My dear Friend
Nottingham May 12th 1845

I write you a short note, some time back (say about 26th March) I enclosed you a check on The Bank for 500 £ from Mr. Weston, for Mr. Weston's share there, I have some of your papers.

I have a letter from my agent, in which he gives me an accurate statement of the 13th of Paper on hand. I find the papers, less in quantity, than I had supposed. I had certainly forgotten, that I had note drawn from them - a quantity of Knapp's in I am left - which diminishes the supply there. Indeed, if the note turns out well the quantity drawn from you, will not be less than 2000 £. At all events, I will send a portion of the supply from you, - before 17th inst.

As then, in reference to the order for Stack Island March. When I last heard from them, - they respect for a good cup was very fine. In this country, the reverse is the case. In terms of what was my plan, taken, in the 4th March, in the 5th - which materially improved the latter cup.

Please let me know the quantity of Knapp's cup to be drawn - I have ordered - for each place. viz -
For Stack Island March

L. August -
Estates of Corom
P. Dummer - West India
and for Estates of Society at P.O. I have no account on my books of the order - as last received.

of the crop in the River, seems to indicate no deviation, it will require some keeping than I have ordered - unless I have misstated in the order which I suppose I did. It is possible - however, I think, in my last order, have taken into view, the quantity received from the on hand here.

The water probably came, between the 20th & 25th of June for the North, by the way of the South to the Lakes. - It is not absolutely certain, but only in conjecture.

You have had a very wet month of April & up to the 1st of May. The crops are all suffering from the excess. I never have had so gross a crop. - But crops will be ruined, for the supply of a greatly enlarged consumption. If the crop of the year 44 reaches 24000000 bushels - (I have inclined to think it will go to 24500000) you shall not make less, in '45, under an ordinary & dry grain season, & with a prosperous season, will be more likely to be over 3 millions, than under 2,700,000 bushels. - But it is scarcely possible, has been in uniformly prosperous season, - throughout the whole Western region. In L. & M. Ips., the seasons for the two last years have been most unprosperous - which in Alabama & Florida & the other two states this evening season has been the case. - It is true, you should be a little forward.

I have nothing of interest to communicate. and write - merely for the purpose of intimating - my wish that a portion, at least, of the supplies for the Island-Receipt should be shipped - before 1st Oct. and to request also, that you will forward some with a view - of my last order for the 15-9 to take for the various points of destination.

Respects for Mrs. D. -

I am yours
Thos. D. [Signature]

My dear friend

I am in receipt of your letter of 24th ult. I must have had much trouble to send you my letter of 13th inst. & for I find I left out the quantity needed for Mitchell's Landing & for L'Anquet plantation. I am enclosing my order as follows:

For Stack Island Natchez - 4 miles above Providence - Mississipp side consigned to Mr. C. Wood - 5000 y^{ds} Bagging
5000 lbs. Rope
100 lbs. Twine

For L'Anquet plantation - 1 mile below the head of Four children Island Louisiana side - consigned to Wm. P. Cochran - 1000 y^{ds} Bagging
1200 lbs. Rope
20 lbs. Twine

To S. Deane's Mitchell's Landing 22 miles below Natchez - Mississipp side to same as above 3000 y^{ds} Bagging
3000 lbs. Rope
no Twine

For estate of Leuten 4000 y^{ds} Bagging
5000 lbs. Rope
50 lbs. Twine - consigned to Mr. Jackson also New Orleans.

For estate of W. C. Cochran - 1000 y^{ds} Bagging
1400 lbs. Rope
25 lbs. Twine consigned to Baker & Little Natchez.

If any specimens can be found, you present fear
 death, the above will mean that suffering, you allow
 except Stacks Island reach. of the present there
 I cannot speak, having had no letters in intelligence
 But of the date to the Bag, have been as destination
 there, as they have been in this country, - the order for
 that section, will be amply sufficient. - I have seen
 the complaint to land as no specimens, - of the stands,
 as exists at present. I have asked for all the skins
 above written, - as possibly, greater than ever required for
 that work. Indeed, the excess - is in fully 1/2 the
 greater than used in making the last batch.
 I hope, part of the supply, for all the papers -
 except L'Argent - & State of Louisiana will be
 in. before 1st of August, and may be used early next.

