A MESSAGE FROM THE PRESIDENT

The University of Kentucky enters upon its war time schedule June 11, at which time the Summer Quarter opens. The accelerated program of the University will make it possible for young men and women to enter college as soon as they graduate from high school and continue in school continuously until they receive their degrees. This can be accomplished in three years. Those students who are going to college should, if possible, take advantage of the accelerated program. Speeding up your education is a fine way to serve your country in its hour of peril. It is a patriotic act to be prepared intelligently by the time you reach the age when the government will be demanding your services. The University of Kentucky strongly recommends that those students who plan to attend college this next year enter with the opening of the Summer Quarter in June.

The Summer Quarter will be divided into two terms of approximately six weeks each for the purpose of continuing to serve teachers of the State who are pursuing work leading to advanced degrees. A full schedule of classes is being offered this summer. Many attractive special programs are being presented. Dr. William H. Kilpatrick, one of the most brilliant teachers in American education, will be at the University for a part of the summer school.

The cost of attending the Summer Quarter will be somewhat lower for residents of Kentucky than for the two summer terms heretofore. The cost of attending one term will be the same as previously. It is the plan of the University to make the Summer Quarter the equivalent of any other quarter during the year. If you need further information you are requested to write the Registrar of the University

H. L. DONOVAN
President

THE SUMMER QUARTER AND THE SECOND WORLD WAR

In the midst of an all-out war which will probably produce domestic changes as yet unforeseen by anyone the University of Kentucky has planned the Summer Quarter of 1942. The best program possible under such conditions has been prepared. Faculty members and students are ready to work harder and longer to do their part to insure a full supply of technically trained youth for the farms, factories, civil service branches, armed forces, and—let us not forget—the regular occupations and professions.

Everyone who can should do something to win the war besides buying defense stamps and bonds. This summer youth of college age who can should join the armed forces, work to produce food or arms, or go to school to get ready to serve more effectively—a long summer vacation is an unnecessary luxury in war time.

For graduate students, teachers seeking better training, and other mature students most of the usual courses are available. Courses are being offered for several hundred beginning freshmen and a large number of college and university undergraduates who will enroll in the accelerated program to complete their college work sooner.

The schedule of classes, instructors, and courses was as accurate as possible when this bulletin went to press. Slight changes may be necessary later. The University reserves the right to withdraw courses for which fewer than five students enroll.

GENERAL INFORMATION

THE SUMMER QUARTER

The University of Kentucky held its first Summer Session in 1903. From 1903 to 1913, certain instructors on the campus offered Summer Session work to students who needed training other than that of the regular year. This type of summer work however was often of an individual nature, largely dependent upon agreements between the student and his instructor. Beginning with the year 1913 the Summer School became a more integral phase of the regular University work and was characterized by a much broader program of offerings. This increment in offerings and the number of faculty members has continued since that time.

The Summer Session increased from an enrolment of 1942 for the two terms in 1932 to 3643 in 1940, a gain of 87.6 per cent. On January 17, 1942 the University Faculty voted unanimously to adopt the quarter system and on February 20, 1942 the quarter system was officially adopted by the Executive Committee of the Board of Trustees. By this action the Summer Session was officially designated as the Summer Quarter.

UNIVERSITY OF KENTUCKY

The University of Kentucky is on the approved list of the Association of American Universities, and is a member of the Southern Association of Colleges and Secondary Schools. It is accredited in its respective colleges or departments by the Association of American Law Schools, the American Association of Collegiate Schools of Business, the American Association of Schools and Departments of Journalism, the National Association of Schools of Music, and the Engineers' Council for Professional Development.

THE BEAUTIES OF THE BLUEGRASS

The Bluegrass is a magic country full of scenic beauty, and rich in historical interest, romantic and traditional lore. Its ever-changing beauty of landscape and stately colonial mansions add to its charm.

Many of the vast horse farms, some individual establishments containing more than a thousand acres, are open to visitors throughout the year. These farms with their broad pastures, their sparkling streams, their woodlands of gigantic forest trees and

their paved drives and roads provide Fayette County with a system of parks which is decidedly unique. In this enjoyable touring region one finds vast tobacco farms, meadow lands, wooded foothills, and deep-running streams and rivers, which, for beauty, are unsurpassed. Throughout the region one comes upon dignified old mansions, lovely gardens, groves of forest trees and mile after mile of stone walls which make the country-side both restful and refreshing.

In Lexington one will be impressed by the University of Kentucky; "Ashland," the home of Henry Clay; Gen. John Hunt Morgan's home; the home of Mary Todd, wife of Lincoln; the Lexington Cemetery with its monument to Henry Clay, and the resting place of many famous Kentuckians; the tobacco warehouses with their amazing size; the track of the Kentucky Trotting Horse Breeders' Association; Keeneland Race Track; the Kentucky Agricultural Experiment Station; Transylvania College, and Sayre College.

