UNIVERSITY OF KENTUCKY

University of Kentucky

1955

Summer Session

JUNE 13-AUGUST 6

CURRICULA

The University of Kentucky, a land-grant institution, will offer eight weeks of regular summer session work; also inter-session and post-session courses. Courses will be offered in six colleges—Arts and Sciences, Agriculture and Home Economics, Engineering, Law, Education, and Commerce—and in the Graduate School.

Over and above its program of liberal education, the University Summer Session provides numerous opportunities for persons to prepare for specific occupations. The opportunities are in numerous fields: Industrial Chemistry, Journalism, Medical Technology, Pre-Medicine, Pre-Dentistry, Pre-Nursing, Music, Library Science, Public Service, Art, Bacteriology, Geography, Geology, Psychology, Radio Arts, Social Work, Sociology; Agriculture in its various phases (such as Pre-Forestry, Pre-Veterinary, Home Economics); Engineering—Architectural, Aeronautical, Civil, Communications, Electrical, Mechanical, Metallurgical and Mining; Law; Elementary and High School Teaching, Educational Supervision and Administration; General Business, Commerce-Law, Industrial Administration, and Secretarial Work.

CREDIT HOURS

Nine semester hours are considered the normal load for undergraduates. For graduate students, the normal load is six hours; the maximum is nine. Graduate students who earn six or more graduate credits and who remain in residence throughout the Summer Session are assigned nine weeks of residence. University students do not have to fear acceptance of credits at full value by accreditation associations and other colleges and universities. Moreover, U. K. credits always meet the tests for employment, whether by government agencies, by corporations, by private companies, and regardless of the field. This is a very important consideration. In certain categories of employment, students and graduates of land-grant colleges have a distinct advantage for employment over other students and graduates.

FEES

For the Summer Session, the full-time fee for all Kentucky students, except those enrolled in the College of Law, will be \$32.50 and for students in the Law College \$34.00. For out-of-state students, in all colleges except Law, the fee will be \$62.50. The fee for out-of-state students in the Law College is \$65.50.

ADMISSION

Applicants for admission should write to the Office of the University Registrar for application forms, stating whether they wish admission to the freshman class, to advanced standing, or to the Graduate School. *Application and transcripts of credits should be filed in advance with the Registrar's Office.* Students entering with advanced standing and those entering the Graduate School should present transcripts from each institution they have attended. Graduate students who are not candidates for degrees may be admitted on the basis of an official statement from the

registrar of the institution which conferred their bachelor's degree. *High school graduates are invited to start their college careers in the 1955 Summer Session.* Special courses are planned for entering freshmen and special attention will be given to them, to the end that their collegiate careers will be richer, more profitable, more economical, and more meaningful.

LIVING ACCOMMODATIONS

Room applications for single men should be made to the Dean of Men and be accompanied by a deposit of \$10. The rental for a dormitory room per individual is \$40 for the session. The University Cafeteria will be in operation for both men and women.

Women's applications, accompanied by \$10 deposit, should be made to the Dean of Women. Refunds will be made only if notification of cancellation is given at least thirty days before the term opens. All residence halls for women will be open. The cost to the individual student for dormitory room is \$44.

Persons applying for accommodations for the duration of short-term courses are not required to send deposits. They should, however, mail in the title and length in weeks of the course or courses desired, as well as indicate the beginning and ending dates.

CULTURAL AND RECREATIONAL RESOURCES

The University of Kentucky is located in Lexington, the center of the famed Bluegrass region, a delightful country of scenic beauty and of transcendent historic interest.

Many of the fabulous horse farms, some containing more than a thousand acres of lush, bluegrass-covered land, are in this rich region. During the Summer Session, tours are conducted to many of these estates, among which are Elmendorf, Walnut Hall, Calumet, Castleton, Dixiana and Coldstream. In addition, points of historic interest, including Ashland (home of Henry Clay), General John Hunt Morgan's residence, the home of Mary Todd (wife of Abraham Lincoln) and the Keeneland Race Track, may be visited.

During the session, nationally known speakers, lecturers, workshop directors, and specialists in many fields will visit the campus. Several unusual musical and dramatic presentations are planned. The Student Union Building, the Memorial Coliseum, and the Fine Arts Building will be open for student use. A well balanced social and physical education program has been arranged. Students may participate in such activities as swimming, tennis, golf, dancing, band concerts, movies, picnicking and camping.

CALENDAR

Classification will be on Monday, June 13; registration on Tuesday, June 14; and classes will begin Wednesday, June 15. Tuesday, June 21, is the last day one may enter an organized class. Friday, August 5, the Summer Session Commencement will be held. The Summer School will end at Saturday noon, August 6.

SCHEDULE OF CLASSES

The bulletin entitled *Schedule of Classes* will be issued in April. If you desire one or more and/or further information, write to Dr. Hambleton Tapp, Co-ordinator of the Summer Session, Administration Building, University of Kentucky, Lexington, or to the University Registrar.

STATEMENT OF COURSES

Courses numbered 1 to 99, inclusive, may be taken only for undergraduate credit. Courses numbered 100 to 199, inclusive, may be taken for credit by juniors, seniors, and graduate students, provided that a course so numbered may carry graduate credit only with the approval of the student's graduate committee. Courses numbered 200 or above are open only to graduate students.
