SENIOR ENGINEERS TO LEAVE SUNDAY NIGHT FOR INSPECTION TRIP

Forty Students to Go to Chicago on Annual Tour

RETURN ON APRIL 18

Dean F. Paul Anderson Will Conduct the Party

Forty members of the senior class, College of Engineering, will entrain Sunday night, at 6:35 o'clock for their annual six-day inspection trip to Chicago and vicinity. The party will be conducted by Dean F. Paul Anderson and Professors D. V. Terrell, J. B. Dicker, E. A. Bureau and L. S. O'Bannon.

The students will arrive in Chicago early Monday morning. The first day will include trips to Armour & Company, the Union Stockyards, the Blackstone Hotel power plant and the Chicago Board of Trade.

In a letter to Dean Anderson W. L. Ware, trade commissioner of the Chicago Association of Commerce, informed the dean that the association has arranged to take the visiting Lexingtonians on an automobile tour of the city's park system Friday.

Tuesday the party will go to Gary, Ind., to see the American Bridge Company's plant and the plant of the Illinois Steel Company. Wednesday the Western Electric Company plant and the Chicago Telephone Company's main office and exchange will be inspected. Thursday the Crane Company and the plant of Sears-Roebuck & Company.

Friday will be the busiest day of all. There will be trips made to the Fourteenth street pumping station of the Chicago water supply system; the municipal pier; the City Hall, where a talk will be given by the city engineer of Chicago; the northwestern station of the Commonwealth-Edison Company and the Division street works of the People's Gas, Light and Coke Company.

Saturday a trip out into Lake Michigan to inspect the water intakes is planned and at night a banquet will be given by the Chicago Alumni Club.

The students will leave Chicago Sunday night, April 17, at 8:55 o'clock and will be back in Lexington at 9:20 o'clock Monday night.

Students who will make the trip are: T. J. Asher, Jr., B. O. Barteo, E. L. Baulch, W. M. Baulch, H. F. Bell, G. C. Buchheit, E. T. Cross, R. E. Dealtry, S. H. DeBrovy, J. R. Drummy, F. E. Eastwood, G. A. Hillsman, B. I. Hines, F. Houston-Shaw, O. Howard, V. L. Johnson, J. M. Land, F. W. Luker, M. J. McWhorter, J. H. Marking, R. N.

BLUE AND WHITE PLAY HARD GAME TOMORROW

Michigan to Present Strong Line-Up Against Coach Gill's Men

The University of Michigan will cross bats with the Wildcats tomorrow afternoon at 2:30. The northern team is on its southern trip and on Still field tomorrow against a team that still has the defeat of last year ranking in its mind. The Ann Arbor squad defeated the Cats by an 8-3 score last season. This was one of the two reverses received by the Blue and White team in 1920.

Michigan comes to Lexington with

LITTLE THEATRE TO PRESENT FOUR MORE PLAYS THIS SEASON

Prof. Mikesell Aiding Organizations With Their Productions

SEASON CLOSES MAY 20

Townspiece Plan Several Performances

The Little Theatre is co-operating with several organizations in helping them produce plays, and starting with "The Amazons," which is to be presented during the week of April 17, some organization will present a play each week until the close of the season. Townspiece as well as students are to give performances. The activities of the Strollers last week and this week necessitated the postponement of several plays.

"The Amazons," the next production, is a three-act play and will be presented by the Little Theatre through the Philosopher Literary Society. Its outdoor scenery and interesting play will undoubtedly please Little Theatre patrons. Jack Derringer, John Marsh Land, and Fred Houston-Shaw are taking the leading men's parts and Margaret Harbison, Lucy Smith and Jennie Simmons are in the leading women's roles. All are doing exceptionally good work. The exact date of the presentation will be announced next week.