"Idle Hour," "Elemendorf," "Walnut Hall," "Calumet," "Castleton," "Hamburg Place" (with its horse cemetery), "Dixiana," "Coldstream," and "Faraway" (home of Man o' War), are among the beautiful horse farms in Fayette County that are open to visitors. The United States Veterans' Hospital, the Federal Narcotic Farm, the Agricultural Experiment Station Farm, the old colonial homes in which Lafayette was entertained, Grimes Mill, Clay's Ferry hill, and Bryan Station add to the historical charm of this county.

Visiting the Bluegrass, students will be impressed by the Kentucky River palisades, Boone Tunnel, High Bridge, Camp Nelson, National Cemetery, Dix River Dam, Herrington Lake, old Shaker-town, Fort Harrod and Pioneer Cemetery at Harrodsburg. Within twenty-five miles of Lexington one can visit the state capital, Frankfort, and see the new capitol building, the old capitol building, the Kentucky Historical Society museum, and the state cemetery—burial place of Daniel Boone and a number of Kentucky soldiers and statesmen.

SOCIAL LIFE IN THE SUMMER QUARTER

The University of Kentucky realizes that it is essential to meet the social needs of students in attendance at the Summer Quarter, as well as to provide for their intellectual requirements. The extra-curricular offerings in past summers have been greatly appreciated by the students and widely attended. The extra-curricular offerings in the 1942 Summer Session will include concerts, teas, dances, plays, tours, lectures, picnics, and convocations.

STUDENT UNION BUILDING

The Union Building is the center of University student activity.

The building provides a "game room" consisting of pool, billiards, and ping-pong tables; a "recreation room" for playing cards and informal dancing; a "music room" where one may hear the works of the great composers; and a "periodical room" with fine magazines. The advantages these various rooms offer may be enjoyed by the students during leisure hours.

There is a modern beauty salon and barber shop, a cafeteria serving foods of quality, an attractive soda grill, men's and women's lounges, and telegraph and telephone service; all for the convenience of the students.

In addition to the services mentioned above, the Information Desk is open for room reservations, information, and checking articles for a small fee. The large recreation room makes an ideal place for holding Summer Session dances.

The Union operates during both winter and summer terms of school so that it may constantly serve the student body and maintain its reputation as "the camping ground of the students."

By the beginning of the Summer Quarter of 1942 many of the rooms of the Union will be completely air-conditioned. The cafeteria will be maintained at a delightfully cool temperature.

PLACEMENT SERVICE

There is a constantly growing demand for the services of the graduates of the University of Kentucky. Placement services are maintained by several colleges on the campus and every attempt is made to procure for the students and for the graduates of the University the type of employment which will enable each one to achieve the best results.

In the College of Commerce is the Senior-Commerce Employment Association which is self-supporting and is headed by a permanent secretary. The Association has been very successful in placing graduates with nationally operating industrial concerns, credit investigating and reporting companies, wholesale houses, banks, insurance companies, chain store companies, governmental agencies both federal and state, and in teaching positions. These positions included secretarial work, accounting, advertising, selling, personnel and statistical work.

The Teacher Placement Bureau of the College of Education is designed particularly to assist in the placement of superintendents, principals, and teachers. Each student in attendance at the University who desires a teaching position should register with the Placement Bureau, Room 115, Education Building. Superintendents and college administrators who desire capable teachers should write direct to the bureau for recommendations and credentials.

The College of Engineering has a wide reputation for training its men well for successful careers in the engineering and industrial world. The demand for their services has been such that, with a few exceptions, all members of each class have been employed soon after graduation. The placement of engineering graduates is directed by the Dean of the College with the assistance of the heads of departments.

RECREATIONAL ACTIVITIES

The summer months are vacation and recreational time. Provision is made for Summer Quarter students to participate in numerous recreational activities and to learn the fundamental skills and techniques involved. The Physical Education Department is offering recreational courses for men and women students in golf, tennis, tap dancing, social dancing, modern dancing, recreational games, bait and fly casting, volley ball, archery and badminton. This is an opportunity for every Summer Quarter student to receive expert instruction in any or all of the above mentioned activities. If you are a novice it is your chance to learn, if an expert performer it is your chance to participate under wholesome and enjoyable circumstances.

The primary purpose of the recreational courses is to provide pleasant and profitable leisure time activity for all students and to improve their performance ability. Teachers and supervisors of physical education will find the courses valuable in organizing teaching material and methods. Recreational leaders and directors will get new ideas on promoting leisure time activities. All Summer Quarter students will find in the activities healthful and enjoyable opportunities.

