About The Cover . . .
Twenty-four years ago Mildred Croft, Tri Delta, was chosen tuckian Beauty Queen. Then she married Paul Mansfield, she now a successful practicing attorney in Lexington. This fall her daughter Carolyn caused history to repeat itself. She is the 1963 tuckian Beauty Queen.

EXECUTIVE COMMITTEE 1962-63

James A. Sutherland, President, Bloomfield, Ky.
 Richard E. Cooper, Vice President, Somerset, Ky.
 Dr. Harry C. Denham, Immediate Past President, Maysville, Ky.
 B. A. Shively, Treasurer, Athletics Department, University of Kentucky
 Helen G. King, Director of Alumni Affairs, Room 124, Student Union, UK, Lexington, Ky.
 C. C. Clarke, 1203 South Green St., Glasgow, Ky. (Term expires 1963)
 William M. Gant, Masonic Bldg., Owensboro, Ky. (Term expires 1963)
 Dr. O. B. Murphy, 743 West Cooper Drive, Lexington, Ky. (Term expires 1963)
 J. Paul Nickell, 302 Hart Road, Lexington, Ky. (Term expires 1963)
 McKay Reed, Jr., 441 Swing Lane, Louisville 5, Ky. (Term expires 1963)
 James B. Allen, Winchester, Ky. (Term expires 1964)
 Dr. Glenn U. Dorroh, 301 Clinton Rd., Lexington, Ky. (Term expires 1964)
 George W. Griffin, Jr., London, Ky. (Term expires 1964)
 Mrs. Jane Irvin Morris, 1553 Leestown Pike, Lexington (Term expires 1964)
 Richard G. Wells, Jr., Pikeville, Ky. (Term expires 1964)
 Mrs. Hampton C. Adams, Old Keen Place, Lexington (Term expires 1965)
 L. Berkley Davis, 22 Stone Creek Park, Owensboro (Term expires 1965)
 R. R. Dawson, Bloomfield, Ky. (Term expires 1965)

Mrs. Elmer Gilb, Paris Pike, Lexington (Term expires 1965)
 Guy A. Huguelet, Jr., 1469 Lakewood Drive, Lexington (Term expires 1965)
 Dr. Ralph J. Angelucci, 2101 Nicholasville Rd., Lexington (Elected, Board of Trustees)
 Robert H. Hillenmeyer, Hillenmeyer Nurseries, Lexington (Elected, Board of Trustees)
 William H. Townsend, First Security National Bank, Lexington (Life Member, Honorary)

APPOINTIVE MEMBERS

J. Roger Caudill, Morehead, Ky.
 Mrs. Robert O. Clark, 111 Leach Court, Glasgow, Ky.
 William J. Detherage, 3927 Elmwood, Louisville, Ky.
 Robert M. Hardy, 522 Reed Drive, Frankfort, Ky.
 James W. Harris, 807 M. E. Taylor Bldg., Louisville, Ky.
 William K. Howard, Box 432, Wallins Creek, Ky.
 Dr. V. A. Jackson, Clinton, Ky.
 Gilbert Kingsbury, 210 Edgewood Road, Ft. Mitchell, Ky.
 Douglas E. Williams, 2721 Clinton Circle, Hopkinsville, Ky.

The UK Alumni Executive Committee meets monthly, September through July, at a time and place appointed for the convenience of the committee.

A
 UNIVERSITY
 IS A
 PLACE;
 IT IS
 A
 SPIRIT
 IX

In these days of anticipated administrative change, internal vicissitudes and external pressures, an attitude of ambivalence has taken possession of many alumni of the University of Kentucky who, under relaxing tensions, would assume a more logical and less emotional attitude toward the University to which they owe allegiance and from which they have received uncounted blessings.

Umbrage has replaced reasoning and for a moment in history YOUR University languishes in the shadow of your discontent.

But wait awhile—For almost 100 years this fine old institution has survived travails which have tried the patience and loyalties of many men and it is a safe guess that its future is as assured as its past and that debate, disagreement and finally, the unity which comes from the growing pains of a free educational institution are the ingredients which in other days and now . . . make it great.

“A University is a place—” where the free minds of men find expression: “It is a spirit—” which will survive and not surrender. For this you, the Alumni of Kentucky, may be duly thankful.

UK Offering Top-Flight Medical

University of Kentucky Medical Center.

Student Laboratory. This is one of 20 such laboratories in the Medical Sciences building which seat 16 students each. Here the teacher comes to the student in a complete reversal of the usual teaching method.

Nursing Arts Laboratory. Located on the second floor of the Medical Sciences Building, the Nursing Arts Laboratory is set up as a "mock hospital," and used for teaching nursing skills. Students receive a demonstration of how to use the "high-low" bed (this kind of bed is used in the University Hospital) from Miss Suzanne Prough, former Assistant Professor in the College of Nursing.

Reference Reading Room. Located on the first floor of the library, this room serves as a reading room for students and faculty.

Medical, Nursing, Dental Training

The past two years have seen a great advancement of medical education in the State of Kentucky unfolding right on the University of Kentucky campus.

The University of Kentucky Medical Center which was dedicated in 1960, is an acknowledgment by the State of a long-needed facility for the further improvement of health conditions in the State.

The \$27,000,000 structure includes the Medical Sciences Building, the Dental Sciences Building, the 493-bed University Hospital with outpatient and ambulant wings, and a Heating and Cooling Plant.

Programs housed within the structure in addition to University Hospital, are the Colleges of Medicine, Dentistry and Nursing, and the University Health Service.

OBJECTIVES

William R. Willard, M.D., Dr. P. H., Vice President for the Medical Center and Dean of the College of Medicine has stated the following objectives of the Medical Center:

1. To educate more physicians and other kinds of health personnel to serve Kentucky and the nation.
2. To provide more educational opportunities in the health field for the youth of Kentucky.
3. To provide postgraduate or continuing education so that health workers can keep abreast of the rapid developments in medical science and medical care.
4. To facilitate research in the medical sciences.
5. To provide medical care for some of the indigent.
6. To develop a base from which the Medical Center can serve all of the people of the Commonwealth.
7. To further upgrade the quality of medical care available to the people of Kentucky.

ESTABLISHMENT OF THE MEDICAL CENTER

The establishment of the Medical Center began on June 1, 1954, when the University Board of Trustees acted to establish a college of medicine "when the General Assembly of the State of Kentucky provides the necessary funds." A subsequent resolution adopted on May 28, 1956, which established the Colleges of Dentistry and Nursing, and, an initial appropriation of \$5,000,000 made by the General Assembly in 1956, were the inaugural steps taken in launching of the new Center.

