Your letter of

lighted that you  
are so well pleased  
& comfortable in your  
work & surroundings.  
It has occurred to  
me that in the matter  
of your "E" in Punch has

in detail work. For instance in  
letter writing you sometimes make  
the most remarkable errors  
which makes me believe you  
need glasses. - At present  
can be the only excuse.

I am satisfied that you need  
glasses in your studies.

Reading & Writing - The weather  
continues good & we enjoy the  
days. I get down myself  
about my attacks & I was good  
for a long time yet certainly see  
that my legs are ready for the  
battle of land & water. I should
