I have succeeded in selling
about one hundred dollars
worth of stuff. The gardeners
have the fifteen good dollars
for the kitchen cabinet - Carpets
Bugs chairs, odds & ends

to make an infusion of me

yesterday morning to find different
associated these despatches to
the effect that Mrs. J. H. H.
Mr. Ingelken of East Talalke
Albion had been given the
office of Director of the Mint
in Washington D.C. to take
Woolley's place. This is a
good position & undoubtedly
means promotion ultimately
should Wilson be elected

Warrent Post. While the
men are waiting the
furniture - for we have
indeed progressed so far
I am "stealing a little away"
as the old hymn puts
it to send you a line.
It seems a thousand
years since you left - &
the telegram followed so
soon by letters to me or to
your father gave us some
slight solace for your
absence which we both
feel keenly. You are acting
wisely to strike while the iron

is hot, or such days, will prove con-
clusive that these years consecutive
from to Tacoma ~~has~~ not entered into
a trading influence. The very fact
that you met on the train of men
who may give you a broader vision
is sufficient to prove the improving
condition here to the deep destruction
atmosphere. I am therefore convinced
of your great progress & happiness
in trying your wings & am satisfied
that success & peace of mind will
soon be yours.

The weather continues cold & forbidding
I am not yet free from cold. On Thursday
of next week - August 24th we shall
be domiciled at the Bonucille, which
definitely itself since it was our first
haven upon arriving in Tacoma Nov.
18th - 1890. If the President is able to
show his masterly hand in R.R. matters
concerning the strike now feared, we no
doubt can send our car of household
effects straight through, otherwise a delay
must be submitted to & we can then attempt
to penetrate the future & wonder why!

She came for you - Sturtevant was delighted
to receive the box of sketches - He decided
there were no doubts - other types dis-
tributed, but I cannot know as my

The Homeville

August 28th 1916 -

Secret Heart. History repeats itself,
here we are again after nearly five
years, standing on the same threshold
gate - a difference however in our
own possessions for you were a tiny
packet of the month we now behold the
Man!! - With September 1st in my mind
to you as deeply tucked away in my
heart, I am getting this afternoon in
order to have the quiet & undisturbed
space in which to write you & to close
a remembrance. Albeit it will be heard
best, which if were a thousand times
magnified - Our Jacky continues but
we are now down to the many little things
& particularly Duster's collection - I have
held out right nobly until yesterday
when I realized I must before the close
of this morning see trunk bag & baggage
come over to this historic spot of old
for way farers & "here it is" - Your father
has kept under great patient & is now "going
it alone" - I shall remain much in bed &

return to the labor union. This is still in
abundance a pale heart broken in the
prospect of separation from the family.
He has planned not here or there is of
the beneficiary of all that is worth
carrying away. Addison is related with
Wright - he is returning in the transport
instead of the Walter. As soon as he
is packed he may decide not to ~~the~~ visit
for Hunter & wife. His date is the fifth
for departure or he may conclude under
the "Strikey" conditions that to have as
my, as possible will be the paper de-
cision. His law lectures begin Sept. 11th
so that, it will not surprise me if he
reaches Chicago about in time for
your birthday dinner. A day with you
in Chicago will do you both good, the
night - better than St. Paul or for you the
extra time. I hope you will not be too
much overcome with the heat having been
so long out of it. May tend to weaken.
Whenever you get to Lexington I want you
to see Dr. Hauer the chiropactor or at least
"run over" your spine. Hunter is spending
the week end with her grand parents
he will doubtless discover the weak end
all right - all right; - May Chapin King
or Miss Anne Thomas put the days with
considering the fact that your father's
home is not spacious. They will play a
lot of games of checkers - Hunter will
come down here of course. Betty & Bob
Kiddings decided on a trip to San Juan
or other contiguous or adjacent islands. They
will return tonight having had the boat trip
Kels had all of statement, will see Kill Matt
or Wednesday, get a fine in City Paper.
We have dined with Miss O'Leary on the
Wednesday, I spend with Mr. Price in St. Paul
Thursday afternoon the Club where we had
a jocular reception or tea at the Club.
Price - Mr. McKee gave a luncheon for the
Colonial Council on the same date to which
I must of course expect (in evening) Friday
we dine with the Spaniards or in the afternoon
several of the daughters of the Confederacy
will be at Mrs. Allen's. Saturday the Smiths in
Leavenworth entertain us at dinner. Sunday
we go to Olympia with the Accens & Miss's
on Tuesday we plan to depart. Our staff
will be lodged in the brick building downtown
planning to arrive in St. Paul. Upon
arrival I will hunt for houses to let - when
the right thing strikes my mind if we be over.
Your father remains to finish up or think
will come on about October when a house is
found he will have the Car packed or in
the or true words he may be ready to repack