I am truly sorry to hear, of Mr.
 Clegg's affliction - in the condition of his son. This,
 to a sensitive parent - is worse than the defeat of
 political aspirations. I understand from Mr.
 Mann, that he expected to visit Mr. C at
 St. Louis. Owing to the misfortune which
 befell my son, I am - (the breaking of his
 thigh on 28th ult) we will not be able

to leave before the 26th Decem. we had intended
 to have embarked on the 9th. - Dr. Mann goes
 on the 9th.

If you should be able to see drafts on New York
 on more favorable terms than in N. O., you can
 discuss on our payable at the office of B. P.
 Leveque New York, for the whole or any part
 of the amt. of the bill for Bag's Paper & terms -
 payable 1st Dec. next, which I believe was the
 terms stipulated for pay^t in N. Orleans. ~~It~~
 This, you can do, whether the Bag's & Paper be
 ship'd at the time, or not. I will not expect
 us to be there ship^{ts}.

Dr. Mann is a court, gentleman, intelligent
 man; & of great purity & integrity. He is not
 quite as efficient as he might be - & has a little
 too much of the habit of procrastination, - which
 for a business man, is a capital fault. - I was
 not aware he had been to Lexington. -

I have asked my nephew of Mann,
 my regards of Mr. Mann,
 I am yours &c

My dear friend

I have your letter of 25th & will be glad
me. The Bussing & 1/2 fee for the Estate of Coombs
may be shifted to 9. 13. 1895. Also return. B. Beck
& Little. Watch. Please make separate bills
for this & for the lot of Estate of Littleton.

My 4th disburse look - was not half a cent
less. There is more on that estate than half a cent
left - than was used for the 25th of 94. The sum is
the use. best to ascertain either in any case or later
and I will work you. But the next case may be better.
If it be not - & the pieces should be the same, I shall
have to borrow money to pay blanquette app.

I am surprised, it would be worth for you to bring
to my friends here - to send them orders to you. They
will only contract at disputed pieces. Not trouble
who require more than any other of my friends - say
15000 to 18000 of 1/2% & a proportionate quantity of other
has enough of 10 & 1/4 delivered, very often to
to go as high.

I have not a doubt, a few articles of brass work
has bought in Louisville for cash before 17th but
next at less than 9th may at 8th 1/2.

Be particular, in your ship to Starks Island reach.
Consign it to "M. B. Wood Starks Island Reach, about 1 1/2 miles

I wish when you send the bagging to
you - you would send to Mr. C. Wood, a small
quantity of Tobacco seed - enough to cover or about
15 acres - & give him directions how to plant it & when.
Please send me too, some of Peaches & Apples, enough
for 8 acres - with similar directions.

P.S. I have just been told Mr. Gley offers to deliver
Bagging at 12th parallel in Sept. & to guarantee it
will be 1 to 20th & you better have any doubt to this
respect. He has just been appointed in my office
but as what are his views - I have not.

Sept 13. 1875

My dear friend

I find that the Estate of his tax, - has on hand, left from last year, 5400 lbs of Rope 35 lbs of tar - & 2804 yds of bagging - and will need for a full supply of the largest work made in the last 5 years - only

2400 lbs of Rope 50 lbs of tar - & 2400 yds of bagging. The estate of Comber has on hand 1380 yds of bagging 1200 lbs of Rope 5 lbs of tar - and will need for the largest work ever made on the estate - in addition - only 1000 yds of bagging - 1400 lbs of Rope - 25 lbs of tar.

I have very well - more bagging rope & tar - than will come 2/3 of the largest work I have made, in the last 5 years and will only need for the 2 works to be made 4000 yds of bagging - 5000 lbs of Rope - & 50 lbs of tar.

I had written these few lines - when your letter of 5th inst was handed to me. The sample rope you sent to Mr. Meigs; was twisted too hard, - & broken more easily, than the rope I had on hand. I believe to the 2 coils mentioned in your letter - which you sent Mr. M. - one of which I got, for trial.

