Final Notice, Stroller Alumni!

Stroller Alumni association's celebration, Saturday, November 9, honors the 25th anniversary of the founding of "The Strollers" student dramatic club, at the University of Kentucky, October 25, 1910, in the ballroom of the Phoenix hotel, with a breakfast at 11 a. m. and an informal supper-meeting at 6:30 o'clock, is swinging along, and gathering of 200 persons is looked for, according to Bob Mitchell of Stroller Alumni headquarters, Louisville.

Mitchell expects the breakfast to necessarily be a limited affair, due to game-time, but is expecting the night session to be a very interesting college night. If things take turns that are expected, as present indications point they will, several greetings will be received by the time of and during the celebrations from distances and will be read from the speakers table.

The chief aim that guided the planning and completion of arrangements, since the past February, has been a desire to further the interest of and to benefit the University by moving it out to where dwells a great army of the alumni. Bob Mitchell said, "I believe that I will be the happiest boy in the state of Kentucky if this celebration culminates as well as it now seems that it will and I know that all old Strollers are 'happily' anxious about it, too."

John G. Cramer, manager of the Phoenix hotel, is making great preparations in order that the party will have every advantage. Strollers yet in attendance at the University are assured that they are welcome to attend both gatherings at the celebration and alumni Strollers feel that they will be impressed with what they see and hear.

Bits from a letter from Miss Mary Virginia Hailey, 309 Brush Creek boulevard, Kansas City, Mo., a '31 graduate, leading lady of cast of "Dulcy," the '28 production, are here reproduced: "... It's too bad the envelope doesn't bear a forwarding address from the 14 eyes literally placed I've lived since leaving Cincinnati. Anyway, I'm mighty glad it did come for I want to be with you in spirit on the eighth and ninth, even though I can't actually come. I wonder if other Stroller stars feel as I do that the experience was the outstanding event of their college careers. Certainly my Stroller memories are among my happiest.... Last year I taught history and drama in a private school in a suburb of New York City. This year I'm at a private school.... but it was nice to have one season of Broadway Theatre, anyway."

"Camels don't get your Wind"

FAMOUS ATHLETES AGREE

George Lott Jr. Cyril Harrison

● If you have searched for cigarette mildness, mark the words of George Lott, the tennis champion, and the 7-goal polo star, Cyril Harrison. "Camels," says Mr. Harrison, "are so mild they don't upset the nerves or affect the wind. And when I'm tired I get a 'lift' with a Camel." And Lott adds: "I understand that more expensive tobaccos are used in Camels. They are gentle on the throat. And Camels never get my wind." Turn to Camels and enjoy to the full the pleasure that comes from costlier tobaccos.

So Mild! YOU CAN SMOKE ALL YOU WANT

● There's a bit of friendly guidance for others in what men like Lott and Harrison, Buster Crabbe and Sarazen, say about Camels. They have tested Camels for mildness—found that Camels don't affect sound wind or jangle their nerves. So turn to Camels. You'll find real hit-the-spot flavor. A distinctive, pleasing taste. Smoke Camels freely, for athletes find Camels don't disturb their "condition." Costlier tobaccos do make a difference!

COSTLIER TOBACCO'S!

SHOP SIGHTS

By BETTY EARLE
Since the "Gators are going to lose this game Saturday" let's be ready to celebrate right! A new dress usually helps the best of us forget the quiz we have on Monday and remember something has to dazzle the beau on the left—since we can't all be beauty queens! The best bet for the game (outside of the Kentucky team) would be one of those new tweedy looking knit suits Shipp's are showing today.

One in particular that is especially attractive is a mixture of red, purple, black and green with a square neckline for the matching red ascot. The cartridge pockets will

catch your eye the first thing and with this new high neckline. Then you'll love the purple ribbed blouse name is the "Foursome" and, of course, it's a Bralday.

And maybe you thought all plaids were Scotch, but you're wrong, 'cause Graves-Cox has some natty looking Irish plaid scarfs. You might remind your date of this. Perhaps he'll remember that the topcoat mother thought would "do" till Christmas is a bit thin on the edges and a new scarf will do a lot for that.

And while you're buying that Bradley, how about some new overalls, too? Collie's has some they call the "dogwatch". They're an innovation of one of the popular spring and summer styles—brown buck with a strap buckling across the instep, kidlined, perforated and medium-heeled.

You might round out your costume with one of those tricky three-quarter length belted jackets of white pigskin—at Denton's.

Now for something to brighten up the not-so-formal you're wearing Saturday night. We suggest one of the clever Mark Cross evening bags featured by the Lafayette drug store. Remember that, although any type of metal cloth is good now, gold and pearl domineer for evening. Mark Cross also creates purses for street wear.

Wolf-Wile's are showing the new and popular initialed pins, clips, fobs, and bracelets of gold and silver. Clips and pins are "tops" in

jewelry just now, you know. The most unique piece I saw was a large single clip of dull silver oak leaves placed one upon the other. This could be purchased to lighten your heart about wearing "that dress" again Sunday night.

