HERE SHALL THE KERNEL ALL STUDENT RIGHTS MAINTAIN

DEVELOPMENTS AT GENEVA

Developments during the last few weeks at London and Geneva would appear to indicate that Britain and the League of Nations is in a quandary in the face of "Italy's immutable position." Many fail to find anything "immutable" in the positions of Britain or the League, or in Italy, for that matter.

This is the meeting of the League observers long looked forward to as inevitably the most important in the entire Italo-Ethiopian War crisis, and which the Ethiopian Emperor, fleeing from his bleeding country, came to attend.

Bullying rather than bluffing would describe Mussolini's latest role with the League, many assert, as he takes quick advantage of the deplorable position of his former allies, the Central European Powers, which are at sword's point.

The League session convened June 30, instead of June 29, as had previously been announced. But already on June 22 the British Cabinet, after acting on serious internal divisions of opinion within itself, made a decision calculated to guide action at the forthcoming League meeting.

On June 23, it was reported that Britain had concluded, evidently at this Cabinet meeting, some kind of "deal" with Italy, granting that country "air supremacy in the Mediterranean."

By continuing the sanctions, and making their continuance an "immutable position," it is believed that Britain at least could have brought Mussolini to the creation of a small independent state consisting of the former British sphere of influence—Lake Tana, the Blue Nile, the cities of Gondar and Aksum—furnishing a headquarters for the Abyssinian branch of the Eastern Christian Church under the League of Nations.

By removing the sanctions, it is contended, Britain reversed its own policy and thereby not only became the leader in giving away forever the British sphere of influence, but plunged Abyssinia into a night of hopeless foreign tyranny which the Near East and Europe may be many score years in overcoming.

At the session of July 2, Premier Bruce of Australia told the Assembly, "The hope of

millions of men and women has been extinguished."

At the meeting the following day, July 3, Stefan Lux, Czechoslovakian newspaperman, killed himself in the Assembly as a protest against the League's inaction in defense of Ethiopia and in the Jewish problem in Germany.

July 4, Galileo Solis of Panama told the League its action caused "bitter disappointment through the world."

On the fourth, a vote was taken on Ethiopia's request for a loan of \$50,000,000 "to defend her integrity." Twenty-five League members abstained from voting, which, it is averred, disclosed the fear of going on record against Italy, while the Assembly rejected the request by a vote of twenty-three to one.

The evening of July 5, the Emperor returned, broken-hearted to London, planning to go to aid a section of Ethiopia in the western and northwestern part of the country which is still free, where the Italians have not yet penetrated.

David Lloyd George in his speech July 7 commented on Britain's desertion of the League: "Rats, I am told, desert a sinking ship. These (the present Cabinet) are the rats that scuttle the ship." Describing the amusing but tragic situation of the British build'g "who without a single bite, not even a spot of blood, runs away with his tail between his legs," Lloyd George declared: "In Europe this government isn't thought much of; in America they have lost confidence in us."

The Evening Standard, July 1, comments, "Britain is a ship on stormy seas without a chart. . . . It would seem the present national government has no foreign policy and never has had one."

What can the United States do to still show her fairness in the Italo-Ethiopian situation and her insistence upon human justice? many ask.

1. The United States can refuse to recognize the seizure of Ethiopia as it has the seizure of Manchukuo and North China under the policy asserted by former Secretary of State Stimson. Caution can be exercised in the wording of the credentials of Ambassadors sent to Italy by this country.

It seems that Mark Hannah has given his future Mrs. a diamond, one that looks like the cross section of South Africa (so we are told) . . . She . . . by the way . . . is the beauty queen at the University of West Virginia. . . . Rumor hath it that a cozy five room brick house is already ready for occupancy . . .

2. Another danger, it is pointed out, is that pressure may be brought in diplomatic circles to effect a trade pact between the United States and Italy similar to the pact just consummated between the United States and France.

"Unwilling to take any realistic step to avert war, we talk peace and steadily develop a policy of 'macht politik' which can only end in our participation in the next world war, regardless of the greatest united effort of the peace societies."—Felix Morley, editor of the Washington Post.