THE UNIVERSITY SCHOOL AND DIRECTED TEACHING

The University School will be in session during the first half of the Summer Quarter only. The term will begin Thursday, June 11, and close Wednesday, July 22. The University School will be open from 8:00 to 12:00, six days a week.

Students desiring to register for Directed Teaching in University School should make application on or before June 4. Those who plan to enroll for Directed Teaching in junior or senior high school subjects should make application to J. D. Williams, Director of University School, and those who desire to do their student teaching in the elementary school should make application to Mrs. Mae K. Duncan, Head of the Department of Elementary Education. Application for these courses should be made in advance, since only a limited number of students can be accommodated. Students are urged to file their applications for these courses as early as possible, as time should be allowed the Dean's office to check the prerequisites of all applicants before registration.

Summer School students who have children have an opportunity to place them in the University School. Both the Elementary School and the High School maintain modern programs of education that should be of interest to parents attending the University of Kentucky Summer Quarter. Persons desiring to avail themselves of the opportunities of the University School should write the Director of the University School requesting reservations for their children.

The University School will provide instruction in all subjects regularly offered in the schools of Kentucky. High school pupils may make one unit of credit toward their graduation requirements. This unit of work may be done in one subject or one-half of a unit may be made in each of two different subjects.

Pupils from any of the schools of the state will be permitted to enroll in the University School for the summer term. The tuition charge for high school pupils will be \$10 for one-half unit or \$15 for one full unit in the ninth, tenth, eleventh, and twelfth grades. The tuition charge for seventh and eighth grade pupils will be \$7.50. No tuition is charged in the Elementary School for the Summer Quarter.

The operation of the University School during the first summer term offers a helpful opportunity to the following persons:

1. Pupils who wish to make an additional unit of credit. By attending Summer School it is quite possible for a pupil to earn enough units to enable him to be graduated from high school in less than four years. Many alert, ambitious pupils will appreciate this opportunity.
2. Pupils who wish to carry more satisfactorily the work of an advanced grade. Many pupils who have not failed, but who have barely passed, by attending Summer School can assure themselves of better success in the grade to which they have been promoted.
3. Pupils who wish to make up work in which they have failed during the regular school term.

LENGTH OF QUARTER

The Summer Quarter of the University of Kentucky for 1942 will be eleven and one-half weeks in length, six days a week, and will be divided into two terms, the first to begin June 11 and close July 22 and the second to begin July 23 and close August 29.

Classes during the Summer Quarter will begin at 7:00 a. m. The first hour will be from 7:00 to 8:15, the second hour from 8:25 to 9:40, the third hour from 9:50 to 11:05, and the fourth hour from 11:15 to 12:30. A few courses will meet for one hour periods.

COURSES

Courses will be offered for graduates and for undergraduates in the College of Arts and Sciences, the College of Agriculture, the College of Engineering, the College of Law, the College of Education, and the College of Commerce. The courses listed for each term may be found in this catalog.

FOR WHOM PLANNED

The Summer Quarter program of the University of Kentucky has been planned to meet the needs of the following groups:

1. Teachers in the public schools who wish additional training in their special lines of work and who desire to work toward college degrees.
2. Teachers in private and parochial schools who wish additional training in their special lines of work and who desire to work toward college degrees.
3. Supervisors of grade school work in special subjects.
4. City superintendents who desire to acquaint themselves with recent progress in education and who have special problems for solution.
5. County superintendents who desire to study the problems of the organization and administration of rural education and problems relating to the social life of the community.
6. Teachers in junior colleges who desire additional training in the particular fields in which they work and who are working toward higher degrees.
7. Normal school and college teachers who desire additional training in their chosen fields and who are working toward advanced degrees.
8. Undergraduates in agriculture, arts and sciences, commerce, education, engineering, and law who find it desirable to shorten the period of their college courses.
9. Persons desiring training for social welfare service, including playground directors.
10. Music supervisors and prospective band directors.
11. Persons desiring special courses in library science.
12. Persons who desire to fit themselves for teaching or supervision in the commercial field.
13. Athletic directors and coaches.
14. Students who wish to accelerate their college work on account of war needs.

ADMISSION

Students will be admitted to the University as their previous training warrants. They will be admitted to the freshman class, to advanced standing, as special students, as graduate students, or as auditors.

All applications for admission should be made to the Registrar of the University. Credits should be filed in advance. Students entering as freshmen should present transcripts from their high schools and those desiring advanced standing should have a transcript sent from each institution they have attended.

To the Freshman Class. Residents of Kentucky who are graduates of accredited high schools will be admitted to the University on certificate, provided they have fifteen units of high school work characterized as follows.

At least ten of the units presented must be chosen from the English studies, the social studies, mathematics, the foreign languages, and the natural sciences, the last to include not more than one unit of general science. Within these ten units, the student must present three units in English, exclusive of journalism, public speaking, and dramatics.