...At last that long waited-for-week-end is here...Home-coming...Have been looking forward to it with great anticipation...There will also probably be a lot of dissipation...The Lafayette and Phoenix hotels are both going to be Alumni headquarters...

LET'S CHEER

Again tomorrow the loyal and hard-working cheerleaders of the up and coming institution will attempt to draw from the crowd of students and alumni present at the biggest game of the year...

Whether it will be forthcoming we cannot venture to say, but at least every effort has been made towards seducing it from its hiding place in the warm hearts of our beautiful coeds...

We believe that the frosh can be placed in position for such organized cheering by such methods but we seriously doubt whether any real bursts of organized collegiate exuberance will be forthcoming unless the green plebes are spurred on by their more illustrious brothers...

WELCOME DOCTOR TIGERT

An outstanding guest of the University of Kentucky for the Home-coming football game Saturday will be Dr. John J. Tigert, president of the Southeastern Conference...

It is really a coming home to folk who really love him for Doctor Tigert, who endeared himself to the University of Kentucky and to Lexington people, not only as instructor...

Harvard authorities have dismissed as highly improbable press reports concerning a new and deadly weapon reported recently invented by Guglielmo Marconi, inventor of wireless telegraphy...

According to an official bulletin published by Kansas State Normal school in November, 1902, "it would be a shame if any teachers college student should be arrested for riding a bicycle at a rate of speed exceeding the lawful limit!"

LIQUID HOSPITALITY

"If a large part of the audience insists on becoming intoxicated instead of watching the game, thousands of disgusted fans are certain to stay away from future contests."

Such is the comment which appeared on the editorial page of one of the local newspapers, following a letter received by the editor from three local citizens who were commenting on this growing menace.

We hoped that the disgraceful conduct displayed at the Georgia Tech game would not be noticed by anyone but the students, but apparently our hopes were in vain, as is evidenced by the letter to the editor of the local newspaper.

Ohio State has shown that it will not tolerate drinking in its stadium, by warning its patrons before the game and rigidly enforcing its ruling.

Saturday is Home-coming and we want all those who come back to enjoy themselves as much as possible, but this does not go so far as to permit them to disturb those persons who are unfortunate enough to be seated near them.

The Kernel does not believe that drastic action will be necessary, but in the event it is, we urge the enforcement of the ruling to its greatest extent.

HOME-COMING SPIRIT

Each year there comes a time when the mind of every loyal alumnus drifts homeward and he turns himself either bodily or at least in spirit back towards his old stamping ground.

To the upperclassman it is usually a day of exuberance and sometimes over-jovous merry-making, to the senior it is a time of wondering about the future, to the alumnus it is an occasion of retrospect into the past.

Atmosphere too plays an important part in the day. We find the various Greek houses and the dormitories in gala attire, typifying the warm spirit of welcome and enthusiasm for the school which the day represents.

Despite the fact that fraternity and sorority houses will be decorated to the height of imagination, and these same groups will act as the perfect hosts and hostesses, along with alumni reception committees, cheers and inspiring speeches, nevertheless the week-end's piece de resistance for returning old grads will be the Saturday afternoon get-together of the local Wildcats and the Gators of the University of Florida.

Particularly fitting is this year's homecoming contest with Florida, as it will also bring back to the University one of its former football coaches, this time as president of the opposing school. Dr. John J. Tigert, a professor at Kentucky in 1916, also found time to act as head coach of football.

When he left the University it was to become United States Commissioner of Education in which capacity he served for a number of years before returning to institutional work as president of Florida's state university at Gainesville.

Incidentally, Doctor Tigert is also president of the Southeastern Conference, in which position he succeeded Dr. Frank L. McVey, first president of the group.

Members of the 1916 Wildcat team coached by Doctor Tigert will be the guests of honor, along with their former coach, at a number of parties which will be necessary in a break in the weather and a good football exhibition, to send the grads back home satisfied with their Alma Mater's progress.

Coach Chester A. Wynne's Wildcats will be making their first home appearance since the Georgia Tech game. And the Georgia Tech game is the last tilt that the teams won, if you'll recall. Maybe familiar Stoll field has had something to do with the fact that they dropped their last two contests, both on Alabama soil.

At any rate, they'll be performing in front of a partisan audience at home and tomorrow should be no exception. It's only natural, we believe, for a team to play a better brand of football for a home crowd. The players, individually, have more spirit and the team as a whole is imbued with a natural confidence.

Earlier in the season, in anticipating the Florida game, we would have been rash enough to place the 'Gators in a lowly position among the "breathers" that Kentucky would encounter. In fact, until last week, we held that opinion.

But Florida's recent performance against the supposedly superior Georgia Bulldogs called for a swift reversal of that opinion. As a matter of fact, the 'Gators have won their last four games but in bowing to Georgia last week, they showed that they were a team to be reckoned with at all times.

After repulsing the Bulldog thrusts repeatedly for three quarters and right down to the minutes, a bad break cost the Orange and Blue team a scoreless tie. With the ball in their possession on their own 40 yard line, the Gators attempted a quick kick which was blocked by a Georgia lineman and converted into a touchdown. It was a tough tilt to lose, especially with at least a tie game practically in their grasp.