"The Laughing Cure," which portrays the effect or psychological treatment on a woman for her ailments, will be presented by the Patterson Literary Society the last week of April. The cast is composed of Sue Chenault, Mary Lyons, Mary Peterson, Estella Kelsell, L. C. Fielder, J. L. Hayes, W. K. Berryman and John Casner.

"The Man Who Married a Dumb Wife" will be given the first week in May by town actors. Mrs. S. A. Boles will be the leading lady and Sam Walton will take the principal male role. A splendid performance will possibly have to be given for married men who are very desirous of seeing this portrayal of Eutopia.

The last play of the season is to be given on May 20 by the Woman's Club under the direction of the Little Theatre. Plans are under way to give a Percy MacKaye Night. Mrs. Sallie B. Cave and Mrs. Mat Walton will take the principal parts.

SENIOR DAY WILL BE APRIL 29 THIS YEAR

Usually Held on Arbor Day; Postponed Due to Strollers' Absence

Senior Day, usually celebrated on Arbor Day, this year has been postponed to April 29 as a result of the Strollers presenting their play, "The Admirable Crichton," this week-end in the Eastern part of the State, and necessitating the absence of a number of Seniors and Juniors who will have part in the Senior Day program. The usual schedule will be followed, including the planting of a tree, presentation of the spade to the Junior class, orations by members of both the upper classes, pledging of new men for Lamp and Cross, Senior men's honorary fraternity, and the women's pledging for Mortarboard, the national women's honorary fraternity which succeeds Staff and Crown, a Senior local organization which has been in the University for a number of years.

A delightful tea was given at the Kappa Delta Fraternity house Tuesday afternoon in honor of their Grand President, Miss Sarah Blue of Alabama. The house president from each fraternity house was invited.

STROLLERS PLAYING EASTERN KENTUCKY CITIES THIS WEEK

Special Pullman and Baggage Car to Transport "Crichton"

AT PINEVILLE TONIGHT

Teas and Dances in Honor of Cast and Band

The Strollers are in Eastern Kentucky today helping to put the University of Kentucky on the map.

The cast of "The Admirable Crichton," the 1921 Stroller production, accompanied by fifteen pieces of the University band, left Lexington last night on the 9:35 o'clock train for Pineville, Ky. A special pullman was provided for the Strollers and a special baggage car carried all baggage and scenery to be used in the play. The Strollers arrived in Pineville at 6 o'clock this morning. The band will give concerts in front of the Continental Hotel, at the Pineville High School and at several other places in the city. This afternoon Mrs. John L. Phillips of Pineville is entertaining the Strollers and the band at tea.

At 8 o'clock tonight the Strollers present "The Admirable Crichton" at the Gaines Theatre in Pineville. Then, from 11 until 2 o'clock the Strollers will be guests of honor at a dance to be given by the Criterion Club of Pineville at the Continental Hotel.

Saturday morning the Strollers and the band will be taken by automobile to Middlesboro, where "The Admirable Crichton" will be presented Saturday night.

The Strollers' special pullman and baggage car, which will await them at Middlesboro, will bring the company back to Lexington, arriving here at 4 p. m. Sunday.

KENTUCKY TRACK MEN INVADE VANDY'S CAMP

Buchheit's Men Are Expecting to Bring Home the Laurels

Coach Buchheit leaves with his men for Nashville this afternoon in order to be on hand for the meet with Vandy tomorrow. It is the first college meet of the year and he will get an insight in the future from the way the men conduct themselves.

Hayden, holder of the Kentucky record for the javelin, injured a knee in practice the other day and it is doubtful whether he will make the trip or not. Dorman has been sick and he will not be up to old form in the high jump. All the other men are coming along nicely and most of them are working out in midseason form. Porter, Boyd, Wilhelm, Synder, Captain Clare, Davidson, Thornton, Whaley and Hayden will probably make the journey, returning sometime Sunday.

Little is known of the Vandy outfit. Last year the Blue and White defeated them easily and our boys are expecting to repeat the performance.

