

### BENJAMIN LEROY ELECTED TO HEAD SOUTHERN GROUP

University Student is Chosen President of College Federation  
ELECTION IS CLOSING FEATURE OF SESSION  
Kentucky is Selected as Place for Meeting Next Year

Benjamin C. LeRoy, junior in the College of Engineering was elected president of the Southern Federation of College Students Saturday night at the closing session of the three-day meeting held at the University of Alabama. Twenty-five delegates, representing the 14 states in the group, attended the convention. Other officers elected were Charles Withington, University of Florida, vice president; and John Wagner, Georgia Tech, secretary.

The University of Kentucky was named as the meeting place for the 11th annual convention to be held during the last week of April next year. LeRoy will have charge of arrangements for the convention. LeRoy has been active in student affairs since coming to the university from Paducah. He was graduated from Tilghman high school in 1928. He is secretary of the Men's Student Council, vice president of SuK, and a member of O. K., Lamp and Cross, and Triangle fraternities.

### ENGINEERS HEAR WILES CARRIER

Speaker Outlines to Students Various Facts Concerning Air Conditioning and Needs of Process

W. H. Carrier, of Newark, N. J., internationally known scientist and president of the Carrier Engineering Corporation, addressed the special assembly of engineering students held at 10 o'clock Tuesday morning in Memorial hall. Carrier's subject was "The Relationship of Research and Engineering."

The speaker outlined to the students various facts concerning air conditioning and how various developments have fitted these processes to specific needs. Dr. Carrier's field of endeavor has attracted more attention than almost any engineering approach in recent years. He has developed a centrifugal refrigerating machine using an entirely new refrigerant of his own discovery that undoubtedly will be universally accepted in refrigerating world. He is the present head of the American Society of Heating and Ventilating Engineers, and was formerly president of the American Society of Refrigerating Engineers.

Mr. Carrier has associated with him more graduates of the university than from any other school in the United States.

### Business Managers To Meet at University

Through the office of Dr. H. Peak, business managers of the university maps and road routings are being mailed to the 75 delegates who will come to the convention to attend a convention of college business managers. The literature is being supplied at the expense of the Lexington Automobile club. Arrangements are being made to enable the delegates and their wives to witness the running of the Kentucky Derby, and plans are under way to facilitate their enjoyment of the region's scenic beauty.

"The three R's are to be replaced by three S's during the next four years," Chancellor Charles W. Flint said in the freshman address at the Syracuse University. The three S's are studies, sports and social life.

### First Call!

First Call for Spring basketball! Coach Adolph Rupp wishes to announce 15 evenings of basketball practice beginning at 4 o'clock today. Coach Rupp desires about 10 good men to replace those men he is losing by graduation. He has to the fact that the football-basketball players will be unable to report for duty until very late next fall there will be unequalled opportunity for the new men to show up well.

### W. A. C. WILL HAVE ANNUAL BANQUET

Event is One Occasion of Year When All Women Students of University Meet for Social Function  
The annual women's banquet for all women of the university will be given at 6:30 o'clock tonight at the Phoenix hotel under the auspices of the Women's Administrative Council. This is the only occasion on the year's calendar when all the women of the university come together for a social function.

### Delegates Return From National Press Convention

Virginia Dougherty, editrix, and Coleman Smith, business manager, of the Kentucky Intercollegiate Press Association returned Saturday evening after attending the two-day convention of the National College Press Association.

### Six Men Are Pledged To Sigma Delta Chi

Professional Journalism Fraternity Plans for Next Campus Kat  
Six men were pledged by Sigma Delta Chi, professional journalistic fraternity, at the regular meeting of the organization at 3 o'clock yesterday afternoon in the office of the journalism department. The men who were pledged are: Keith Hemphill, Lawrence Herron, William Luther, Edgar Turley, John Wats and Gilbert Kingsbury.

### QUARTET HOLDS REUNION

The university quartet of 1923-24, in its first reunion since 1925, presented a program of vocal numbers at the state reception room of the capitol Friday morning. Gov. Flem D. Sampson and members of the cabinet assisted in composing the audience. The personnel of the quartet includes E. M. Heavrin, former secretary to the governor; Eugene DeCoursey, Marie W. Baughman, and Robert B. Elm.

### Orchestra Group Gives Program at Sunday Vespers

Philharmonic Musicians Appear for Last Time of Semester  
The University Philharmonic orchestra under the direction of Prof. Carl Lampert presented the Vespers program Sunday with Mrs. Frances Arnold South as the guest artist.

The orchestra opened with Von Weber's Overture to "Der Freischutz." It begins with a broad low unison melody, then shows the fear of the mysterious and the unknown. It ends after several beautiful passages with a melodious climax.

### Guignol Player

Miss Virginia McVey, who appeared in the last national presentation, "Macbeth," will enact the part of Laura Cram in "Holiday" next play to be given by the Guignol. "Holiday" will open at the little theatre May 5.

### Anna R. O. T. C. Unit Inspection Will Close Today

Regimental Parade Monday Afternoon Features Opening Day  
Annual inspection of the university unit of the Reserve Officers Training Corps, continuing from yesterday, will close today with an inspection officer completing their rounds of the various military classes. Today's activity climaxed this year's official review of the department.

### Political Science Group Will Hold Initiation Banquet

Delta Chapter of Pi Sigma Alpha Will Admit 14 Saturday, April 25  
Pi Sigma Alpha, honorary political science fraternity, will hold its initiation banquet Saturday, April 25, at the Phoenix hotel, 11:00 a. m. Saturday at the Phoenix hotel.

The water color exhibit now showing at the Art Center will continue until May 3. The display presenting 34 works by recognized American artists.

### Water Color Exhibit Continues to May 3

Display Contains 34 Works by Recognized American Artists  
The water color exhibit now showing at the Art Center will continue until May 3. The display presenting 34 works by recognized American artists.

