Sunday

Dear Darling Sweetheart,

Today is about the saddest I've ever spent in my whole life I can't help but grieve over having to ask the only one I love for money - it cuts me to the heart when I think of me doing such a thing.

I was put on this earth to have hard luck and never will I have anything else - if ever a person was discouraged in life, I am today although I hate to say it.

There is but one person
that could make me happy
and you know who - yes its
you darling, only you, no
one else in this wide world
could even make me smile
at this blue moment.

It is so hard to have
to stay in all day long
with a bunch of strangers
but never the less Im going
to be brave and stick it
out and when I do get back
to work I intend to save
every cent out side of expences
and pay you back the
fifty dollars you made me
accept. while in Dallas.

I've no friends in Chicago
to spend my money on so
all I'll have to do is work
hard and wait patiently for
the first of October, then if
I'm dissapointed in my
affair with the only girl I
love, I'll give the game up
and stick to my words
"Life is useless without you"
my love for you alone is
as true as steel and I can't
live without you. No darling
I simply can't.

There is no need of
me trying to love anyone
else for its a matter of
impossibility.

I must admit that I think you love me but not so much as I do you.

My prayer every night is that you may soon become my wife and untill you are I'll be the same lonesome Chap.

I'll swear to the stars above that I'll treat you like a queen and do all in my power to make my wife the happiest of them all.

Darling Sue I'd be willing to die tomorrow if I could only have you with me today Gee! but I'm one more blue kid. - Life is a tough proposition

after all"

God bless you sweetheart
please continue to write
those darling letters - they
do me so much good.

Judging from Georgie's
letter Cecil will not be in
condition to see you off in
October as he intended doing
am so sorry for I expected
him to wire me just how
everything was rocking in
regards to the case and
also your leaving.

So bad but as I said
before I was put on earth
for hard luck so whats the
use kicking

Dear J-----;

Yours of the eleventh to hand, contents carefully noted and I hasten to reply, I was both vexed and surprised to think that you would try to pry into and interfere with other peoples affairs.

You ask me if I saw Mrs.D. Yes I did and the gentleman she was with was none other than A's brother but if it had been someone else I wouldnt have had the audacity to ask as Im sure she wouldnt have been with him unless he were a gentleman.

As for Zenona and Weecia I think they had better come to Dallas and find out who's who before they begin to comment.

I feel that this is none of your affair and dont thank you in the least for meddling .

Mrs.D. insists that I inform you that she wouldnt accept an apology of any sort and further more she would not speak to you again under any consideration.

If you think for a minute that Mrs.D.would even look at a fellow who wasnt a perfect gentleman you certainly have another think coming.

I request that I hear no more of your opinicn on this subject and if you cant write without making some simular I would rather not hear from you at all.