Dr. Willard, who arrived in 1956, had previously held the position of Dean of the Upstate Medical Center of the State University of New York at Syracuse. He was known as the "Cornfield Dean" for the first year or so after his arrival in Lexington, because he had no college and no

students, only a 39-acre site on the University Agriculture Experiment Farm where the Medical Center was later built.

CENTER'S PHILOSOPHY AND PROGRAM ASPECTS

The Medical Center is intended to serve as an educational, research, and service institution for the Commonwealth of Kentucky. In addition, new developments which originate in the Center should have a beneficial effect beyond the boundaries of the State.

The philosophy which has been developed has a direct bearing on the policies, organization, and content of the educational, research, patient care, and other service programs. It affects the staffing pattern and the recruitment of faculty, and also requirements for facilities. Moreover, it bears on the relationships of the Medical Center with professional groups, hospitals, health agencies, and the public. These are all matters which are closely related to the Medical Center development. Listed below are the more important and pertinent elements of the philosophy:

1. The Medical Center is oriented toward the special and unique problems of Kentucky although attention to fundamental problems in medical science and medical care should have national or even world-wide significance.
2. The Medical Center aspires to develop the highest quality of program. This involves the recruitment of an outstanding faculty, the selection of the best student body obtainable, with preference for qualified Kentucky youth, and the creation of an environment which fosters learning and investigation.
3. Educational programs are student-centered, and individualized as much as possible to meet the varying needs of students.
4. The programs and activities of the Center exemplify interdisciplinary collaboration and the team approach.
5. The concept of comprehensive medical care, which includes the elements of prevention, diagnosis, treatment and rehabilitation, is exemplified in the service and teaching programs of the Medical Center.
6. The volume of patient care for which responsibility is undertaken should be that amount which proves essential for the highest quality program in education and research and which enables the Center to discharge its mission effectively.
7. The Medical Center is actively concerned with the health problems of Kentucky and factors—biological,

(Continued on Next Page)

ch labora-
ch seat 16
the student
method.

e first floor
ng room for

LUMNUS

sociological, cultural and economic—which cause or contribute to them.

The philosophy is perhaps best illustrated by the special emphasis on research, behavioral science, community service, community medicine and individualized study.

Research facilities of the Medical Center include 28 research laboratories in the Medical Sciences Building and 21 research laboratories in the Dental Sciences Building. More than \$1,000,000 in research grants have already been awarded to faculty members.

The Department of Behavioral Science which is a relatively new concept in medical education deals with the social, cultural and emotional aspects of medicine.

Services to Kentucky communities will be handled largely by the Division of State and Local Services. One of the main objectives of the Division is to aid in the improvement of the total health complex of Kentucky. Toward this end, the Center has made its facilities available to all groups and individuals in the health field.

The Departments of Community Medicine and Community Dentistry were established to help the student understand the problems of practice in a complex society or rural setting.

Individual study has been encouraged by provision of study cubicles for each student. Each student is assigned a cubicle upon arrival at the Center which is available to him 24 hours a day.

The curriculum has been arranged to provide special emphasis on relating the various areas of scientific study to medicine and to help students continually to correlate basic science and clinical science considerations.

MODERN FUNCTIONAL FACILITIES

The completed Center functions as one integrated unit, with the Medical and Dental Sciences Buildings and the University Hospital connected by corridors, thus further facilitating the relationship between the basic and clinical sciences.

The Medical Sciences Building houses the majority of classrooms for all three Colleges, laboratories, Administrative offices, and departmental offices of the Colleges of Nursing and Medicine.

There are 20 student laboratories, seating 16 each, located in the building.

Located on the first floor is the Medical Library, which contains over 70,000 volumes and some 1,500 currently received journals. It includes a large reference reading room, a reading and browsing room, typing and audio-visual rooms, study carrels and group study rooms.

The Dental Sciences Building contains offices of the College of Dentistry, a large dental techniques laboratory equipped with closed circuit television, several clinical areas with individual clinical cubicles (each equipped

with a complete dental unit), departmental offices, a dental emergency room, and a large conference room to facilitate postgraduate courses in all three colleges.

The University Hospital is a teaching hospital which will afford the same level of care to each patient, regardless of ability to pay or source of payment.

In order to enter the University Hospital as a patient, one must be referred by a licensed physician.

"Progressive Medical Care" or "Levels of Care Philosophy" has been adopted as the theme of the University Hospital. This means that patients are separated according to the degree of their illness, and their need for medical and nursing services. The most ill persons are grouped around the nursing station in the intensive care units.

General patients will be in another area, and the convalescent who are able to meet some of their own needs, in an entirely different area—the Ambulant Wing.

The beds in University Hospital are being opened according to a planned three-year schedule of activation. There are now 136 beds available for use.

The University Health Service, located on the first floor of the Ambulant Wing, replaces the old "Infirmary." It is specifically planned for meeting the health needs of University students.

STUDENT ENROLLMENT

In admitting students to the Colleges of Medicine, Dentistry and Nursing, the University endeavors to select those young men and women who show promise of making the best future physicians, dentists and nurses.

Applicants are judged on the basis of their total qualification and in comparison with other applicants. As State-supported Colleges, preference will be given to qualified residents of Kentucky; however, some out-of-state candidates are admitted each year.

The College of Medicine has enrolled three classes, a total of 173 students; the College of Dentistry has enrolled one class of 26 students; and the College of Nursing has enrolled three classes, a total of 98 women. Eventually the Medical Center will have some 1,200 full time students in enrollment each year.

In addition to the above enrollments, postgraduate courses in all three Colleges have been initiated. The Center will eventually serve several hundred students each year enrolled in part-time continuing education programs.

The needs of Kentucky have been kept foremost in mind in the selection of students, based on the likelihood that many will stay in Kentucky and serve small town and rural areas.

The Medical Center's future is an impressive one. It is an expression of faith in Kentucky's future, and its vast potential for long range contribution to total health services for Kentuckians is unlimited.

They Came Back For Homecoming

Left to right, from the top: (1) Mrs. Owen Lee (Rebecca Smith), Lexington, Mrs. Herman Worsham, Dayton, O., Mr. Lee and Mr. Worsham. (2) Mr. and Mrs. Claude Hammond and son, Claude, Dayton, O. (4) Mrs. William Detherage, Mr. Detherage, '49, Louisville, Mrs. Lawrence Watson, Mr. Watson, '55, Pikeville, and Judge James A. Sutherland, '40, Bloomfield, President of the Alumni Association. (5) Henry Taylor, '49, and Mrs. Ray B. Smith, Owensboro.

