

Post John Laker Type  
232 Cliff Avenue North  
Tacoma  
State of Washington

A course in Contracts or certain phases of  
Commercial Law would be of tremendous  
value to you - The children have many  
articles & I don't think you realize  
your article - Have you found Lally  
Jimmie & I wrote him after Charles  
to thank him for his unembarrassed  
& I think I'll send a "see you" to urge  
him to "deal a little more" in connection  
for his vacation - He expects you  
Saturday about March 14<sup>th</sup> - My my, in time  
for his birthday - Such see you here  
when you come - I'm not worrying about

421 North Broadway -  
Sunday -

Dear Ned,

Your father has arrived  
in St. Paul where you are,  
business, waiting from him.  
He was very much under the  
weather when leaving - fortunately  
found Exalted Sons Com -  
mittent & suited to his needs  
I wish he might have staid  
longer - You have had a  
difficult season - I know but  
every day has added to your  
stock of experience & for future  
help you are better equipped

These little trials or tests in our well laid  
plans give us jells & wrinkles  
but better far that they come early than  
late - They will be searched for &  
when once you strike it will say  
so - I have been fairly cold for  
two weeks & have come out victorious  
So may have been laid low from  
grippe or pneumonia - His house is  
cozy & comfortable, of course he  
feels that we are camping out as  
not sufficient to get on with & so  
turned over to us - but during the bad

weather Hunter fared well & is  
looking well & strong - I am joining her  
in & will follow it up with S.S.  
Addison is walking in the three days  
his mid winter standy is high & he  
has last night indicated into the  
mysteries of the Neanderthal Law  
Mr. Stang & others were present -  
A. is gaining in concentration & drinks  
in his law like a thirsty thoroughbred  
after a hardy race - This is his  
line beyond a doubt - & will be raised  
if I don't think you play there yourself -

2

the house - I know you are  
taking care of my things & that  
Luca is faithful - be sure  
to remember Mother begins  
to fly in March - I am  
studying you some papers  
concerning the activities in Washington  
or also here - Willie says  
that took Bi chloride of Mercury  
for a sleeping powder & they  
are not sure of her recovery  
Miss Russell in the last  
page or Revised pretty to  
Mr. Houston - Pick the same  
old love in the same old  
way - Mother -

ST. PAUL, MINN.  
MAY 3  
7-PM  
1911

John Wilson  
2199 - O Street  
Washington  
D.C.

286 Laurel Ave.  
May 3<sup>rd</sup> 1917.

My Beloved.

Your father has told you  
I hope I've made you write  
to me & our appreciation of  
your rare good sense - that  
you have decided to give your  
Courage, intelligence & of need  
be your life to the Cause of  
Democracy - Home, Country, & God.  
I am deeply, & sincerely, & with  
your father I can say of you  
that no better, braver, & bolder  
young Americans can be imagined.  
Of which all my heart is full.  
I bless you - God has blessed  
it in many ways & in none  
more than in you - do  
approach, & take, but with steady  
Confidence in your integrity,  
Courage & Honor, & clear  
clear cut ideals - ready to do  
your part - to God's hands &  
guidance you will remain & with  
my love to all yours - hand in hand

Go out to do your duty -  
Keep your practical religion  
of standards of belief, for I will  
encourage to follow you in  
thought or prayer for I will  
never part you to the end  
of time in respect - Love &  
Faith - Father -

You will make the top so don't  
enter into any other idea in life  
Very truly yours,

Dear Robert. In this mail I am  
inclosing a letter to you from  
Dad which as you see I have  
read. This you must forgive  
since news these days is slow of  
distribution & your father is now  
much absorbed in Grandma's con-  
dition which is critical. I have not  
had a letter with anything like the  
same volume & am therefore obliged  
to let his ideas go though they are  
not as concrete as I would wish.  
You will forgive me I trust.  
A telegram yesterday from Addison  
was waiting me upon my return to town