I suggested to Mr. Swift & others of Mr. O'Leary - that a fund should be raised of 100,000 \$ - & placed in the hands of Trustees to be invested in Govt. stocks - & the annual interest paid to Mr. O. during his life - but his death to be employed in the erection of a monument.

But the plan of paying his debts in the way you suggest is better - & has no more engaged in raising an estate.

My dear Sir

I have delayed writing to you. I had
of course all efforts to make contracts for you
sufficing to hope - which may find here.

I have now abandoned all hope of success. I don't
believe I can't engage 10000 of ⁸ ₁₀ at 10th payable
11th 1895. The impression seems to be universal - that
the article will not command more than 10th
at any time for the next 12 months - & a large number
think the price will be 8th - or not more. I
should not be surprised to see it down to 8 - before
11th of 9.7. And at that price - it would be down
even - present & probable future buyers of
cotton being considered.

I write this - that you may be at me
affair of what you have to expect in the way
of contracts.

My Dear friend

I have just rec^d yours of 5th inst. -
The funds raised here (12000) were committed to
Mr. Mason. who represents the cause exposed to London.
I trust from Mr. Elliott has expected to receive 4,500 or
more.

I hope you will be able to send me some
tobacco ^{some} that the bag? & hope will come by that.
Several of our planters are going to carry hamp
& make their own bagging & rope sheets & send
down here sent orders to Virginia, to see how
hamp & ropes to spin & run at North River and
hence. This they can do. & make it out there with
our 8 1/2 a yd for bagging allowing 3/4 to a yard for the
weaving. But the weaving can be done without
the least interference with the culture, or gathering of
the cotton &c. & a set of 12000 of 3 bags &

15000 lbs of Paper and 250 lbs of Twine has been
made at 10 1/2 & 10 - delivered at various points
on the River - perhaps 10000 up to N. Orleans.
I mention this merely to show that there is no possibility
of my being able to make any gains for you.
I am sure of the check for 5000
made - It was made up by 10

My dear friend

Your letter of 21st ult. has just come to hand.

In regard to J. G. I may say he has the means to pay his debts, but is probably slow to do so, I would not trust him as a surety for any one. He is universally known here, as wanting no man's credit. His name can be made out of him when in doubt. But if secured by security, it may be a very long time. If Mr. G. is desirous of getting the balance on the bond of Mr. G. I can recommend Eyster & Chapman - as among the most careful & the most reliable, & prompt in settling.

I think Mr. Davis has a claim of long standing against Mr. G. which he has been unable to collect and he is unwilling to see. He has a handsome property, & what he does with his money, we know not. I don't know of any other business as I see this confidentially by some. I will see Mr. Knight & let you know what he says about Mr. G.'s property. I doubt if he will order to it. If you don't have time now to do so, after rec^d of this - you may conclude Mr. Knight's account the best way.

I have this moment rec^d your letter of 27th Oct - with Bill in P. G. Gordon of \$339.66 Mr. G. resides in his plantation - about 8 miles from the Town of St. Joseph. There is no Bank at St. Joseph & I have no friend there to whom I could send the bill for collection. I have written Mr. Gordon to send you his bill in his own Merchant - at 10 % sight for the amt. I don't think he will do so

In regard to the note referred to in your letter, you can assure Mr. S. that it is not worth one cent. Each & every one of the parties, has taken the benefit of that sweet glorious, first & upright Whig success the Bankrupt law. I think, if any thing could be done to damn a party, - it was the purpose of that law. I begin to think, we have many rescals accomplish'd whig manner. In New York - a great many; & in other places, equally a great. Look at Judge Cleveland & Mr. Pias com. b. - both Whigs - both de-functs & fugitives

My dear friend

I have your letter of 15th inst. & you will have seen? mine of 21st inst. & having my bill for \$53.24 - which I have sent you to satisfy truly to me.

I note your remarks about the receipt of Baggins & take heart for you may be correct. but I still think, no higher letter than mine now prevailing - will be paid hereafter, - taking a period of 10 years to settle.

