member of the larger university group...

THE CHEATER

Mid-year examinations found the usual number of cheaters sneaking through their courses with unmerited credit...

It happens every year at examination time. Whether the final quizzes be disciplined ones or not...

That everyone can not be trusted is needless to mention; it has been proved true in too many instances...

Those who do not rigorously observe the principles of academic honesty in an examination period hurt themselves as well...

Of course grades are not everything. Nevertheless, at present our grading system is the criterion whereby our abilities are judged...

BUDGET COMMISSION RECOMMENDATIONS

Recommendations submitted recently to the General Assembly by the Budget Commission advocate the handling of all funds of state supported institutions of higher learning by the audit bureau at Frankfort...

UNIVERSITY NEWS SOURCES

It has been evident for a long period that news sources of the university give preference to the city newspapers over The Kernel when they have important news to release...

Much of the news which appears in the dailies on Sunday could have appeared in the Friday Kernel...

The Kernel does not mean to complain because its newsgatherers are not as efficient as those who are employed on the daily papers...

The student body through its newspaper, The Kernel, does not mean to complain because its newsgatherers are not as efficient as those who are employed on the daily papers...

Reading it slowly to see that it means... Lost beauty, lost dreams, lost happiness...

Years seem to go unheeding past this month... Yet not so many have hurried by that we can forget entirely...

MY SOUL My soul is like a mighty wind. It roars and howls. And cries and sighs...

AMBER Light of hills at sunset. Light of the valley at dawn. Light of clear, still pools...

I'd like to be able to look across The miles that hold us apart. And see for myself just what I'd find Is held within your heart...

LET OTHERS Let others raise their voices loud against you. And shout those things unwholesome, coarse, cruel, vile...

15 Years Ago This Week Widener defeated Rose Polytechnic Terre Haute, netmen, 33-12. Course in athletic coaching added to the university curriculum...

10 Years Ago This Week Budget committee of General Assembly refused to increase university appropriation. Blue and white team defeated Mississippi A. & M., 28-21...

5 Years Ago This Week Student enrollment for next term reached 2,018. Debate team given decision over the University of Cincinnati. Rifle team competed in the Fifth Corps area intercollegiate matches...

CAMPUS QUERIES

By FOSTER PEYTON

This is a special column published for the purpose of answering any questions relative to the history and the present day affairs of the University of Kentucky...

Q. How many students were enrolled in each college during the last semester? A. Arts and Sciences, 778 men, 961 women...

Q. What is the order of the establishment of colleges on this campus? A. Arts and Sciences, Agriculture, Engineering, Law, Education, Commerce, and Graduate school...

Q. Who was the first dean of men at this university? A. Dean C. R. Melcher in 1914. Incidentally Melcher was the third dean of men in any college in the United States...

Q. What part of the campus is called the Esplanade? A. The walk between McVey hall and Kastle hall.

Home Town Girl Makes Good Many university students were present for the Ted Shawn entertainment at Woodlands on Wednesday night...

Around Miss Dudley already have grown many of the tales which are the greatest asset of the university. While at the university she was a member of the Kappa Kappa Gamma musical group...

Brief Bits on the Big Shows Delta-Delta-Delta Rocky Stephens came for two weeks at radio studios for missing a program...

5 Years Ago This Week Student enrollment for next term reached 2,018. Debate team given decision over the University of Cincinnati...

Police Would Pale Before Ailing Mob Sieging Dispensary

EMMETT D. WHIFFLE What would happen if every student in the university should appear at the dispensary demanding and require medical attention?

Although no record of the number of patients has been made, the various illnesses of the students necessitated 9,919 treatments during the semester...

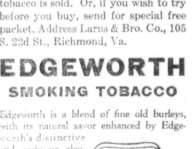

For the average patient, from three to four visits are necessary before he recovers. In the face of all these figures, it is most comforting to discover that during the present semester, only six sufferers have required more than 32 treatments before they were cured.

