Contributors: Jessie Adams, Faith Harders, Cecil Madison, Liz Pogue, Ann Short, and Gerry Webb (Editor)

PUBLISHED WEEKLY AT THE MARGARET I. KING LIBRARY, UNIVERSITY OF KENTUCKY, LEXINGTON, KY. 40506-0039

INFORMATION FROM THE PRESERVATION COMMITTEE

Proper care and conditions can arrest the deterioration of materials almost immediately.

To clean inside: Wipe the pages with a new, clean, treated dust cloth. This will remove a great deal of dirt. A cleaner called "Opalene" is a cloth bag containing absorbent powder and other ingredients. It can be used to remove dirt from illustrations or pages without any danger of effecting the ink. It is also safe for use on fragile paper.

To clean tops: Brisk rubbing with absorbent cotton or a treated dust cloth is effective in removing dust from ungilded tops of books. The advantages of gilded edges are that gold seals the top edges so that dust does not sift down between the pages and the book is more easily cleaned.

If proper care (proper air conditioning year round) is received, cloth, paper and vellum may possibly be regularly cared for with only a careful dusting.
