Silver trophy standing about eighteen
inches high. Another Glueherson
will be given him this week
& I presume the surprise he
is much pleased - Am glad
to hear you are safe & sound
in that house & that you are well
& ready to work with toward
goal - The matter has been
trifling - I will be very glad to
get out of this winter climate.

Mr. Manner died Sat. at
yesterday & had sup. dinner
for the season of your father's
departure - Manner wishes
to see the Willows if he can
make some change in his
Mount Curve & Minnetaka homes
I would like to have it as a
home - I would be delighted to have
them in it - Mrs. that came very

heart broken because you
left without saying
good bye - She cried
herself to sleep over it
& asked me if I thought
you would forgive her for
not being down stairs
when you left - I checked
myself with a water lid
telling her you were so
kind of you surely had
time to kiss her - As
a matter of fact in the
apartment you forgot

There is nothing for you to do
but to write her a letter -
It may be that you do not
realize how that you had not
any good bye after all you
walked on tour at the station.
I hope you had favorable news
from Mrs and your plans
may be carried out as you
desire

Last night Pastor W. Wallin

Dear Mr. [unclear]
Mr. Johnston has just
been here to say Helen had
written of the "glorious form"

the loss of sleep etc. You
obviously proved a charming &
desirable chaperone & of
course you were the best ever.
How I know you are dead to
the world such quick changes

from class room to that of host &
can imagine what a delight they
will be with the prospect of sleep.

Mr. Fisher left at three o'clock for
Tacoma via Great Northern. He looks
very well & in a hopeful state of mind
& in good circumstances - as at
last favorable to him & believe he is
happier in Tacoma than any where else.
He was given a bunch of handsome
Cory Cup in Minneapolis a few days

ago. Mrs. gave a bunch of flowers
with a beautiful silver pitcher

Dear Jim -

On your father's last
letter he complained of
not hearing from you. No
doubt you are busy in many
directions, but I would suggest
to you that a postal note
or three, especially "now" would
please my family. Your
father may feel of the
great distance between you

The excellent Weather Conditions & Calm
with the Mail was warmly to get
for several days without leaving from
your father, but you appreciate the
Casualty apprehension so marked
in his conduct & therefore believe the
German Plague implanted - Do not know
you can. The Weather continues cold but
the prospect of a warmer day, calms
our present mental attitude - Alice
I suppose & I have had the great pleasure
of listening to Dr. Keller of Washington

University of St. Louis lecture on Ibsen
the Norwegian Dramatist & poet - he
is a German Jew & possessed of
great erudition - He thoroughly enjoyed
them - The subjects will continue over
Friday, January 1st for the plays
in consideration thus far I had read
& it was a great treat to hear Dr. Keller's
analysis. The lectures are given in the
Chapel at the University. Addison is busy
during the days of school & will be home
by the time he is through - He will have a
control of his own time & I think

This afternoon I took Cecilia the
nursemaid Miss Simpson of
Missville, at present of the
Caucasians at Fort. Steyer,
Miss Simpson says she has
been to England & remembers
Hart & Richie but the names
made no impression. I think
she passed through en route
to Helena & Spokane but
no recollection. You see a
parcel & closed too late to
send came from that. It is
just as well. I want all
papers who are out here! —

Well - we don't see you are
doing good work in France. Choose
a day you know or get suited to
the paper & send a letter - if not
too confidential I will pass on to
you father - Occasionally you & I
must have something to say in secret
Mr. Fife & Candace asked on Tuesday
for France the letter remains until
next autumn when he returns home
having completed his Episcopate. They were
so anxious to have Addison accompany
them - Mr. Fife was over in June when
they will tour Germany, England & other
places - The idea appeared to Addison
but of course he did not go for obvious
reasons - I enclose the clipping please
read & return as I cannot replace
it or wish to put in my scrap book
Remember me to your friends & keep
a heart free for yourself - God
Bless you Mother

Tell me the
the political
situation -
you & hope

Dear Tom

These clippings I have had
for the days as the books to
forward you. I hope you have
caught-up your part & work
it is such a critical time
in your college work & a
day but now is more required
Admin took a state Ex.

he wanted you as a mark
much to his & to Burkhard's
pleasure - Sammie Nichols is
here today & tomorrow with Admin
they have gone to the afternoon

Last night - Stephen's death - United
States for a Country - to say the least
he seemed to have enjoyed it
You rather like to be called
that his work is secure through
I believe in which I am glad
you have done - I am glad
have gone to California for a
month - very - the - trip - the
you factor - the same -
Yesterday I received a letter from
Miss Jones very cordial - perhaps
you might be interested to read it
I will enclose it - you say
return to me - I have of course
no objection in coming in contact
with Mrs. J. or Miss J. but
the thought of interference or daily
interrogation - why this? why that?