EDGEMORTH SMOKING TOBACCO Edgworth is a blend of fine old tobaccos, with its natural flavor enhanced by Edgworth's distinctive curing process...

Here's One Smoke for MEN

Let the little girls toy with their long, slim holders—let them park scented cigarettes with their powder compacts...

Edgworth? You can buy Edgworth wherever good tobacco is sold. Or, if you wish to try before you buy, send for special free packet...

You'll Pardon Us As we enter our much beloved Alma Mater for what we hope is our last year...

No one ever says what he really thinks, but instead of being diplomatic this practice is the cheapest hypocrisy.

With most students crudeness is innate. The remainder acquire crudeness from fraternity brothers.

SOCIETY

ELEANOR SMITH
EMILY HARDIN

I shall wear laughter on my lips
Though in my heart is pain—
God's sun is always brightest after
rain.
I shall go stinging down my little
way
Though in my breast the dull ache
grows.
The song birds come again after
the snows.
I shall walk eager still for what
life holds
Although it seems the hard road
will not end—
One never knows the beauty round
the bend!

urday evening at her home on East Maxwell street for fifteen couples who will later attend the Alpha Gamma Delta formal. Miss Janet Pugh and Mr. Robert Smith, from Ohio University, will be honor guests. The decorations will be Valentine colors.

Events this Week-End

Among the social events this week-end will be the Alpha Gamma Delta formal, Kappa Delta tea dance, and the Delta Tau Delta formal dance at the Lafayette hotel.

O. D. K. Initiates

Omicron Delta Kappa, honorary campus leaders' fraternity, held initiation exercises Tuesday night at the Phoenix hotel.

Delta Zeta Tea

Alpha Theta chapter of Delta Zeta entertained with a formal tea from four to six Wednesday afternoon at the chapter house on Aylesford place, in honor of new girls at the university.

Congratulations On Son

Mr. and Mrs. Merrill Dowden, Louisville, are receiving congratulations on the birth of a son, born January 15. Mr. Dowden holds a graduate of the university in the class of 1926, and he now holds a position with the Courier-Journal and Louisville Times.

Horoscope Party

Miss Margaret Horsfield entertained the members of the romance language department at a horoscope dinner at 6:30 p. m., Saturday, January 30, at her home at 630 Maxwellton court. The room and table were charming with horoscope decorations.

Tea at Maxwell Place

At the regular informal afternoon tea Wednesday afternoon at Maxwell Place, President and Mrs. McVey had as their assistants in entertaining Mrs. W. A. Skilton, Delta Tau Delta housemother, who poured tea, and Misses Edythe Reynolds, Winslow Byron, Mollie Mack Offutt, Viola Mason, Marianna Lancaster, Betty Crawford, Justine Cook, and Myrtle McCoy.

Buffet Supper

Miss Julia Catherine Webb will be hostess at a buffet supper Saturday evening at her home on East Maxwell street for fifteen couples who will later attend the Alpha Gamma Delta formal.

row Burchett have re-enrolled in the college. Mr. Orville Rush, a transfer from the College of Law at the University of Alabama, has enrolled at the university.

Mystery Yellow 13 Painted on Armory At Last Explained

By GEORGE W. KAY
Many reports and theories have been advanced concerning the origin of the numeral "13" which is marked upon the roof of the armory building of the University of Kentucky. Some say that many years ago, a lowly first-year man, in all probability an engineer, was forced to emblazon his class numerals at the most prominent place on the campus.

Other students held the belief that the numerals are part evidence of an old football score, a former victory of the dear old alma mater over Tennessee. However, both of these predictions are erroneous. The famous numeral "13" has been not long in existence. Five years is not ancient for most collegiate signs and markings.