AG. SOCIETY

The next meeting of the Ag. Society will be held in the Ag. Building Monday, April 11, at 7 p. m.

The program is as follows: "Corn Root Rot Experiments," R. S. Davis; "County Agent Work in Kentucky," Chas. Taylor; "A Successful Dairy Farm," R. R. Robbins; "Ag. Society in Alabama," J. D. Foster; "Ag. Society in Mississippi," Casey Smith; "Reading," Miss Rouse. All agricultural students are urged to be present.

WILDCAT BALLTOSSERS WIN LOOSE GAME FROM KENTUCKY WESLEYAN

Methodists Hit Slomer But Fail to Put Across Runs

RIDGEWAY HAND HURT

Kentucky Makes Five Runs in "Lucky Seventh"

The Wildcat balltossers put another victory down in the record book when the ninth inning of the game last Tuesday afternoon found them leading the Kentucky Wesleyan nine by a 9-2 score. The game was not up to the standard of the first contest of the season, it being very loosely played. Thrills and spectacular plays were conspicuous by their absence.

The Cats were led to believe that the Winchester aggregation would start a righthander in the box but Mulholland, a portsider, did the heavy work. He was rather erratic at times and Andy Gill's swatters pounced on him in the second frame and put four across the plate. Again in the seventh, hits were bunched and helped by an error, the local team put across five runs. In this inning the Wildcats batted all the way 'round.

'Bud' Slomer started in the box for Kentucky and at times got restless and gave the Methodist team a few hits and incidentally a few runs. They tallied once in the fifth inning, and again in the sixth. The stellar work of Al Muth in pulling down fast ones in centerfield saved Slomer many times.

Ridgeway was robbed of a sure two-bagger when Ray, leftfielder of the Wesleyan nine, speared a hard drive in the third inning. Incidentally, the Winchester club pulled the only double play of the game. Gregg and Beam were retired, Little to Van Winkle to Cecil in the eighth. 'Speedy' Propps made up for this, however, when he resorted to that ancient trick of hiding the ball, catching McCourt ten feet off the second sack in the seventh.

McKinney replaced Slomer in the seventh and held the visitors scoreless in the next two innings and striking out three men. 'Mac's' spitball was working to perfection and the Wesleyan players couldn't find his offerings. One of his spitters took a wrong twist and put Ridgeway out of the game with a split finger. Baugh received his slants for the rest of the game.

Score by innings: R H E
Ky./Wes'l'n 0 0 0 0 1 1 0 0 0—2 8 3
Kentucky 0 4 0 0 0 0 5 0 x—9 8 6

ENTHUSIASM IS GREAT FOR BLUE RIDGE MEET

Moving Pictures Shown at Patt Hall Joint Meeting

The enthusiasm for Blue Ridge and for the Y. W. C. A. and Y. M. C. A. Conferences which are held there every June, always high at this time of the year, is now greater than ever following the peppy joint meeting at Patterson Hall last Sunday night.

Moving pictures taken at the Y. W. C. A. and the Y. M. C. A. Conferences there in 1919 were shown and interesting talks describing all phases of the wonderful life at Blue Ridge were given by Nellie Stone, George Gregory and C. V. Watson. Bart Peak gave the list of speakers who are to be at the Conference in June.

Edna Snapp, recently elected president of the Y. W. C. A., was the leader of the meeting.

KEEP OFF THE GRASS

SCIENCE AND RELIGION ARE CORRELATIVE SAYS DOCTOR ALLEN FOSTER

Three Day Campaign Held Here by the Noted Evangelist

FOUR CHAPEL TALKS

Touring Colleges of America as Theologian

Dr. Allen K. Foster, formerly pastor of the Theodore Cuyler Church, Brooklyn, and holder of degrees from Columbia, Johns Hopkins and Yale conducted a three-day evangelistic campaign on the campus Tuesday, Wednesday and Thursday, speaking under the auspices of the Y. W. C. A. and the Y. M. C. A.

