOPMENT PROGRAMS

-- Submitted by Barbara Pfeifle

They're here! The big blue bins for recycling white paper, newspaper and aluminum cans have arrived and are set up in strategic locations in King North and South. On Tuesday, August 13th at 10:00 am in the Gallery, Mary McLaren and Jamie Crowden, from the Library Recycling Committee, will discuss the recycling measures initiated within the library and how you can participate.

Two conferences were held this year which will have an impact on libraries in Kentucky -- the Governor's Conference on Library and Information Services and the White House Conference on Libraries and Information Services. Michelle Gardner, Deputy Commissioner of the Kentucky Department of Libraries and Archives, will present an update on the status of the implementation plans for the recommendations approved at the Governor's Conference and will report on the outcomes from the WHCLIS. Come to the Gallery at 9:30am on Friday, September 18 to hear Michelle and stay informed on these important issues.