Alumni Building Ready By Early Summer

Money Needed For Proper Furnishings

The University of Kentucky Alumni House, a five-year project of your Alumni Association's Executive Committee, pointing toward the institution's centennial in 1965, is now under construction and, with good weather and continued contributions from pledges already made, will be completed late this spring.

This building, a long-time dream of Kentucky alumni who have wished to make a substantial contribution to Alma Mater on her 100th birthday, will house the Alumni Association offices, will be headquarters for alumni who visit the campus, will accommodate faculty and student seminars and conferences and will serve an on-campus need of the University which has been apparent for many years.

Immediate problem of the Alumni Association is the necessity for raising additional funds with which to adequately decorate and furnish the building, and it is estimated that an additional \$36,000 will be needed for this purpose. A committee of alumni headed by B. A. Shively, Alumni Association treasurer and UK Athletic Director, is working diligently now to raise enough cash to carry forward this project and the committee is hopeful that many voluntary, cash contributions will come in for the decorations and furnishings.

A decorative plan for the building has been tentatively approved by the committee, pending the raising of these funds, and as soon as it seems possible that the \$36,000 goal will be reached, bids will be taken on the decoration and furnishings which are in traditional style.

Alumni and friends interested in assisting in this important project are asked to fill out the blank on this page and return it, accompanied by check, to B. A. Shively, Athletic Director, University of Kentucky Coliseum, Lexington, Ky.

UK Administrative Officers Visit 15 Ky. School Areas

For the third year a group of University administrative personnel and faculty members have visited 15 areas of the Commonwealth involving 91 Kentucky counties, for the purpose of meeting with high school seniors and their parents in those districts to explain the operational plan, course offerings and administrative set-up of the University specifically and, in general, to urge Kentucky high school graduates to attend college in Kentucky.

The two teams of University faculty and staff people made two trips into the eastern and western parts of the state during the month of November, and, upon the invitation of the President of the University, the Director of School Relations and the Alumni Association, approximately 1900 students, parents and interested UK alumni in the areas, attended the 15 sessions.

Alumni of the University, school superintendents and principals, county agents and high school counselors cooperated in the program to a high degree and the resulting attendance and interest were most encouraging.

The primary purposes of the program are: to demonstrate to parents and their children in a personal way the fact that the University is gen-

uinely interested in the welfare of Kentucky youths and their plans for opportunities in higher education; to provide the maximum amount of current information about UK in order that more intelligent choices may be made by prospective University students; and to involve alumni in an even more significant way in student contact work on the local level.

Visitation points last fall included: Fulton, Paducah, Madisonville, Henderson, Elizabethtown, Owensboro, Louisville, Bardstown, Somerset, Corbin, Cumberland, Hazard, Prestonsburg, Ashland and Covington.

• • •

"The ultimate continuing strength of a university rests with its alumni. They are keepers of the tradition, preferred stockholders of the enterprise, the mark of its accomplishment."—Henry Heald, President of the Ford Foundation.

• • •

A new TV program—"Alumni Fun" produced by the team responsible for the GE College Bowl made its debut in January. Sponsored by the American Cyanamid Company and scheduled at 4:30 (EST) on Sunday afternoon over ABC, the show features prominent alumni competing for cash awards to their alumni funds. The program also gives some new ideas on ways to serve alma mater.

I WOULD LIKE TO LEND FINANCIAL ASSISTANCE IN DECORATING ALUMNI HOUSE

I am enclosing a check in the amount of \$..... for this purpose. This contribution is tax-deductible and check should be made to the University of Kentucky Alumni Century Fund.

Seventh Annual Little Kentucky Derby

Brings In Dollars — Used For Scholars

Described by University of Kentucky students as "America's Most Spectacular College Weekend," the seventh annual Little Kentucky Derby, an all-campus event designed to raise money for student scholarships, will be held this year April 26 and 27.

Established in 1956, through a cooperative effort of the University administration, the Alumni Association and the student body, the Little Kentucky Derby has given 61 tuition scholarships in the six years since its establishment and hopes to continue to broaden the base of scholarship support through this "work and fun" program in which the entire student body participates each spring.

The week-end series of events open on Friday night with the "Debutante Stakes," a tricycle race held in the Memorial Coliseum in which the co-ed§ race for glory. During this opening event the nominees for Little Kentucky Derby queen are presented. Following the Debutante Stakes the section of the Avenue of

Champions which the Coliseum faces, is roped off for a street dance for the student body.

Saturday morning the students are involved in building stalls, named for Kentucky Derby winners, where the bicycle riders headquarter before and during the races. They are colorful productions featuring the race colors of famous Kentucky horsemen. That evening, following the Derby, a concert is held in Memorial Coliseum featuring a name band.

To quote President Dickey: "The Little Kentucky Derby serves as a means for students at the University of Kentucky to assist other students who are worthy of help and need support in their educational program."

Admission to the Little Kentucky Derby race is \$1.00 and alumni may assist this worthwhile student enterprise by attendance and by assistance in the underwriting of stakes.

Mr. Charles Hagan, Sears Manager in Lexington, supplier of the Derby bicycles, presents the trophy to the

winning team as the Queen smiles approval (2) A famous name in racing graces a sorority stall.

University Affairs

College Of Education Addition Planned

UK COLLEGE EXPANDS—An architect's drawing of the proposed addition to the University of Kentucky College of Education is pictured above. Expected to cost about \$1,200,000, the three-story structure will give the rapidly growing college an additional 68,000 square feet of classrooms and offices. Construction is slated to begin this year, but the new building will not be ready for occupancy until 1964.

The \$1,200,000 College of Education addition now being planned will be functional and designed to meet the needs of the college, but it will be "inadequate" by 1970, Dean Lyman Ginger estimates.

Ginger said that in the past five years the undergraduate student enrollment in the college has risen from 425 to more than 1,200 and that enrollments will continue to increase. The college plans to enroll 1,350 students next year, 2,500 by 1975, the year educators predict the enrollment crest will strike the nation's colleges.

Add to the student load the three to five teachers and staff members the Education College plans to employ

each year and the one clerical worker required for approximately each six staffers, and one gets the idea that space requirements in education will remain critical.

The three-story college addition is scheduled for completion by October, 1964. Preliminary plans have been approved and work on final plans is under way. Dr. Frank D. Peterson, vice president for business administration, said he hopes the state will approve the final plans and let bids in the spring.

Hopefully, construction will begin in June.

In its approximately 68,000 square feet, the building will contain 50 one-

man offices, 20 classrooms, laboratories and seminar rooms; storage, mechanical and other utility space; a reading center, special education rooms and other "normal growth" facilities, according to Dean Ginger.

The old college offices to be vacated will be converted to office and classroom space.

The college's new wing will extend westward and parallel to Scott Street from the south side of the present Taylor Education Building.

