FOREWORD

This Number of the Bulletin is prepared annually by the Bureau of Instruction in the State Department of Education. The purpose of this publication is to give pertinent information regarding the public and private high schools of the state.

In Kentucky, both public and private high schools are accredited annually by the State Board of Education. The official accredited rating of each high school is set forth in this Bulletin. The official rating given each high school by the State Board of Education is made on recommendation of the Commission on Secondary Schools of the Kentucky Association of Colleges and Secondary Schools.

It is hoped that superintendents and principals will study the material found in this publication.

WENDELL P. BUTLER
Superintendent of Public Instruction

KENTUCKY HIGH SCHOOLS—1952-53

Schools and Types of Organizations. There are 594 public and private high schools in Kentucky. Last year the number was 604. Of the 594 high schools now operating, 551 are complete organizations in that they offer work through the twelfth grade. The remaining 43 high schools, because they do not offer work through the twelfth grade, are approved as incomplete feeder schools. Of the 43 incomplete high schools, 34 are separate junior high schools, organized as one distinct unit offering work exclusively in grades seven, eight, and nine. The remaining 9 high schools are incomplete organizations that offer work only through the tenth or eleventh grades.

Of the 551 complete high schools, 327 are operated by county boards of education while 147 are maintained by boards of education in independent school districts. The remaining complete organizations are either private secondary schools or schools that are operated by the state in connection with institutions that are maintained entirely by the state.

This year, the six-year high schools (grades 7-12) number 248, last year they numbered 263. This year, the traditional four-year high schools (grades 9-12) number 261, last year they numbered 259. These figures indicate a growth in the number of 9-12 organizations and a decrease in the number of 7-12 organizations. The remaining 42 complete high school organizations represent modifications of the six-year and the traditional four-year plans.

The following table presents data regarding the various types of high school organizations to be found in the state.

TABLE I
TYPES OF HIGH SCHOOL ORGANIZATIONS AND NUMBER
OF EACH

Types of Organizations	County Districts	Independent Districts	Private Schools	State or Regional	Total
Grades 7-12.....	163	70	10	5	248
Grades 9-12.....	143	63	53	2	261
Grades 8-12.....	19	6	6	0	31
Grades 10-12.....	2	8	1	0	11
Grades through 11.....	1	0	1	0	2
Grades through 10.....	7	0	0	0	7
Grades through 9.....	12	22	0	0	34
Totals	347	169	71	7	594

The foregoing table not only shows the number of different types of high schools that are found in the state, but it also indicates the number of such schools that operate under different types of control.

Information Concerning High School Development. For a number of years the Division of Supervision has carried three tables in this bulletin showing the development of high school education in Kentucky. This information has proved helpful to students of Kentucky education.

TABLE IV
NUMBER OF HIGH SCHOOLS BY YEARS

School Year	Public White High Schools	Public Colored High Schools	Private High Schools	Totals
1915-16	316	No report	No report	316
1916-17	376	32	No report	408

1950-51	482	59	72	613
1951-52	474	59	71	604
1952-53	462	60	72	594

Table IV shows that there was a continuous growth in the number of high schools from 1915 to 1935. In 1935 there were 848 public and private high schools in the state. This represents the largest number of high schools that the state has ever had. Now that we have 594 high schools, public and private, it is clear that there has been a decrease in the number of high schools of 254 since 1935. This decrease has come about very largely through small high school

organizations being merged into larger school centers. For example, this year Ballard County has one large central county high school for white pupils in place of the five small county high schools that operated in the county last year. Perry County last year had seven county high schools, this year the county system has four high schools. The reduction of the number of high schools in the Perry County school system has been due to the construction of two large centrally located high school buildings.

1950-51	120,733	10,862	12,506	144,101
1951-52	122,443	10,864	12,245	145,552
1952-53	129,345	11,323	12,861	153,529

* Beginning with the school-year 1932-33, the enrollment of the seventh and eighth grades of six-year high schools and of junior high schools are included.

Table V presents an interesting picture in total high school enrollments in different types of high schools (public white, public colored, and private) since 1915. High school enrollments increased rapidly until around 1941, then enrollments began to decrease on account of the second World War. The lowest total high school enrollment was for the school-year 1943-44. Today, the total high school enrollment is 153,529. This enrollment includes seventh and eighth grade enrollments in schools that incorporate these grades in their organizations. There are 115,721 enrolled in grades 9-12. The total high school enrollment for the current school year is 7,977 more than the total enrollment last year.

Table VI shows the situation as regards the number of accredited high schools by years since 1910. When we use the expression "accredited high school," we think of an organization that offers a program of work through the twelfth grade. High schools that do not give work through the twelfth grade should be looked upon as incomplete feeder schools for the regularly organized, complete high schools of the district.

The high schools in Kentucky are officially accredited by the State Board of Education. This applies to both public and private schools. The official rating given each high school by the State Board of Education is made as a result of the recommendations of the Commission on Secondary Schools of the Kentucky Association of Colleges, Secondary and Elementary Schools. The members of this Commission meet with the supervisors in the Bureau of Instruction and canvass the annual high school reports that are made to the State Department of Education and also the special written reports that are made of inspections by the supervisors. The State Board of Education may accept or reject the recommendations of the Commission on Secondary Schools of the Kentucky Association of Colleges, Secondary, and Elementary Schools or may modify these recommendations. In practice the State Board of Education usually follows the recommendations of the Commission.

* Interpretation of High School Ratings:

A—Accredited through the entire high school course (through grade twelve).

B—Accredited through the entire high school course (through grade twelve).

11 Gr.—Accredited through grade eleven.

10 Gr.—Accredited through grade ten.

9 Gr.—Junior high school—recognized through grade nine.

T—This initial when attached to the designation of any rating indicates that such rating is given in the face of some deficiency

and that the accredited rating of the school should be terminated at the close of this school year.

E—This initial suggests that an emergency is recognized to exist that may justify the operation of the school even with an ob-

served shortage in the number of pupils or of teachers.

U—Unaccredited.
