

Louisville Dec. 7/70

Dear Man,

Owing to my absence I did not receive your letter of the 3<sup>rd</sup> inst until this evening & hasten to reply.

I do not remember that Woolley named you as having bought one of the judges, nor do I remember that he said he could establish the fact that one of the judges had been bribed. I have an indistinct recollection however of hearing Woolley intimate that one of the judges had been bought in your care. I pay no attention to such talk. John Ganone was present and as he is somewhat interested in the case I have no doubt he can give you information in full. However, I do not think you ought to notice such matters at all. The conversation was held in the club in the presence of Club members only and if any friend of yours considered you slandered by it - I must say I did not - I think he ought to have taken the matter in hand on the spot.

Yours in haste  
Rudolph Frick