In the spring of 1928, the members of the sophomore honorary men's fraternity then known as the "Mighty Thirteen," were somewhat exasperated as to the form of initiation they should perform upon the freshmen aspirants. Five women were chosen because of the lack of better ideas. It was decided that students of the university should know of the existence and importance of the organization. Initiates applied the paint brush liberally upon various campus buildings. Then it was decided that young hopefuls of the club should also be adorned with the numeral "13" as a mark of initiation, and as luck would have it, the solution was too strong. Two of the freshmen received burns.

It was only a matter of time until the dean of men, C. R. Melcher, put an end to the order of the "Mighty Thirteen." The fraternity has been reorganized into "Lances," but evidence of the existence of its predecessors can still be seen on the armory roof.

Guests at the Alpha Gamma Delta house for the formal dance this week-end will be Misses Henrietta Sherwood, Ewing, and Betty Matz, Cincinnati.

Mr. Fredrick Cunningham has returned for the spring semester and is staying at the Alpha Sigma Phi house. Alpha Sigma Phi was represented in the audience of "Mourning Becomes Electra" playing in Cincinnati, by Messrs. Epps, Coffman and Carpenter.

Mr. John Heiber has left the Good Samaritan hospital where he underwent a minor operation. Messrs. Beverly White and Wood-

CONVENTION FOR FARMERS IS HELD

Farmers from 67 counties and women representing 45 counties attended the Farm and Home convention held January 26-30 on the Experiment Station farm.

The convention included programs for farmers and other interested in agriculture, separate meetings for homemakers, and meetings of dairy farmers, beekeepers, seed growers, cattle clubs and veterinarians. Some of the subjects discussed concerned conservation of land, soil improvement, better pastures, more legumes and other home grown feeds and higher yields per animal and per acre. Among the speakers were P. W. Dunlap, assistant secretary of agriculture, Washington; Pres. Frank L. McVey, and Dean Thomas P. Cooper. In the discussion of the agricultural situation, the speakers expressed hope for improvement during the coming year, but cautioned against expansion in production except in regions where conditions are more favorable. They also stated that they thought this a good time to improve in various agricultural situations.

Homemakers considered a wide variety of subjects concerning improved homes and communities, and organized the Kentucky Federation of Homemakers. Five women were officially recognized as homemakers during the meetings.

Every Kentucky county except one is represented at the university. There are also several states and foreign countries contributing to the enrollment, namely, Arkansas 5, California 4, Colorado 3, Connecticut 1; District of Columbia 4; Florida 14; Georgia 4; Illinois 5; Indiana 26; Iowa 1; Kansas 2; Maryland 5; Massachusetts 2; Michigan 5; Minnesota 1; Mississippi 1; Missouri 6; Nebraska 1; New Jersey 15; New Mexico 3; New York 5; North Carolina 3; Ohio 39; Oklahoma 1; Pennsylvania 13; Rhode Island 1; South Carolina 4; Tennessee 14; Texas 5; Virginia 10; West Virginia 29; Wisconsin 5; with China, Canal Zone, Russia, Roumania, Canada, Hawaii, and Cuba, 1 each.

Election of Band Sponsor To Be Held

Personality and Marching Ability of Candidate Will Be Considered

Election of a band sponsor for the university band will be held at 4:50 o'clock, Monday afternoon, February 15. Until that date "the best band in Dixie" will be without a sponsor. The selection of a new sponsor is necessary as the sponsor of the band to the two committees in charge who will make eight nominations from the names submitted. In the last election approximately 60 girls were suggested for the honor.

Members of the committees to whom names may be submitted are Gayle Tudor, chairman; Robert Jennett, Ralph Corbett, Roy Hahn, Charles Struble, and James Temple.

NEW RADIO FEATURE

A new feature of the radio program of the WHAS extension studios will be offered beginning next Wednesday, February 10. The Kentucky Cardinals, with Ed Harrison as pianist, will broadcast each week from 1 p. m. until 1:15 p. m. on Wednesday. The Mountain Melodics program which was formerly offered at this time has been discontinued temporarily.