Resident students who have graduated from unaccredited high schools and those not graduated from high school may be admitted as freshmen if, in addition to presenting the fifteen acceptable units, they successfully pass the University classification examinations.

Students who are not residents of Kentucky may be admitted when they meet the above requirements for resident students and when in addition they rank in the upper two-thirds of their high school graduating classes.

Admission to the University does not necessarily qualify a student for admission to a particular college. In every case the student must meet the admission requirements of the college in which he is to enroll.

To Advanced Standing. A student who applies for admission with advanced standing is expected to present evidence that he is in good standing in every respect in the institution last attended, and in general is required to have maintained a standing of 1.0 in all previous college work. The University does not disregard at any time or under any conditions college or university records in order to admit applicants solely on the basis of their high school records.

As a Special Student. A graduate of another university or college may enter the University as a special student. Other persons may be admitted as special students provided they are fully prepared to do the work desired and provided they are at least twenty-one years of age.

As an Auditor. By payment of the required fees any person may be admitted to a class or classes as an auditor. A student regularly enrolled in any college must apply to the Dean of the College in which he is registered in order to be an auditor. Other

persons should apply to the Registrar's Office for admission. No credit can be given for a class audited, nor is the student permitted an examination for credit.

College of Arts and Sciences. Admission to this college is governed by the general admission requirements of the University outlined above.

College of Agriculture and Home Economics. Admission to this college is governed by the general admission requirements of the University outlined above.

College of Engineering. Admission to the freshman class of the College of Engineering is limited to students rated in the upper three-quarters on the University placement tests.

In addition to meeting the general requirements for admission to the University, the high school credits presented by the applicant shall include one unit in Plane Geometry, one-half unit in Solid Geometry, and one and one-half units in Algebra. If the student lacks only the half unit in Solid Geometry, he may be admitted, but this subject will be added to the requirements of the freshman year.

College of Law. An applicant for admission to the College of Law must offer 90 quarter hours (exclusive of physical education and military science) completed in residence in colleges other than Law, nine of which must be in English. A standing of 1.0 is the minimum qualitative requirement, but in other than exceptional cases an applicant will not be accepted unless he has maintained a standing of 1.3 on all previous work. While there is no prescribed pre-law curriculum, the applicant's record is evaluated in terms of its relationship to the study of law, and in terms of the requirements of the Association of American Law Schools which provide that the sixty semester hours shall be "exclusive of credit earned in non-theory courses in military science, hygiene, domestic arts, physical education, vocal or instrumental music, or other courses without intellectual content of substantial value."

College of Education. Admission to the freshman class of the College of Education is limited to students rated in the upper three-fourths on the University placement tests. In order to transfer to the College of Education from another institution or from another college of the University, a student must have a standing of 1.0 or higher. The freshman applicant must meet the general admission requirements of the University.

College of Commerce. Admission to the freshman class of the College of Commerce is limited to students rated in the upper three-fourths on the University placement tests. The freshman applicant must meet the general admission requirements of the University.

The Graduate School. Graduates of fully accredited institutions of higher learning may be admitted to the Graduate School upon evidence of graduation and an official transcript of undergraduate courses. However, such admission does not obligate the University to accept all credit granted by the undergraduate school. When full credit is not granted, the student will be required to do more than the normal amount of work to complete a graduate degree. Applications from graduates of institutions not fully accredited will be individually evaluated. However, students from such schools are encouraged to secure a bachelor's degree from a fully accredited institution before applying.

NUMBERING OF COURSES

Courses numbered 1 to 99, inclusive, may be taken for credit only by undergraduate students. Courses numbered 100 to 199, inclusive, may be taken for credit by juniors, seniors, and graduate students, provided that a course so numbered may carry graduate credit only with the approval of the student's graduate committee. Courses numbered 200 or above are open only to graduate students.

STUDENT LOAD

Nine quarter hours (equal to six semester hours) per term, or 18 for the quarter, is the normal load. When ability or compelling reasons dictate a heavier load, 21 to 24 quarter hours may be carried.

FEEES CHANGED

For 1942 the fee for resident students enrolling for the full Summer Quarter will be \$35 instead of \$45.50, heretofore charged, and \$55 for non-resident students. The fee for either term will be \$22.75 for resident students and \$27.50 for non-resident students, Law College students excepted in both cases. For resident students enrolled in the Law College the fee will be \$27.50 for one term and \$38 for the quarter; for non-residents the fee for one term will be \$29, and \$58 for the quarter.

