Dear feet.
The morning in fifteen inches
of snow at present & the
outlook from the London
suggests Minnesota & what
I have known & seen in the
Middle North West. My one
shivers. Doctor has her cold
rather to get out, sled & all
or small enthusiastic, my
riding. Doctor is suggested
in the of Hopkins or Smith's

wrote, suggested to him by Dorothy
Lusk how you would. I'm glad to
see him reading, if only a modern
romance. The holiday season has come
& gone, we missed you, for you have
been away but we before that such
a time, so we did not feel as much
the Christmas spirit as formerly.
It was a satisfaction to know you
were in touch with the family and
know Mary was delighted to have you
write me of your visit or also tell me
if you think R.V. is getting ahead. Did
start or decide appear or what did

you hear of them? Of course you enjoyed
your stay or that you called on the
different ones to be so honored. Mary
& Mary J. have written but few details
are given or practically know nothing
beyond the fact of your having been
much pleasure in being there. We
must have received twenty-five cards
from all over the face of the earth.
Mr. Calandar is ever so most acceptable
Dexter & Addison are pleased with
their remembrances. Our day was
quite to ourselves as I note you
did make no effort to inquire into or
impose ourselves on your father's

disturbed after all. I am rather glad
it has turned out so. She has
been telling tales I suspect - but she
has said nothing - only remarked
when he told me, that I thought she
didn't know her mind any way or if she
has not staked at home by the sure
never mind he. He is certainly himself
not really Lusham or says she is the
all well. The year she is the
all way - I don't see he seems to be
not there - it is just like
when she returns he will be free
Agnes Bailie is still away - I think
to make all kinds of mistakes & here
but she is to share with them & here

They went to California or left it
to C. F. or ^{HARRISON G. FOSTER} ^{MINNEAPOLIS} ^{MINN.} He, looked
pretty well liked. He was
dancing. Considerable. He was
entertained at dinner of the
John Williams in their home, a
very enjoyable & handsome
affair about ten o'clock. We
went to the Club. Your father
or left at about thirty getting
home in time to see the Old
Year out & the New Year in
with Addison who was really
jubilant in our absence. I am
old, that much Champagne
was added by C. F. or much

consumed at his table - She was
not in line when he arrived & therefore
I did not seek her after ward -
following her custom of the past summer
however, she follows up every thing & every
body after an interesting treatment - She
the other five us a dinner Saturday
evening - It is really making any one who
fails in some sort of hospitality
to be rather conspicuous about your
Walker Foster is now very much upset
after his Cat & Pills Party - just what
they want to know & I am uncertain
your Grandma holds a secret
Council in the W.C. Jackson &
informs on us we suspect - don't
know for certain - your Grandma looks
better & your Grandpa looks not so
well - He is in a bit of a business
that is what the right thing to do
my way - Radick is progressing &
works over his short hand & type
machine - but he tires rather soon
his music is really his forte - or should
not be surprised if he ultimately gets
that out of his life's work - of course I
try to keep him to the work - He is
over developed in some directions
& under in others - I hope your
R. has gotten happy & he is not so

course. But I appear not to
see it. But after all the girls
here are very thoughtful & sweet
Addie entertained Constance
Rice N. D. & Mr. Seaver at
dinner Monday evening after words
to the theatre - they had a good
time & I managed to serve a
very nice dinner - the fact
Dorcas & Walter came in fact
all coffee was served & they
staid with us until 8 pm
father was so tired & I struggled
to keep awake - He gave
little dinner at the club

which was not successful - just the
Williams Mr. Kelly & Mr. Gips Hall
I had say to hear of your attack of
Grippe - It is always better to go to
bed & sleep when you delay than
to expose yourself to nervous strain
& possible serious results - You
will of course remain in College
& likewise redeem your standing
as a diploma is as necessary
to you as a case of attainment
of all honorable means as to
any one else - either now or when
or during any previous history of
the College - When you are willing to
make it yours it will become
yours - that is what you are
in the class to be graduated
in June 1913 - to cover the course &
receive the Certificate of Graduation
Let us not consider it otherwise
Go to it - You know & I too - what
you have done & when you have
made mistakes in the measure of
your hours & the work there in
Put aside, instead, any idea of
Defeat - do not allow any group here
to interrupt your daily work while staying in