The new lady editor extant in Ann Arbor will have to learn all over again. For instance: Putting rival news organs instead of biscuits on the pan, hanging the bird instead of clothes, and darn'g Roosevelt instead of the knitted sweater.

Had the masters of industry given a considerably larger hare of the product of labor to the producers, the latter would have bought sufficient goods to keep our industries going to full capacity and there need have been no depression.—National Catholic Welfare Conference.

The worst thing that can be said against laughter is that, by putting us in a good humor, it enables us to tolerate ourselves. The best thing that can be said for it is that for the same reason it enables us to tolerate each other.—Robert Lynd.

The secret of respectability is to ignore what you don't understand.—Christopher Morley.

The reason some rich people are stingy is also the reason they are rich.—Florence Herald.

"Is you all crazy? Dat ain't no barn, dat's the new Student Union building." —U. K. Sour Mash

this campus and that world

Despite the promise of bigger and better things . . . bigger and better things are not to be had . . . consequently we will struggle with the task of putting together some readable material . . . hoping that you all appreciate the energy we put forth into our work . . .

And news about one Sam Potter of football fame has it that he is now working at Springhurst several days a week. . . and assisting another campus celebrity of last year. . . John Drury . . . our heavyweight boxing champ for the past, oh so many years. . . Sam, incidentally, was escorting Carol Gables, the beautiful songstress of Clyde Trask's band . . . last Saturday afternoon he took her to the show, he says. . . the lucky stiff. . . But all this is forgivable. . . for the very same Sam Potter says that he really is in love. . . with Bob Davis's sister in Dayton. . . He must be. . . we saw him reading a letter from her. . . reading it every fifteen minutes, and sighing between pages.

And since Bob Davis's name came up we might tell one on his name. . . mug had a date to go to Joyland. . . and then lost his money in a friendly game of chance. . . traps to youse mugs. . . So he up and stands one woman up on a date. . . and then proceeds to go to the beautiful U. K. co-ed of several semesters ago . . . and still beautiful.

Went to Joyland last Saturday night. . . never do have a good time out there. . . don't know why we went. . . But must admit that Andy Anderson's orchestra is swell. . . And we certainly like to dance to it. . . it was fine in that respect. . . Speaking of Joyland. . . saw Bill Evans, the Phi Tau out there, with Frances Martin. . . also a gang of other people from school there . . . also others. . . Always said that if we got anything on ourselves. . . we'd be the first to print it. . . just goes to show how badly we need material when we're even willing to include ourselves in this punk column. . . At any rate, we had to go to the reception at Pasterson's hall last Thursday. . . but couldn't go. . . for as circumstances had it, we ran out of clean shirts, and I was sending out the laundry. . . so what? . . . So Margie Baxter offered to launder one for us, so we gave her one. . . so she laundered it. . . so thanks to Margie! . . . So she's gone domestic, eh? . . . And so we'll hop off the campus for a minute, and discuss the events of the world, or an any rate event. . . we can't get over the fact that Eleanor Holm Jarrett will not be swimming for the U. S. team in the Olympics, and we are among those who believe that she received what is commonly called a raw deal. . . We are not saying, of course, that the dismissal wasn't justified. . . we do not know about that. . . but it all could have been done so much more gracefully. . . After all, she is of age, we believe . . . and she has been breaking records in the back stroke for the past how many years. . . and if she can train on champagne and still break the records she does. . . then maybe more of our athletes should go on her training schedule. . . And even if she oversteers the bounds, she still might have

Arts and Science College Is Largest in University

Despite a continual budding process which has made departments into separate colleges from time to time, the College of Arts and Sciences maintains its place by far as the largest college in the University. From a small beginning back in the 1860's as a part of the old Agricultural and Mechanical College, the College of Arts and Sciences has grown until this semester 1088 students are enrolled. The staff of 164 persons includes 133 instructors and 24 graduate assistants in addition to a number of secretaries and stenographers.

Prof. James G. White, for whom White Hall is named, was the first dean of the College. It was followed by Prof. A. M. Miller. During this period Prof. Paul P. Boyd became professor of mathematics and in 1917 he was made dean and acting president of the University. Since President Frank L. McVey took office in 1917, Professor Boyd has been dean of the college.

