PREFACE

The Inventory of Federal Archives in the States is one of the products of the work of the Survey of Federal Archives, which operated as a nation-wide project of the Works Progress Administration from January 1, 1936 to June 30, 1937, and has been continued in Maine since that date as a state project of that Administration.

The plan for the organization of the Inventory is as follows: Series I consists of reports on the administration of the Survey, acknowledgments, and general discussions of the location, condition, and content of federal archives in the states. Succeeding series contain the detailed information secured by workers of the Survey, in inventory form, a separate series number being assigned to each of the executive departments (except the Department of State) and other major units of the Federal Government. Within each series No. 1 is a general introduction to the field organization and records of the governmental agency concerned; the succeeding numbers contain the inventory proper, separate series numbers being assigned to each state in alphabetical order. Thus, in each series, the inventory for Alabama is No. 2, that for Arizona No. 3, that for Arkansas No. 4, etc.

For each local office information regarding each series, or unit of related records, is presented in the following order: title, inclusive dates ("to date" indicating an open file at the time the information was secured), general description of informational content, description of the system of filing or indexing (if any), a statement of frequency and purpose of use, form of the record itself (bound volumes, sheets in folders, etc.), linear footage, description of the containers, physical condition of the records (not stated if satisfactory), location by room number or other identifying information, and finally, the number of the Form 58SA on which this information was originally recorded by a Survey worker and from which it was abstracted for the Inventory. This form is on file in The National Archives. When it contains substantial information on addenda sheets which has not been included in the mimeographed abstract, indication of this is given by use of the reference "See addenda."

In Maine the work of the Survey was under the direction of Judge Edward K. Gould, Regional Director for Maine, New Hampshire, and Vermont, with Ella C. Newman as his assistant from its inception until June 30, 1937. Since that time the Maine Project has been under the supervision of Ella C. Newman. This inventory of the records of the Civil Works Administration in Maine as they existed at the time the survey was made, was prepared in the Rockland office of the Survey.

CIVIL WORKS ADMINISTRATION
STATE DIRECTOR
Post Office Bldg., 125 Forest Ave.

The office of the State Director was established at Augusta in August 1933 and continued in operation until April 15, 1934 at which time the FERA took over the activities of the CWA which was then disbanded. In July 1935 the WPA was organized, which organization in 1936 took over the activities of the FERA. On August 14, 1936, some of the records of the CWA, 53 filing cabinets, were turned over to the State Disbursing Office of the Treasury Department for use in settling claims; May 15, 1937, they were sent to Portland to be stored in the basement of the Post Office Building, where they are now in custody of the WPA. No information is available as to whether any of the records have been lost or destroyed.