Went five o'clock in the afternoon  
Friday, no many happy returns of the  
day also stated "Received wire to  
start at once to New York with  
John & wife Thursday" This was  
sent from Louisville - I am hoping to  
receive a line in writing today. He  
had been in Louisville, had seen  
the baby & all the Campbells  
Melady C. who came in to the  
cell back with her dear Craig  
Culbertson for lunch while A. was  
stated with Mr. Collis, A. immediately  
went over & greeted her & Culbertson.  
Announcing he would come to see them  
Addison at two o'clock which he  
did. Of course Addison was very  
joyed to see his boys. Got him to  
sleep - I hope did not spoil the  
cake by making Mr. & Mrs. Campbell  
as well as J. & M. Mrs. I have seen  
so many strange proceedings making  
much sorrow & surprise. However  
I am glad Addison was not by which he

could be made for me more  
 authority in the matter - I am, Mr.  
 family being excluded from seeing the  
 self it is remarkable - but if it is  
 Addison's business or I must try to re-  
 gard all things these days from  
 one point, different point of view.  
 which I believe, naturally, is under  
 certain control but only God knows  
 what is inside of me - that may  
 be necessary over my health. I am  
 getting weaker & weaker & realize the  
 heart is weakened & therefore, must  
 not be taxed or strained - this I shall  
 not do as it will be stupid &  
 deficient - God must excuse both

Grandma & use his judgment &  
discretion. Amongst the affairs he  
& Charlie are not given to much  
pleasure in responsibility, & are  
not therefore successful from the  
standpoint of constructive, courageous  
leaders. Estelle is in poor health  
& I very much doubt if she & Everett  
their knowledge knows, & they of value  
the contents of this home & contents  
very of particular interest in any,  
has considered. Grandma has  
association of many years in her  
religion, but no other here other than  
thinking of comfort. There are many  
other things which mean little beyond  
the money in them & the nice paper  
they a great deal. Her personality &  
age, & it should be saved, but  
it is not for me to say, - Dad is not  
nervous for a home, & fails to re-  
gard the situation from any  
standpoint than his own personal  
one, which would mean failure on part

Always best ships for the survivors  
of his days - this is for a  
pacholop or a widower without  
children but impractical & impractical  
in Mr. Case - There is none too much  
entirely going the roads of a  
little tradition & left that which your  
Grandpa made in the U.S. State  
therefore it is not to be expected in  
Dad or Charles - My intention is  
to console your father & to the best  
I can - but he has a wrong analysis  
in many things which is influenced  
by impulse or his desire to take life  
easy - if he knew what struggle meant  
if he knew hardship that would be  
different - but he & Char. have shinned

the cream according to their Capacities  
or there is the question in a Nut shell  
Charles will have to rear his family  
or no one knows the future - So  
long as I live by Mr. Luce's word  
Must keep together without interference  
in your small liberty - but we must  
keep our circle in family affection  
or good will - You will tell me  
my son says or we can talk it  
over - School days kept in some  
I can go to Shelbyville or inspect  
Science Hill - a good institution  
but no best - He must think out the  
best means for himself - He are most  
comfortable here - Our Murphy bed  
is splendid - Wednesday, off to  
Inglewood or Clear by road - He you  
Quincy or I are going a lunch for  
today in that hotel to Mrs. Wood of  
Chapel Hill N. C. (Marie Liberman) Take care  
of yourself - make a good use of  
the world's best time - Father -

Washington D.C.

Address to Carl & Muriel  
Muriel was a deck with lovely  
flowers in which she wrote your  
name & address with care. I  
was very happy & glad.  
Mary & Muriel, with the children  
came over for lunch & the after-  
noon. All looking remarkably well  
the babies are really lovable &  
Muriel. They started out at night for  
the return trip. Mary & Muriel was  
so pleased to hear from "Keggs" &  
to have the deck. Be sure to give  
the address 1931 Tatum Place  
Baltimore Md. to Sister at home  
as you receive this.

x x x  
Mary & Muriel was troubled by a letter  
she received from her father & was  
glad to be able to clarify & straighten

