PREFACE

The Inventory of Federal Archives in the States is one of the products of the work of the Survey of Federal Archives, which operated as a nation-wide project of the Works Progress Administration from January 1, 1936 to June 30, 1937, and has been continued since that date as a unit of the Historical Records Survey, also operating as a nation-wide project of the Works Progress Administration, and a group of state or local projects of that Administration and of the Work Projects Administration.

The plan for the organization of the Inventory is as follows: Series I consists of reports on the administration of the Survey, acknowledgments, and general discussions of the location, condition and contents of federal archives in the states. Succeeding series contain the detailed information secured by workers of the Survey, in inventory form, a separate series number being assigned to each of the executive departments (except the Department of State) and other major units of the Federal Government. Within each series No. 1 is a general introduction to the field organization and records of the governmental agency concerned; the succeeding numbers contain the inventory proper, separate numbers being assigned to each state in alphabetical order. Thus, in each series, the inventory for Alabama is No. 2, that for Arizona No. 3, that for Arkansas No. 4, etc.

For each local office information regarding each series, or unit of related records, is presented in the following order: title, inclusive dates ("to date" indicating an open file at the time the information was secured), general description of informational content, description of the system of filing or indexing (if any), a statement of frequency and purpose of use, form of the record itself (bound volumes, sheets in folders, etc.), linear footage, description of the containers, physical condition of the records (not stated if satisfactory), location by room number or other identifying information, and finally, the number of the Form 58SA on which this information was originally recorded by a Survey worker and from which it was abstracted for the Inventory. This form is on file in The National Archives. When it contains substantial information on addenda sheets which has not been included in the mimeographed abstract, indication of this is given by use of the reference "See addenda."

In Washington the work of the Survey was under the direction of Mr. Jesse S. Douglas, Regional Director for Oregon and Washington, from its inception until October 15, 1936. He was succeeded by Mr. Paul E. Hartmus who served until April 24, 1937. Since that time the preparation of the Washington Inventories has been under the direction of Mr. Conrad E. Peterson, State Supervisor of the Survey of Federal Archives in Oregon. This inventory of the records of the Farm Credit Administration in Washington was prepared in the Portland, Oregon office of the Survey and was edited before final typing by Mr. Lewis J. Darter, Jr., of the Washington office.

FOREWORD

The Inventory of Federal Archives in the States is one of the products of the work of the Survey of Federal Archives, which operated as a nation-wide project of the Works Progress Administration from January 1, 1936 to June 30, 1937, and has been continued since that date as a unit of the Historical Records Survey, also operating as a nation-wide project of the Works Progress Administration, and a group of state or local projects of that Administration and of the Work Projects Administration.

The plan for the organization of the Inventory is as follows: Series I consists of reports on the administration of the Survey, including knowledge, and general discussions of the location, condition and contents of Federal Archives in the States. Succeeding series contain the detailed information secured by workers of the Survey, in inventory form, a separate series number being assigned to each of the executive departments (except the Department of State) and other major units of the Federal Government. Within each series No. 1 is a general introduction to the field organization and records of the governmental agency concerned; the succeeding numbers contain the inventory proper, separate numbers being assigned to each state in alphabetical order. Thus, in each series, the inventory for Alabama is No. 2, that for Arizona No. 3, that for Arkansas No. 4, etc.

For each local office information regarding each series, or unit of related records, is presented in the following order: title, inclusive dates ("to date" indicating an open file at the time the information was secured), general description of informational content, description of the system of filing or indexing (if any), a statement of frequency and purpose of use, form of the record itself (bound volumes, sheets in folders, etc.), linear footage, description of the container, physical condition of the records (not stated if satisfactory), location by room number or other identifying information, and finally, the number of the form 552A on which this information was originally recorded by a Survey worker and from which it was abstracted for the Inventory. This form is on file in the National Archives. When it contains substantial information on abstracts sheets which has not been included in the mimeographed abstract, indication of this is given by use of the reference "see abstracts."

In Washington the work of the Survey was under the direction of Mrs. Leasa S. Douglas, Regional Director for Oregon and Washington, from its inception until October 15, 1938. He was succeeded by Mr. Paul H. Hartman who served until April 24, 1937. Since that time the preparation of the Washington Inventory has been under the direction of Mr. Conrad E. Peterson, State Supervisor of the Survey of Federal Archives in Oregon. This inventory of the records of the Farm Credit Administration in Washington was prepared in the Portland, Oregon office of the Survey and was edited before final typing by Mr. Lewis A. Dutton, Jr., of the Washington office.

FEDERAL INTERMEDIATE CREDIT BANK
FARM CREDIT DISTRICT NO. 12
GENERAL AGENT
Welsh Bldg., W. 610 Main St.

This district office was established in 1933, with headquarters in the present location. At that time all farm credit agencies were brought together into the framework of the Farm Credit Administration. This office exercises various degrees of control over the Federal Land Bank, the Federal Intermediate Credit Bank, the Production Credit Corporation, and the Bank for Cooperatives. The directors of the Federal Land Bank act as ex-officio directors of the other banks. The General Agent coordinates and administers the services of the four credit agencies. The Federal Land Bank acts as the agent for the Federal Farm Mortgage Corporation. The area of jurisdiction is Idaho, Montana, Oregon, and Washington.