Wichman, Sallee and Martin, of Lexington, are the architects and engineers; Hugh Dillehay and Associates, Lexington, are consulting engineers.

DR. CHARLES E. BARNHART, professor of animal science, has been appointed associate director of the UK Agricultural Experiment Station. He replaces Dr. Wesley P. Carrigus who asked to be relieved of the post to devote more time to his duties as head of the Department of Animal Science.

• • •

DR. THOMAS D. CLARK, Professor and Head of the Department of History, is among the new contributors to the 1962 edition of the Encyclopaedia Britannica.

• • •

PRESIDENT FRANK G. DICKEY has been elected to a three-year term on the Board of Directors of the American Council on Education.

• • •

DR. GIFFORD BLYTON, UK debate coach, has reported that during the past twelve years, UK debate teams have received 500 awards and certificates. Last year's team brought home 50 trophies and certificates and probably won as many as any team in the U.S. The team averages 300 debates a year against more than 400 colleges and universities all over the U.S. Team members must maintain a two-point standing. The great majority of UK's debaters are native Kentuckians.

• • •

The College Faculty Program of the American Association of University Women is offering 50 awards for 1963-64 to university women interested in becoming college teachers. Dr. Doris M. Seward, UK dean of women and chairman of the awards program of the Lexington branch of the AAUW, says that organization long has been concerned at the shortage of college faculty members and has been urging the further education of mature college graduates to help fill the gap.

A new academic calendar—calling for the fall semester to start the first week in September and end before Christmas, and for the spring semester to start the first week of January and end near the first of May—is under consideration by the University of Kentucky faculty. The proposed calendar would allow students a study-reading period of one week between the end of classes and beginning of final examinations for the fall and spring semesters.

• • •

RAY HARM, a wildlife artist, has been named as the first Herman L. Donovan artist-in-residence at the University. The artist-in-residence program was named for the University's president emeritus. Harm's salary will be paid from funds the University receives from operation of the Madison County farm which Dr. Donovan gave to UK about a year ago. During his 18-month tenure at UK, Harm will be assigned to do art work for the University.

• • •

Eleven UK students will be awarded National Defense Graduate Fellowships which are designed to carry students through their master's and doctoral studies. Each winner is given \$2,000 during his first year in the program, \$2,300 in the second year and \$2,400 in the third year.

• • •

The office of Conferences and Institutes in the Division of Extended Programs is one of the busiest on campus. Under the direction of Robert Figg, the office serves as the central agency through which the University's academic and administrative facilities are coordinated to operate a conference program for visiting groups. During 1962, the office serviced conferences and institutes which drew over 7,200 persons to the UK campus. The figure is expected to rise to 10,000 in 1963.

The University of Kentucky and a Detroit firm, Crane & Gorwic, Inc., will collaborate for the next six months in preparing a long-range plan for UK's physical plant growth. Among the prime considerations will be land utilization and traffic circulation.

• • •

The General Electric Foundation will finance grants to fifty secondary school teachers of social studies from public, private and parochial schools for all-expense fellowships for graduate-credit study in economics next summer at UK. Teachers from 13 southern states are eligible to apply for the fellowships which include six weeks' study at UK with tuition, board and room, and round-trip travel allowance.

UK Microfilms Many Documents And Newspapers

A growing unit at the University is the Microfilm Center of the UK Libraries directed by Donald Massey. Documents or records in Kentucky now can be reproduced on film, or from film back to paper.

One of Massey's three microfilm cameras is a portable which he takes on frequent trips throughout the state. This enables him to film old records in courthouses, in the homes of private citizens and in churches where valuable historical items frequently are kept.

Representatives of the UK Library sometimes borrow such documents and bring them to the Lexington campus for microfilming later returning them personally to the owners.

The Microfilm Center films every weekly newspaper in Kentucky. These papers are provided by the Kentucky Press Association, the serials department of the Library, and by individual publishers. A total of 53 Kentucky papers have contracts with the Center and a film copy of each paper's editions is provided to the publisher each year.

Growing Pains...

PROBLEMS ON EVERY FRONT AT UK

By Bob Cooper

Associated Press, Lexington Bureau

Growing pains at the University of Kentucky soon may develop into a migraine headache. Still in the early stages of maturity, the University faces problems on every front:

1. Every classroom building is packed and there aren't enough dormitories to go around. Student population is expected to increase by about 70 per cent before the decade ends.

This means a minimum of 338 additional teachers will be needed by 1970 at a minimum cost of \$3.7 million a year. The ideal figure would be 445 more teachers at \$5.4 million.

More Classrooms

This also means more classrooms will be needed and that better use must be made of those now on the campus.

2. From every side—faculty, students and citizenry—comes a call for closer checks on what is taught and how it is taught.

This means there is a need for closer scrutiny of proposals for addition of new courses, deletion of old ones or changes in courses that will be kept.

This also means that new departments—and in some cases whole new colleges—must be added.

3. The first two needs create a third one—money. There doesn't appear to be enough to operate on now, and increased needs appear, at least at first glance, impossible.

But there is hope.

"If the staff of this university wants to do it, it can be done," Vice Presi-

dent A. D. Albright said of the changes that must be made.

To meet the classroom shortage, the University has under construction about \$10 million worth of buildings, another \$6 million in the works and an estimated \$17 million or more in the planning stages.

To meet at least a part of the dormitory shortage, a \$10-12.5 million dormitory complex is planned. The University hoped to have it ready by 1964, but now is doubtful.

A Curriculum Committee was formed to check carefully additions, subtractions and changes in that area. A number of new departments have been added, as well as colleges of Nursing, Medicine and Dentistry.

No Set Solution

There is no ready solution to the money shortage, but top officials agree that better use must be made of what funds are available.

"There is a limit to the amount of money the taxpayers can provide," said University President Frank G. Dickey. "We must rethink the total system of education in the state. . . .

"The University can't be all things to all people," he added.

Thus, the growth of the University depends largely upon the growth of state colleges, public secondary and elementary and private schools.

"The University can't be any stronger than the total school system of the state," Dickey said.

4. The University, enrollment 11,300, also faces another problem: Finding a successor to Dickey, who is leaving in July to become director of the Southern Association of Colleges and Schools.

Alumni Association Senior Associates To Organize In May

A group of "senior" alumni of the University of Kentucky will meet at Spindletop next May 29-30, to form the nucleus of an organization to be known as the Senior Associates of the University of Kentucky Alumni Association.