Stoullig Carl

11 May 1955

Dear beloved son - your sweet  
& welcome telegram came early  
yesterday day, how much I appreciate  
your loving greetings & how pleased  
& surprised I am always deep  
down in the recesses of my heart  
there is so much not for words  
to say - Our ideals shall be  
as nearly as possible brought  
to the surface & I feel sure  
that with your ever helpful &  
understanding support the will  
carry out for the spiritual  
love & pursuit in all of us.

not in her mind certain questions. She is so  
anxious for her mother to come to Baltimore  
or Newark until she leaves for Kentucky. I do  
not of course understand why your father  
does not - it would be so much better to get  
her out of New York or then I could give her  
cheque in hand to her. She says, but she  
will do if not before. R. J. King able to saddle  
his own cause. I would Mary I would not  
inter of course to the Administrators of the  
as we believed the sooner we were out from  
under that arrangement the better. Court delay  
or other things would naturally advance. As a matter  
she had already written King. It is  
too bad that the local publicity of King from  
F. H. I. should turn his head. Richard Baker  
has fairly. Can stand public notice. It was true  
here in Washington - a big proposition coming to  
them would put a splendid shoulder to change  
the Administration is new to him. Let us say  
you through with it or of course he was in the  
hands of the Court. At simple avoidance of  
fuel to the flame is an evidence of consideration  
& taking of situation. If the Court sees fit to  
come back. It is the one to stand up. However  
he will have to stand even respect. The whole  
business will make a mess to the best of you.  
Mr Paul has been suffered an undisturbed  
sole in being like a rat. It is a terrible tragedy  
or I am thinking of his young daughter who  
benefit. A shock to your family, or she will  
be up in the air just sometime. Not hearing  
yet concerning the death of Edmund we must ride our

just what hold Margy's & Sister's belongings  
The room now filled with our stuff & I  
shall need of course, other pie should  
offer it to your Aunt.

As to the paper at fifty - five quoted  
by you - This is not expensive &  
quite out of proportion - If I mean  
writing have no paper at cheap five  
or five - by Brown - At this time  
it is in the cottage, not the main  
residence - Choose solid or figured  
it will not make any difference  
& have it all alike if it saves time  
& money - In quoting fifty - five, it  
occurs to me that it may include the  
papering, as well as materials & may  
be quite off in this surmise. Paper  
is sold by the roll & the work is often  
done that of it may - I am sure you can find  
some place where inexpensive paper may be

our time. It will afford Sister more  
time in separating her furniture - it is  
a task indeed, so we know of better  
than we do - I suppose she is taking  
her pig - a brace to trim & such stuff  
as she can use in the apartment -  
This done first - her other things can be  
placed - I hope she has moved the  
green garage over near the other  
or rather that as it will be an ob-  
struction to us - There may be some  
articles she may like to have in the  
large room, if so I shall be glad to  
accommodate her - that room is the only  
one to remain untroubled by us until  
another year - In fact, the whole  
house will be up side down - We  
will try to get the order as early as  
possible - The room at the Cottage will

Station episode will be your last consideration  
that you should appreciate Nathaniel's part  
is of great importance since the whole  
incident - historical - seems to be determined  
to take his deserved place from  
him - I shall see Prof. Cooper that I am  
going to March Docket, to write of its  
history as the old timers who par-  
ticipated had a wrong perspective,  
it remains for some residents to study papers,  
manuscripts rather than corresponded &  
words by word of mouth - In your generation  
I have known & crossed with a few who  
were born before 1800 - or in your parents  
generation - their contact & intimacy is noted  
with a few who knew France during  
its Revolution - It tells that - The  
Nathaniel Hart descendants who know that  
he was a march, Colonial or Revolutionary  
Statesman should see to it that he be properly  
placed this time - See Samuel Milten  
that you - please to search the names of  
Harts, descendants during this Centennial

