Members, Board of Trustees:

APPOINTMENT OF VICE PRESIDENT FOR ADMINISTRATION

Recommendation: that Edward A. Carter be appointed Vice President for Administration, effective September 1, 1987.

Background: The position of Vice President for Administration is the University's key policy and planning position with institution-wide scope and is directly responsible to the President for assistance in the general administration of the University. The functions of this position are of critical importance to the institution, and the Vice President exercises the functions of the President when the President is absent from the University.

The recommendation that Edward A. Carter be named Vice President for Administration comes after consideration of a number of qualified candidates and discussion with numerous University faculty and staff. Mr. Carter is currently serving as the Acting Vice President for Administration and has served in that position since January 1, 1987. He is well suited to assume the regular appointment as Vice President because of his extensive experience, knowledge, and background at the University of Kentucky and in Kentucky higher education.

Mr. Carter is a graduate of the University of Kentucky. He has served in a wide variety of University of Kentucky positions and special assignments from the President's Office. He has been manager of the University's payroll office; chief financial officer for the Community College System; budget analyst, Budget Director and Associate Vice President for Administration for Planning and Budget before assuming the role of Acting Vice President. He has served as the President's representative to numerous Medical Center committees and study groups. He was Deputy Executive Director for Finance for the Kentucky Council on Higher Education.

VICE PRESIDENT FOR INFORMATION SYSTEMS

Recommendation: that the Board of Trustees approve a change effective August 1, 1987 in the administrative organization of Central Administration; creating the position of Vice President for Information Systems, which will replace the position of Associate Vice President for Information Systems Planning and Policy.

Background: Computing and communications will play an increasingly important role at the University. Through use of such technology it will be possible to enhance instructional delivery; to make information and services more accessible to the citizenry; to provide appropriate support for scholarly activities; and to enhance the management of the University of Kentucky.

The University of Kentucky has embarked upon an ambitious program to implement uses of technology in programs of research, instruction, and service, as well as the management of the University. Indeed, the year 1987-88 should see major renovations of the Computing Center, installation of a Class VI computer, extension of the campus data communications network, installation of significant software packages, and a number of other activities. The immediate charge to the Vice President for Information Systems is to oversee these activities and to embark upon development and implementation of a strategy to insure that computing and communications resources are maximized, applicable hardware and software are fully compatible, and that computing resources are available according to need throughout the University.

As the short term objectives established for this position are accomplished, a larger complement of the University's information units will be brought into a reporting or cooperating relationship with the position of Vice President for Information Systems.

CHANGE IN DIVISION STRUCTURE
SOUTHEAST COMMUNITY COLLEGE

Recommendation: that the Southeast Community College division structure be altered to reflect a name change for one academic division: Division of English, Humanities, Social Sciences and Related Technologies.

Background: Southeast Community College is currently organized and operates as four divisions. The creation of the Communications, Humanities, and Fine Arts Division, approved by the Board in 1986, makes it necessary to change the name of the Division of English, Humanities, Social Sciences and Related Technologies to the Division of Social Sciences and Related Technologies. This proposed change in division name has been reviewed and recommended for approval by the faculty at Southeast Community College, the Director of Southeast Community College, and the Chancellor of the Community College System.
