Gentlemen;

I wish to buy a filly and among other responsible breeders unite you for your catalogue and prices. As I have not fully decided between one of two classes please price both. I want either a standard bred trotter one year old this Spring or a standard bred foal dropped this Spring.

If this letter is too early for you to price this season's foals, keep it till you are ready to answer; for I would not have the animal shipped in either case till next August.

I bought Stonega from you in 1893.

Do not delay sending me one of your catalogues now and send me another when you get one describing this season's crop of foals.

Very respectfully,

A. L. Banks.