The plan for such an organization was conceived by George Warwick, '16, of Lancaster, Pa., retired general manager of overseas operations for the Armstrong Cork Company, because of his conviction that there are a number of retired or semi-retired alumni of the University between the ages of 55 and 70, who, together with successful younger alumni have the time for devotion to and interest in their Alma Mater which will permit them to assist the Alumni Association and the institution in various capacities including fund raising, legislative contacts, student seminars, career counseling and consultative work with Kentucky's small businesses and with industry and agriculture.

The small group which has been invited to come back for the planning session on May 29-30 will form the nucleus of what President Frank G. Dickey and Alumni Association officials hope will develop into a large, volunteer body of men and women who will have the time and interest to devote to the various programs upon which the Alumni Association plans to embark.

Alumni Seminar Scheduled May 31 And June 1

"Communism: Wave of the Future or of the Past" is the theme of the Sixth Annual Alumni Seminar to be held Friday, May 31, and Saturday, June 1.

Distinguished speakers and members of the University faculty will discuss this vital topic which is of interest to all alumni.

Subjects of addresses and panel discussions will be announced in the May issue and further information will also be mailed to alumni.

Miss Chloe Gifford is chairman of the Seminar committee and serving with her are: Dr. Amry Vandebosch, Dr. Max Wasserman, Dr. Lawrence Thompson, Dr. William Jansen, Dr. Stanley Zyzneiski, Prof. Robert Rodes, and Miss Helen G. King.

Plan now to return to the campus for this interesting and informative program scheduled at reunions time.

Heart Association Presents Award To President Dickey

The Kentucky Heart Association's distinguished service award was presented in January to President Frank G. Dickey for "effective and dedicated leadership in the continuing battle against Kentucky's greatest health enemy, the diseases of the heart and blood vessels." In presenting the award, Dr. Richard R. Crutcher of Lexington, president of the Heart Association, said that not the least of President Dickey's contributions was his support of Miss Chloe Gifford of the University staff who is state Heart Sunday chairman.

• • •

Plan now to return to the campus June 1 for your class reunion. See back cover for details.

Lack of Facilities Reduces Research Grants To UK

Dr. Lewis Cochran, professor of physics and faculty member on the Board of Trustees, told the board at a recent meeting that the University, with the exception of the College of Medicine, cannot compete on an equal basis with other universities in obtaining research grants.

According to Dr. Cochran, the state has not adequately financed equipment in other departments to attract staff members of a caliber that would put UK on a competitive basis in obtaining research funds.

Stiff competition for these funds is offered by such universities as Duke, Rice, California Institute of Technology and Wisconsin, he said, and indicated that UK stands little chance of getting grants in other scientific research projects until it has gained a higher status.

President Dickey and Dr. Ralph J. Angelucci, a member of the board, agreed with him. President Dickey said the money put into equipment and staff for the Medical Center was "one of the best investments for the state. It enables the University to carry out research through grants." He also said he felt research was one of the vital functions of a state university.

Dr. Angelucci stated that an official of the Atomic Energy Commission had pointed out to him that "UK is competing with the best schools in the nation" to obtain grants and is not able to get them without the staff and facilities to carry out the research projects.

• • •

APOLOGY

In the November issue, we inadvertently identified Mr. Norman Klein, '50, Louisville, as Mr. Leo Yarutis in the picture of the Alumni K-Club honoring Coach Bradshaw. We regret this error.

High School Juniors May Take UK Courses

Dean M. M. White of the College of Arts and Sciences has announced that superior high school students may participate in a program allowing them to receive credit prior to the senior year in high school.

The program is particularly aimed at juniors with an academic average of B or better and participants may earn as many as six college credits while sharing college life with regular, full-time students.

Instituted at the request of school administrators, parents, and students, the purpose of the program is to convince talented high school students to do their work at UK. Fees will be the same as those for regularly enrolled students.

Stahr Inaugurated As 12th President Of Indiana U.

Elvis J. Stahr, Jr., '36, was inaugurated as twelfth president of Indiana University on November 19th. In his inaugural address, the former Army Secretary emphasized that expanding knowledge "has placed upon the university of today a mantle of central responsibility for the future of civilization."

More than 3,000 persons attended the colorful ceremony and among them were 40 Kentuckians most of whom were alumni of UK. Dr. Frank G. Dickey and President Emeritus Herman L. Donovan were seated on the inaugural platform.

Mr. Stahr was chosen last summer at the end of a two-year search for a successor to Dr. Herman L. Wells who retired after 25 years as president. A native Kentuckian and a former Rhodes Scholar, Mr. Stahr is only the third man to be inaugurated in this century as I. U. president. He resigned as Secretary of the Army to accept the position.

Sports News

Kentucky Basketball

By Ken Kuhn
Sports Publicity Director

There never was any question about Adolph Rupp being an authority on basketball.

That he also is a prophet has been amply demonstrated time and again, but the Baron made a couple of predictions going into the 1962-63 cage campaign that must be regarded as remarkable insight on things to come.

Coach Rupp declared his belief that his latest hoop aggregation could be an even better bunch than the surprising club of last season that romped to a 23-3 record but warned that "it's going to take some doing for the '63 Wildcats to better the way that the '62 season turned out."

Secondly, he put himself on record as believing that the Southeastern Conference in 1963 would be the most well balanced loop in the country with any of a half dozen teams capable of winning the title and virtually any club a threat to knock off any other team on a given night.

This prophecy was proving to be amazingly accurate as the Wildcats concluded the opening half of a danger-packed schedule and headed into loop warfare in early January.

That the SEC was well balanced could easily be seen in a glance at the standings. Traditional football power Alabama was leading on the strength of whipping defending co-champion Mississippi State. Georgia, once the league's doormat, was nipping at the Tide's heels in second place. Georgia Tech was roaring along undefeated and nationally ranked after handing Kentucky an 86-85, double overtime

loss in the opening week of the loop season. And most of the favorites were lounging uneasily among the "also rans" after tasting early defeat.

As the second week of league warfare ended, Kentucky had started its move toward the top—following up the Tech upset with hard-earned victories over Vanderbilt, Louisiana State and Tulane on the road. The general consensus of opinion agreed with Coach Rupp's pre-season assessment of the squad.

The potential was there in the persons of All-America Cotton Nash, stellar soph pivotman Don Rolfes, Captain Scotty Baesler, old reliable Roy Roberts, newcomer Chili Ishmael, fireman Ted Deeken, long John Adams and company. But it certainly was going to take some doing to improve on the way the 1962 campaign turned out. Nobody was ready to sell Kentucky's inconsistent battlers short, but the road to better things ahead looked awfully rocky.

Baron Rupp's prophetic fears about the strength of Kentucky's schedule making it difficult to post a better record became a nightmare of sorts with the very first game.