In December, 1929, the following resolution was passed by the Board of Trustees: "Whenever any teacher or administrative officer shall have reached the age of seventy years he shall no longer perform the duties that he has heretofore performed, but shall perform such duties as may be designated by the president of the university. For the performing of such duties he shall receive a sum equal to twenty per cent of the salary received by him at the age of seventy plus one per cent of the salary for each year of service in the university. The salary so modified shall be paid as salaries of the faculty of the university are paid."

ALUMNUS APPEARS

The Kentucky Alumnus, official magazine of the university alumni association, made its monthly appearance during the week of January 25. The contents include two articles by etty Hulet, "Reviews of the Past," and "Sixty-six Students to Graduate this Month," editorials

on "Student Loans," "Going to the Dogs," "Legislative Appropriation," and "The Basketball Season," and articles on "Cut of \$121,000 in Budget Made by University," university radio programs, alumni news, club news, campus news, sports, and a basketball article by Cameron V. Coffman.

BOOK REVIEWS

KENTUCKY MOUNTAIN TRAILS

CLEVER MOUNTAIN, Caroline Gardner, Fleming H. Revell Company, \$1.50.

At last, due to the talented pen of Mrs. Gardner, the Frontier Nursing service comes into its own. An inside view of the working of that most humane organization and its purpose, which is, as Mary Breckinridge, director, states in the introduction, "to bring the good things of modern American life in health, social welfare, and economic independence, to America's oldest civilization, in cooperation with its own leading citizens."

The author has taken the fullest advantages of mountain-air vit, but she views their rugged strength of character and the peculiarity of their modes of living as if she were one of them and not as an outsider looking at them with distaste, as most of our authors have done. Her mountain "lingo" is authentic to the highest degree and she writes of it in total admiration instead of pity which most writers of mountain life feel or seem to feel for the "poor critters."

The plot itself is simply built around the visit to the mountains of herself and her four children. Of the hardships of the tenderfoot family in getting settled to the new life, she speaks lightly and with some humor. She is not wild with grief that snakes are abundant in the territory of her home, but remarks philosophically that in Chicago, her home, her children would be in just as much danger on account of automobiles.

In her enthusiasm of mountain life, Mrs. Gardner does not forget to let love enter the plot. Let it, and she does this most effectively in the persons of Bill and Sallie. Bill is an aviator who crashes near one of the nursing centers, and Sallie, a nurse, brings him to recovery. Her fight between love and duty is depicted by the author in a very interesting and true-to-life manner.

Kentuckians should read this book. Kentuckians are essentially mountaineers and Mrs. Gardner has succeeded in writing one of the most authentic books on mountaineer life published to date.

—G. M. SPENCER

Athletes are wholly self-supporting. Gate receipts support all branches of sports at the university. The salaries of coaches and employees of the department of athletics are paid from athletic funds.

"Cream of the Crop"

LUCKY STRIKE CIGARETTES

"IT'S TOASTED"

Dorothy Mackaill

Cap. 1922, The American Tobacco Co.

"Give me Lucky Strike every time"

THEY'RE DOTTY ABOUT DOTTY
Dorothy Mackaill's great-great something-or-other was Bobby Burns, the famous Scotch poet, and she's as popular in Hollywood as gold—rather Scotch import. Her favorite pet is a Brazilian monkey. You see the monkey in the new BEST NATIONAL PICTURE "SAFE IN HELL." Dorothy has smoked LUCKY for six years, and not a cent was paid for her statement, so we're making a sweeping bow and saying, "Thanks, Dorothy Mackaill."

"My throat is all important to me. No harsh irritants for yours truly. Give me LUCKY STRIKE every time. And pat yourself on the back for your new Cellophane wrapper with that tab which makes the package so easy to open."

