this class of ill-luck - there are

you have ambitions is not an un-

Twenty failures are nothing, if followed by twenty new efforts forward and onward. Each action counts, even the most insignificant, every thrill of the compassionate heart finds its echo in the listening soul. Every thought even leaves its mark as a flash-light picture in the film-evolving mind. Wednesday Morning
 February 19, 1908.

When
 your letter came too late
 as I felt sure you were
 on route to Boston, & though
 I knew you would go on with the
 Administration & treatment under
 Dr. Jack or Dr. Mearns. As a
 matter of fact, there was no need
 of alarm I think & anyone
 recommended by Stewart would

be acceptable. I trust you are
over with it - 5 yms glasses
ordered do pray wear them.
Now my dear you will see Easter
vacation begins "April first - 5
Closes Thursday at 9.30" now as
Easter Sunday comes April
19th - is the Thursday alluded
to, immediately following Easter?
if so we shall have a very nice
vacation of longer duration than
I dared hope. Sunday send
me a 1908 Catalogue will you? -

Mr Pearce was here last week &
seems just as usual. Shall
keep him in mind as the Pitts
Steel Company is a good insti-
-tution to intelligent industrial
& men in these days, honest young
men count for something. Mr
Wren is doing splendidly, gets
about ten thousand a year -
& surely we would keep Dick
him as a shining light - in
a mixed crowd - If you recall
Charlie is tearing his hair over

Croquet - Archie Knapp has
meat or chicken for the
burn stick at the Lake not

come whether I played bridge
or not - so I went to meet
Mrs Miller of Milwaukee - who
knows Mrs Judson (Alice Clay)
so we had a very good time
talking about the Judsons &
other people & things - Mrs Flete
was also there & very, very, very
cultured - she talked very much

age when together they are
fishing now the Bass Cuff-hangs
expired yesterday. I thought
this week I would have felt very
much under the weather had
Miss "Melrose" given her table
Dr. Hutchinson had been out twice
& she is now on the mend - very
instable & difficult - We were
got a few things to arrange but
all will be in ship shape
when you come - When you have

the day set let me know as
your grand mother will meet you
in Chicago & will be about 10 miles
in the evening & spend the night
at the Annapolis - Give her a day
if she can get in Chicago
In meantime can have seen your
friends & will be ready to start
home - Mama has never returned
from her fall on the stairs &
you must be very careful in assisting
her along - You can engage adjoining
rooms - I will be back of your "hot
spot" always agrees with her - Just
write me at some time you can as I would

The Moral & Philosophical facts &
transcribe in other words the story
as given in the play. Dramatic
criticism is free of interest & in
classes of Rhetoric literature &
such lines of work in my day
at College was always gladly re-
ceived by the professors & you
could cultivate this sort of thing
to great advantage, just as a
criticism of a book is interesting
I have enjoyed this sort of thing
very, very much, it appeals to me
in other words, & you might make

a good hit with it in your
work. I was delighted that
you used the "Merry Widow" in
this way & your idea of "Playboys"
girls & Cape was excellent.
The great label - after all is Con-
cultivation & idealism & all so =
Catalary growth - a most important
expansion both time & materiality.
Study your dictionary & when a word
is not clear in your mind, look
it up. By the way, Miss, your green
suit - home with you if you do not
mind wearing it - winter year & all
articles packed should be cleaned
