UK combing knots out of VIP network

Walk-in sites will ease burden on phone Add/Drop

By Kathy W. Larkin
Staff Writer

If the mere mention of UK-VIP Add/Drop finds you covering at the sight of a touch-tone telephone, relax.

Until the kinks are worked out of VIP, the UK registrar's office will offer terminals to supplement the system, said Lisa Collins, UK's assistant registrar for registration.

More than 48,000 calls were made to the system from Nov. 2 to Dec. 31, Collins said.

However, there is no computer program to divide the calls into categories.

Total calls represent advance registration, Add/Drop, schedule review, registration cancellation and grade option changes.

Collins said that since some calls are less than a minute long, it's unlikely that a schedule transaction was completed.

But because few complaints have reached her office, she assumes that students have terminated calls for reasons other than a computer glitch.

Thirty-three calls were received on Christmas Day, and another 114 on New Year's Eve, Collins said. The system has been operating on weekdays from 7 a.m. to 8 p.m. and on Saturdays from 8 a.m. to 5 p.m. Installation of the UK-VIP system was completed in time for advance registration for the 1994 spring semester.

However, the unanticipated length of each call received created

problems, and computer sites were hastily set up to register students who experienced difficulty with the new system.

But December's computer glitches should not be repeated during Add/Drop and late registration, Tuesday through Jan. 19.

Collins said she is confident the system now functions as expected, and said she is encouraged by the relatively few complaint calls she has received since UK-VIP Add/Drop began on Dec. 6.

"As far as we know," Collins said, "Add/Drop has gone very well."

But just in case Murphy's Law should prevail, 15 computer terminal sites will be available as an alternative to the phone system from Tuesday through Jan. 19.

"To provide the level of student services we want to provide," Collins said, "you can Add/Drop by phone or at a terminal link-up."

To add or drop a course or courses, a student must first have advance registered and paid a \$50 fee.

For students currently enrolled but who did not advance register, a \$40 late fee will be charged.

In addition, if a stop has been placed on a student's record, the student will be blocked from accessing UK-VIP.

University offices may place a stop on a student's account if any money is owed.

Many students may choose to Add/Drop at a computer site to obtain computer print-outs of the changes made to their course sched-

ules. However, printed schedules also will be available to those who opt to dial in following their phone transactions.

Collins said students may go to 10 Funkhouser Building, as well as most college dean's offices, to pick up print-outs of their schedules, weekdays from 8 a.m. to 4:30 p.m.

Students are encouraged to check their revised schedules carefully to ensure that changes are correct, Collins said.

"We're ready for maximum crowds should they develop," Collins said.

But her office doesn't expect the numbers to be high.

Although not mandatory or highly publicized, UK-VIP Add/Drop was available in August for the 1993 fall semester.

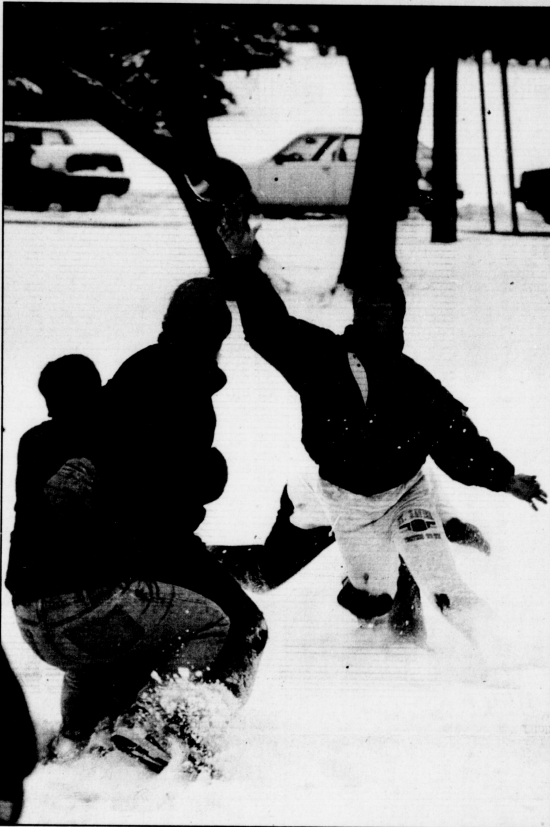

Collins said the total of students opting to Add/Drop in person dropped by about a third from 1992.

Now that UK-VIP has been broken in and heavily publicized, "we expect the crowd to be cut at least by one-third," Collins said. "But we're hoping for more than that."

Call 257-9500 to use the UK-VIP system, during dates and times shown.

The number is not toll-free and must be made from a touch-tone telephone. The number is the same both on and off campus.