John Bull & Ness Talk have just -
left they say at their work & Wednesday
to talk - with Duke of York at do
may there - By the way you will be
pleas your usual good health &
I wish you to take a duck walk &
with of a big one. I believe that all
things are the right - successful
work at 12. Your eyes & I talk!
I like you of your self & I liked -
I'm glad to see that you hold &
My hands feel to you - God bless
you in all things - Yours

Elizabeth Metcalf Fogg has re-
turned from HARRISON G. FOSTER
MINNEAPOLIS
MINN. her wedding
travels, accompanied by her husband
& her husband of course. Tuesday
evening the Fogg family were a
reception at the Union Club
with their sons - Addison present. Can
you - By the way he wants to
to visit you a week, any way.
If I can accomplish that part
will start from here next day
by April first going direct to
Florida - or he will leave in
advance of July - to join you - Sails
April 27th - At Nagley he can talk
all kinds of things over & later go

to expedite to finish up affairs or if
possible get a report from your Uncle
I hope after your graduation you &
your father will come via N.Y. in a
few days as you may have several
years ^{to go} until another trip East be-
comes a reality I can return later
in the season & the time will be so
long then until I can get myself in
some kind of a home adapted to
our needs - I am not sure yet if
Addison will stick to the Ministry of
Virginia idea, but I am quite certain
that it will not be York - The N. V. has
no entrance exams, but once in, ad-
ding there else one must stay - It
would be desirable to begin or near finish
of course Addison has not kept up in
mathematics - in a few days will have
completed Precalculus history - what he has
studied with Thompson he knows & it
has been the very best course for him -
I know he is able to make a living but
I am anxious that he have an education -
Addison has been seven with you boys
when you can begin to feel the assurance
of maturity with youth - the power to control
what ever faces you then will your nature
be rounded & the strength of your pride
race & ability have scope

I am disposed to think
of you & send this letter
this. Yesterday the Prize
dedication at Eleventh
Street took place. I am
mailing a card with the
order of exercises

We drove over in the Supt's New
Car - A great thousand of the Hai
Palais attended, did not recognize
me for the great agitator
but understood, he is Seki, whom
he may know - intended to do
up the lumber & logging interests
by May 1st - The thermometer this
morning registers fifty six which
gives indication of renewed life
especially to the plants - All trace
of snow is now gone - Addison
has had a severe attack of
grippe & looks somewhat like
the man in the bear - has lost ten
lbs, he says - Cappa & your
Grandma, & Aunt Fannie have been
ill in bed ten days or more
Today Cappa has a touch of fever
Tuesday - When I had proposed
to this Joint Bus & Pop Walk
appeared & we were settled in a

to be a bride a dace - but until I can
see it all, we're your father's
to see you are inside I suspect
we like to have here Monday after
Lunch - Now, more the expected you
in the holidays - On March 8th - a
your father's birthday - Sister the Major
Adison & Mrs. Foster the they sent
March 19th remember - your Papa's
Pandora's Box Memorabilia the
anniversary of their marriage - We have had a
silver bowl gold plated from me & us -

Alternate^{to} Appointment to the
Navy - by no means a
certainly as you know, but
he thinks of going to a Prep
School. In six weeks he
will have a good start
on the right road & so
his Mother goes with him
Practically, very few in town
who can, has gone. Whether
all will be pronouncing
this a fearful winter - I
have seen some of course
in Minnesota - It is always
better to get a little sunshine
in when we can -

Agnes Kallis is at home & R. M. =
turned into Mrs Loomis - Kullak
is to be married to Bob Hyde. on
the 10th of this month - The
Wedding is to be in Holland at her
Sister's Mrs Lobb. They go on a
three months trip - Panama Cuba
New York & I don't know where - on
return, take Mrs Seely's home.
Mrs Seely is leaving with her mother
in search of peace some where or
anywhere she can find it with
Mrs Paddy who makes life most
difficult & understood as a
daily companion. And so the
World goes - Well Gays left today
for California on business. From
all accounts it seems uncertain
what your father's being in New Haven
but will be there any way - Your father
is developing more fingers each day.
The Shaton & Carnegie & Foster seem

to your people from whence you
came - Our love -

Mother -

3
But you must be sure to
send a congratulatory note
to them on that date - Don't
fail - By the way, I remember
to ship home the pillow you
sent with you on the
Ingliside when your school
life closes - It is soft &
comfortable & I am sure it
will be useful when there -
I hope Uncle Dad & Aunt
Liz will soon arrive with a
conclusion or some statement
of the business - Alice has
written her journal she does not
like Virginia & is already tired