I have enough on hand, for working up some as this - or may easily so, but will hesitate but to supply, certainly for 4 such cups. I don't believe any situation, would be so good as to contract for a larger supply of the cups of next year, than he needs for this, and I am sure, there are a great many, who would be glad to buy in the same time 1/2 a dozen a cup as this year. - I will not engage a single yard of ground - myself - having enough, to buy all I shall want, by 1st of 1st inst. to be by that period, I shall be able to take some much more if any, I should need.

I know, you can buy cyphers in New York, in New Orleans, or in 1st of June, - at fully 1/2 per cent. lower than the rates here at New York - there is at all seasons, fully 1/2

you & I differ in the latter - in a sense of
justice.

I am not certain, that I should have
any grounds to draw for, on 1st June, & do
therefore, can't say anything definite on the
subject, at present. As the point for your
interest seems to approach, - we may per-
haps come to some understanding, on
the subject.

I hope to have long enough, to see, how
the S. Carolina cotton plantation, have their eyes
opened, to the various effects to their in-
terests, by their opposition to
the Protection policy. The determination to
work short times at Manchester, for
the purpose of keeping down the price
of the raw materials, - must satisfy
the most prejudiced, that but for
the American market, the plantations
will be wholly at the mercy of the
Manchester speculators.

My Dear Sir

I return you the letter to G. Gordon.
The 2^d has been destroyed.

I will mention the specimens - that before 11th Oct. you
will see bringing - however there it has been seen
and all four specimens used by the current
combination of the manufacturers.

You have heard a very great & beautiful spring
quite as much so as that of '38. Nearly all our
planters have been compelled to plough & plant
sooner than the time. I have had very little
of this to do - having commenced to plough - 15 days
before than last year.

Will you have seen some the beginning of war.
and who can tell when it will end or how far it
will extend. What a mess - even a good Government
badly administered us. I begin to doubt whether ours
is a good Government.

My dear sister

I have just recd your letter & the first that has come to hand from you since July last.

I have determined not to purchase any more negro property, although I was to had the opportunity & I must allow the number of slaves purchased since of late, which with the addition last year the number of my effect in hands has been greatly reduced, but I have not been able to replace them by purchase.

My dear Henry & my desire to explain his is in a letter to him at present. I will show him your letter as soon as he returns.

If you think proper to send him by my letter, I would be glad to see it all through you, but I would not purchase myself.

We have had a winter season of great favorable weather, especially the first part of the year. Our fields are to be unusually enlarged & but it will not fall good about of last years & of the year however my family are all well.

(without date) on the subject of contacts of Bassing & Nip.
I had made no engagements for you. Inconveniently your letter
came in due time, to meet my movements. I doubt, whether

I presume you are aware, that we have another view
in the Nip. - said to be - from St. Francis & White River.
There are short rivers, & will soon empty off, but they
furnish indications - in which we may rely - that they will
soon be followed, by floods in the St. Lawrence & Red River.
which will keep the Nip. off! at an immense height,
until the Nip. rises, & then, a very high
River may be expected.

Some time has been given away, since you proposed

Stark Island Receipt
Apr 15th 1847

Just as I was preparing to conclude
for this letter, I rec^d your letter - and the
subject of Baggins & Paper - and will refer
to Mr. Elliott & Mr. Davis. Mr. E. seemed
to think most desirably, if the proposal
to be granted by the Board at least will
provide a definite period - say 15th Oct^r
was fixed on. For determining the price,
I would refer to the same for as -

Reference to the same sheet
to be sent at once to the
15th Oct^r as specified in the
of the Board

If this proposal is acceptable to you - please
be particular in the making - each lot separately
& distinctly; - & furnish separate bills - so that
I may settle accordingly. And also - describe
the place of delivery; - so that there can
be no mistake. - Trust

in such cases, as you may designate.

Indeed - I shall buy every bottle
by high water - not 20 acres. The beach
has fallen here, 4 1/2 feet, & according to
your list, this morning, a most severe
storm of wind & hail & rain. I have not
yet been able to go out, to observe the
effects.

Nearly all the plantations behind this
have suffered severely, from the high water.
Mr. Marshall loses fully 400 cases to be

had not for an acre in '44. Many others
who escaped in '44 since suffered severely
this year. Below Schoharie; - the left
side is still more severe. As I hoped
looking on the 28th the water had only
fallen 1 1/4 inches - & was rising every
day. This was owing to the typhoon,
and I doubt if it falls 6 inches at least
before the 10th May.