His chief ² condition is that
which your father is unable to
cope or rather indifferent to.
I am able & willing to go to Helena
for the reason that it means
everything to your father & I am
not willing at all of the con-
sequences to her. My chief
is to protect what I have for
sentiment sake & also because
you grandmother gave so
much of her strength to it
in coming that out of her
deep affection for & great
welfare - she, you &
I should have it. What our
happiest must come & I believe
that things may not be
more about for the delimitation

of views & those who have never
read or do not know care or
understand. I am beginning
to feel that he may not have
a home in fact I would care
not at all to have a home for
my children he is not you are
far more your father does not
understand of views or feelings
I have to much sense not to
see, & so that must be desired
I give open no objections to anything
he may suggest or offer whether
it be to help or to the contrary
Chauncy or Mrs Jones' Cathedral.
Mansion, felt when the Com =

have to swallow hard to keep

It - I mention the former
name because he has spoken
of it - it is my near spot
which of course he must have
remembered. Would hardly
be to my advantage. I do
not wish you to mention anything of
the kind to him for if you do
I shall not feel free to speak
of things to you. His three years
father charge have all the
hope he wants, there will be
no demands made. Rather
than my being out of Justice's
way & she out of mine. I feel
to see where my little family
should go ultimately, where I
have seen his contentment, whether
that is to be decided by you

Hope as to how you feel about it -
I have never had a word of
Explanation - cannot change
by position until I get it -

Dear Sir or Madam:—

Enclosed you will find your membership card, admitting you to all the lessons given during the first week of the course. Kindly note the number, and show the card at the door as you enter the hall each day. This is in order to have the attendance of members systematically recorded. On Friday please surrender the card when paying your fee. When you pay the full term fee you will receive a ticket for the remaining weeks of the course. The tickets are not transferable.

Bring a notebook and copy each lesson from the board. The only text-book used is "Nesbitt's Conversational French Course."

Remember that you have the privilege of coming to any one or all three of the lessons every day without extra charge. No lessons are given on Saturdays.

I sincerely hope that you will heartily enjoy the course, and that you may derive lifelong benefit therefrom.

cold such as I have never

I was delighted with your ex-

clear & logical also to the

The value is higher as I have not seen the
check he left the Court. He had a chance
to advance knowledge of the price of the stock. Call of
the price first. Control himself. His experience
is that last year or two have been production of
more good results than in previous years.
He says when to be there is not known
that you get better if you say what you want a
good production of the product. I think that

definiteness of our all.
I am pleased to hear that
you can help me & remove
the impediments which have
undoubtedly depleted your
system. Had you not been
killed with the iron
conclusion you must have
seen the same for me by
this time.

I would be better satisfied to join you in
Washington & will spend my Anniversary
with you instead of your father in our
own house, A week or ten days will
do me no harm from the seat of work
here & will rather put me on my feet for
the return to the Coast which is better
made under your care than alone -
I wish your Pale Regiments & meet me

a final look before leaving & then board the

there. Our entrance into Salina will be
more easy perhaps as your father tells me
his request & Thursday party are a little
fugally & messy. Papa has given &
thankful & as always affectionate - he
seems to be gone, that I shared with you
children - he had much to say in Com-
mendation of you & took Addison under

Dear Mother—

Father arrived this morning at 11.30. He looks much better now than he did the last time I saw him. What do you think of Charlie's spring off. I would have died laughing had it been a girl. Gertrude had a terrible time with her ears about a week before the arrival. Grandma has your picture on her dresser, and when I arrived she said, "I do hope that

a monologist at the Empress theatre, the other a baseball player on his way from the Cleveland baseball team to the Seattle team. I also met a Mr. Psi of New York by the name of Harry Jackson who was with his father in a big wholesale furrier. He said he would be in ^{of} ^{across} in a few days and will look me up. It is very interesting to see what migration has done for this country between the Rockies and the Cascades. There is a great deal of snow on the mountains and makes

Dunster does not wear herself out before she gets here." I gave her no satisfaction but changed the subject, for I knew that if she slobbered any more I surely would have said something unpleasant. She just put her head in the door and said

"give my love to her". What do you know about that. She is pretty worried, believe me.

Well to get to the trip out. I spent most of the time on the back platform showing two young fellows the points of interest. One Tom Mcabony

burlesque. I could not get a ticket, and just as I was about to give up in despair I thought I saw Miss Elva Hudson. I gallantly stepped forward to greet Miss Elva, but low and behold, when I got half way I discovered that it was not the desired party. She was eager to speak, so little Willie was gone until the last, bowed low and shook hands. She colored a little, this fair eve, and we parted very ceremoniously. Later I heard a ha! ha! and a te! he! and I decided that

He is looking very well and asked very profusely for you and Dunster. Yesterday afternoon ~~I~~ called on the Caesars. They all asked for

But please excuse me from these matronly bids for if they look that way at the age of eighteen Lord only knows what they will look like at the age of fifty. I later in the afternoon went down to see Mrs. Seeley (or how ever you spell it). She thought it was a man to fix the furnace, and poked her head out of the door

Dear Heart

You have just received
I shall surely be with you
in Washington, I only thought
you might feel too much
the grand spirit & imagine
that my being "in debt"
might make you nervous
I am not so sure that I
gain the removal of both
adversities & trials at the
same time, on account of
damages, etc. & I understand

it is a bloody operation. Tomorrow when we meet in
Washington we can talk it over with Mad Moore.
Since Mary left Washington R.T. has asked their
apartment furnished "McKinnon" to Mary's res
instead of my staying with her for a week. The usual
closing of the house takes place. In consequence
I will try to find some place near the hospital
when you are up, so that we can have a few days
to stack things over or enjoy ourselves together.
Do not get tired out before going to Washington
but up after the examination or clear your system
