dress in case you find it necessary to have it colored. I shall feel very much obliged to you if you can attend to this for me and will try and make up for it when I come.

Please notice in the front of the skirt a grease spot which was not taken out by the dyer here. I leave it entirely to you to select the color if it has to be colored.

But I must hasten as I have a great deal of work to do. We have already this fall made 8 dresses, large and small, calico and merino and have 8 more to make, beside the one I send to you, so you see I have no idle time. I believe your Sisters look for Charlotte and Eliza up this week. Please remember us to all Mr Hunters family. I hope to see Mr Worrell and Mr Spillman when I come down. With love to my Dear Brothers and the children and to Willie and a budget for yourself, I remain as ever

Your affectionate sister