Dorothy Mackaill

"It's toasted"

Your Throat Protection - against irritation - against cough
And Moisture-Proof Cellophane Keeps that "Toasted" Flavor Ever Fresh

TUNE IN ON LUCKY STRIKE - 60 modern minutes with the world's finest dance orchestras and Walter Winchell, whose gossip of today becomes the news of tomorrow, every Tuesday, Thursday and Saturday evening over N. B. C. networks.

Coach Harry G. Gamage Tells Importance of Spring Football Training Session

By HARRY G. GAMAGE
Head Football Coach

Since the introduction of spring training in our American colleges and universities the game of football has reached an unbelievable height of success and popularity. Spring practice has been offered in all our major colleges and universities for the past ten or fifteen years. In the majority of cases it has been found extremely beneficial both to the participants and to the school.

Certain accusations have been placed against this type of training due mostly to the selfishness of it. The absurdness of the game has been abused by numerous football coaches in their requirements for their men to give up all other college sports in order to participate in an extensive spring practice. Schools within the borders of our own conference have been guilty of this habit, one of which we compete against annually. The selection of sports in any college should be elective to each and every young man that is interested in athletic competition.

student body. The skating rink is used the year round. It was paid for entirely from football gate receipts.

Due to bank failures in the state of Tennessee, their university has been forced to borrow thousands of dollars of football gate receipts from the athletic association in order to maintain the salaries of the faculty. Any number of schools throughout the entire nation have been able to maintain full well balanced intercollegiate and intramural athletic programs on football gate receipts alone. In the majority of universities, football and basketball are the only two sports that show financial profit. The other major and minor sports must be maintained, and through this source it has been possible.

Fraternities Make Group Purchases

Cooperative buying among fraternities at Ohio State University covers a wide range of products, according to Dean Fred Mulligan. Thirty-nine fraternities and seven sororities are members of the union. The Greek orders save from 30 to 40 percent on laundry when the service is rendered on the cooperative plan, it was said. The laundry service plan is new, according to Dean Mulligan, and the plan may be extended to other commodities and services.

During the early part of the school year the 39 fraternities purchased coal on the cooperative plan. Later potatoes were purchased on the same plan. At each meeting of the fraternity managers association plans are made to extend the scope of the plan to other fields.

PHI BETA IS PARTICULAR
The Ohio State University chapter of Phi Beta Kappa recently decided to initiate only those students who are enrolled in the College of Arts. Previous to this, and since 1930, the honorary scholastic society had admitted commerce and education students. The national chapter of the fraternity ruled, however, that only students who are enrolled in the college were eligible; hence the change was made.

The city of Lexington offers opportunities for employment of the students. The university, while it does not guarantee that the students find employment, maintains a bureau that seeks to give assistance by part-time work.

Romany Theater of University Began Eight Years Ago; Was Directed by Sax

By LOUISE LOVING

Eight years ago, a little Negro church on the vacant lot at the intersection of Euclid and Lime streets was the scene of a religious significance and invested with the spirit of drama when the Romany theater under the personal direction and supervision of Carol Sax.

Mr. Sax was head of the art department of the university at the time, but his work at the Romany was performed outside of his regular routine. Under his management of the theater affairs the actors received emolument for their services.

The present building was occupied in 1926, still under the name of Romany, and successfully operated for two years.

Mr. Sax was succeeded by Frank Fowler, who came here in the fall of 1928. His entrance was marked by a complete reorganization of the company, and the name of the theater was changed to the Guignol. This name was derived from the Guignol theater in Paris, France, which was the first Little Theater in Europe. The true meaning of the word Guignol is marionette, but in the Parisian sense it is of horror, probably caused by association of the type of plays produced by the Paris Guignol.

Originally, the object of the little French playhouse was to give production to plays without box-office value and to new experimental classic works. Only non-professional and retired actors were in the company, and none received salaries.

This in Mr. Fowler's reorganization of the Romany under his new name was given actors. Now it is one of the few Little Theaters that is paying its own way and accumulating a sizable bank account besides.