### University Faculty Member Will Study Criminal Problems

Mr. Roy H. Owsley, staff member of the Bureau of Municipal Research, will return to the city to go to Louisville, where he will engage in a research study of the cost of criminal justice for that city. The survey is being made under the auspices of the National Convention of Law Enforcement, headed by former United States Attorney General George W. Wickersham.

### University Wins Last Debate of Semester

Representing the university in the last debate of the Pentangular League Sydney T. Shell and John Kane won by an unimpaired margin over the Vanderbit team at 8 o'clock Saturday night, in room 111. McVey had the affirmative side of the question, "Resolved That the Several States Should Enact Laws Providing for Compulsory Unemployment Insurance and the Employer Shall Contribute."

### Woman Scientist To Visit University

Dr. Winifred E. Brencley, famous woman scientist and author on the staff of the Rothamsted Experiment Station in England, will visit the agricultural experiment station of the university some time during her stay in the United States April 11. Doctor Brencley will come here in furtherance of the study of the relation to plant growth of copper, manganese, and other minerals found in small quantities in Kentucky soil.

### DR. ARTHUR HAAS TO GIVE LECTURES

Austrian Scientist Will Be Guest of Department of Physics at University While in Kentucky  
Dr. Arthur Haas, professor of physics at the University of Vienna, Austria, will deliver a series of three public lectures in the physics lecture room at the university, beginning Thursday, April 23, at 4 o'clock. Doctor Haas' appearance is sponsored jointly by the physics department and Sigma Pi Sigma, honorary fraternity.

### Twilight Concerts To Begin April 23 in Amphitheater

The annual series of spring twilight concerts by the university concert band will begin Thursday, April 23 at 7:15 p. m. These programs, under the direction of Prof. Elmer G. Sulzer, will be held in the Memorial Amphitheatre throughout the six concerts.

### Dr. E. L. Swan to Give Address at University

Dr. Eugene LaForest Swan, Washington, D. C., will speak on "Social Hygiene" at 8 o'clock Monday night, April 27, in Memorial hall. On the following morning he will deliver a paper on "Social Hygiene" at convocation on the same subject.

### CHAMBERS ATTENDS

Dr. J. S. Chambers, of the university Dispensary, left Saturday for Durham, N. C., where he will represent the university at the dedication of the new medical building at Duke University. He will return Wednesday.

### Five Fast, Fiery Freshmen Flash Faithful Fleeting Feet for Fame

By RALPH E. JOHNSON  
There is a saying that a red-head may be crazy, but you will never find a red-head in the poor house. The regular staff of the Phi Kappa Phi has seen that red-heads of the Kentucky freshmen track squad he might have been led to mention the speed of the five who form the nucleus of this year's squad.

### Reporters to Meet

Kernel reporters will meet in the news room at 11:30 a. m. today. Anyone wishing to become a reported may meet with the regular staff. Suggestions for news gathering will be given. This meeting is part of the organization plan.

### MAY QUEEN ELECTION

The election of May Queen will be held Thursday, April 23. Students in all colleges but the College of Engineering will vote at the ballot box to be placed in front of the Administration building, with the engineers' box in Mechanical Hall. Agricultural students will vote at the Administration building box unless a box for them is placed in front of the Administration building.

### McBRAYER TO START ON MOUND FOR BIG BLUE

St. Xavier is Defeated by Wildcats in Saturday Contest  
The Kentucky Wildcats will play Municipal University baseball Lakewood, Oxford, Ohio, Thursday, April 23. Weather conditions prevented them from playing their scheduled game here in Lexington, and the game, after being postponed several times, finally took place.

### DR. ARTHUR HAAS TO GIVE LECTURES

Austrian Scientist Will Be Guest of Department of Physics at University While in Kentucky  
Dr. Arthur Haas, professor of physics at the University of Vienna, Austria, will deliver a series of three public lectures in the physics lecture room at the university, beginning Thursday, April 23, at 4 o'clock.

### DR. ARTHUR HAAS TO GIVE LECTURES

Professor Haas has been in the United States before having lectured in the chief educational center of the country in 1927. He is one of the outstanding international workers in physics dealing with the newer developments in the realm of physics.

### Twilight Concerts To Begin April 23 in Amphitheater

The annual series of spring twilight concerts by the university concert band will begin Thursday, April 23 at 7:15 p. m. These programs, under the direction of Prof. Elmer G. Sulzer, will be held in the Memorial Amphitheatre throughout the six concerts.

### CHAMBERS ATTENDS

Dr. J. S. Chambers, of the university Dispensary, left Saturday for Durham, N. C., where he will represent the university at the dedication of the new medical building at Duke University. He will return Wednesday.

### Sutton to Speak at April Convocation

Georgia Educator to Address Second Hour Assembly Tomorrow  
April convocation will be held the second hour Wednesday, April 22. The principal speaker will be Dr. W. A. Sutton, superintendent of the Atlanta schools and president of the National Educational Association.

### E. H. SHINN SPEAKS TO AG. STUDENTS

Alpha Zeta, Block and Bridge Pledge 18 Men at Meeting of Organization Monday Night  
Annual election of officers, pledging exercises by Alpha Zeta and Block and Bridge, and an address by Dr. E. H. Shinn of the United States Department of Agriculture, featured the program of the Agricultural club meeting at 7:30 o'clock last night in the Agricultural building.

### ALPHA ZETA, BLOCK AND BRIDGE PLEDGE 18 MEN AT MEETING OF ORGANIZATION MONDAY NIGHT

Annual election of officers, pledging exercises by Alpha Zeta and Block and Bridge, and an address by Dr. E. H. Shinn of the United States Department of Agriculture, featured the program of the Agricultural club meeting at 7:30 o'clock last night in the Agricultural building.