Lightly-regarded Virginia Tech came to town fired up and caught the Wildcats resting on their laurels. The resulting 80-77 upset was the first season opener loss by a Kentucky team since 1924 and gave new impetus to opponents' urge to key for the Wildcats.

Three straight successes following the season opener setback got UK back on their accustomed winning trail, but North Carolina's powerful Tar Heels tacked on defeat No. 2 in another thriller (68-66) before a huge Coliseum crowd.

The experts figured Kentucky a cinch to drop two more in the high calibre UK Invitational Tournament, but the 'Cats surprised by playing their best ball of the year to topple Iowa and strong West Virginia and take the UKIT title for a sixth time.

Rolling once again, the Ruppmen inflicted losses on Dartmouth at home and undefeated Notre Dame before a sellout crowd of 17,101 in Louisville's Freedom Hall before dipping to the low-water mark of the season as they dropped an uninspired, 87-63 decision to St. Louis.

The conference season opened on a sour note as Kentucky missed vital free throws in the clutch and Georgia Tech took a one-point win in double overtime at Lexington. Shocked by the unfamiliar back to back losses, Kentucky went to work in its next three conference tests—all on the road—and inched its way toward the coveted top spot in the standings.

If Kentucky was shocked, the Vanderbilt's ambitious Commodores were more shocked as the touring Wildcats inflicted a 106-82 crushing with the aid of some magnificent second-half play by Nash. Following up this Monday engagement, UK moved into Louisiana and cleaned up on LSU and Tulane in uphill fights for a clean sweep and its best week's work of the season.

Through the first 14 games, the hard-pressed Wildcats posted a 10-4 overall mark and stood 3-1 in loop warfare. They had proven (regrettably) that Coach Rupp was quite a prophet . . . truly the SEC was well balanced and certainly (as demonstrated on their "right" nights) the potential for being a better team was there for the developing.

Ed Danforth, Sports Editor, Dies At 70

ED DANFORTH, '14, Atlanta, Ga., widely known sports writer and editor, died of a heart attack on December 5th in the office of his public relations firm.

Born in Hopkinsville, Ky., Mr. Danforth began his newspaper career on the daily Kentucky New Era in Hopkinsville and was sports editor of The Lexington Herald while attending the University. He served on several Atlanta papers and for 18 years was sports editor of the Atlanta Journal prior to his retirement in 1957. A loyal and devoted alumnus of the University, he covered all sport events, but horse racing was his great love and he seldom missed the Derby. Ralph Magill, editor of The Atlanta Constitution who writes a syndicated column, wrote a moving tribute, "The Final Assignment", which told of Mr. Danforth's outstanding talent as a writer. His loyalty to UK was known far and wide and the South has indeed lost a great journalist.

Mr. Danforth is survived by his wife and two daughters, Nancy, a student at UK, and Jennifer.

FORMER 'CAT TOURS FOR STATE DEPT.

Benny Coffman, '60, Akron, Ohio, former UK basketball player, is a member of the Akron Goodyears team which was selected by the State Department for an overseas tour in October. Purpose of the tour was to demonstrate and teach basketball in foreign countries. Games and clinics were scheduled in Thailand, Cambodia, Malaya, Burma, Laos, Vietnam, Formosa, and the Philippines.

About The Alumni

d. potow cards
2-22-63

1898 - 1920

DEATHS

7 COL. B. E. BREWER, '07, January 18, in Lexington. He was retired head of the Department of Military Science and Tactics and commandant of the ROTC at UK. He also served for several years as chief of staff of the Ohio military area. Survivors include his wife, Mrs. Frances Shely Brewer, and three daughters, Miss Frances Elizabeth Brewer, Mrs. Arthur H. Sawyer and Mrs. Richard L. Clinkinbeard.

COLONEL WILLIAM T. CARPENTER, '98, October 23, in Tuscaloosa, Alabama, after long illness. For many years he served as a Professor of Military Science at the University of Alabama. He is survived by his wife.

RODMAN WILEY, '06, October, in Georgetown. A former president of the UK Alumni Association, he is survived by his wife and two sisters.

EDGAR E. JOHNSON, '14, November 1, in Lemon Grove, Calif. He was a sales engineer with the Buffalo Forge Company for many years.

EGER V. MURPHREE, '20, October 29, in Summit, New Jersey. One of the nation's outstanding scientists and research administrators, he was president of Esso Research and Engineering Company, an organization of more than 3,000 scientists and engineers. He held two degrees from UK and was captain of the 1920 football team. In 1950 he received the Perkin Medal for work in applied chemistry from the American Section of the Society of Chemical Industry. A devoted alumnus of the University and a member of the Alumni Century Club, he was awarded an Honorary Doctor of Science degree in 1949. He served as Special Assistant to the Secretary of Defense for Guided Missiles from April 1956 to April 1957. He was also chairman of the Permanent Council for the World Petroleum Congress in 1955 and 1959. Survivors include his wife, a daughter, Sarah, and two brothers.

2 DR. EDWARD CRONLY ELLIOTT, '02, retired Lexington dentist, in Decem-

ber after long illness. A former member of the UK Alumni Executive Committee, he was a member of the football, basketball and baseball teams from 1898 through 1902. Survivors include his wife, Mrs. Mary Louise Love Elliott, a daughter, Mrs. Edwin R. McClelland, St. Albans, W. Va., and seven grandchildren.

1921 - 1930

DEATHS

RAYMOND CONNELL, '21, Paris, January 1. He practiced law in Paris for more than 40 years. Survivors include his son, Raymond Francis Connell, Paris, and a daughter, Mrs. Donald Charles Curran, Riverdale, Md.

OWEN W. DANIEL, '25, Memphis, on October 22, 1962. He was division traffic manager for the Southern Bell Telephone & Telegraph Co. for many years. He is survived by his wife.

JAMES M. WILLIS, '25, Birmingham, on November 6. He began his career with Southern Bell immediately after graduating from the University. He served in various company positions and was general traffic manager for Alabama at the time of his death.

A. E. LEWIS, '27, Frankfort, in December. He was with the Kentucky Highway Department for 37 years. Survivors include his wife, Mrs. Daisy Orr Lewis, five brothers and three sisters.

Mrs. Leland Howard (EDITH SISK, '28), Arlington, Va., June 24, 1962. She is survived by her husband and three daughters, Nancy, Betsy, and Mrs. Arnold P. Greene of Washington, D. C.

HARRY C. BLACK, '30, Winchester, last May. Survivors include his wife, Mrs. Eula Rankin Black.

Mrs. Joe Hatcher (VIRGINIA ROBINSON, '28), Portsmouth, Ohio on December 22. She was a public accountant and was a charter member of Phi Beta Kappa when it was installed at UK. She is survived by two sons, David and J. Neal Hatcher of Portsmouth and a daughter, V. Anne Hatcher, a student at the University.

