

August 20, 1917.

Maude Tarpay v. L&E

. . . .

Mr. B. R. Fouett,
Winchester, Kentucky.

Dear Sir:

Referring to your letter of the 13th instant, I am in receipt of a letter from Mr. Donohue, stating that the Chief Engineer of Construction concurs in the recommendations made by you, in which I also concurred, that the Company should take possession of the property and enclose it under fence as soon as the present crop shall have been removed. Won't you please bear this in mind and call attention to it at the proper time, so that we can have Supt. Morrison fence it up? I will at that time request Supt. Morrison to have it fenced up, notifying the parties to act under your advice.

RLM/a

Yours very truly,

Cy - J.J.D.