### DR. ARTHUR HAAS TO GIVE LECTURES

Austrian Scientist Will Be Guest of Department of Physics at University While in Kentucky  
Dr. Arthur Haas, professor of physics at the University of Vienna, Austria, will deliver a series of three public lectures in the physics lecture room at the university, beginning Thursday, April 23, at 4 o'clock.

### DR. ARTHUR HAAS TO GIVE LECTURES

Austrian Scientist Will Be Guest of Department of Physics at University While in Kentucky  
Dr. Arthur Haas, professor of physics at the University of Vienna, Austria, will deliver a series of three public lectures in the physics lecture room at the university, beginning Thursday, April 23, at 4 o'clock.

### DR. ARTHUR HAAS TO GIVE LECTURES

Austrian Scientist Will Be Guest of Department of Physics at University While in Kentucky  
Dr. Arthur Haas, professor of physics at the University of Vienna, Austria, will deliver a series of three public lectures in the physics lecture room at the university, beginning Thursday, April 23, at 4 o'clock.

COLLEGIATE MARRIAGE The warm melting beauty of spring invades our hearts and brings love to serious thoughts of marriage. Every year April and May with their wiles beguile us into dreams of the future, with the result that many marriages take place even before the traditional time for brides, June.

A current magazine discusses the problem of student or collegiate marriage. There is to some of the older generation a touch of reassurance in the very fact that the youth of today still regards marriage as the great institution. Still others refuse to be encouraged by this disregard of such individual schemes as companionate marriage and free love by the collegians, and insist that marriage for college students is a bad thing.

There are, of course, certain pertinent points, such as money, children, marriage for those who are immature in judgment; still in the examples nearest us, there seem to be in every case sensible solutions for individual problems. Statistics in the magazine article mentioned say that the grades of the married students, even the younger ones, are much higher than those of the unmarried collegians. They say that there is an equality, a basis of common sense in contact with the opposite sex found in the co-educational university which forms a perfect background for marriage. They declare, these frank statistics, that the divorce courts are not thronged with collegiate marriages which have "gone on the rocks." In fact, the writer of the article emphatically states that if marriages were made in college that the divorce courts would not be busy at all.

There are many exceptions, no doubt, but too much is being made of these exceptions. Too little attention is being paid to the lasting, sincere, sensible unions founded on the campus and in the classrooms. There is no doubt that marriage puts a serious tone on life; that it makes girls and boys into men and women, and clears away the frivolities of freshman and sophomore days which need to be discarded.

Now that the day has come that marriages are recognized as made in college as well as in heaven, perhaps the young married folk may be observed in deeper, more permanent living together than ever before.

PRESS CONVENTION

Three members of The Kernel staff Friday and Saturday attended the National College Press Association convention which was held in Cincinnati. In their contacts with other collegiate newspaper men, the delegates from Kentucky feel that they have found solutions to many of the problems which have confronted them and that they have heard intelligent discussion of many others. If college journalism is to continue to progress gatherings of students interested in it must play a large part in this advancement. It is only through meetings of this sort that ideas can be exchanged and that problems can be worked out.

In November the University of Kentucky will be host to delegates from other colleges throughout the United States for a convention of the N. C. P. A., and it is believed that by that time a permanent organization will have been worked out. It cannot be doubted that the meeting here will be beneficial, both to those who are interested in journalism at the university and to the representatives from the other colleges who will attend. Directors of the organization believe that definite arrangements for the establishment of a college news service will be completed at the fall meeting and that other matters pertinent to undergraduate journalism can be given enlightening consideration.

ABOUT HOPTOADS AND WOMEN

Admitting that higher education as it is practiced in this country has come in for some hard knocks during the last winter, an article written by "The Drifter" in the current issue of The Nation, says that "youngsters still learn a great deal in colleges."

"And," the article reads, "if what they learn enters their consciousness during an all-night session in a dormitory bedroom instead of in the class hour father pays for, at least it is likely to be remembered longer and used often."

"The Drifter" points out that he learned a great deal about two subjects not listed in the catalogue on a spring afternoon when he went for a walk with a girl instead of attending a duly scheduled physiology lab. "During the stroll," the article says, "an impassioned discussion of careers for women broke loose. And in the midst of that discussion there was discovered a hoptoad that had got marooned in a black lake of tar which the sun had treacherously melted."

"For hours the Drifter labored heroically with a jacked digging out first one leg and then another, only to find that some other toad had inadvertently slipped back. The battle grew fiercer and the talk about women grew more impassioned as the afternoon waned and the tar hardened."

"The Hoptoad was finally extricated, presumably intact, and the woman question was clarified if not settled. The moral of the tale is that the Drifter that day learned so much about the texture of a toad's hide, the stretch of a toad's legs, and the quality of a toad's patience that he has never since felt a knowing intimacy with hoptoads. Likewise, he learned so much about women that he has been a staunch feminist ever since."

And then, near the end of the article the writer declares that "it is not true that college students are frivolous-minded. They are in fact the most serious-minded creatures alive. If they concern themselves with first love and the latest rules of an autocratic dean, who is to say that these are less worthy than the price of stocks, the precise date or an early Egyptian tax list, or the founding of a political party?"

"To appraise the serious-minded investigator, remove the label Higher Education from the college gate. Put up instead a line from the early Masereid: "The days that make us happy make us wise," he concludes.

All of which is a roundabout way of saying that studies are not the only thing in college, and that while they count, they count not always indicative of how much one gets out of his college days. So if you feel like simply dropping everything and taking a stroll out into the country on one of the lazy spring afternoons, go ahead. You may not learn about women or hoptoads, but just enjoy your life as you can just as you aren't missing a whole lot by not sitting in a stuffy classroom trying to keep your eyes open while a professor drones on and on about the Revolutionary War, its causes and results—Ohio State Lantern.