In God's hand - How things do move -
Mrs Rice sent me a line the other day,
I think her to get the basket of flowers for
the party, did you & the boys like
them? If you have never mentioned it
or I was beginning to think they were
not delivered - Give my best to George
My March, April, May, or then comes
June - then the great event of your life
your young life I should say, takes
place - Next to the Joga Virilis the
great occasion - Good luck to you
my precious son - May that day
be a glad & triumphant achievement
of your best efforts, the making &
marking of your future pathway - The
threshold of a useful & honorable
career - We do not care for tinkling
Cymbals - nor the sound of brass -
Just the real, clear, & clear cut row
which leads you to the abundant
harvest after while - or let it all
be to the glory of God & our Honor

Dearest Hart -

Addison is due New Haven by Friday
as you no doubt know by this time -
I'm studying this hurried line to let you
know we are well & the weather continues
beautiful. A stiff breeze yesterday, which
have made grand sailing. You don't
is of course making with the wind - getting
ready for the ship. Which by the way,
will be a wonderful one. Addison is
so well prepared for it, & I'm confident
of his great appreciation & ability to make
it of the same importance of value as
usual years in a prep school. In
fact our men are at uniformly equipped
with letters of introduction & students of the
various colleges & things. He manifestly feels
the importance of keeping his faculties

been sent to the surroundings. I am
forwarding his Dictionary - Papers - & a few
papers which I trust he will be able to
keep together & in his trunk or suit case
it is as you know essential when on
the move to keep all articles when they
belong. Thus he will be required to
replenish at some expense & inconvenience
he will take over his affairs & needs
with you & I suspected that he get in
New Haven to save time & money. Such
necessary things as he has on his list
at Chaceet, being them he will remit
in Sept. They thinking he is good for it
will glad will to be here in Florida
this will prevent unnecessary distress to your
father & discussion. He realizes he must
be careful. Your study reflects to leave here
at soon as all business on the farm is
settled & if this is prolonged he may go
from here last. Let me know the exact date
of the commencement at Yale. Should he go

Just to Kentucky, I will leave Dunster at
Day's side, I will not go more to go
from here to Washington then to Lexington
Mary can keep Dunster for several days if
necessary. - While I am in New Haven - your
father intends coming if George can make
him had enough to feel like fighting
Money is scarce with us these days
but we shall be no more off in fact -
your graduation will mean so much to
every member of the family - I trust you
will try to send them if possible the
tickets of graduation if you have them
then you will have relieved your Alma
mater you will experience a great sense
of relief & satisfaction. The future is full
of opportunity for you - I am truly grateful
in the thought of you boys making your

Wants in the world as the highest type
of citizen - it will ruin your father's Eric
or be of infinite value in contemplating
Quaker's future - If you can see William
Howard Ship - You know the Madley
of whom Alden will tell - you will like
be as well as a speaker for you come to
them - You may not remember hearing your
father speak of them - I have promised
that we shall all stop over to see them
in Dubuque - In case to the Coast - I
like them very much - Miss M in Law
Mr. Carey B. Howard Man (not self) is
a Chequit has had two years in Germany
now doing Commercial Chemistry in New Jersey
Mr. Madley will tell you that it is of gold
but all you can do it - I am especially in
your presence you could this year & that
you are in good condition - it is only a
little longer in the struggle until the diggings
done - then you have a chance to acquire
your strength & with it such a sense of power.

To Independence - Since the left C.A.F.
a really Carnegie has been quite strong
up - I am glad your father has had
the opportunity of talk over things -
I wish his making the effort to sound
him out by absence of Justice. It is
the only way to get at the point - your
Grandpa is selling back history for the
lightning - to stick - I wish you see you
the whole thing a-massive - he has
hard talking from by side - since the
clouds of it they seem very enough
to have me back to work for his being
season - no news is good news he are told
I shall take it as such - I will
like addition to New York, he may be obtained
a day in history as last night's mail brought
a copy introduction to Secretary of State
Byron from Judge Ellis of the Supreme
Court of Michigan State - I would like to

In addition when presenting this, should
you ask what he would do for him
as I suppose he is - In addition
to say he would be pleased to have a
letter from his stamp of approval - These
mean much in building the inner castle
of the person that he - I was impressed
by Special Delivery, try to better study
the telegram also - My love to you
both & I embrace you - Please you
both to guide me -

Dear Gibson.