While here Doctor Foster spoke in chapel Tuesday morning and evening, and Wednesday and Thursday morning. Wednesday evening he visited a number of the centrally located fraternity and sorority houses and Thursday evening he made a talk to the women of the University at Patterson Hall.

Doctor Foster is visiting the colleges of America, endeavoring to fix in the student's mind the relationship between science and religion, especially to those who may have formed the opinion that the two are distinct entities.

He said in his talk in chapel Tuesday: "I am here to talk with you students about things which probably confuse you. Unless you know how to adjust your knowledge to certain facts you are going to be in confusion and only partially educated. There are three things that lie at the basis of religion and at all times apply to every department of knowledge—mystery, theory and fact.

"Mystery lies behind all life. The natural forces, which are at the basis of all our reactional side, and as regular as clockwork, are mysteries which God alone knows. Doctrines attempt to explain these mysteries. Men waiting for absolute certainty will never prove anything. Theory, which is everywhere, is the best mental effort to explain. We first study facts, then form our theories. Theory is the thing which has made science advance. Science, by the use of imagination and poetic quality, has made wonderful discoveries. Then there is fact. This is the greatest age in the world for facts, facts that are spiritual. No man knows the origin of religion. From the beginning on through the crowning of Christ's holy message there has been a growing interest in dealing with spiritual things. As John Fiske said: 'There is in universal mankind from the beginning to this hour, a tendency to worship God, and if there is the real there must be the object.' The historicity of Christ lies in the human mind, even if man had never conceived of it."

The Strollers this week closed a contract to present "The Admirable Crichton" at Winchester, April 15, under the auspices of the Kiwanis Club of that city.

STROLLERS TO PLAY WINCHESTER APRIL 15

"Admirable Crichton" to be Presented Under Auspices of Kiwanis Club

The Strollers this week closed a contract to present "The Admirable Crichton" at Winchester, April 15, under the auspices of the Kiwanis Club of that city.

As yet no permission has been obtained from the University Council to present the play in Winchester, but the Strollers expect to ask the council for this permission at the meeting of that body today and feel sure that it will be granted.

FRIDAY, APRIL 8, 1921

APPRECIATION OF LIBRARIES

Students often fail to appreciate the value of books and the importance of the various libraries on the University campus. Despite the fact that library regulations are quite lenient and that any student has access to any volume contained in the catalogue of the University's libraries, numbers of books are taken yearly in an irregular way and often are not returned.

About one hundred volumes are lost from the main library yearly as a result of this deplorable practice. It is difficult to understand how a student can so flagrantly disregard the

rights of others and have such a careless sense of ownership as to be guilty of such a thing.

We do not hope that this editorial will dissuade those guilty of such practices, but we call attention to the fact that every student should feel himself a custodian of library books, assuming the responsibility of returning to their rightful station books found lying about the buildings for which no one seems to be responsible.

Someone in giving a reason for the prevalence of the habit that is responsible for the loss of valuable volumes said "it seems to be the opinion that anything that belongs to the State belongs to anyone." The fact should be borne in mind that the books that have been collected and placed in the libraries are for the enlightenment and pleasure of all the students who may attend the University for the next decades. It is indeed the acme of selfish thoughtlessness to deprive others of the benefit that might accrue to them from the opportunity to use the volumes unlawfully taken from the libraries.

o-K-o

The Kernel rejoices in the notable dramatic triumph which the Stroller cast achieved in their production of "The Admirable Crichton." Their 1921 production was so eminently successful that we are quite glad that it is to be presented in various towns of the State because the young playfolk in the perfection of their art will reflect quite favorably on the University of Kentucky and give the institution much favorable and valuable publicity. Interest in the University will be stimulated and the ties between Kentucky's principal educational institution and the people of the State will be cemented as a result.

o-K-o

More than half of the college women's clothing is made in her own home by herself or her mother, according to answers received to a questionnaire sent to mothers by a faculty member of the University of Wisconsin. And the other half isn't made.

o-K-o

There is some satisfaction to be found in the fact that the University's \$14,000 clocks have abandoned their playful variant mood and are content to remain consistently five minutes fast!

