or favorable conditions for
the better journey in to the
world or as you have not
indicated to the contrary,
take it that the machine
has been tractable & all
that you have desired

or no one more rejoiced in your success
or pleasure in it than I. If you
are fortunate in having every bolt
screw or nut not in place before
starting, that all may be secure.
The lines as far will have laid
the dust & Messrs. Contribute to
comfort & enjoyment. You may
difficultly, whether will be in
the narrow road around the
hills at of Bellinham where the
liability of sliding is to be guarded
against & the on track of other
motors. You be case the situation
pays up - Be sure to notify me
upon arriving in Seattle or my
inward delay in water be-
cause in a change of schedule
or arrival here as I am planning
supper at home & your father
wishes he is due here Saturday ^{evening} on
the Mack Coast Limited at eight

We tell you George has a ink
after that year - I should have
surprised or remarked that I thought
to contemplate his to come to
complete his education - He has
taken and called down just now
to our eyes - music placed the
scene - Peter - Anne - David last
year - Martha - Mary - P. Susan - the
children - Peter - Richard - Mrs. W. -
Peter is headed that he should like
to try it - seems like he is - had my

not telling down to the subject -
I will just read you his
letter & you can see for your
self - for had he should
always come home from a
pleasure ^{trip} in such a
state of mind - You &
Addison must protect him
or give him prompt proof
of your good judgement
at several all look on
life - yesterday saw the
very pictures of the Thomas
Chest & the future looks
current is useful to us

a great place in the Middle West
Ask Sidney, Veters to call on Pa
Caesar yesterday afternoon - George
- a junior from Yale, one, Stein
Rube in Stein perhaps with a
Yiddish - Look what time is a
great - there until August first -
George is quite pleased with
himself - the one hundred to one
shot from George - Under his hat
made him quite cocky - He spoke
of Tom Jackson in a very patronizing
manner, as Thomas had re-
ceived from Harvard a scholarship
for two years work in Rome &
Fellowship later in Cambridge & a
degree attached - This in Archi-
ology - I soon snuffed George &
he had no more to offer - I'll
watch for him again - He asked
for you & how you are progressing &
your work - I told him it was all
that you wished & a tremendous
advantage in the real knowledge
of the profession - Phil Caesar said

who heard the whisper from the
Auntie Foreyths that Grace
Halls is engaged to Sharpe
his cock of Perouse - Not
to be had of course as I am
to give him - Antiquaries
are here from the Turkish in
Scotland & you must ask
them the name of a friend
that you & Addison regarded
much & very nice - both English
peers - Their cottage at Edin-
burgh has been
opened up for as long as
we wish it this summer
Salt-peter - Clean them & sleep
light - at hand - when you are

We shall talk it over & hold on to
Klu. as his health demands such
a change. I tried to see him on
the boat but he was thinking of so
many things & so hurried getting there &
getting away. I know it was a jumble
of facts - however he is always so fair
& I must not complain - it was a
genuine pleasure to have him here
& you must try to influence him to
stay as long as possible take in the
Mountain trip & other points of
interest. Give the Thompsons & Cecilia

my best love & tell them the Chickens
will be ready in the week for them
Remember me to your good old Sunday
My best love to you & Klu & Ed
Bless you
Mother

Secret When

Mr. Gathers & Addison
got off yesterday morning
or left this time on half
way with their packages
The note mailed at Fargo
reported a crowded Car
Mary College boys &
the babies. Weather most
garnerable. Mattie came
out yesterday & will
remain pretty much
this week. We are in
the thickest of the fight.
So to speak & I hope
not settling in the west

If you do not take a run to New
-York or a stop over I suppose you
will arrive early next week. I must
be on holding the job - I must be
away about five. We shall be rejoiced to
see you. The best luck in the world
to you or God bless you.