I am yours truly

P.O. No. 1

Sept. 18th 1857

My dear friend

I rec^d your last, while at Senate
go, & just previous to your leaving them.

I have no doubt, you will be your usual

staunch, & provide for a general, but gradual

emancipation of the slave in your state. If I were

a perfectly bold man, I would not object to this - provided

in the state, I would not object to this - provided

it was gradual, for I am sure, it will in-

crease the value of all other property. But men will

think differently at a distance, from what they would

do, if brought close to the question, & in immedi-

ate contact. - Hence, whether the time of sale be

the same, it is not to be hurried or avoided, - &

it is the part of Philosophy, - not to put me what can

not be avoided. The voice of the majority, in

this good Republic of ours, - must prevail,

and so far as we may with a measure of safety, it may

prevail - without opposition from you.

You have watched care^{fully} for the best result

in relation to the cotton web. From the Atlantic

states, - including Mexico & Florida, I believe it

will be 150,000 bales less than last year - to gain

all other sections - it will not be 200,000 bales more, &

may be not 100,000. In other words, my belief

is that while the crop, will not exceed 1850.000 bushels
under the most favorable fall, & it may - under
an unfavorable one, - fall below 1800.000 bushels.
In fact, I think, there is a strong probability, that
it will not exceed the crop of '46.

I understand, Krugger & Phipps is wholly under the
control of speculators, - & if this is so, - it may keep
up the price. - If they have the reputation - to hold
up their stocks, - present prices will be maintained;
- but certainly, the legitimate demand for the ar-
ticles, could not maintain prices reaching past some

two or three weeks, - after they
begin to move - which is to take place in the 5th
of Oct. The market in the cities, is low, - & we
may be compelled to take the same sort, to
Sunderland, & thence to Bremen & the -

I have nothing of interest to give you.
The fashions in England, of almost all articles
have been united with the grain trade, - while, I
fear, - be felt in N. York & New Orleans - &
probably St. Louis & Cincinnati. - The fashions
of Paris have also will soon be heard of.

I don't think, they will ever pay 10^{cts} in the
dollar. They can't - it is said 430,000 is now specu-
lating in flour. - but this I don't know for.

Permit my regards, to Mr. D &
your family. - All mine, - I am
about as well as ever.
Yours friend

My Dear Friend

Dates Feb 18. 1838

I have just rec^d your 25th ult.

In regard to the purchase of the Waggon & other articles, I have been very anxious, in the interest of that party, to have seen that the same articles should be the best, and the purchase made on the most satisfactory terms to all.

I directed, and advised you, Mr. Elliott to bill me \$25.00 for the same, being the same amount to wit.

Since seeing Mr. S. the agent of his claim for the charges in my ship of his B. & C. & his to my friend James

Spicer, Mr. C. Wood paid charges \$25.00
return from F. Adams. 7. 16.00 \$41.00

which I have charged to your acc^t.

I see the single saddle of New York bought you, it had been in my good order, but I was no judge of the article - some by some party it, but when brought to the store, it was

to our order. The boy who 3 saddles was without any letter. The money it was for you, & that you could not deliver all 3 for me. I went over to Mr. Elliott to have them

to Mr. Wynn. You letter me 2 weeks after. He had bought the same description of the saddle

and I am glad I anticipated your wishes
and I have so notified Mr. M. & Mr. P.
They have also seen the Prof. as he has
but not yet had it. Accept my thanks
for the same.

Please send separate bills to Mr. Briggs
& Mr. Lewis last baggage to Boston &
etc. the same - at least to me for the
moment. Please do send them direct
how the circumstances should be made. Checks
are still worth 1/4 percent here.

The bill I sent you at 7 1/2 days was mis-
taken A. I. in N. O. I ordered in others
for you, to take the residue of the 10,000 \$
for my own use & out same rates.

