Randy Pitman.
Z692.V52 P56 1992

Written in the style known as "breezy" and without any index, this book is nevertheless replete with excellent advice.

HYPERMEDIA AND LITERARY STUDIES edited by Paul Delaney and George P Landow
PN98.E4 H97 1991

Runs the gamut from hypermedia to electronic books; chock full of neologisms.

READER'S QUERY

Where did the name Green Bean come from?

Answer: a consensus of 2 people in the Reference department think that it came from the green colored paper that was used for the original issues of the Green Bean (and for most subsequent issues too).

Thank you Mark in Math Sciences Library for this question.

y our faculty members. Forty-five out of 70 have Kentucky degrees. It's a three-way tie for third place: 3 from Indiana, 3 from Pitt and 3 from Maryland. From Denver, Chapel Hill and Washington there are two graduates from each school on our faculty. FSU, Iowa, Simmons, Case Western, Chicago, Catholic, Missouri, Wisconsin, Kent State, Ball State and Emory are each represented by one person. One-and-a-half percent of the faculty is made up of an Emory alumnus!"

This week we are beginning a series on books that people are ACTUALLY READING.

WHAT ARE YOU READING MARY VASS?

Mary says she has just finished a good mystery. CORPORATE BODIES by Simon Brett, Simon & Schuster, 1991.

CORPORATE BODIES by Simon Brett, Simon & Schuster, 1991. "This novel features Brett's recurring detective second rate actor, borderline alcoholic and confirmed cynic, Charles Paris. Charles is hired to do a corporate promotional film and immediately becomes involved in a murder. Brett's description of a corporate sales meeting, featuring the introduction of an environmentally correct granola bar, is hilarious. Definitely in the morally ambiguous, anti-hero, mystery novel genre."

Mary has us off to a good start. Any volunteers for future reviews should keep them VERY brief.