A SUGGESTION

Faculty meetings are being held to teach the teachers how to teach. It is rumored that at these gatherings certain outstandingly appealing lecturers speak in their most pleasing manner so that the others may listen and profit from their endeavor. All in all they are carrying out a program for the betterment of instruction methods. The theory is excellent, but in our viewpoint it would be more profitably employed if the students would receive training prior to being subjected to improved methods.

If demonstrations of ideal situations are to be presented the student body should be exposed to them before the faculty wastes too much time developing arts which the students are not capable of appreciating. In art, appreciation of the merits of artistic things must be cultivated before a person is allowed to attempt the most insignificant creation of his own. This is the ideal plan of instruction which is to be presented to him, he learns by learning the value and importance of the value to be obtained from future work and instills the true desire to work.

The art student is trained how to use the tools which he is to work with before he is subjected to their influence, he is taught how to employ the methods of instruction which is to be presented to him, he learns by learning the value and importance of the value to be obtained from future work and instills the true desire to work.

Therefore, if the faculty is training itself by listening to model instructors the students should be made to spend part of their time learning how to become model assimilators. The rudiments of assimilation should be presented to them in the same manner as the rudiments of better teaching are being presented to faculty members. This would lighten the load of the faculty and brighten the load of the student.

ELECTIONS AGAIN

Posters soliciting votes for May Queen; earnest groups of sorority and fraternity politicians gathering in solemn conclave; alliances formed and split; candidates on parade; all the fanfare and ballhollo of the annual election for May Queen burst forth this week, not to die down until the last vote is counted and the flamboyant headlines of the next Kernel announce the triumphant co-ed.

In spite of the complexity and doubtful influence of the politics and their corruptions, there is always hope that this year the election will be conducted on a fair basis. And this hope is rising to conviction with the appointing of efficient election officials. However, the candidates for election seem to be unusually worthy this year, and The Kernel feels confident that the co-ed who is chosen will reign over the festivities of May Day with fitting graciousness and charm as well as beauty. All hail to Her Majesty, whoever she may be!

THANKS FOR THE COMPLIMENT

Editors may come and editors may go, but The Kernel goes on forever. Sometimes it is exceptionally excellent, while at other times it is not so good. Whenever it is nearly perfect we are all satisfied and at peace with the world, and when it is rather poor we all feel the utter futility of trying to do things.

Within the last two years The Kernel has made considerable strides toward perfection. The advertisements have increased and the student body as a whole has taken more and more interest in what appears in The Kernel. This year it was changed from a weekly to a semi-weekly and that is all toward the goal of making it a daily.

We, who work on The Kernel and for The Kernel, know that it is to lose something almost to exclusion of all else. We cut classes indiscriminately, all so that The Kernel may be as nearly perfect as possible and so that we may not disappoint the student body in having the paper out on time. Professors who rant and rave about late issues are, in fact, being possibly know what The Kernel means to us.

As the legend goes, advertisements are half of the battle when it comes to the financing of a newspaper. A great many people have the mistaken idea that nothing of importance in a remunerative way could possibly come from advertising in the newspaper. Perhaps from their viewpoint they are correct.

But we take great pride in announcing that the popular and successful Henderson Drug store advertises only in The Kernel. This particular firm entered business not so very long ago and immediately put an ad in The Kernel, and the returns have been so positive that it has decided to advertise in the future only in The Kernel.

LETTERS FOR THE RIFLE TEAM

Letters are given annually to the most outstanding participants in athletic events. They are cherished, revered, and coveted by all of the men on the campus. When college days are over they still have a meaning to those who have been fortunate enough to receive them. Old grads are continually boasting of how they earned their letters, they are treasured, put carefully away and only taken out on state occasions for friends and children to admire. This letter is one of the most appreciated rewards that a man can receive.

This year letters have been requested for the rifle team. The men on this team worked hard, and they did a great deal of time developing their skill, labored under the stress of unfavorable working conditions. These men deserve some award. It has been suggested more than a month ago that they receive letters for their work. The suggestion has been apparently neglected. The rifle team deserves recognition for its organization and its only just that the members of it should receive letters. The end of the school year is approaching and this matter should be decisively settled before it is too late. We know that the school appreciates their work and we feel that it is doing an injustice both to the student body and to the team to allow this matter to be overlooked any longer.

IS IT SO BAD AFTER ALL?

Time was when almost every speaker we heard at various gatherings of different campus organizations spoke in flowing terms about the rosy future for college graduates. But how times have changed. Within the last week we have heard three different talks on the possibilities of the college student's landing a job when he receives his diploma in June. One predicted that half of us will be standing in the bread line next winter, another said the only way to get a job is to start working with an organization for nothing and prove that you are worth a salary, and the third observed sarcastically that the only possible way to get a position was to buy half of a business and give yourself a job.

So they go from one extreme to another. A couple of years ago speakers were prone to paint a too elaborate picture of the college graduate's chances. Now they seem to be afraid they will give us some encouragement. Perhaps we're optimistic but we still object to swallowing all the discouraging statements without first investigating. And we still think that the average graduate, if he has initiative and ability, will be a long way from the bread line next winter.—Ohio State Lantern.

Excerpt from a news story telling about the crash of two automobiles, one of them an Austin, "and they towed it away just like a real car."

When talking to the average woman, the only way to get in a word edgewise is to start first.

Two women talking over the telephone at the same time reminds us of nothing so much as an endurance contest—the kind that ends in exhaustion for both parties.

Harvard will permit no "Yale" in the construction of two dormitories at Harvard; the Yale trademark on locks is not to be used. Harvard officials deny this has anything to do with Yale University, however.

Kenneth Kidd, Ohio State student who recently worked as bell-boy on the Levittan, said that his greatest thrill came when he was showing a Scotchman around and the Scotchman tipped him a farthing (one-fourth cent).