I will leave here either
Thursday evening or Friday morning, and
will telegraph you Thursday when I
will arrive in New Haven. I have been
very busy since I left Tacoma, as
this commission requires a good deal
of work and though ???

To show you what I have
been doing. I called last night on

this morning. They were both out, but will
see them to-morrow. President Wilson
desires to meet the delegates, and I suppose
I will have to go, but it interferes fearfully

I will be in New Haven Friday some

I am glad of the sixth
received yesterday - I hope you
will like them in your
play, like the eternal hills -
I wish you would like to
what you would like for
Commencement - if you have all
kinds of glass which is like
the club as you have never
been then why that time - let
me know - You young people must
have some final celebrations

usual at such times, I want you to be
perfectly frank with me - Your trip to
the Coast will be an interesting experience
& to be enjoyed. I think some way or
how you can get the needed change.
I would very much like to have a talk
with you & consider all things, from
my standpoint, a little time should
be spent at Lakeside - A week maybe
the last one then if ever again -
Would you not like to have Mr Taylor
come also & let him see the Blue
Grass country - Green Hill - Spring Hill
Mummers Forest - Ashland - Woodburn
Hannata & those of less importance
I am sure must not be underestimated
The craze in the East for old things
seems to prevail among those whose
taste of proportion teaches them real
value - The new rich & their
pretense & ostentation - We can entertain
Mr Taylor & give him some notion of
our "back of the woods" - Gladly, I will
up - at Boone - Miss Julia Simmons
home on the way to Cincinnati -
Charles Anderson can introduce you

Update - This to be a dry one - from October
until May - Project should be assigned
from early spring - until November - Work
after the intervals there what ever they may
be - During the period of one year, I am
stay in the other school - take they give
I have several (see in envelope) - but don't
study it - a decent habit - I can do it
word that amount as the period in a
class which might be extended in a
fundamental case - there - the which I do
not want - might make a good place
of it - simple of the whole - you boys
one then have what is necessary in life

depend - you or it - will take
several years to work it out
of your system - Also some
things acquired in College -
there are always, a few to
be eliminated - I am trusting
glad you have had your
glint so to speak - so realize
that some things must also
come from the home - it
is a long time since you
left - to go to college - the
entire period of adolescence
I pray you may come out
of Mr. Harkness, as clean &
clear cut as you were when
you went in - How love you

Success - I am heartily tired of being up-
sorted & cannot live under it - It
is now sitting upon the study, fifth year
of such vicarious existence - No man
is better than anyone else - I wish
an abiding place to put my own things
in & live or die in peace - perfectly
possible & feasible - just a matter
of resolution & conscience - Address
must remain with your Aunt - This
Miser - he will pay remuneration & much
better all round - if he could get away
with the best place & experiment it
would in three years be of as much
value to him as a diploma or a
College career - he can do more with it
than in College - You are needed on
the Coast - your father looks forward
to having you & will turn to you & lean
on you more than you imagine & he
desires the confidence for several years
with Ralph & Suknie - Give him the
chance to crystallize - get in rapport
with your father's affairs - incidentally
I wish you would take up the study
of Law - systematically on the side
It would not necessarily burden you or put
up a great protection - will come - Herbert 9.

The check sent by the paper has
 announced - paid my age
 & all well - What a grand
 there is in prospect. Tell me
 in your next what the date
 is of automobile to San
 Francisco - or if your car is a
 run about or what - it will
 sure be a wonderful trip &
 I know you are full of the idea
 Hope you won't be reckless -
 Also please tell me something of
 Mr. Taylor - you have never
 mentioned him & where does
 he live & will he visit you
 in Helena - Let me hear from
 you very this information -

Just try to get a moment to answer my
questions - How get away & come out
with flying colors - I don't get disheartened
Did I thank you for the telegram to