The first year, only one set was used and no costume plays were produced, but it was given actors. This is to say, in the spring of 1929, "The Flight of The Witch" was produced, a dramatic poem by Browning was presented with real success.

The second year, the ventures were made, and more elaborate. "The Old Campus Lake History Is Recalled By 'Petey' Moore"

By JOE OHR
"Hello Petey."
"Hello, Joe, what seems to be on your mind?"
"If I should tell you, do you think that you would be able to help me?"
"Well, I don't know, but I've helped a lot of people. My last 30 or 35 years around here, and I don't suppose that you are an exception."

"What do you know about the campus lake and the engineering school where the alumni gymnasium is located?"
"What's the idea of me preparing you lessons for you, now that you're in school for—and besides, what do I get for being a historian?"
"You get publicity, Petey, what do you expect?"

"I don't need any, everyone that has been in the University of Kentucky for the last 25 years knows, 'Petey' Moore, but I will tell you all that there is to know about it."

"Back in 1897, when Mr. Patterson was president of the university, the city began building the present streets of Euclid and south Lime stone. The streets were built about 20 feet higher than the surface around them. This formed the bed for the lake. The water gate built by the late Joseph Dicker, who was with the College of Engineering at this time, caused the creek which still flows through the campus to back up and form the lake. Although of very good size in length and breadth it never exceeded the depth of four or five feet."

"During the winter the lake would freeze over and provide a place where the students could enjoy the various forms of winter sports, especially ice skating."

"One winter President Patterson sold the ice to a Mr. McLaughlin who owned an ice house, located just across from the main drive of the university, but the students would not allow the ice to be cut and removed."

"What happened to the lake?"
"Well, when they started putting concrete walks on the campus they decided to make a short cut from Patterson hall; so under the direction of the contractor, whose name was Meyers, they drained the lake and the College of Engineering at this time, caused the creek which still flows through the campus to back up and form the lake. Although of very good size in length and breadth it never exceeded the depth of four or five feet."

"No, not that I now of, but I know of one person having to run through it to escape a group of students who did not like the decision he made while umpiring a baseball game—if you want to find out more about this incident you can ask Wallace Muir."

In considering the amount of money appropriated by the legislature for the university from June 30, 1930 to June 30, 1931, it is found that the university receives 6 per cent of the property tax and one-half of the income tax; the experiment station was appropriated \$50,000 annually; the public science laboratory, \$22,000; the agriculture extension bureau, \$179,000 annually; for buildings and equipment in the summer, \$208,000; for the western Kentucky substations \$20,000 annually, and for Quicksand station \$25,000 annually.

Second Mrs. Tranquary," "East Lynne," and "Peer Gynt" are three admirable examples of the advancement of their undertakings. "East Lynne" was presented in a reproduction of the exact manner of its presentation in 1865. "Peer Gynt" in which the lead was played by Mr. Fowler, was done in stylized manner, very conventionalized, and in black and white attire—black and white sets, black and white costumes, black and white make-up, and black and white rope wigs—the whole to the accompaniment of the "Peer Gynt Suite" by Grieg.

Last year, "Camille," in an original translation from the French, was done with simulated arts in imitation of clavier, in which colored lights were varied and shifted on white silk curtains.

Other productions include "Macbeth," "Let Us Be Gay," "The Royal Family," "A Doll's House," and a modern version of "Le Malade Imaginaire."

The schedules of the Guignol are planned to include the production of two minor productions each year. These are divided into two New York successes, two classics, one popular experimental work. The ability of the company is evidenced by their splendid performance of "The Titled Thing" by Evreinov, "Paolo and Francesca" by Stephen Phillips, and very lately, "The Lower Depths" by Gorkh.

There are more than 100 persons on the active production staff, which is divided into the following departments: advertising, public relations, publicity, house management, stage, props, art, costume, and scenery.