Jose R. Capablanca, seven times national chess champion, enjoyed baseball much more than chess while he was a student in Columbia University. He was regular short-stop on the varsity.

Not that we enjoy mentioning it, but there are only six weeks of school left.

Admiral Byrd prepares a flag to drop on the South Pole.

Rear Admiral Byrd, Arctic and Antarctic explorer of international fame, will speak at 8 o'clock tonight at the Henry Clay high school auditorium. Byrd's lecture will be accompanied and illustrated by motion pictures, selected and assembled by his own personal direction.

The Byrd expedition has to its credit the exploration and observation of a total area which, if superimposed on a map of the eastern half of the United States, would extend in a wide belt from Chesapeake Bay westward and around the head of Lake Michigan, northward to beyond Duluth and embracing the greater part of the states of Virginia, Ohio, Indiana, and Illinois, and about half each of Iowa, Wisconsin, and Minnesota. Of the area described, it is estimated that 150,000 square miles were surveyed by aerial camera, or territory equivalent to nearly the whole of West Virginia, Ohio, Indiana, and Illinois. The total distance flown was about 7,100 miles, more than 2,100 miles being covered by sleds.

Fencing Tourney Will Be Held Friday, May 8

The second of the semi-annual fencing tournaments will be held May 8 at 8 o'clock in the men's gymnasium under the direction of M. Applebaum, instructor, and C. W. Hackensmith, intramural director. At the same time there will be instituted a semi-annual tournament for girls. Fifty students of fencing will participate in this event, which will be run on a straight elimination basis. The honor system will be employed in scoring touches. Using the last tournament as a basis for judging the turnout, Mr. Applebaum expects a much larger turnout. Fencing is rapidly gaining popularity at the university, and those who are present for the exhibition may expect an excellent display of fencing. Cups and medals will be awarded to the winners of the boys' and girls' groups. The intramural department will donate the trophies for the men, and the Women's Athletic department will present medals for the girls.

SHROPSHIRE APPOINTED

James Shropshire, director of student publications at the university.

Headline Appearing in Friday's Kernel Fires S. A. "Daddy" Boles

"Athletic Council to Dispense With Full Time Director." "Athletic Director"—headline over a story in The Kernel and over a photograph of S. A. "Daddy" Boles, for many years head of the physical education department of the university, and present head of the athletic department. Who gets the point? Or rather, who didn't get it? Well, for the benefit of those who didn't and for those who did, here are the facts: In Friday's issue of The Kernel, there appeared a story explaining

yesterday was appointed alumnus director of the Kentucky Intercollegiate Press Association by William Ardrey, president, to serve until the fall meeting of the organization, when a permanent director of the association will be elected. Under the organization plan of the National College Press Association each unit organization in the entire association must have a permanent director who will carry on the business of his association with the N. C. P. A. and who will serve on the national board of directors.

The picture of "Daddy" Boles was placed beside the story announcing that the Kentucky High School Association would not employ a full time director—and it just happened, again, that head lines to the story failed to explain that the story was related to Kentucky high schools, rather than to the university. The evil deed was done—"Daddy" Boles was fired! The Kernel had fired him!

Worse of all, it was the first issue of the new managing editor, Fate was against him; woe be unto him in the future!

A HEALTH TIP

Have Luncheon at our modern FOUNTAIN LUNCHEONETTE. A sandwich, a soda and a walk is a health tip that is guaranteed to work. Light foods are healthful and prevent that afternoon drowsiness that comes from over eating. For luncheon today, or any other time stop at our modern fountain and try a sandwich, salad or any of our delicious fountain foods.

ELEANOR SMITH  
EMILY HATHORN

They are not long, the weeping and the laughter, Love and desire and hate! I think they have no portion in us after We pass the gate.

They are not long, the days of wine and roses: Out of a misty dream Our path emerges for a while, then closes Within a dream.

—ERNEST DAWSON.

**CALENDAR**

Tuesday, April 21  
Women's Administrative Council dinner, Phoenix hotel.  
Annual R. O. T. C. unit inspection, all day.  
Art Exhibit continued.  
Intramural diamond ball, golf, tennis and horseshoe pitching continued.

**Omilon Delta Kappa initiation and dinner, 8:30 p. m., Lafayette hotel.**

Election of officers of the university Y. W. C. A., 9 a. m. to 3 p. m., Administration building.

Law School faculty luncheon, 12:30 p. m., University Commons.

Sucky meeting, 5 p. m., Men's gymnasium.

Reading Circle, Woman's club, 3 p. m. with Mrs. E. F. Farquhar.

Wednesday, April 22  
Convocation, 9 a. m., Memorial hall.

President and Mrs. Frank L. McVey's afternoon tea, 4 p. m., Maxwell Place.

Scholarship and Attendance committee meeting, 4 p. m., Registrar's office.

Y. W. C. A. Freshman Cabinet meeting, 6:30 p. m., Reading Room of Patterson hall.

Pitkin Club luncheon, 12 noon.

Y. M. C. A. Advisory Board meeting, 4 p. m., Alumni building.

**Thursday, April 23**

Golf match with Ohio State University, Evans, Miami University at Oxford, Ohio.

Twilight concert by university concert band, 7:15 to 8:15 p. m., Memorial amphitheatre.

Election of May Queen, 9 a. m. to 3 p. m.

Entries for inter-society tennis tournament close.

**Woman's Council Banquet**

The annual spring banquet of the Women's Administrative Council will be held this evening at the Phoenix hotel, when the new officers of the Women's Self-Government Association and the Y. W. C. A. will be introduced.

Other features of the banquet will be the pledging of Phi Upsilon Omilon, and the awarding of the Alpha Gamma Delta cup for the outstanding freshman co-ed.

Miss Georgetta Walker, president of the council will preside as toastmaster and Miss E. F. Farquhar, secretary.