SNOW BOWL

JAMES FORBUSH/Kentucky Staff

Members of Sigma Chi and Kappa Sigma social fraternities make the best of recent snowy weather in Lexington with a game of football. Central Kentucky received more than 10 inches of snow over the holiday break.

Add/Drop

UK-VIP Add/Drop is available for the 1994 Spring Semester by using UK-VIP, the telephone system that allows you to walk-in via a terminal at a registration site.

Operational hours for UK-VIP are 7 a.m.-8 p.m. Monday-Friday and 8 a.m.-5 p.m. Saturday. Please note that the telephone number for UK-VIP has changed to 257-7000.

Operational hours for terminal-based add/drop January 11-19 are:
 Tuesday, Jan. 11-Thursday, Jan. 13..... 8 a.m.-5 p.m.
 Friday, Jan. 14..... 8 a.m.-4:30 p.m.
 Monday, Jan. 17..... Closed for Martin Luther King Jr. Holiday
 Tuesday, Jan. 18-Wednesday, Jan. 19..... 8 a.m.-4:30 p.m.
 *Funkhouser will remain open until 6 p.m. January 11.

UK-VIP Add/Drop

1. Write down the call numbers of the courses you want to add and drop before calling.
2. BE CERTAIN that dropping a course is the action you want to take BEFORE dropping. Students may not re-enter closed courses, even if they are unintentionally dropped. Use the "Conditional Drop/Add" feature, which allows you to drop one course, contingent upon successfully adding another one. "Conditional Drop/Add" is available by accessing the "Drop" feature.
3. Students wanting to withdraw (drop all courses) should report to the Registrar's Office, 10 Funkhouser.

Walk-in Add/Drop

1. Know which classes you want to add and which classes you want to drop.
2. Walk-in worksheets are available at all college sites.
3. Add before you drop. Be aware that if you drop a class and later want to add it again, you are not guaranteed re-entry into that class. Frequently students drop classes then attempt to re-add them a few minutes later only to find the classes are filled.
4. Pick up a printout of your transactions and check it carefully.
5. If you requested a class with an audit or pass/fail grading option, be sure that grading option appears on your print-out schedule.

Bugs still infesting registration system

By Don Puckett
Senior Staff Writer

Although UK technicians have made many revisions to the UK-VIP network since advance registration in November, all of the system's bugs have not been eliminated.

UK is waiting for the Voicetek Corporation to send the computer software that is necessary to solve many of the problems students experienced in the fall with the new phone registration system.

The software would speed up faulty computer boards that UK

clined to discuss the specifics of any back-up plan. "We're trying to push the vendor to fix the problem right now," she said. "We have a work-around, but as far as we're concerned the vendor has a responsibility to fix their software."

UK spent \$95,440 to purchase the original boards from Voicetek, \$15,000-\$20,000 cheaper than if the boards had been purchased from another company.

The Voicetek boards had never been tested on a college telephone registration system. They slowed down the UK-VIP system, creating a logjam of callers.

Many students were forced to endure hours of busy signals before they could use the system.

Because of the system's problems, registration officials were forced to supplement UK-VIP with a system of computer terminals where students could register. The supplemental terminals cost the University about \$9,100, University Registrar Randall Dault said.

Since November, UK technicians have changed the current UK-VIP software so that a University mainframe computer can handle many of the operations previously controlled by the Voicetek boards.

Cheesman said these changes, along with the decrease in telephone traffic, should allow Add/Drop to run smoothly.

As far as we're concerned the vendor has a responsibility to fix their software.

—Jayna Cheesman, UK applications manager

clined to discuss the specifics of any back-up plan. "We're trying to push the vendor to fix the problem right now," she said.

"We have a work-around, but as far as we're concerned the vendor has a responsibility to fix their software."

Pitino has high hopes for Dent

Staff report

Tests on UK center Rodney Dent revealed that he has a complete tear of the anterior cruciate ligament, a complete tear of the medial collateral ligament and a small nick in the lateral meniscus, following a spill during the Wildcats' Jan. 4 game against Vanderbilt.

The knee injury ends the 6-foot-11 senior's UK career because he is ineligible for a medical redshirt.

UK team physician Dr. David Caborn will perform surgery to repair the tears Jan. 16 at UK Hospital.

Coach Rick Pitino said he hopes to see Dent play professionally someday.

"Our goal for Rodney Dent is to have him stay here at Kentucky for the next year and a half and rehabilitate his knee completely," he said.

"We want him to work toward earning his degree and then try out for professional basketball, either here in the United States or in Europe."

Dent transferred to UK in 1992 from Odessa (Texas) Junior College and started 32 games for the Cats during the 1992-93 season.

Dent set the UK single-game field goal percentage record with his 12-of-12 performance against Morehead State on Dec. 17.