An indication of the success of this theater is shown by the very favorable comment in the January issue of the Theatre Arts magazine upon their original production of "The Titled Thing" which was remarked upon by one of the leading theatre magazines.

Step by step, the Guignol has built up its reputation. Its well-known, excellent productions, until it is at present one of the best little theaters in the South.

Vocational Guidance Is Advised by Dean

Colleges should provide their graduates with sound advice on earning a living during the critical period immediately following commencement, is the opinion of Dean Archibald L. Boulton of the New York University of Arts and Sciences.

Dean Boulton said that a young man who has trained in the liberal arts should supplement his education with professional and practical studies.

"In too many cases," he said, "this lack comes in an unwelcome manner. The liberal arts graduate and for a time he finds himself nonplused by the difficulty of getting a start in the business of the world. At this point the college should provide wise, kind and efficient counsel. . . . There can be no doubt that we need a fuller recognition of the difficult problems that confront our students upon graduation."

Survey of Religions Conducted at Rice

A survey conducted among the students at Rice Institute of Texas determined the religious beliefs at the southern school. There are 22 different religions represented in the student body, the survey revealed. There were no atheists and only one agnostic in the entire student body.

The Methodist church had the largest number of students with 373 students enrolled. The Greek Orthodox church was low with only one student in the institute. Baptists were second and Presbyterians third, each with a number with 234 and 211 enrolled.

Other denominations were as follows: Episcopallians, 166; Catholics, 131; Christians, 82; Jews, 78; Christian Scientists, 44; Lutherans, 28; Gospel of Christ, 15; Unitarians, 5; Gospel Hall, 4, and Congregationalists, 3.

"No, not that I now of, but I know of one person having to run through it to escape a group of students who did not like the decision he made while umpiring a baseball game—if you want to find out more about this incident you can ask Wallace Muir."

In considering the amount of money appropriated by the legislature for the university from June 30, 1930 to June 30, 1931, it is found that the university receives 6 per cent of the property tax and one-half of the income tax; the experiment station was appropriated \$50,000 annually; the public science laboratory, \$22,000; the agriculture extension bureau, \$179,000 annually; for buildings and equipment in the summer, \$208,000; for the western Kentucky substations \$20,000 annually, and for Quicksand station \$25,000 annually.

Minnesota Frats Try Novel Rushing

Novel methods of rushing were introduced at the University of Minnesota when two contending fraternities became rival for a popular rusher. Members of Beta Theta Pi came off second best in contest with Phi Kappa Psi fraternity.

The rushee, according to the reports from the Minnesota campus, was a busy individual and consequently difficult to meet. Members of Beta Theta Pi decided to attend the church where the rushee officiated as an usher.

The rushee-usher conducted them to their seats and the confident Betas complacently decided to wait until services were over before "hot boxing" the unsuspecting flusher. After the services the young man was not to be found. A few days later he appeared on the Minnesota campus wearing the pledge pin of Phi Kappa Psi. The Phi Psi had attended church but did not wait until the services were over. The Betas reported that they enjoyed the sermon, however.

Ohio State Proposes New Exam System

A radical departure from the present system of giving final exams will be adopted at Ohio State University if the plan proposed by the committee in charge of the examinations is approved. The proposal is now before the faculty for action.

Through the plan the examinations will be given at the last two class hours of each quarter. In this system no extra time will be set aside for the finals and no student will be excused from the faculty for action.

This system, the committee also pointed out, would enable the students to have one hour extra class room work each quarter and would make unnecessary the abrupt interruption of the final examinations.

The University of Kentucky is in the southern athletic conference.

'Hell Week' Banned By Popular Assent

On the campus of the University of Chicago, a large majority of the 28 fraternities which are planning initiation ceremonies for freshmen within the next week, are arranging to shorten the period of torture.