JUST JARGON
By "Jessie" James

According to the latest classifications, "In the spring a young man's fancy lightly turns to thoughts of—"
(Senior)—Cultivation of misplaced eyebrows, not to mention sideburns, etc.

(Junior)—Borrowing dress suit for prom.

(Soph)—Cutting drill.
(Fresh)—Puppy love.

Fishworms First—Robins are extremely sensible; while we are writing poems to them they are filling up on fishworms.—St. Louis Globe-Democrat.

Uncomplimentary—"I wish you would tell me," said the agent, who had been a long time on Mr. Snagg's trail, "what is your objection to having your life insured?"

"Well, I don't mind telling you," replied Snagg. "The idea of being more valuable dead than alive is distasteful to me."—The Bits.

Prof. Mikesell Makes Plans For Tournament

Professor Mikesell is working on a plan to divide the student body into seven groups to correspond to the seven debating districts of the State. Each group is to have an executive committee whose duty it will be to look after the high school students when they come to the University for the scholastic tournament on May 6 and 7. This tournament will include, the annual track meet and contests in debating and essay writing. More detailed information of the plans will be given in next week's Kernel.

Who Was Moseley?

HE was a young Oxford man, only twenty-seven when he was killed at Gallipoli. Up to his time, man had never seen the inside of an atom. He turned the X-rays on matter—not figuratively but literally—and made them disclose the skeleton of an atom just as certainly as a surgeon makes them reveal the positions of the bones of the body. Moseley proved that all atoms are built up of the same kind of matter. He saw, too, just why an atom of copper is different from an atom of gold.

Atoms are built up of electrons. Each atom consists of a nucleus, a kind of sun, with a certain number of electrons grouped about it, like planets. Moseley actually counted the number of electrons of all the metals from aluminum to gold.

When you discover what gold is made of or a new fact about electricity, you open up new possibilities for the use of gold or electricity. For that reason the Research Laboratories of the General Electric Company are as much concerned with the "how" of things—atoms and electrons, for instance—as they are with mere applications of the electric current.

Hence Moseley's work has been continued in the Research Laboratories, with the result that more has been learned about matter. How does water freeze? What is lead? Why are lead, iron, gold and tungsten malleable? Such questions can be answered more definitely now than ten years ago. And because they can be answered it is possible to make more rapid progress in illumination, in X-ray photography, in wireless telegraphy, and in electrical engineering as a whole.

There would have been no coal-tar industry without the vast amount of research conducted in organic chemistry, and no electro-chemical industry without such work as Sir Humphrey Davy's purely scientific study of an electric current's effect on caustic potash and caustic soda. Sooner or later research in pure science always enriches the world with discoveries that can be practically applied. For these reasons the Research Laboratories of the General Electric Company devote so much time to the study of purely scientific problems.

CHI OMEGAS GIVE BANQUET AT PHOENIX

Founders Day Celebration Held by Two Chapters

Lambda Alpha and Chi Chapters of Chi Omega held their annual founders day banquet Tuesday evening in the Phoenix Hotel ball room. It was the twenty-sixth anniversary of the fraternity and many alumni came to assist the active chapters and pledges in the celebration. The tables were decorated with cardinal and straw tulips, the fraternity colors.