I have no objection that you should
the parties as the case last of last evening.
The possibility of paying in the year is N. O.
Indeed I thought you expected it - particularly
and that was, except myself, was bound to
pay in N. O. & I was bound to pay in
N. York. If it had been otherwise, I would
certainly have paid in N. O. as I should
I have said the previous I have it &
in the N. York checks. I think I must
think the subject of receiving to pay in
N. York or N. Orleans at the option
of the parties, & you expect it. This
was in connection with no domestic
last July.

I find your make, in the last statement for
me, 35 pieces - passing 148 7/8 cents. My
agent reports me pieces of 38 7/8 - say 18 pieces
11 1/2 cents - and 1/2 makes the total of 148 7/8
is specified. - The difference is 14 7/8.

Mr. Elliott is now in N. O. - when he
returns, I will pay him the bill of charges
paid by me. After the return at Fort
Adams, and makes out a bill of 25 1/2
for charges on the baggage to take sent there
by my truck, is stamped to me. The 1st. as
sent last of June to Adams to St. Charles Island
New Orleans last 16th. your ship the
agent, in Louisiana, ought to pay this bill.
But should not to over each
one of business.

Yours very truly

C. D. Sullivan

my dear Sir

I have just rec^d. yours of
14th inst.

as I have given Mr. ~~Low~~ ^{Spencer},
that his order is filled with your suggestion,
I must of course rely on its being so.

I will not bargain with you for a single
yard for myself, - until all the orders
leaving through me are executed. If they
failed to express myself to this effect, &
consequently sufficiently strong - I can only

say, I have been unfortunate. I give no
order for myself. I returned to you
until all the orders passing through me,
are executed. I only write (as intended
to write) to know whether you would re-
ply me after supplying others.

you must allow me to be fastidious
on this point. I will not consent to change
my position. If after supplying others
you have enough left to supply me, you

can let me know on my arrival at
Lancaster. If I am not committed to
Messrs. Girdwood & Co. I will then open a re-
gulation with you for what you can see.

Very truly yours,

I am no fisher, nor skater, - in the places
of the manufacturers. They will be made to remain as
themselves - as I am much mistaken. If not then
certainly next year yours

Handwritten signatures or names, including "D. W. ...".

My dear friend

I have at last obtained from Mr. Elliott a receipt of the acct. paid by him - showing an amount of \$13 + 73. at Fort Adams. The amount was - the acct. was not paid at home: - well for he saw the Bill of Lading - with the amount of the goods - "of the acct." -

I have a statement by acct. showing that they ordered W. Packman to remit \$1592.04 - via an undoubted bill in 74 very safe bills - & remit the amount to you.

I think it is a pity that Mr. Packman had not kept him at home. He has exhibited a selfishness in his conduct - in not allowing to see the last of Mr. Adams - which was only his account for in his inordinate love of robbery and extortion. But this is tender ground to dwell on with you. -

You have a very kind remembrance of me and our abiding in every respect.

I am yours &c

my dear friend

I have yours of 8th per. before me. I thank you for the repetition of your offer to have my rope manufactured for me. I have ordered from H. & Co. for my cotton - to have purchased India Ruggery.

The hoops were sent about 4th per. The Brazing wire sent about 15th per. It is 48 inches wide & averages 2 1/2 lbs to the yard. I used the thin & equal to the best that I could get at 18 1/2. I find it will take 1/2 an yard less per cable than the handspinning.

In regard to the rope, I have only a few words to say. The experience of the last 3 months, has completely satisfied me that there exists no other, so superior a set of Broom ropes, as in to be found among those mentioned in our first statement. I have been diligent in the search, I would please Mr. Long, & myself Mr. Webster & Mr. James Brown. I am much obliged to you for the information you have given me. In the course of our search, we have seen many specimens for sale, and I can assure, with truth & with confidence, Mr. Long's rope to be the best we have seen in the world for the same weight & quality of rope.

Henry J. Brown

such a man gives him - thus I did find
Verulam. But I now think - of the two - Verulam
is perhaps the best selfish.