REFUNDS

During the first week after the opening of either term of the Summer Quarter, students withdrawing from the University may receive a refund on the amount paid in fees, not to exceed 70 per cent of all fees paid. During the second week a refund of 50 per cent may be secured and during the third week a refund of 30 per cent. In no case shall the amount refunded exceed 70 per cent and in no case will refunds be made after the first three weeks. Students enrolled for the entire Summer Quarter will receive refunds in accordance with the schedule observed during the fall, winter, and spring quarters.

LATE REGISTRATION

No student will be allowed to register for credit for the first term or the complete quarter after June 18 or for the second term after July 27

MARKING SYSTEM

Results of work will be recorded in the Registrar's office as follows:

- A—Exceptionally high quality, valued at 3 points for each credit.
- B—Good, valued at 2 points for each credit.
- C—Fair, valued at 1 point for each credit.
- D—Unsatisfactory, indicates a deficiency and gives no points, but gives credit for graduation if with such credit the student's standing is 1 or more.
- E—Failure, valued at 0 points and no credit.
- I—Incomplete.
- X—Absent from examination.
- WP—Withdrew passing.
- WF—Withdrew failing.

The **standing** of a student is defined as the ratio of his total number of points to his total number of credits. When a quarter's work is to be considered a "standing" is understood to be the ratio of the number of points gained to the number of credits scheduled.

ROOM AND BOARD

Application for a room in the women's residence halls should be made to the Director of the Residence Halls for Women, and for a room in the men's residence halls to the Dean of Men. Each application should be accompanied by a reservation fee of five dollars. If a check is sent in payment of this fee it should be made payable to the University of Kentucky. **Refunds of this fee will be made only in case notification is given the Director of the Residence Halls for Women or Dean of Men at least ten days before the term opens for which the reservation is made.** Upon occupancy of the room by a student, this fee will be held as a breakage deposit to be returned at the close of the term.

Women's Residence Halls. In Boyd and Patterson Halls double rooms are \$14 a term for each resident and in Jewell Hall \$16. Single rooms are \$17 a term in any residence hall. For the Summer Quarter double rooms in Patterson and Boyd Halls are \$28 per person, in Jewell Hall \$32 per person, and single rooms in any resident hall \$34 per person. Bed linens are furnished but students should bring blankets, towels, and dresser scarfs. Room assignments are made in order of application. Reservations not claimed by eleven o'clock of the evening of the first day of

registration will not be held unless special arrangements have been made with the Director of the Residence Halls for Women. All women, unless permission to live in town has been granted by the Dean of Women, must live in the residence halls.

Men's Residence Halls. Double rooms in the men's residence halls cost \$12 a term for each occupant; single rooms cost \$15 a term; suites of two rooms each cost \$15 a term for each occupant. Any double room or suite may be had by a single occupant for one and a half the regular price per man for the term; that is, a double room as a single is \$18 for the term. Bed linens are included. Occupants will furnish blankets, towels, soap. Reservations not claimed by the opening dates of the first and second terms respectively, will not be held unless arrangements are made with the Dean of Men.

Meals. Meals will be served at the University cafeteria during the Summer Session.

Rooms and Board in Lexington. Students who have not made reservations should apply upon arrival in Lexington at the office of the Dean of Women or Dean of Men for information relative to available rooms.

University Health Service. The services of a physician and nurse will be available to the students registered in the Summer Session during both terms. Consultations may be held at the offices of the Department of Hygiene.

REQUIREMENTS FOR GRADUATION

Undergraduate Colleges. To be eligible for graduation from any undergraduate college of the University, a student must have completed the requirements of the curriculum as approved by the University Faculty. In addition to gaining the specified number of credits, he must have an equal number of quality points—that is, a standing of 1.0.

Regardless of the length of time the student has attended the University, a minimum of thirty-six of the last forty-five credits presented for the degree must be completed in residence at the University. The last twenty-three credits of residence work must be completed while registered in the college through which the degree is granted.

Not more than forty-eight of the credits required for an undergraduate degree may be gained by extension, special examination, or both. A student may not satisfy in excess of one-half the requirements for a major by extension, special examination, or both.

The Graduate School. A student is required to satisfy the requirements for the degree for which he is a candidate as of the date on which he enters the Graduate School. In all cases, how-

ever, a minimum residence of one year (36 weeks) is required for the master's degree, and three years (108 weeks) for the doctorate. (See the Catalog or Graduate Bulletin for the specific requirements for the various graduate degrees).

No transferred credits are accepted toward the master's degree. Two years of graduate work from a fully accredited institution which offers the doctor's degree may be accepted toward the Ph.D. degree.

Theses must be presented in final form to the Dean of the Graduate School not later than three weeks before the date set for the final examination. The final examination must be taken at least fifteen days before the close of the quarter.

A graduate student must maintain a standing of 2.0 and no grade below C shall be counted.

No graduate credit is given for courses taken by correspondence or class extension

No work is given graduate credit unless the student was enrolled in the Graduate School at the time during which the work was taken.