1931 - 1940

CLYDE RICHARDSON, '36, formerly of Independence, is livestock advisor to the Minister of Agriculture in Amman, Jordan. He is employed by the U. S. Agency for International Development.

RALPH A. HOMAN, '33, formerly of Washington, D. C. has announced the resumption of law practice in Kentucky and will specialize in legislative and administrative representation for the state and federal governments. He is a former president of the Washington UK Alumni Club.

DR. MAURICE A. CLAY, '35, Lexington, an associate professor of Physical Education at UK, will serve as a technical consultant in a Peace Corps Training Program. The program is designed to train 50 young men and women to serve as aides to teachers of physical education in Colombian universities and schools.

LT. COL. JAMES F. MARQUIS, '34, formerly of Lexington, has retired after 20 years of active service with the Army. Prior to his retirement he was professor of military science at Western Kentucky State College, Bowling Green. He and his wife (MARY LOU YELTON, '32), are now residing in Atlanta, Ga.

MERRILL M. BLEVINS, '38, a native of Harlan, is a career diplomat with the Department of State, Washington, D. C.

DEATHS

REV. HAROLD C. WILLIAMSON, '31, Episcopal clergyman who formerly resided in Lexington, December 8, in Hollywood, Fla. He was rector of the St. John Episcopal Church in Hollywood. Survivors include his wife, Mrs. Nancy Harrison Williams, two daughters, and a son.

JOHN W. GREENE, '34, Owensboro, June 24. He was the owner of Greene's Pharmacy and was a member of the Kentucky Board of Pharmacy. Survivors include his wife and a brother.

Mrs. Robert D. Worthington (ANNA FRANCES CHAMBERS, '36), Lexington, in December. Survivors include her husband, four daughters, and three sons.

1941 - 1950

JAMES W. HARRIS, '42, Louisville, has been elected first vice-president of the Kentucky Association of Insurance Agents. He was also presented an award as outstanding agent of the Association for his work during the 1962 legislative session. Mr. Harris is a member of the Alumni Executive Committee.

DR. RICHARD R. GRIFFITH, '47, Louisville, has accepted an assistant professorship in English at Ball State Teachers College, Muncie, Indiana.

DANIEL M. VAN SANT, '47, Nashville, has been admitted to partnership in the firm of Ernst & Ernst, certified public accountants. He is a member of the Alumni Century Club.

DR. JOHN E. MYERS, '49, Lexington, has opened an office for the practice of internal medicine and gastroenterology in Lexington. He took his residency at Walter Reed General Hospital, Washington, D. C.

DR. LAWRENCE R. NICKELL, '48, Lexington, has entered the practice of radiology at the St. Joseph Hospital in Lexington. He trained in radiology at the University of Texas Medical Branch and the Oak Ridge Institute of Nuclear Studies.

MRS. NELLIE ELLISON DRY, '49, formerly of Beckley, West Virginia, has accepted a position as an instructor in the business education department at Ball State Teachers College, Muncie, Ind.

RICHARD E. HICKS, '49, Lexington, has been promoted to the position of Southwestern regional manager of Tube Turns Division of Chemetron Corporation, Louisville, a producer to welding fittings and other industrial piping and pipeline components. He will supervise all sales activities for Tube Turns in the region which is headquartered in Houston.

JAMES R. HOWE, '50, Ft. Thomas, a member of the 1949 Orange Bowl football team, is head of J. R. Howe Co., Cincinnati, which specializes in the engineering application of electric heat and control equipment.

JOHN B. STONER, JR., '50, formerly of Louisville, has been appointed manager of publications for the U. S. Gypsum Co., Chicago.

R. R. DAWSON, Bloomfield alumnus, presents a check for his annual engineering scholarship to Miss Helen G. King, Director of Alumni Affairs. Judge James A. Sutherland, President of the Alumni Association, looks on.

DEATHS

JAMES O. JORDAN, '50, former reporter for The Lexington Leader, December, in Athens, Greece. He was associated with the Writer's Digest magazine in Cincinnati and later operated his own public relations agency. Survivors include his mother, Mrs. Dennis L. Frederick, and three children, all of Lexington.

DR. BERTRAND KLASS, '48, Stamford, Conn., last September, of a heart attack. He was executive vice-president of Forbes Research, Inc., New York. Survivors include his wife, Mrs. Selma Werlin Klass, two daughters, his parents, and a sister.

1951 - 1962

ROBERT LOUIS BENNETT, '62, Wheaton, Illinois is a guidance counselor at Wheaton Academy.

DAN MILLOTT, '59, is news director for WNOG and WNFN, Naples, Fla.

CHARLES L. ATCHER, '58, Lexington, former history teacher at Bryan Station High School, has been appointed executive secretary and field director of the Kentucky Historical Society.

W. THOMPSON BOGGESS, '60, Columbus, Indiana, is with the sales division of the Cummins Engine Company, Inc. The company is the world's leading producer of lightweight, highspeed diesel engines.

NEAL T. HENDRICK, '62, Lexington, has joined the engineering department of Monsanto Chemical Company's Inorganic Chemical Division at St. Louis.

DAVID S. HOWARD, '62, Lexington, is a member of the engineering department staff at Monsanto Chemical Company's plant in Columbia, Tenn.

DOUGLAS MORGAN, '61, Augusta, is attending The School of Veterinary Medicine at Auburn University, Auburn, Ala. He was recently elected president of Omega Tau Sigma, professional veterinary medical fraternity.

JOSEPH GRAY, '58, a native of Ashland, has been named chief budget analyst in the Kentucky State Department of Finance.

DR. SCOTT D. BUTTON, '56, has opened an office in Lexington for the practice of dentistry. He formerly practiced at Edmonton, Ky.

JAMES E. THOMPSON, '52, Richmond, has been elected president of the Madison County Bar Association.

HARRY T. DAVIS, '62, Lexington, is a civil engineer with the Bureau of Reclamation, U. S. Department of the Interior, Denver, Colorado.

KERMIT E. LITTLE, former student, Lexington, has been appointed Lexington district commercial manager for General Telephone Co.

RALPH R. TRIPLETTE, Elkin, North Carolina, has accepted a position as junior planner for the city of Hartford, Connecticut.

DR. CHARLES L. DIENER, '54, has been appointed director of teacher education at Fort Lewis A & M College, Durango, Colorado.

LARRY R. GIBSON, '61, Wheelwright, Ky., has been commissioned a second lieutenant in the U. S. Marine Corps and is presently in flight training at Pensacola, Florida.