3  
had - I happen to have accounts with  
the appraised firm but am sure we  
could take care of it at market shop.  
You are wise in getting estimates of value  
& to keep the record - for we must know  
what & how we are spending - I am again  
replying to your letter & will see you state  
rightly - you per roll that is - estimate  
I wish this how much it will represent in  
cost - I would be influenced if that - The  
end rooms are not included you see  
as we is now prepacked & the other  
some will be - I can give no opinion  
on the shingle question - you can settle if  
according to your judgment of as also the stable  
purchase - I believe the latter will furnish  
timbers sufficient for many uses - If you  
cost something to salvage - the not steady  
eye saved must give way -

x  
I am delighted that you are to take your  
place in the Regiment - & hope the Regiment

Celebration & will have a Book placed in either  
the La Fayette or Phoenix for enrollment giving  
names from whom descended & where born. I  
think a large & substantial Book for this purpose  
to be checked - Host - Friction & Shelly would  
be a valuable result & award get - The credit  
yourself & put the thought through in your name

Here it is Wednesday & I began this letter  
Monday morning of many subscriptions & in the  
morning post your letter to Dad - I am delighted  
to hear of your progress in clearing up & con-  
cerning the calculation of the Catalog - It is the  
only thing to do - Proceed with it as you see  
fit & the right one in color as you do infant  
so that is settled - Our plans are again  
changed as Dueter has decided to be among  
the figures in the Pageant - All historic characters  
are of value in the world's work - a fitting  
tribute to generations following - you would  
have I gather regard than the intrepid  
pioneer who played the trail - conquering the  
wilderness undergoing hardships & death, the  
Indian arrow curbed Sachaniel Host's  
sternity as he never saw the Blue Grass bloom  
but his vision was clear & unshakable above de-  
spair & his blood & that of his race & in-  
telligent wife has left its stamp in Ky. &  
this N. W. A. - Let us honor them & show our  
kettle for we have all given evidence of our  
heritage - Of course Dueter was in mental  
conflict over himself & Virginia - I left it to his  
integrity & we shall now start by making in time to

a representation of me  
Bill - I found many acquaintances  
& introduced them to Mr. Haller -  
After all the world was well  
for those who know how to take it -  
Have seen Ken Harwood once since  
you left - he came in & made a call  
repartly - his father in law recent marriage  
You seem to have his heart set on a  
boy - when the time comes - I hope he  
will not be disappointed - You have  
given us enough the eggs as it were  
We shall try to see them before he  
goes - It is a speculation business  
slight - all right - You look pretty  
though it all - Linda Kerr has  
asked me to lunch today - I am  
going & shall make several calls - You  
must keep out of social affairs here  
or else be cramped - Mrs. Williams

4  
Wack Lexington by June 1st - your  
father has made his purchase of  
a car - Capt. Patton of the Coast Guard  
has set his approval on the car so  
that he is satisfied - a Buick 1924  
model - a bergine five passenger  
touring car - As all is well -  
The Colonial Dances are now  
holding forth in dignified form  
Last night the local Chapter inter-  
tained at Rauschers - I claimed  
myself & called forth - have called  
on several among them Mrs. Price of  
Seattle - who is just the same woman  
three women transplanted from Missis-  
sippi - Virginia & Kentucky -  
Mrs. Haller is here, Mrs. Kellogg &  
Mrs. Luffell the new Master's wife  
Really the aggregation has been good

Like Mt. Vesuvius is in frequent eruption  
She always asks for you - Do send her some  
post cards of Boston, Oakland or my other  
points of interest in the Blue Grass, with a  
date - She will appreciate it - After all she  
is a wonderful person - wise - cheerful &  
free of her religion - She might be worse &  
never hear of her complaining - Still eating milk  
& honey - Aunties had dates for my day  
with her departure is looking very well - your  
father also seems very contented - I am talking  
by mail - Take care of your self - I know you  
are happy in constructive occupation & letters  
will be coming in - Address Aunt Saturday  
I have faith that all will be well - We  
must keep our minds & bodies active, staying  
as we go along the way - Remember Aunt  
Lily's birthday is May 14<sup>th</sup> - Be sure to ask her  
to go to the store - to dinner or have a bit  
of candy for her - God bless you all  
Love as ever -

Maek