Application for a Degree. All students in residence during the first term who are to be candidates for degrees in August should make formal application in the Office of the Registrar on Monday, June 22. All applications for degrees must be filed not later than Tuesday, July 28. No applications for graduation in August will be received after this date. The student is responsible for making application for the correct degree. That is, if a student is working for the degree, Bachelor of Arts in Education, he should apply for this degree and not make application for the degree, Bachelor of Arts granted in the College of Arts and Sciences. If, for any reason, a student does not receive the degree at the time indicated on the application, it will be necessary for him to file another application, as the University is not responsible for carrying over applications from one session to another.

COLLEGE OF ARTS AND SCIENCES

The college courses are planned to meet the needs of various classes of students. They may be listed under the following heads:

1. General cultural courses with majors and fields of concentration, leading to the degrees of A. B. and B. S.
2. Professional courses in industrial chemistry, leading to the degree of B. S. in Industrial Chemistry; in journalism, leading to the degree of A. B. in Journalism; in music, leading to the degree of B. S. in Music; and in bacteriology, leading to the degree of B. S. in Medical Technology.
3. Professional courses in which the general requirements for the A. B. and B. S. degrees are fulfilled.

4. Pre-professional courses meeting the requirements for admission to professional schools.
5. Combined courses, by means of which students may save a year or more in gaining both the A. B. or B. S. and a degree in Law, Medicine, or Dentistry.
6. Graduate courses leading to the master's and doctor's degrees in the Graduate School.

The Degree of Bachelor of Arts. For the degree of Bachelor of Arts the student is required to gain a total of 192 quarter hours and 192 points; that is, a standing of 1.01, subject to the following conditions.

OUTLINE OF REQUIREMENTS FOR GRADUATION

Lower Division—Freshman and Sophomore Years

General Requirements:

- Freshman Orientation, first and second quarters, freshman year, 2 quarter hours.
- English, 10 to 20 quarter hours (20 quarter hours required if only 3 units of entrance are presented)
- General Hygiene, freshman or sophomore years, 2 quarter hours.
- Physical Education, freshman and sophomore years, 6 quarter hours.
- Military Science (men), freshman and sophomore years, 12 quarter hours.

Group Requirements:

- Foreign Languages, 4 to 28 quarter hours.
2 quarters in one language, if 3 or more units of entrance are presented; 4 quarters in one language, if only 2 units; 5 quarters in one language, or 4 quarters in one language and 2 in another, if only 1 or no unit of entrance.
A student may take after any quarter of foreign language, a departmental examination which, if passed, will fulfill this requirement.
- Social Studies, at least 8 quarter hours in one department.
(Economics, History, Political Science, or Sociology)
- Mathematics, Philosophy, Psychology, at least 8 quarter hours in one department.
- Physical Sciences, at least 8 quarter hours in one department.
(Astronomy, Chemistry, Geology or Physics)
- Biological Sciences, at least 8 quarter hours in one department.
(Bacteriology, Botany, Physiology, or Zoology)

Upper Division—Junior and Senior Years

Field of Concentration. Sixty quarter hours are to be elected subject to the approval of the student's adviser and the Dean of the College, and must be in courses not open to freshmen.

Major. At least 22 quarter hours of the required 60 field quarter hours must be in one department, the major department, exclusive of courses open to freshmen. However, the major department may require more than the minimum 22. A minimum of 8 quarter hours is required as a prerequisite for a major in any department. A **Topical Major** is also offered, which is not confined to one department or field.

The Four Generically Related Fields Are: 1. Literature, Philosophy and the Arts. 2. Social Studies. 3. Physical Sciences. 4. Biological Sciences.

Tutorial Work and Comprehensive Examinations. Students majoring in the departments of Anatomy and Physiology, Ancient Languages, Art, Botany, Economics, Geology, German, Journalism, Mathematics and Astronomy, Music, Philosophy, Physical Education, Physics, Political Science, Romance Languages, Social Work, Sociology, and Zoology will be required to schedule tutorial courses as specified by their major departments and to take final comprehensive examinations covering their major work. Passing the comprehensive examinations is a prerequisite for graduation for major students in these departments.

COLLEGE OF AGRICULTURE AND HOME ECONOMICS

Agriculture

A student who completes the requirements of a curriculum in agriculture receives the degree Bachelor of Science in Agriculture. The liberal system of electives permits a student to take a general course or pursue major work in the following: Agricultural entomology, animal husbandry, crops, dairying, extension, farm economics, farm engineering, high school teaching, general horticulture, ornamental horticulture, markets and rural finance, plant pathology, poultry, rural sociology, and soils.

Pre-forestry, pre-veterinary, and pre-theological programs are available for those who desire to enter professional schools in these fields. A two-year, non-degree course has been set up for those who do not desire to complete the degree requirements.

