Dear Carolyn:

20

Here is the Shakertown piece for xeroxing. And I have added a couple of other things.

Do you by any chance have any of the following books available, and if so could I borrow them, please?

Random 1963 \$ 7.95

- nw - Jules Henry - Culture against Man
- E. Rice - Renaissance idea of Wisdom (Harvard Hist. Rev. 37)
- ← K. Jaspers - Way to Wisdom
- ✓ Kristeller - Studies in Renaissance Thought and Letters. (Paul Oskar Stone & Letteratura, v. 54 (Roma))

All would be useful for Cusanus. You will see I have made a small translation of one of his works, and as next year is his centenary I might try to do a study on him.

Best wishes to you and Victor,

Most cordially in Christ,

Tom.
