Dear Major

Your letter of _____ received.

I have no experience with such a case as one colt's. If there is about Lexington a vet. in whom you have any confidence, suppose you have him examine the colt ^{for me} and decide what you think best to have done with him.

I will cheerfully pay the expense of any examination or treatment.

Bostick seems confident that the ankle will come straight of itself in time - but of course, if it were any such case, it would not trouble you.

My yearling Dictator filly, though out of a coarsish, large mare, is finished like a thoroughbred - and is of fine size.

Very sincerely yours
Campbell Brown