After a sumptuous banquet Mrs. McClary Harbison, a graduate of the University, presided as toastmistress. The title of her toast was *Yanity Fair*. Lucie Smith in an old fashioned straw-colored dress, carried a cardinal feather fan and sang "An Old Fashioned Garden" as a prelude. The toasts were then given as follows:

Hats, Lucy Kavanaugh; Spats, Margaret Harbison; Wrist Watches, Anne Settlemyer; The Drooping Veil, (In which telegrams and messages from absent members; were read) Matsy Grimes; Hoops, Nancy Innes, and Powder Puffs, Claribel Kay and Hilda Threlkeld (In which Lambda Alpha presented the silver cup to the best all round new initiate, Lucy Kavanaugh; and Chi presented theirs to Anne Settlemyer).

As a surprise came the final powder puff in which the Lambda Alpha chapter basket ball team, which won the championship this spring, was presented with a loving cup of straw colored candy bearing the cardinal inscription "Champions, 1921."

MARRIAGE OF MISS ADAMS AND MR. WARTH ANNOUNCED

The marriage of Miss Virginia Adams and Mr. Robert D. Warth, which took place January 8 at Lawrenceburg, Ind., has just been announced. Mrs. Warth is the daughter of Mr.

and Mrs. J. W. Adams, of Bellaire avenue, and a member of this year's graduating class of Transylvania College.

Mr. Warth is at present engaged in graduate work at the University. He is president of the Patterson Literary Society, captain in the cadet corps and member of the track squad. Mr. and Mrs. Warth will continue their studies and for the present will be at home to their friends at 120 Bassett court.

OFFICIAL NOTICES!

Friday, April 8—
Council Meeting, President's office, 3:45 p. m.
Meeting of Patterson Literary Society, Gym Building, 7 p. m.

The Strollers present "The Admirable Crichton" at Pineville in the evening.

Saturday, April 9—
Baseball, Kentucky vs. Michigan, Stoll Field, 2:30 p. m.
Cadet hop, Armory, 3:30 to 5:30 p. m.

Sunday, April 10—
Meeting of Y. M. and Y. W. C. A., Patterson Hall, 6:30 p. m.

EXCUSES GIVEN BY DR. A. G. IRELAND

The Kernel is requested to publish the following notice:

I wish to invite the attention of all students to the University rule which states that in order to be excused for absences incurred during illness, this Department must be notified immediately on the first day of absence. Excuses will be given them by this Department upon return to classes.

A. G. IRELAND, M. D. Resident Physician for Men, Department of Hygiene and Public Health.

PRE-MEDICAL CLUB

The Pre-Medical Club was addressed Monday night, April 4, in Science Hall by Doctor Shull on the subject of respiration in plants. In presenting this subject Doctor Shull described the chemical reactions of the vital processes and discussed their value and importance in the study of plants. Dr. Pryor made a short address to the society on the requirements of various medical schools for entrance. There will be one more meeting of the society this year and plans are being made for giving a special program and refreshments at that time.

HARD GAMES ON SCHEDULE

Kentucky will have to show some real class to be able to clean up with this year's schedule. While the Wildcats were defeating Georgetown Saturday afternoon, Georgia, which plays here April 29 and 30, was giving Yale the short end of the score. At the same time, Vanderbilt, which plays here in May, was defeating Indiana 2 to 0.

HARD GAME TOMORROW

Continued From Page 1.

A team that is composed of nearly all veterans. Their main loss this spring has been their pitcher. He played professional ball in the Pacific Coast League last summer. Reports, however, state that the northern squad has several good men to take his place. It is said that their infield and outfield are almost intact.

Coach Andy Gill has decided to start 'Bud' Slomer in the box on account of his showing against Michigan last year. If 'Bud' is in fine mettle he will cause the visitors much trouble. Ridgeway who injured a finger in Tuesday's game will receive Slomer's slants. If his finger does not hold out Baugh will don the mask and big mitt.

The rest of the lineup of the Wildcats will be the same as in Tuesday's game. Gregg, Propps, Williams and Captain Brown will hold the infield down. Maddox, Beam and Muth will take care of the outer gardens. In the last game Muth demonstrated that he is a better player than ever and he can be relied upon to hold the outfield together with his presence in centerfield.