Miss Virginia Hally are in charge of arrangements.

Nominates for the Y. W. C. A. are Miss Elizabeth Ann Ewing, Prospect, president; Miss Lois Neal, Chicago, vice-president; Miss Carolyn Ray, Louisville, secretary; Miss Katherine Senz, Louisville, treasurer and Miss Christine Johnson, Lexington, tour representative.

**the Corps Area Inspectors, Lieutenant Colonel E. N. Bournon, and Major C. A. Bagley**

Active members of the organization: Ben Harrison, Ben Crosby, Rex Allison, A. W. Eyer, L. G. Forquer, J. C. Heasne, A. Henderson, W. Humber, L. J. Jeffers, W. W. Kirk, W. L. McInnis, W. G. Prince, H. S. Ray, C. W. Schurmeier, C. Spicer, Ben Stapleton, W. D. Trott, R. G. Woodhill.

**Pledges:** O. B. Coffman, Bus Yeager, J. Ewing, J. Cleary, W. Saunders, H. Lee, F. Stone, F. Johnson, R. Heysler, I. Evans, W. E. Florence, A. Bruce, F. Worthington, R. Tucker, O. K. Sharp, E. B. Smith, H. W. Man, J. B. Hughes, P. G. Kazanjian, E. Bell, R. Milliken, James Owens, B. Sampson.

**Honorary members:** Major Meredith, Captain Cunningham, Captain Scheib, Captain Grady, Lieutenant Ledbetter, Lieutenant Reese.

**Honorary members and wives were chaperones for the occasion.**

The fifth of the series of Cadet Hops was held Saturday afternoon in the Men's gymnasium. Lieutenant and Mrs. F. E. Lestourgeon, Lieutenant and Mrs. H. T. Criswell chaperoned several hundred guests.

**Vanderbilt Swamped by Wildcat Team, Saturday**

By J. D. ADAMS

The University of Kentucky track team defeated the thistles of Vanderbilt University Saturday afternoon on Stoll field 67½ to 49½.

Co-Captain "Shipwreck" Kelly led the field for the afternoon with 14 points.

The Wildcat star won the hundred yard dash in 9.9 and also won the 220 in 22.1 seconds. Kelly won easily in this event. In the broad jump the Springfield flash tied with Freddie McLane of Kentucky at 22 feet and six inches which is a new record for the local track.

It was the second meet of the season for both teams, the Wildcats having defeated the University of Louisville thistles last Saturday at Louisville. The Commodores defeated Southwestern of Memphis, Tenn. The Blue and White showed great improvement in the track events, but the ancient field event weakness of the Blue and White again prevailed.

The Southern Conference meet of the season for the Big Blue and the second successive year that Kentucky has defeated the Vanderbilt team.

Vanderbilt has a relay team that has not yet been defeated in the past 15 years of competition in a dual meet. It looked like the Cats would win when Foster gave the Cats the lead in the first quarter-mile. Woodward and Schell made up the deficit for the Tennesseans to win in 3:30.

The Wildcats made a clean sweep of four events, and won first places in five more, winning both places in the half-mile run, the two-mile run, the high hurdles, the hundred yard dash, and the broad jump. The Commodores made the clean sweep in the 440 yard dash, the 800 yard run.

The Commodores won first places in the shot-put with Fortune beating Seale Schwartz, a great 4 letter athlete, tossed the discus 135 feet 7 inches to beat Andrews of Kentucky.

The next meet of the season will be a Southern Conference meet with the Volunteers of Tennessee University on Stoll field Saturday afternoon. Tennessee defeated Kentucky last year for the Cats' only loss.

**Down on the Stanford Farm**

... pipe smokers agree with NAVY • HARVARD WASHINGTON COLGATE

FROM the foothills to the bay" the curing tendrils of smoke from pipes loaded with Edgeworth rise to meet the sunset line.

In the Stadium before the big games... watching spring football practice... in the great hall of Encina... over on the Row and up on the Hill... men of Stanford give Edgeworth the preference over all other tobacco brands.

College men everywhere are turning to Edgeworth! In 42 out of 54 of the leading colleges and universities Edgeworth is the favorite pipe tobacco.

To win the vote of so many college men a tobacco must be good. If you've never tried Edgeworth, begin today! The pocket tin is only 15c. Or, for generous free sample, write to Latus & Bro. Co., 105 S. 22d Street, Richmond, Va.

**Fraternity Formal**

Sigma Chi fraternity entertained Saturday evening with a dance in the gold room of the Lafayette hotel.

Decorations consisted of blue and gold, the fraternity colors, used in abundance. The Sigma Chi cross illuminated, was hung over the orchestra pavilion. Music was furnished by Virgil Smith and his orchestra from Cincinnati.

Chaperones were Dean and Mrs. F. Paul Anderson, Prof. and Mrs. J. Richard Johnson, Mr. and Mrs. William Hansen, Mr. and Mrs. Bruce Isaacs, Mr. and Mrs. Silas Wilson, Captain and Mrs. Cunningham, Captain and Mrs. Clyde Crady, Miss Marquette McLaughlin, Mrs. P. K. Holmes, Dean Sarah Blanding, Prof. and Mrs. E. F. Farquhar, and Mrs. J. B. London.

About 200 guests were present.

**Scabbard and Blade**

Scabbard and Blade entertained with a dinner dance Monday night from 6:30 to 10:30 o'clock in the Phoenix hotel ball room in honor of the Corps Area Inspectors, Lieutenant Colonel E. N. Bournon, and Major C. A. Bagley.

Active members of the organization: Ben Harrison, Ben Crosby, Rex Allison, A. W. Eyer, L. G. Forquer, J. C. Heasne, A. Henderson, W. Humber, L. J. Jeffers, W. W. Kirk, W. L. McInnis, W. G. Prince, H. S. Ray, C. W. Schurmeier, C. Spicer, Ben Stapleton, W. D. Trott, R. G. Woodhill.