The annual short course in poultry will be held in the stock judging pavilion June 22-26. Dates for short courses in animal nutrition, animal breeding, and livestock judging will be announced about May 1. For further information about these short courses write to the Assistant Dean, College of Agriculture and Home Economics, Lexington, Ky.

Home Economics

A student who completes the requirements of a curriculum in home economics receives the degree Bachelor of Science in Home Economics. Through the proper choice of electives a student may

take a general course or may pursue major work in one of the following: Dietetics and institution management, textiles and clothing, extension high school teaching, and commercial demonstration.

Of special interest to professional workers in home economics is the workshop in nutrition which is scheduled July 2-22. I will be repeated July 22-August 12. For further information about the workshop write to the Assistant Dean, College of Agriculture and Home Economics, Lexington, Ky.

COLLEGE OF ENGINEERING

Admission. For admission to the freshman class in the College of Engineering, applicants should present one and one-half units in Algebra, and one-half unit in Solid Geometry, other requirements being the same as specified for admission to the freshman class in general. Applicants meeting all of the general requirements, but deficient in Algebra or Solid Geometry, will be admitted to the freshman class, but will be required to take extra courses designed to remove the deficiencies. It is desirable, but not obligatory, that applicants also have high school credit in Chemistry, Physics, and Trigonometry.

Courses of Study and Degrees. The College of Engineering offers instruction leading to the following baccalaureate degrees:

- Bachelor of Science in Civil Engineering
- Bachelor of Science in Electrical Engineering
- Bachelor of Science in Mechanical Engineering
- Bachelor of Science in Metallurgical Engineering
- Bachelor of Science in Mining Engineering

The courses of study leading to these degrees are identical during the freshman year. This gives the student the benefit of one year of training in fundamental subjects before he is required to choose among the different fields.

There will be a freshman class in engineering beginning work in the Summer Quarter of 1942.

COLLEGE OF LAW

The Summer Quarter in the College of Law consists of two five-week terms, each of which is complete in itself, although some courses are offered which continue throughout the quarter.

The Summer Quarter is a regular part of the work of the school, and the same quantity and quality of work is required as in the regular session. An effort has been made to provide a full program, not only for the beginning students, but also for those who have completed part of a law course. One-third of the year's work can be completed in a Summer Quarter so that by attending three Summer Quarters a student may complete the full three-year course in two calendar years.

The courses in the College of Law for the Summer Quarter are planned with special reference to three types of students. First, students who desire to shorten the three-year period by studying during the summer; second, public school teachers who desire to know something about the law either for their own benefit or for the purpose of advising students; third, lawyers, probate judges, and prosecuting attorneys who desire either to complete their work for a degree or to become acquainted with recent developments of the law.

The law library is one of the best in the South, consisting of over 30,000 volumes. It receives regularly approximately 100 legal periodicals.

The Order of the Coif was established in 1931. Summer School students are entitled to consideration for membership in this Order on the completion of their work.

The Law School publishes the Kentucky Law Journal four times a year. To this, Summer School students are permitted to contribute by way of writing case notes.

COLLEGE OF EDUCATION

The College of Education is authorized to grant two degrees: a Bachelor of Arts in Education and a Bachelor of Science in Education.

To be admitted to the College of Education a student shall meet the following requirements: standing of at least 1.01 (average of C on all previous work) or, if an entering freshman, must be in the upper 80 per cent of his class.

For a degree in education the student is required to present a total of 192 quarter hours with a standing of 1.01.

GENERAL REQUIREMENTS FOR STUDENTS IN THE FIELD OF SECONDARY EDUCATION

COLLEGE OF COMMERCE

The degree of Bachelor of Science in Commerce is conferred upon students who meet the requirements of any one of the four curricula offered by the College of Commerce. The minimum number of quarter hours required for graduation under the General-Business Curriculum, the Combined Commerce-Law Course and the Secretarial-Training Course, is 192, while under the Industrial-Administration Curriculum it is 216. The scholarship standing must be at least "1.01". Unless two units in the ancient or foreign languages are offered for entrance, one year of language in college is required for graduation under all curricula except the Industrial-Administration. Regardless of these minimum requirements all commerce students are urged to take one year of foreign language.

THE GRADUATE SCHOOL

The Growth of the Graduate Program. The demand for graduate work at the University of Kentucky has grown rapidly in recent years. High school teachers, supervisors, principals and superintendents of schools, and teachers in normal schools and junior and senior colleges are seeking the education and training represented by higher degrees. To meet this demand, the several colleges of the University are providing larger programs of work for graduate students.

