

Office of McMyler's Manufacturing Co.  
Manufacturers of McMyler's Patent Revolving  
Steam Derrick and conveying machinery &c &c  
180 Columbus St. Cleveland, Ohio,

Jan. 19<sup>th</sup> 1894.

Mr. James has been in our employ for the past  
year, as draughtsman, and designer on mechanical  
and bridgework.

We have found him an accurate, careful, draughts-  
man, an excellent calculator, and a steady reli-  
able man, and we regret that the present con-  
dition of the trade prevents us from keeping  
him.

(copy of original letter)

Yours respectfully,  
Geo. E. Titcomb,  
Engineer