Pledges: O. B. Coffman, Bus Yeager, J. Ewing, J. Cleary, W. Saunders, H. Lee, F. Stone, F. Johnson, R. Heysler, I. Evans, W. E. Florence, A. Bruce, F. Worthington, R. Tucker, O. K. Sharp, E. B. Smith, H. W. Man, J. B. Hughes, P. G. Kazanjian, E. Bell, R. Milliken, James Owens, B. Sampson.

Honorary members: Major Meredith, Captain Cunningham, Captain Scheib, Captain Grady, Lieutenant Ledbetter, Lieutenant Reese.

Honorary members and wives were chaperones for the occasion.

The fifth of the series of Cadet Hops was held Saturday afternoon in the Men's gymnasium. Lieutenant and Mrs. F. E. Lestourgeon, Lieutenant and Mrs. H. T. Criswell chaperoned several hundred guests.

**Fraternity Row**

Miss Helen Shemwell, Paducah, was the guest of Miss Nancy Rothwell at the Beta Sigma Omicron house for a few days.

Miss Jesse Kendall has returned from K. E. A.

Miss Louise Otterback, Kathryn Vogel and Lucille Trabant have returned from Louisville, where they spent the week-end.

Miss Jo McCombs, Sherman, spent last week-end with Miss Mary Adair.

Mr. Virgil Sanders, Danville was in Lexington last week.

Mr. George Collins, Maysvick, noted to Lexington to attend the Alpha Tau Omega dance Saturday night.

Miss Virginia Robinson, Portsmouth, Ohio, spent a few days with her grandparents on Clay avenue and visiting friends on the campus.

Miss Ruth Wehle went to Cincinnati Monday.

Mr. Harry Bush spent the week-end at his home in Horse Cave.

Miss Mollie Glover, Cincinnati Conservatory of Music, has been at the Alpha Gamma Delta house for a few days.

Miss Eleanor Smith has returned from Louisville.

Mr. and Mrs. Richard Fuller, Chicago, were guests of their son, Dick, at the Delta Tau Delta house Saturday night.

Mr. Charles Whitman, Paducah, visited Mr. Brandon Price at the Delta Tau Delta house last week-end.

Miss Elizabeth Poole, Emily Hayes, and Louise Mitchell left Wednesday for Atlanta, Ga. to attend the Alpha Xi Delta province convention.

Guests at the Alpha Gamma Delta house for Sunday dinner were W. L. Graddy, Ted Besh and Leon Veness.

Week-end guests at the Alpha Gamma Rho house were Robert White, Paris, and Clarence Kindell, Whitesville.

Messrs. John and Robert Baughman spent the week-end at Stanford.

Mr. Connie Gaines of Memphis was the guest at the Kappa Alpha house last week-end.

Misses Christine Johnson and Margaret Howard were in Cincinnati Saturday.

Mr. Arno Neiser to Flemingsburg spent the week-end at the Pi Kappa Alpha house.

Messrs. John Riley and Wayne Priest of Alken, South Carolina, were recent guests at the Pi Kappa Alpha house.

Messrs. Jack Rogers, Billy Hayes, and Frankie Ware were in Shelbyville for the week-end.

**Hole-in-One Honor Goes to Student**

The honor of making the first hole-in-one of the year in Lexington goes to Evan Settle, of the University of Kentucky, who drove one in from the tee on No. 3 hole at the Pleadome Golf club Sunday.

The hole is 125 yards long. With the aid of this ace, Settle scored a 36 and 37 for a 74, just three strokes over par for the course. He was practicing for the third round of the intramural golf tournament being held at the university. Settle defeated Malcolm Foster 8 and 7 in his first match and "Poppy" Fowler 7 up and 3 to go in the second.

Gayle Hamon was playing with Settle at the time he drove his tee shot into the cup. Settle has earned numerals in football and basketball at the university.

Sneers Snickers Scandal

The Greeks Dance Despite a page one feature which appeared in The Kernel Friday and which could not but remind one of the Kampus Kat the Alfataw...

The Alpha Gam Garden Our old pals the Alfataws tell us that members of other sororities have been using their garden for the purpose which is supposed to be reserved for its owners.

Line of the Century One of the mugs had a date with Virginia Hollis and, seeing the dear old sword and shield, asked what pin she wore.

Cheer the Athletes In their rotogravure which appeared Sunday the Kays were seen behind a beer keg which they hold as the result of a football victory over the Fideles.

THE GIRL WITH A ROSE

Since no one has been married in the last three days we choose:

Eugenia Beck Doc Beck snatches the rose from one clutching finger this week because she is a blonde; because she is a beautiful blonde; because she does not talk more than a freshman should; because she seriously believes that she will be a doctor; because she is amusing; because she will some day lure innocent young maidens into Triddle-della; because she saw nothing too intensely interesting in Rush Week; because she cured our blindness by explaining that we really were not blind after all—we had only been crying; because she may sometimes wonder, but never asks what it is all about.

Ordinary Occurrences It occurs to us that the campus is beautiful in the spring... that O. K. Barnes, of the Barnes Reef Trust, was a visitor in the offices of The Kernel yesterday... that Tannery Saturday justified our Derby prediction of last spring...

Brotherly Love Coleman R. Smith, local Delta and prominent in campus business circles, entered his fraternity house at the University of Cincinnati. After telling him the key should be for several minutes one of the dear, sleepy-eyed, inebriated brothers appeared, scowled, growled, "Well, what do you want?"

"I don't know," grunted the gentleman, "we have several visitors in the house now. But I'll find out."

XCHANGES

The varsity, undergraduate newspaper of the University of Toronto, has been indefinitely suspended by the student administrative council following the publication in its columns of an editorial on atheism.