to establish ourselves like White-people -
I informed Cappa that a trade was necessary
if we had to pay for it - The Hudson was
traded in for five hundred for a Hudson
Run about the same - to boot in trade -
It is a dandy little car, & your father loves
it - Of course the five hundred must come
to your father to defray expenses - I do
not intend to hear any more from you
on the subject of money in your father's
pocket - A sale is a sale - The Grandpa
is going back to me - Hicks thinks he has
a chance to pull through this winter - Mrs
Moore is gone & the household is just
solitaire is much in vogue as usual
The new about Bill had gasoline & wear
out of the large car - it was a sensible
arrangement - We shall be compelled to
find a car for some time to come &
I for one feel that a home & servants
are more essential than anything else
Taxi Cabs & Street Cars especially in St.
Paul are pretty good conveniences &
I am willing to give the motor a rest -
We have had a good time considering
May they know for stricter measures -
Capt. & Mrs. Coontz of Brewster Bay, Gard
are entertaining for Mrs. Weller - She is
in the deepest mourning but suppose she
will begin to bloom fresh in Sept. &
Mr. March & his comes to Tacoma to get

The crowd not bad chi; take good
care of yourself & give my love to the family.
They will be a source of pleasure to you
I will venture to take a house on the West
side & you will protect them. I would
give you such nice surroundings & so
much like home. I did not see you
can about the old friends & remember
as much to all. I know you are keeping
eyes & ears open & the experience
will grow day by day. You will find
what you want & I know success
awaits you. Take care as soon as
you can & don't delay in congratulating
Fitz on his appointment. You must
do this promptly. The weather is cold
sun is out now & looks over across the
Bay. But we can't see a thing -
Have not seen either boys or girls of your
crowd have not been out of the house
for a week. Hence the pyramids.
With a heart full of love & very good
wish from
Mother -

God bless you for ever & aye -

"Aunt you glad mother"

Sept. 17th 1916

Dearst part. A comfortable & safe
journey "landed" me yesterday morning
at ten thirty in St. Paul. Taking a
taxi I stopped in route at Bob's
apartment where I recovered Duster
who had been made perfectly at home
in fact a complimentary member of
the household. She had been happy
here during my absence & we are all
at home the more off my little mind.

Mr. Dick Lane
Mrs. Spence
Miss

dependant venture as a citizen of good
standing; in the Council of Democratic
Leaders - I sent a night-letter to your
father urging him to begin preparations
for leaving of these last - long - good - byes
as if he were, or had he would
could never return to the last day
his natural life again. We have very
reason to believe in the good luck of
his being visited upon us & certainly
a Continuance of the kind protection
from the Divine Ruler of the World.

— And — So — I am² thinky he will arrive
by the twenty fifth unless some change
in conditions arises. A letter from
Addison I found here mailed on the
thirtieth. He is still at Highside
Laura's grandmother has passed away
which naturally brings a sympathetic
feeling in Addison's heart. He writes he
has "been on the jump" & the boat is now
located in a house No 300. East High
Street — Bud & Aunt Liz are well. The
former having the usual touch of Hay Fever

Adieu throughly enjoyed seeing you
in Chicago. I hope you two will keep in
correspondence. I am systematically
thank heretofore it will be beneficial
to both. A nice long letter from Peter
Headly, was on the deck whilst we - she
is enthusiastic over the Canadian Rockies
& had some rides in the Taddle Hills at
Umice or Kauff. Saw Mrs. Cauden & Karl
Haggen, Cousin Laura Cauden & party also in
the vicinity of Victoria & Vancouver. Peter
is crazy over this Western Country, & I have asked

her to come this winter³ during Carnival time
She & Laura can skate & "kick up their
hind legs" together - You may be able to
get off in a few days any way, & enjoy
being hot. I am anticipating much con-
fort & amusement & happiness in being located
in an atmosphere as possible as St.
Paul is, or may be, whilst a whole company
of the place, large enough to be as ex-
clusive as one wishes. There is very
reason why your father should be at
the top table & get what slab pizza