I am not surprised - living as you do, in
the vicinity of the great Verulam - that you
should entertain a prejudice, the opinion in you
do, in relation to Gen^l Taylor. No man
breaching the sacred atmosphere of Gen^l Clay -
has I should not vote for Gen^l Taylor - I believe
he will be elected in support of the oppo-
sition of Mr. Clay & his friends - & the feeble
support of Mr. Verulam. And I further be-
lieve, the party can well spare Thomas
Geary Mr. Clay - Mr. Verulam - Mr. Liddell
at some seasons. I shall endeavor to be
correct in my sense - never to trust a leading
politician. But when they & I see each other under the
bed - that if the Gov^t is ever to be freely
prosecuted & impartially administered, it must
be by honest upright men - of plain common
sense - whose principles are firm - & who have
never mingled in the dirty party of politicians.
You speak of Gen^l Taylor "as a man of
no principles". This is unjust - and I dissent
very warmly. His principles I believe have been
more distinctly avowed than those of Mr. Clay.
But I will not discuss this matter with
you. I probably can do little for the result.

As far as it can affect my interests and
my happiness, as any man living,
I believe I detest Gen^l Taylor's statements, -
for I consider the word honor, - as nothing
more than a disguise, with the intent
denigrating, to the means of a man's selfish
ambitions.

A man had enough in nature to be true,
to make success in the way he did. But he
made more in it in the way - some other
persons than his supporters - we had no
right to expect so different a course. It seems
now to think, that men intend so great, - could
play so mean a part.

If Kentucky is to degenerate into a profligate
land of the dissipation of a reputation
of Mr. Clay & there are the people of Kentucky
more degraded than I have supposed them.
No, my friend - Mr. Clay may have done
good - or what is as bad - with his
support of Gen^l Taylor - or he may do
worse - he has not for his future friends, - & there
are men in Kentucky, just as patriotic
& less selfish, who will support his cause. It
is a thousand pities - he had not lived in '44, nor
truly - for his name politically dead - & what
is worse - morally dead too.

I write as I feel & as I think &

Apr. 18. 1848

My dear friend

Yours of 2^d inst. I found in
 my return gave thanks to God & friends.
 I have some doubts of the matter - but
 not all - indeed for the purpose for you
 B. R. & J. They declare giving you from
 through the late express themselves willing to
 "pay nothing for a good article, than for one
 expensive one." They would not in fact give
 their money - I'm willing to give 10
 sh for your article published in 1847 & 1848
 or 6. I don't think they can be secured
 up any higher. In fact - I should expect
 if the new issue ever comes out to be
 unprofitable. As the prospects for other, remain
 more as they now are, - I may, would be
 more likely to return than otherwise before
 this office of 2^d inst.

I don't know, that I will need any
 for thanks to God & friends, - for I have
 every prospect of being rewarded, for the
 books as Mrs. Burgher has also me.
 Certainly, the prospects for other, remaining
 are gloomy enough - and I should not
 be surprised, if there should be nothing but
 turmoil & trouble throughout all Europe for the
 next 10 or 15 years. Such as I fear will be

H. T. Deane Esq
 residing in
 New York

fatal to the Planting interest. but either
w. not be worth 4.5% call, and we
should have to manufacture our own
freight & paper.

I will not discuss politics with
you. I have always said & will now
say I w. prefer Mr. G. for the Presidency
to any other man living; and I have
long since said, I was sure to vote for
any other man. While he is living.
I w. not prefer it however, but Mr.
Cassins was one of the Pres. of the
U.S.

I think the country is on the
eve of a crisis - a whole wide region
someday expected me, to read out
the Gov. & and I cannot accept the
sentiment that "Object under Mr. Clay
is better than success under any other
political man". I was wrong as was you
& 4 years ago, - that is? have been
my sentiment. But it is not now.
yours
Thomas D. ...

P.S. Hereafter - you must give particular
account - & explicit instructions in regard
to the disposition of your funds. I will not

again take the responsibility of advising
or deciding. you must either say
"must in you no checks at account books
at holds" or "tell us in the letter to N.
or leave for interest." via North's exchange
at 60? at least rates."

We shall leave for New York - we intend
to reach there, 29. 20th & we will run
back, for 8 days, to then to Philadelphia,
where we will remain, till the 28th
probably 28th Sept. We will then
turn our faces homeward, but
by what route - I am, at present,
undecided.

