All Federated Club members.

This is Senor Matilde Albiza--a reproach to the lax school attendance laws of this state--rather the lax enforcement of such laws. He is 24 years old, born and reared in Oklahoma. Went to school only in his 6th and 7th years. Advanced from the second to the fifth grade in 18 lessons. He is as proud as Lucifer and burning with ambition to improve himself. By the grace of the mine owner and the State Department of Vocational Education, my little school is to be continued until May or June. He will attend--rather is attending, and I feel sure will make marvellous progress.

One picture shows Senor Albiza as he works in the mine; the other as he appears at night school.