Admission to the Graduate School. (See general admission requirements.) College graduates who desire to confine their work to undergraduate courses and who do not expect to become candidates for higher degrees should not register in the Graduate School, but with the Dean of the College in which their courses are listed.

Residence Credit. A graduate student must carry at least six quarter hours in each term of the Summer Quarter to be entitled to full residence credit for that term.

Applications for Graduate Degrees. Applications for degrees must be made at least four weeks before the date of commencement. These applications are made at the office of the Registrar of the University.

Requirements for the Master's Degree. A candidate for the degree of Master of Arts or Master of Science is required to complete 36 quarter hours of graduate work of which two-thirds is in a major and one-third in a minor field, spend a full year in residence, present an acceptable thesis, have a reading knowledge of one modern foreign language and pass a final oral examination. He must maintain a standing of 2.01.

Requirements for Professional Degrees. The professional degree of M. A. or M. S. in Education, or M. S. in Agriculture, Home Economics, and Engineering may be secured with the same requirements except that there is no language requirement and that with the permission of the department concerned, 18 additional quarter hours and 12 additional weeks may be offered in lieu of a thesis.

General Requirements for a Master's Degree. All candidates for any master's degree must have completed the equivalent of a B.A. or B.S. degree in a fully accredited institution. Part-time residence during any quarter is computed on the basis of one week of residence for each quarter hour earned, but the amount of residence for part-time work is limited, except for graduate assistants, and part-time instructors, to not more than four weeks in any one quarter. No credit for advanced degrees is allowed for correspondence or extension work and no transferred credit is accepted toward a master's degree.

General Requirements for the Doctor's Degree. The degree of Doctor of Philosophy is offered with major work in the following departments: Agricultural Economics and Rural Sociology, Chemistry, Education, Economics, English, History, Mathematics, Physics, Psychology, Political Science, and Romance Languages. Minor work may be carried in any department offering graduate courses.

The degree of Doctor of Philosophy is conferred upon a candidate who, after completing not less than three years of graduate work devoted to the study of a special field of knowledge, satisfies the language requirements, passes the required examination in the subjects, presents a satisfactory dissertation, and is deemed worthy of recognition as a scholar of high attainments in his chosen province.

The doctor's degree is intended to represent not a specified amount of work covering a specified time, but the attainments through long study of independent and comprehensive scholarship in a special field. Such scholarship should be shown by the candi-

date's thorough acquaintance with present knowledge in his special field of learning and a marked capacity for research.

A minimum of three collegiate years of resident graduate work, of which at least the last year must be spent at the University of Kentucky, is required for the doctorate. The full time of each of these years must be spent in study. Part-time students and those holding assistantships or engaging in other outside activities will of course be required to take a proportionately longer time.

While it is expected that a well prepared student of good ability may secure the degree upon the completion of three years of study, it should be understood that this time requirement is a minimum and is wholly secondary to the matter of scholarship. Neither time spent in study, however long, nor the accumulation of facts, however great in amount, nor the completion of advanced courses, however numerous, can be substituted for independent thinking and original research.

Work done in other institutions of learning may be accepted toward the doctorate at the University of Kentucky but no work is credited which has not been done in a college or university of recognized standing or in a research laboratory.

SCHEDULE OF LECTURES AND RECITATIONS

Explanations and Abbreviations

Colleges are arranged according to the order of their establishment and the departments of each College are arranged alphabetically.

Days of recitations are indicated by the initial letters of the days, D standing for daily. The symbol M—F indicates a class meets daily Monday through Friday. The buildings are indicated as follows:

A, Administration	KH, Kastle Hall
AC, Art Center	L, Lafferty Hall
AE, Agricultural Engineering	McVH, McVey Hall
Agr, Agriculture	MeH, Memorial Hall
BS, Biological Sciences	MG, Men's Gymnasium
D, Dairy Products	MH, Miller Hall
E, College of Education and Associated Schools	NH, Neville Hall
Eng, Engineering	NorH. Norwood Hall
FH, Frazee Hall	Pence, Pence Hall
GA, Gym Annex	SP, Stock Judging Pavilion
HB, Health and Hygiene	UL, University Library
HE, Home Economics	WH, White Hall

Recitation Hours

*First Hour	7:00— 8:15
Second Hour	8:25— 9:40
Third Hour	9:50—11:05
Fourth Hour	11:15—12:30

	Noon Hour	
Fifth Hour		1:30— 2:45
Sixth Hour		2:55— 4:10
Seventh Hour		4:20— 5:35

Only courses marked with an asterisk are open to freshmen.

Only courses with numbers below 100 are open to sophomores.

Courses with numbers between 100 and 200 are open to juniors, seniors, and graduate students.

Courses numbered 200 or above are open to graduate students only.

* Two-hour courses are held for fifty minutes each day, instead of the regular recitation hour of 1 hour and 15 minutes.