I am yours

My dear friend

I have just recd. a letter from your kind Cousin
L. & I have not committed to him

after you have satisfied all the orders which
have passed thro' my hands. ~~for~~ and then you
feel obliged to file from others. you will please
say what quantity you will have left.

One half - or $1/3$ of the quantity we have in
the room - will suffice for you - please
did you find at the last instance - to give
with the order. I would think - with hands
at 3.75 (last quotations 3.62 1/2) - you would receive
more at manufacturing - than at Wholesale.
particularly - if you could sell at 12 & 8.
But this is a subject you understand better
than I do.

If I should not meet you at Louisville -
(and this may be so - for we may have to go long
the way of St. Louis) write me at Sacramento
shewing - what quantity you will have left -
after supplying any engagements already made.
including to Jones & Mt. Elliott. or in other
words - what portion of my order - you can sup-
ply. If you supply any part - please send the
destination of the 4500 - or 5000 bags for the Order
& 75 lbs. term order for Hutchins & Co. - to
let it be assigned to Baker & Co. New Orleans.
In haste yours

My dear friend
I received your letter of 30. ult.
I thank you for your friendly offer of having
my robes manufactured for me. I have not yet
made up my mind whether to avail myself or
not. my present inclination is - I will use
Cassimere bags - as India bagging. I am hoping
I shall not mind at making large robes. I have
well spent the time to put up my robes in
two boxes. I have seen 25. 25 for hats in which
I am changing.

I made no contact with Mr. Duran or
Mr. Elliott. I was not mentioned by you - nor
mentioned by them, in either of them, to do so. I
understand, (or rather infer from your letter) -
that you felt bound to send them first. They
being uniformly ruled in your favor - by the
three supplies. I once as usual mentioned to
Mr. Elliott, that you wished his advice - but
never mentioned the names of Mr. Duran. I
think added - "Mr. D. as I understand - writes in getting
your order as the same terms he does others."
To Mr. E. when I last spoke with him - I said -
"Mr. D. has all his orders of apt yours to do."
It is very curious to know what you will want.

and I write to him - that you & Maria being
just Maria - must be united in a
in a joint way.)

I don't give any light this
morning - having a little head-ache.

My dear friend

Yours of 10. 5. 7. I have to hand yesterday.
I will keep Mr. Elliott his claim as soon as I see
him. and I will charge you with same & also
with J. on 13. 7. & hope from F. Adams. your Father
must be a bungling art. to make such mistakes.

The buying & selling last advised by me was done
on Sunday night 16. 5. - though your letter led me
to expect it earlier.

The following is the name of my agent - taken from
the Bill of Lading. or rather the receipt.

If I am not mistaken I ordered the same
for S. M. Davis that I did for H. T. Brown -
why one should receive more than the other, I know
not. I think I ordered 1200 yds. 3/4 1800 lbs
rope & 20 lbs. tar for each.

Please make me an acct. so that I may
remit balance due you - to N. O. for remitt.

My dear friend
I have just read your of 16th inst.
The number of cases taken up to 23rd inst. in
the Parish, - number 103 - 1/10th of them appeared
before the court, of great intelligence, and
with all their views, we found to see, by long
conferences, to be the fact, that they had
been treated so largely, by their labors, to my
I suppose the most in their vicinity, during the
absence of the Epidemic, - for I received many
expressed letters, commending the intelligence, that
all my means had fled in vain. I was
sick myself & unable to go up.
This morning, received no very pleasant
news from length of time - It occurred on
the 4th inst. - the epidemic in the 1st returned
with the 14th inst. - the epidemic took a severe
course - for 6 days - then returned with increased
severity. The character of the disease, was
usually malignant. Breaks occurred, in some
cases - the head of the cases, - in four 3 to 7 hours
& in more than smaller head - for 6 to 8 hours.
Many died, in 3 to 3 1/2 hours - & without a dis-
charge in their way. The first symptoms were
in various directions, in the stomach - with a swelling
of the eye, & collapse, in 1/2 or 3/4 hours.
I think the whole number of cases treated, was
over 900 - for several had the disease twice.
4 of the victims had it, over 4 days, and it returned.
