Dear Carolyn + Victor.

I hope to get out of the hospital tomorrow (Saturday) - the operation was quite successful + though the first walk was a bit painful, things needed fast + I am feeling all right now.

I am sorry Victor had to go to the hospital again but I hope he is resting well + improving now. Dr Pellegrino did not come in - or if he did I missed him. Don't worry I am doing well.

All blessings for Easter, in Christ  
Tom.