These things or my other not agreeable to
meat or wine. Simply make the place
hold it - The St. Paul Institute English
Division appeals to me & I shall take
it as an intellectual dissipation. The
best lecturers come & music as well.
Lena Shaw gives a recital soon &
Muddy Spring Sturges & I go to a concert
at the Peoples Church. Betty Calhoun
Miller is here with Sturges had breakfast
& they are very congenial friends. Mr. Miller
is in the hospital again. Mr. Miller called

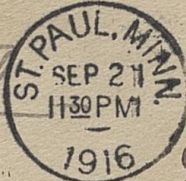

This morning tells me they will go to South
Carolina to spend the winter. Charleston
Cawden or other points with a possible
visit to Haiti. Mrs Miller's brother is in
the Marine Service. Last night - saw the
Burnside Sisters - Lightkeepers - Fields & al
in the hall - all are cordial & seem
glad to see us. By this time you are
dominated & hope & comfortably influenced
I am studying this General Delivery & will continue
until further notice. - Glad the cheque & give
you to your father without delay or else pt. the

Edwards to Cash it - or by the discount or
that over it is. Exchange or that not.
Why hesitate to Cash it? Please get the
benefit - as the account is now practically
closed - your father will not receive
the Cheque in time. Make yourself
comfortable & presentable. Everything will
be all made easy, before long - I just
feel it in my bones. I must be delighted
with your present - or I will try to get her
to send you a line soon. Do wear your
Mer coats - brush your teeth - furb up your throat
Keep your ears clean - take a clean handkerchief etc

Dearest Hart -

The enclosed letter
is by label from your
father. I am not in-
formed as to the business
arrangements but judge
from this that your father
is carrying on business
in connection with Currier
He or you must turn your
mind, but I am sure
sure if it be true that
your father is carrying
Currier's stock, funds
that a bill of exchange
should be made of the

that beyond question & Carless to proceed
By October first your father will undoubtedly
arrive & I do not expect him until he
has to come. It is just two weeks since
our arrival & I have been on the jump
to get a house, paper, pictures, school,
Dr. Gillett, Phil. Master's feet, some social
courtesies. The Indianapolis venture & have
written me long letters - Master & I have
repeatedly agreed to visit her father, but she
does nothing of her own volition makes the thing
most agreeable to her fancy - she is fond of

Not naturally, not perfect

you are in your own

wishes or we have the house

hold very things - as we have
no coal to put in, am

father never writes unless
in a hurry - therefore communicate

exact man" - The weather
here is cooler & a map is
essential - Monday, D. starts
to school - I must go to
Cherokee very thing, including
by train & physical
being, this may be not
pile - in your father's
line of vision I would
be that as it says - I
shall allow no one to

that nothing is of so much
importance as Self Control
October first falls on Monday

Yours of Sept. 29. This

letter from Currier to your
father, which I promptly

has been explained to me
as to the arrangement with
Currier or my body, else nor
am I informed as to the

more money had been borrowed
of Will. The same already in

Be that as it may, - We each one
believe in fair play, & we are going
to play an honest game or none
at all - I am convinced that your
father is in debt & overwhelmed.
We must all do our best to encourage
him & restore his faith in himself.
He is not a man to take chances
& therefore some of us cannot feel
exactly as he does - I mean by this
the uncertain outlook as to future
developments; Charles writes "My
Maddie sent me a cheque for two hundred
& fifty - dollars - I will need some money
before I see you; We are in our new
home now & our personal expenses
will be much lighter than they have
been" - With all of the expense in
connection with moving etc. I know the
disturbed state of mind - & I intend
to turn the arrangements into to -
I doubt if this pipe project is a good

I feel when once your father
is here & you can show him
your faith in him & in your
self all the clouds will
fall away - No more this morning
or I fancy a telegram may
come later but write for the

feel better or die in
a position to act with
independence & beyond
the critical influence of
negative values. Charlie

Remember me to the