A men's dancing chorus of thirty-two members has been organized at Princeton. The director says that the public is tired of chorus girls.

A special telephone system has been installed between men's and women's dormitories at Antioch College in the hope of promoting better and increased social contacts.

One of the outstanding senior coeds at the University of Arizona this year is Christine Garcia, a Papago Indian girl. Her chief activities outside the classroom have been athletic. She has been a first-class pitcher on the Varsity Villager's baseball team, a guard on their basketball team, a fullback in her class hockey, and a member of the girl's tennis squad.

Gifts of more than \$1,000,000 have been received by Wesleyan University in its drive for \$3,000,000 as a centennial fund to be raised before October. Seven gifts have been for \$100,000 each.

San Francisco State has adopted a very apt name for their athletic teams. It is "Golden Gators," and is symbolic of the city by the Golden Gate.

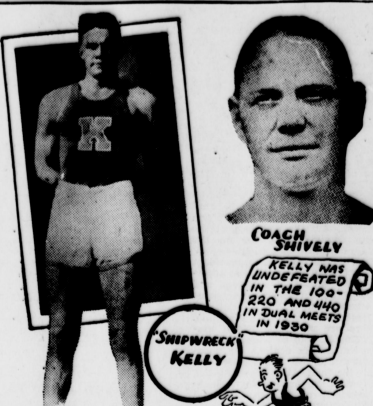

"This job of bringing home the bacon is no joke, sighed Doctor Bass.

"No, and on top of that I always have to stop at the 'Friendly' and bring home the bakin' too," was Professor Davis's comment.

A girl friend asked us the other day if we had a compact. We didn't and told her that we had also stopped carrying cigarettes—it's too effeminate.—S. C. Gamecock.

The Stormy Petrel, Oglethorpe University publications, made its fifth change in editors last week. All of them up to this time have had to resign on account of other more pressing duties. This time they have put in two freshmen. This beats The Kernel's record.

Track Captain and Coach

The great Shipwreck is still undefeated in the 100 and 220 yard dashes. Kelly did not run in the Louisville meet but came back strong to win the century and furlong races against the Vanderbilt dash-men. "Shipwreck" is faster than ever this season. Last Saturday he won the 100 in 9.9 and coasted to an easy victory in the 220, being timed at 22.1.

Freshmen to Play

Coach Elmer Gilb has announced that his freshman baseball team will open the season on Stoll field against Eastern State Normal next Thursday afternoon. Gilb has some promising players on his squad and an interesting game is expected.

Cat Baseball Nine Will Play Miami

(Continued from Page One) fielding of the Musketeers allowed two runs to seep in, and in the eighth, two errors by Stadler, Xavierian second baseman, were instrumental in helping the Wildcats win.

There were no outstanding fielding stars for either team, but Dave Harmon, for Xavier, was the batting star. His deep hit to right field in the fifth was good for three bags and helped Xavier rally.

The score by innings: Kentucky.....300 002 030-8 Xavier.....000 220 000-4 Batteries—Kentucky, Ferrell, McMuray and Barnes; Augustus, Xavier, Brill, Bode, and Steinkamp.

Billy Denniston—"Yes, I'm a big fun at school now."

Path—"Well, then, I'd like to hear some better reports from now on."

When "Spud" went to the mind-reader, he charged him only half-price.

Shoe Rebuilding We have the three best Shops in town Chas. A. McATEE 103 S. Limestone WOODLAND SHOP 267 EAST HIGH ST. Phone: Ash. 5660 J. D. MORRIS'S SHOP 260 EAST MAIN The Shops with a Reputation

man baseball team as an outfielder and is one of the frosh's best basemen. During the winter months he participated in the intramural bowling tournament and was high scorer for the meet.

The second of this red quintette is "Red" Harvey, of Chicago. His events are the 100, 220, and the broad jump. His best time for the hundred is 10.3, but he has never been given a trial in actual competition. He came here with wonderful high school record and big things are expected of him. His time for the 220 is better than just good, and his work in the broad jump is best for the freshmen this year.

Lexington is credited with sending "Red" Hickey to the university. Hickey does the mile and does it well. Considering the fact that the Stoll Field track is slow, his time of 4:55 for the mile is excellent.

From a nearby town with the gay name of Paris, comes the fourth of the five, "Red" Parrish. He does three events, the 100, pole vault, and the high jump. While he was in high school he topped 12 feet with a pole, but Parrish is fast growing into a big boy, and it will take a mark now. He goes over 5 feet 5 inches in the high jump and his time for the hundred is 10.4. Lastly we have "Red" Adams, from the fair city of "Lexington in the heart of the Bluegrasses" (what a clash of color that is). Adams is just a young boy, but he turns in time for the mile that is good for a lot of his age.

Study Engineering in Cool Colorado The Colorado School of Mines is located in Golden at the very foot of the Rocky Mountains. It is but twelve miles by paved road to the capital city of Denver, and but an hour's drive to the great Continental Divide, with streams and forests and snow-capped peaks rising to the sky.

Five Fast Freshmen Flash Fleeing Feet (Continued from Page One) But let us get back to the present day. Now "Red" Grange and "Red" Roberts made football history, and Clara Bow, the "IT" girl, made movie history, but that is still in the past and miles away from home. Why, right in our own back yard we have some of the finest heads of red hair that ever graced the face of the earth. Daily they romp around Stoll field in a manner that shows promise of fame.

Summer School Engineers Basic engineering courses in Mathematics, Chemistry, Physics, English and Design; Courses in Assaying, Geology, Analytical Mechanics, Graphic Statics, Strength of Materials, Thermodynamics, Physical Chemistry, and Plane and Mine Surveying; Preparatory subjects, for students deficient in entrance requirements. Advanced Algebra, Solid Geometry, Chemistry and Physics, are offered at the Colorado School of Mines Summer Session from July 6 to August 28, 1931.
