

I find I have in addition to parent volumes the supplements
of 1884, 5 & 6 bound in half Turkey, and also separate copies of 1886
and 1887, but do not find that of 1888 - I see from your set supplements
would make too small a volume I should think - You can send
supplement of 1888

OFFICE OF

CHESTER'S

COMPLETE TROTTING AND PACING RECORD.

New York, March 1, 1889

Mr. H. C. Howell

DEAR SIR:

The Supplement for 1888 to this work will be ready for delivery in a few days, and I shall be pleased to fill your order for a copy. The price is \$2 10 by mail. The book is larger and more complete than any of its predecessors, and each purchaser will receive, without extra charge, a pamphlet containing a complete list of the dams of all trotters and pacers, with reference to the pages of this work upon which their produce appears as performing. This index will reach you by mail very shortly after you receive the new Supplement. It has involved much additional labor and expense, and I trust that the enterprise will be generously sustained.

According to my subscription-book you lack Supplement for 1888

I will complete your set for \$ 2¹⁰, with Supplements separate, or for \$ 3¹⁰, with the ~~four~~ Supplements bound in the same style as the parent volume (in half Turkey morocco), upon receipt of the Supplements in your possession.

Should you not desire to continue or complete your subscription, kindly inform me if my subscription-book is correct as to the portions of the work you have.

Yours truly,

W. I. Chester

P. O. Box 1021.