The College of Arts and Sciences, historically, has been the mother of professional schools. At the University of Kentucky it has existed from the beginning with departments that were later transformed into colleges. One of these is the College of Commerce. In 1918 it was the department of economy and sociology, but the department grew so rapidly that in 1923 the separate College of Commerce was established.

There are now in the college 25 departments dealing with a wide variety of subjects and all 25 offer graduate work. The departments of chemistry, history, mathematics, political science, physics, and psychology offer work leading to a Ph. D. degree.

Research work in addition to instruction is carried on in many of the departments. Through its museum the department of anthropology and archaeology is bringing to light much information on prehistoric life in Kentucky. Professors William D. Funkhouser and William S. Webb are largely responsible for the progress made in this line.

New treatments for diseases are being studied in the department of hygiene and public health. A study of American literature and culture is being made in the Department of English.

This history department is doing outstanding work in Oriental diplomacy and in collecting rare books and documents throughout the state. Extension in the theory of statistics in tetuarial work is being carried on in the mathematics department. Tests conducted by the physiological department are given in various state institutions for the insane and blind. Research in addition to instruction is an important function of the college.

According to a statement made recently by Dean Boyd the college is alive to the new ideals now abroad throughout the country. The past decade has witnessed a reaffirmation of faith in the mission of the liberal arts college, and a radical reorganization of curricula and methods of teaching. The old college has taken on a new life and is once more assuming its place of leadership in adapting higher education to the needs of the student and the state.

SOCIETY

Gill-Broadbent
Gilbert, La. July 25. The wedding of Mrs. M. O. Gill...

Dubler-Lease
Miss Mary Louise Dubler, daughter of Mrs. L. P. Dubler...

Doughtery-Reister
Mr. and Mrs. D. J. Reister of Floral Park, Long Island...

The wedding took place at the latter part of August at Our Lady of Victory church, Florida Park...

The marriage of Miss Betty Powell Rodes, daughter of Mr. and Mrs. J. Walter Rodes...

After the informal reception held at the home of the bride...

Mr. and Mrs. Broadbent will be at home after July 15 at the hotel apartments, 434 Clay street, Henderson, Ky.

The church decorations were unusually pretty with candelabra in the shape of arches forming the background...

Miss Elizabeth Gill, sister of the bride and maid of honor, entered next; she was groomed in white mouseline over satin...

June Sherrouse, ring bearer was dressed in a long frock of white crepe, carried the rings on a white satin prayer book...

The flower girls, Mary Britton Conner, Mary Francis McNair, Joy Isgett and Blanche Ward...

The impressive double ring ceremony was used; Mrs. Broadbent's wedding dress was of white lace over satin...

The bride attended Sophia Newman College and was graduated from the University of Kentucky where she was a member of the Kappa Delta social sorority...

Mr. and Mrs. William Cunningham and family of Oklahoma City, Okla.; Mr. and Mrs. W. J. Gill...

Mr. and Mrs. Frank L. McVeey entertained students of the University from 4 to 6 p. m. last Wednesday afternoon...

Corn Crop Expected To Be Smaller This Year Than During '35

Prospects for a crop of corn somewhat in excess of the crop of 1935, but much smaller production of oats than last year, considerably larger production of wheat than last year...

However, it should be kept in mind that these estimates are as of July 1 and do not take into account the conditions which exist in most of the State since that date...

Based on records of previous years of tobacco in Kentucky, the 1936 crop is estimated to be about 22,575,000 pounds...

Types of which the producing areas of either wholly or partly within Kentucky and which therefore are not subject to the same conditions...

The ceremony took place in the spacious altar room, and the service was read by Dr. Arthur Braden...

The wedding breakfast was served at the centennial altar, and all white flowers were used in the dining room...

The bride, who was unattended, wore white organdy and carried a colonial bouquet of white roses and baby's breath...

More destructive than conflagration and will be sending its fire through college, says President Conant of Harvard.

Interesting Blue Grass Tours

Beaumont Stud
While touring the Blue Grass, many tourists visiting the beautiful farm of Hal Price Headley...

Mr. Headley's farm is located on the Harrodsburg pike, about three miles from Lexington...