According to William E. Scott, assistant dean of students of that university, no freshmen will be declared ineligible on account of grades. Charles Schmidt, president of the Inter-fraternity council, announced that this body would take no action of any sort in an attempt to regulate antics of "hell week."

A canvassing of the fraternities indicated that many are abolishing the traditional week of hazing. Several others have shortened the time to two or three days and only five or six will continue the practice for the entire week. There were, however, numerous evasive answers which indicated complete ignorance of the subject.

CHINA PUBLISHES BULLETIN

According to the American Esperantist, the Committee on International Relations of China now publishes in Esperanto a monthly bulletin, the "Orienta Gazet-Servo," whose function it is to make known to the world everything which is noteworthy about China in the fields of politics, economics, education, and social affairs. This step taken by the Chinese government is further proof that the Orient appreciates the usefulness of Esperanto. All interested in receiving this bulletin regularly and free of charge may do so by writing to the "Komitato por Internaciaj Rilatoj," No. 5, Mao-ton Street, Nanking, China.

The university's purpose in maintaining athletics is for the training of men physically, for the development of leadership, for the development of sportsmanship, and for the permitting of such association of students within the university and with students in other institutions when the contests are intercollegiate (as will make for a better understanding among themselves).

AFTER THE PARTY

THE EVENING DRESS OR TUXEDO WHICH LOOKED SO PERFECT LOOKS "TUCKERED OUT." OUR CLEANING SERVICE WILL ADD MUCH TO ITS APPEARANCE AND YOU WILL BE READY FOR THE NEXT PARTY.

Degree of Civil Engineer: Elgan Brooks Farris.

Degree of Mechanical Engineer: Robert W. Spicer, Ernest Allen Welch.

Degree of Doctor of Philosophy: Education, Oscar Fitzgerald Gallo-way.

First Anderson Medal Given to Engineer

The first F. Paul Anderson medal was presented to Will H. Carrier, Newark, N. J., last week by the American Society of Heating and Ventilating Engineers.

NEW PUBLICATION ISSUED

The English department of the University of New Hampshire has issued a new publication. Every member of the class specializing in the writing of theses is a contributor to the publication.

Cash For Used Books

The legislature has appropriated for building land and equipment for the university \$1,218,875. There are 8 deans, 70 professors, 20 associate professors, 63 assistant professors, and 97 instructors at the university.

Cash For Used Books

The income from gate receipts of football games is expended: first, to defray the expenses of the contract; to meet the terms of the contract with the visiting teams; and to cover salaries of coaches and the cost of equipment and training.

Y. M. and Y. W. Plan Religious Emphasis Week Observance

Plans for Religious Emphasis week are being made under the direction of the program committees of the Y. W. C. A. and the Y. M. C. A.

Plans for Religious Emphasis week are being made under the direction of the program committees of the Y. W. C. A. and the Y. M. C. A. Definite plans were made at 4 o'clock Thursday afternoon in the 'Y' room of the Armory building.

The majority of the fraternities and sororities have indicated their intention of holding special meetings on Wednesday night from 7 to 7:30 o'clock.

University Senate Ends Campus-Wide Attendance Ruling

No longer is there a general rule of the University of Minnesota Senate requiring freshmen and sophomores to attend classes regularly.

ESPERANTO SIGNS ERECTED

Because of the large number of foreign tourists who pass through or stay at Cannes, France, each winter, that municipality has decided to install such an international system of traffic signaling, using Esperanto as a base.

Delegates Chosen By Pan-Hellenic

New delegates to the Pan-Hellenic council met last night for the first time at the Phi Kappa Alpha fraternity house for dinner and a business meeting.

Spring Football Practice Starts For 59 Players

By Norbert Campbell

After their two month vacation, football jumped back into the picture when 59 men, Kentucky's varsity football team, reported to Coach Harry Gammon for the first day of spring practice Wednesday afternoon on Stoll field.

The squad that reported to the coaches Wednesday does not represent the entire personnel of the football men in the university.