JAMES D. GIBSON, '62, Wheelwright, Ky., has accepted a position as representative of College Life Insurance Company of America and is presently located in Columbia, Missouri.

THE REV. JAMES D. TUTTLE, '62, Versailles, has been commissioned a Methodist missionary. He will begin his work as an educational missionary in Bolivia.

DR. JERRY P. KING, '58, Murray, has been named assistant professor in the department of mathematics at Lehigh University. He holds three degrees from UK.

MARRIAGES

Norma Jean May and ROBERT GARLAND TALLENT, '61, both of Winchester, in November.

Mrs. Mary Slane, Columbus, Ohio, and PAUL NELSON SMOOT, '51, Lexington, October 31st.

SUSAN WILSON SINCLAIR, '61, Birmingham, Michigan, and Julian Elkin Beard, Lexington, last July.

WICKLIFFE ANN BOGARD, '62, and JOHN HUDSON HARDWICK II, '61, both of Winchester, in December.

Rosalie Hujer, Parma, Ohio and GEORGE BOSAU, '60, Lexington, on October 13.

JO ANN FISHER, '59, Louisville and STUART P. BERRYMAN, '61, Nicholasville, in October.

KAYE CORRELL, '60, Somerset, and Tony Lautiere, Miami, Fla., in November.

Darlene Diane DeHart, Hagerstown, Md. and JOSEPH KYLE DRAKE, '62, Lexington, in November.

Ann Jo Mitchell and SCOTT LEE HELT, '62, Lexington, in December.

Jimmie Eugenia Nolen, Dothan, Ala. and RUSSELL LOWELL JOHNSON, '62, Lexington, in December.

LINDA LEE ETHINGTON, former student, and ADOLPH FREDERICK RUPP, JR., former student, in August.

ANNETTE W. WATTS, '54, Indian Fields, and John McCaleb, Little Rock, Ark., on October 22.

Connie Lou Watson, West Liberty and CHARLES KENNETH CAUDILL, '53, Lexington, on October 6.

NANCY RAYE WILSON, Nicholasville and Lonnie Wayne Myers, Versailles, in October.

Patricia May, Vandalia, Ohio and WILLIAM R. McCRAY, JR., '62, Frankfort, in December.

JANE CARROLL FLORENCE, '62, Paris and Herbert Lynwood Cook, Louisville, in August.

GAYNELLE VANCE, '62, and George Clark Shelburne, Jr., Lexington, in November.

NANCY GLENN GARVER, '62, Millersburg, Ohio and HOWARD NEAL DOWNING, '60, Nicholasville in December.

PHYLIS MARIE WEISSINGER, former student, and JAMES LOIS GOODLETT, '57, Kirkwood, in December.

Alice Hawkins, Lexington and PAUL DUFFY, '62, Midway, in December.

JUDY O'DELL, '62, Lexington and THOMAS EDWARD HUTCHINSON, '63, New Albany, Indiana, in December.

PHYLLIS FOREMAN LILLY, '62, Taylorsville and TERRENCE ROBERT FITZGERALD, '61, Lexington, on August 13.

DR. JOSEPH F. SCHWER, '59, formerly of Russellville, has accepted a position as a senior plant physiologist at Eli Lilly and Company's Greenfield (Ind.) Laboratories.

BIRTHS

TO:

LT. DONALD C. MITCHUM, '60, and Mrs. Mitchum (RUTH ANN GADDIE, former student), a son, in December.

Mr. and Mrs. David Ward Havens (SUZANNE SHIVELY, '57), of Hollister, Calif., a daughter, Mary Rebecca, on October 19th.

Mr. and Mrs. Sam Ware (CAROLYN COLLIER, '58), of Ashland, a daughter, Susan McMillan, on October 9.

Mr. and Mrs. Julian Cabell (LILLIAN ELIZABETH NORRIS, '59), of Richmond, Va., a daughter, Elizabeth Bronson, on November 4.

Mr. and Mrs. Samuel H. Norris (ANNA OWEN, '60) of Glasgow, their second child, a daughter, Nan Elizabeth, on October 23.

DEATHS

LT. WILLIAM B. TULLY, '58, Maysville, was killed in November when a B26 bomber crashed in South Viet Nam. He is survived by his parents and a sister.

THE UNIVERSITY OF KENTUCKY CHAIR

An Ideal Gift

A perfect gift for any UK man or woman and a distinctive addition to your home is this handsome University of Kentucky chair.

Black with gold trim, the Kentucky chair is crafted from sturdy northern birch and imprinted with the college seal.

Each chair is shipped direct to you (express collect) from the factory.

Price: \$31.50,* F.O.B.

Alumni Office
University of Kentucky
Lexington, Kentucky

Enclosed is my check for \$ for
..... Kentucky chairs @ \$31.50.*

Please ship (express collect) to:

ALUMNI! REUNION TIME NEAR!

Dates — May 31st and June 1

GOLDEN ANNIVERSARY (50th) — Class of 1913

40th ANNIVERSARY — Class of 1923

25th ANNIVERSARY — Class of 1938

20th ANNIVERSARY — Class of 1943

10th ANNIVERSARY — Class of 1953

CLASSES HOLDING SPECIAL REUNIONS

1907	1910	1928
1908	1911	1929
1909	1927	1930

SCHEDULE OF EVENTS

FRIDAY, MAY 31

SIXTH ANNUAL ALUMNI SEMINAR—"Communism: Wave of the Future or of the Past?"—Time, Place, and Speakers to be announced.

SATURDAY, JUNE 1

SIXTH ANNUAL ALUMNI SEMINAR—Spindletop Hall, Iron Works Road, 10:00 a.m. to 12:00 noon.
ALUMNI DAY —

Registration and Coffee: 10:00 a.m. to 12:00 noon—Spindletop Hall.

Picnic Lunch: 12:30 p.m., Spindletop Hall. To be followed by annual meeting of the Alumni Association.

Alumni Banquet: 6:00 p.m. — Place to be announced.

SUNDAY, JUNE 2

BACCALAUREATE—4:00 p.m., Memorial Coliseum.

RECEPTION—Immediately following the ceremonies. Maxwell Place, President and Mrs. Frank G. Dickey, hosts. Alumni, seniors, parents and faculty are cordially invited.

Please note: The 96th Annual Commencement will be held WEDNESDAY, June 5th at 10:00 a.m. in Memorial Coliseum.

Detailed information will be mailed to all alumni in reunion classes. If any group wishes to plan a special party or get-together, please write to the Alumni Office, Room 124, SUB, University of Kentucky, Lexington.

Alumni and alumnae, their husbands, wives, children, and friends are cordially invited to return to the campus for a reunion with college classmates and friends. MARK YOUR CALENDAR NOW.