Monday. Nothing is being done
including strawberries

Mrs Charles Foster asks several questions, her inquiries
in ~~part~~ about my questions I have had the
great misfortune to be obliged to look -
I must of course page ideas however
I had to apply myself to the search here
I returned, this letter has not in
written a check ~~undiscovered~~ I have
no more time to help a Mr Addison & Mr
Tatham is surely well regarded, that sort of man
they are playing I don't know a one for that matter
if they are not, I don't know the social habits of the
Mexican - ~~Elizaveta~~ - The school is in the Park - Mrs
de Moll has done to answer, you too much have a chance
to know - he often goes to Costa - I wish he had written what
he had come to me and you? Is this time you have so little love
from your grandeur - ~~He has a good friend - it is not - by your~~

of my or Malines in Costa,
of the - the then your location
begin at - ~~you~~ & for what length
I used to look up also the
domestic in theatre etc. There
are old friends in Costa
The Grand mother there you
should call - did she happen
to mention it when you saw her.
Miss Mrs Mamma is much better
I hope - ~~Richie is~~
at the English side - I must see
his father come in, asking "is
the water at home" saying her
with so much agility, as to
maintain good - She will return very day

to you & remarks on your kindness in
allowing her to sleep in your bed. She is
growing & keeps well, has good color &
her feet grow stronger. I do not think
she will ever be entirely free from a certain
stiffness in it. Although I encourage
her in walking. Addison is growing too.
Seems rather quiet & not very fond of
the boys. I think he heartily dislikes
John Paul. Your father may be dis-
appointed in this respect. Some how it does
not appeal to me either. Of course he
must remain here as long as it is to
his interest - but after that, good bye
that heart good bye. I called on Mrs
Brooks the other day, but she was glass
lying down & unwell. That afternoon I
made eight calls. Nearly everyone out
of the grippe saved. Today Mr. Faema &
draft his last will to Saint Paul. Sunday
10th was Cappa's birthday. Surely the years
of age. He allotted years has few years
of the strength of strength, he may attain
a longer lease on life. I hope he may
for he is a fine man in many respects &
I am sincerely glad of him. Yours ever
John Paul

Wrote ~~the~~ to Mrs Martha Chapin
He returned ^{home} to eat some cake
& watch some more a high level
Photo people came in to see as
you expression to me ideas -
But as I said I telephoned
you father yesterday & went over
to Minneapolis for the balance
Called at the office in the
Security Bank Bldg. where
he is being escorted. Col
Ripley agrees to tell other
half on receipt the surroundings
are more essential & fancy -
Do you get anything either from a
Mink character or that matter in

Alfred took the time to go to the
Mink character from the hyper-
mezes have come all last
it he had ourselves engaged
by twenty below zero weather
it fairly makes me shrink
that for I recall - you certainly
I am especially as Campbell
at West - yesterday I telephoned
to your father that - very
much desired to see Mr
Patrick Campbell as well as
Gaber and of Mrs's (Harvey's)

Thursday January 27th 1910

Am interested in his Dramatic Works. Am
more keen for study than in actual im-
itation as his ideas are so well defined
that no one who reads can feel uneasy
for the message they give. I did not
see Gaskell & Mayne pronounce it
genuine & some feared. Of course the
stem realities of life have not been
properly seen. Undoubtedly the production
of great literature is distress. Gaskell
we must all think. Kadda Jaber is the

type of woman who does not allow the
blood to circulate freely though her mind
has no objective ideal in life &
ideal is intelligent. At the same time
a crazy woman - possessing jealousy
that trouble her in which she finds no
good results. When you are older you will
no doubt see the plays & form them from
the proper side. Can dida one of Bernard
Shaw's characters a dramatization of
the book. Was most interesting. I was more
than interested & was deeply stirred. Mr Bradford

Leant Gibson. My trip was a quick
one. Then I found Addison had been
accepted which I did not know
until Wednesday. I immediately began
preparation for coming this way. He
seemed to have a deepening sense of
the obligations of the White Commended
him for composition. In fact this was
about the only thing he really could have
give indication of much as I know his

Education papers were not exactly
available to him or his former teachers
his training will be good for him & the
"old - mad" atmosphere is not to be
tolerated at Northview. I hope you
are comfortably established & at work
in earnest. I remember I know that
you can accomplish anything you wish
with perseverance. Let us hear from you
soon. The house seems deserted with you
gone. It is a happy to feel that you are both
