Ny Son:

How are you this fine day? My how well the new ribbon is working in the typewriter and it was just past useing before Dad got it in.

We have been looking for Nancy down all mxx morning and she isnt here yet, and its past noon She surely had more to do than she thought for.

Judys are working on their garden today piling rock and getting ready to plow.

Dad has been home all morning has been writing most of the time he isnt going to try to work today hoping he will feel more like it by tomarrow.

Dad has just given his plant bed up to the pups and now they have learned to come up on the front porch but Mother isnt going to turn it over t to them for I shall put up the old gate I have used on old joe and Lou before.

Daddy felt bad yesterday and never did go for the mail so your Sunday letter will be a day late and it makes you miss a day but I cant very well help it.

Hope you are fine and that your work is stil a little less than it was before you came home.

We are looking forward to another letter from you soon we might be tomarrow getting it as your last letter came by plane.

I suppose its to early to know how you came o out with the car being fixed up. ? I only hope it wont cost you anything yet I am very thankfull you was not hurt.

My tulips are still in bloom and the little wild flowers you brought in from the hill are still prettp I keep changing the water in them.

With much Love from your,

Mother,