This unhappy ending won't cause the Floridians to feel any more kindly toward the Wildcats than necessary. They'll be out to win tomorrow more than ever, to vindicate themselves for the Georgia loss and to snap the losing streak that has been hounding them since early season.

As for Kentucky, take it from us that they will be in the most ferocious mood that they've been in since the Ohio State game at least, and probably more spirited than they have been all season.

The defeats at the hands of Auburn and Alabama, coming together as they did, have stung the Wildcats and caused the coaches no end of annoyance, to put it mildly. Both players and coaches are in no frame of mind to "fool around" with Florida. They regard Florida as a formidable foe and are prepared for a real battle but are confident that they will break into the right side of the book again.

We don't mean to say that they are overconfident at all, but have that proper attitude which a well-prepared club shows before a game. It's been lacking since the Tech fracas, probably because of the injury list, among other things, but as last it's returned.

FRESH METERS TO REPORT; VARSITY CONTINUES DRILLS

By **JOE QUINN**
Candidates for the freshman basketball team will report to Coach Paul McBrayer for the first time this season, at 7:30 o'clock Monday night, in Alumni gym. This meeting will be the first official practice session and the coaches are anxious that all freshmen who have ever played basketball appear for the initial drill. Freshmen managers are requested to report at 7 o'clock.

Varsity basketball coach Adolph Rupp has been working hard in the past few weeks with his squad in an effort to polish up many of the rough points which always appear in the pre-season workouts.

The varsity squad has been cut to 17 men and the daily drills have gone beyond the easy preliminary stages. Believing all his men are thoroughly familiar with the fundamentals, Coach Rupp has been holding lengthy scrimmage sessions every day, so that he may correct weaknesses on both offense and defense.

Garland Lewis, rangy Wildcat pivot-man was the season's first casualty. He captured a blood vessel in his foot after losing his balance on the slippery floor during Tuesday's workout. Although unable to walk with a cane, will not be back in uniform for at least another week.

While Coach Rupp has not selected any regular team, as yet, he has been using Andy Anderson and Warfield Donahoe as guard, Lewis at center and Ralph Carlisle and Corland Bliss in the forward posts, on his "first-string" team. Other members of the squad who have seen plenty of action are Bob Taylor, Charlie Gates, Billy Sencer, J. Rice Walker, Bruce Dyer and Keith Sopher, Charlie Combs.

FLORIDA WRITER EXPECTS ALLIGATORS TO HIT STRIDE

Great Defensive Exhibition Last Week Gives Visitors Equal Chance to Defeat Cats

By **FRANK S. WRIGHT**
GAINESVILLE, Fla., Nov. 7.—Wito confidence which has been evident before, the Fighting Gators meet the University of Kentucky at Lexington Saturday. One might suspect that four straight defeats would plunge a football team into the depths of despair, but not these Florida Gators. They revealed plenty in the Georgia ray last Saturday, and they have dedicated this week's preparation to strengthening their defense, and in making their offense more potent.

The Georgia game demonstrated that a victory is not necessary to supply confidence, and certainly confidence is a large factor in the activity of any individual or team. The Gators know that Kentucky, strong team that it is, has been broken this fall, and every effort will be put forth by Coach Dutch Stanley and his squad in Lexington Saturday, to stop the Florida losing streak.

In spite of the fact that their defense wobbled out in mid field, the Gators repelled the Georgians, with but one exception, when advances were made in the goal line vicinity. The play of the line was in many respects little short of brilliant.

And do not forget that the Gators are going to do some sharp shooting before long. You can not keep down a team that has the offensive determination and versatility of the Gators. When several of this array of Florida backfield material—Capt. Billy Chase, Jack Beckwith, Jesse Jones, Hub McAnly, Duke Warren, Bob Ivey, Walter Masberry, Ken Eppert, Ken Mills, Walter Middlekauff, Bugs Hendricks, Bill Stephens, Red Stephens, LaRue Osborn, put together

Military Department, Sukey to Aid Council in Forming Freshman Cheer-ing Section

The first formal dance of the year, the Interfraternity Ball, will be given by the Interfraternity Council Saturday, December 7, in the Alumni Gym... announcement by Frank Dalley, president of the council... A nationally-known orchestra will be scheduled for the dance... Plans are now being made to make it the best dance of the year... The hours will be from 9 until 12... The price of admission has not been decided...

The council at their last meeting decided to take measures to make the cheering section function better at the football games... With the aid of Colonel Brewer, the Military department and Sukey, the cheering section will probably function better at the homecoming game than it has in other games this year... All freshmen will sit together in the stadium according to military companies... A special cheer leader will be assigned to the freshman section and as a result of the forming of this cheering section the yell from the student body should be more lusty, and the pep displayed should be greater... Frank Dalley will represent the local council at the National Interfraternity council conference which will convene at New York City Nov. 29 and 30... The next meeting of the Interfraternity council will be held Monday, Nov. 11 at the Phi Delta Theta house... The University of Minnesota has its own news reel theatre.