Each year during the Lexington Trot, Dr. Edwards holds a "Wall-Hall" day at his beautiful estate...

"Wall Hall" day is one of the high spots of entertainments held each year in the Blue Grass...

In visiting Wall Hall farm, tourists will be inspecting not only the largest trotting horse breeding establishment in the world...

The common belief that castle soaps are the most pure and most desirable has been proven by Consumer's Research to be erroneous...

University Library, One of Largest Buildings on Campus

When one looks over the vast amount of material...

The new library, as large as it is, is only half the size planned...

The present organization of the library of the University is of recent origin...

There are now 140,000 volumes in the library with seating capacity for 800...

Besides these there are nine departmental libraries...

A department of Library Science was established in 1930...

In addition to its book collection, the University library makes a collection of source materials...

and of the other states. It is desired to obtain official reports...

One of the most recent contributions to the library is a collection of 210 volumes of engineering and technical works...

William J. Coleman Jr. has given 250 volumes of Greek and Roman classics and German philosophy...

In 1928 the first steps were taken to provide a modern building...

There are now 140,000 volumes in the library with seating capacity for 800...

Besides these there are nine departmental libraries...

A department of Library Science was established in 1930...

In addition to its book collection, the University library makes a collection of source materials...

The Absent-Minded Professor - U. K. Sour Mash

Workers Busy on University Campus in Summer Months

During the summer many improvements were made all over the campus...

Perhaps one of the most obvious accomplishments, soon to be completed, is the construction of the new athletic field...

In the basement of McVey hall the entrance to the elevator shaft has been improved...

Other work has been done in the Armory with the erection of a fire escape and the change of a doorway...

structure of the YMCA quarters; the painting of the exterior of Memorial hall...

In the Men's gymnasium the floor has been refinished, the new ceiling put up...

With all this accomplished, plans are rapidly drawing to a head regarding the new heating plant...

And the questions as to their attitudes toward the famous sex called forth such appreciations as: 'They are too concerned!'

Merchant Marines Are Rehabilitated

(Continued from Page One) The first three of the above-named Senators in the closing hours of the last Session...

Resolutions accepted included those of Miss Elizabeth Gay of the English department...

Under the heading of 'Remarks' came these gems of feminine opinion: 'About half of them act as though they were still in their adolescent period!'

One girl answered: 'I don't know. I never dated a college man.'

Pro and Con of College Men Is Told by Co-Ed

Numerous articles have been written on the subject of what college boys dislike about college girls...

At the present time the teaching staffs of the College of Education and the laboratory schools consist of eighteen people...

I Murdered The Prof

(Continued from Page One) shots could have hit the professor from any direction in the room...

The janitor then summoned said that no one had entered the front door that evening until the police arrived...

Blanton continued to question us, but I could see that he was puzzled. He telephoned the police station...

The next war will be won by the nation having the best gasoline, says Dr. Merrill R. Fenske...

Mr. Irshman however does not comprehend the futility of his present situation. He is incapable of such thought being simply a skeleton!

Mr. skeleton receives visitors daily except Sunday in Room 203 of Science Hall.

to bring all of these birds down to the station. He wants to talk to them."

The next morning they took us back to the professor's apartment. Detective McAllister took charge...

I said nothing that could have caused him to suspect me, but I felt McAllister's suspicion centering on me...

"Yes, I remember," I said coolly. "It was exactly 8:29."

McAllister pulled out his watch. "Then the professor was murdered almost exactly twelve hours ago."

Mr. Irshman however does not comprehend the futility of his present situation. He is incapable of such thought being simply a skeleton!

Mr. skeleton receives visitors daily except Sunday in Room 203 of Science Hall.

hammer through the room. I looked about me. All of the men were looking straight at me...

I glanced upward at the professor's clock. It was almost eight twenty-nine. At this time last night I first heard the professor chanting...

I was petrified with horror at what I saw. Inside the fireplace a gun was slowly descending in an arc...

I gazed with horrible fascination at the now motionless gun in the fireplace. I was glued to my seat...

I started upward in my chair. I screamed. Distinctly I saw the gun spout smoke and then three heavy lead slugs crashed into my body...
