AF Students Face Tough Alternative

Students enrolled in APROTC classes and who plan to graduate next year will be required to sign up for flight training or risk being drafted. This announcement was made Thursday by the Air Force.

Assistant Defense Secretary John A. Hannah conceded the new policy breached a "moral" agreement with college students who signed for officer training. But he said lower manpower ceilings set by the Eisenhower administration left no alternative.

The choice is not entirely voluntary since physical requirements are much higher for flight training. Those drafted are likely to go into the Army rather than become enlisted airmen despite their three years of specialized training.

Hannah, the department's manpower expert, also told a news conference: The flood of newly commissioned second lieutenants from the nation's campuses last spring will make it necessary to cull the Air Force of "less effective" career officers of higher rank.

Dean White Visits Army ROTC Camp

Dr. M. M. White, dean of the College of Arts and Sciences, was among the group of college and university representatives who visited the Infantry ROTC camps in Maryland last week.

During the visit, the educators were the guests of Major General L. D. Carter, Commanding General, Second Army. They observed the participation of the ROTC students from their respective institutions in all phases of training.

'Cheaper By Dozen' Final Summer Movie

The final motion picture of the UK Summer Cinema series will be shown at 7:45 p.m. (CST) Tuesday in the Memorial Hall Amphitheater. The movie will be "Cheaper by the Dozen."

A comedy, the film is based on the story of a large family which solves its problems in a democratic manner. Stars of the story are Clifton Webb, Jeanne Crain, and Myrna Loy.

The Summer Cinema is sponsored by the University through the Department of University Extension for the benefit of its personnel and summer students. There is no admission fee for the programs.

In case of rain, the movie will be shown in Memorial Auditorium.

UK Students Are Injured In Car Wreck

Two UK students were injured one seriously, in a two-car collision last week at the Nicholasville Pike and Southern U-Pass intersection.

George Sharpe, 19, suffered amputation of his right leg between the knee and ankle, and was reported in serious condition at Good Samaritan Hospital. The student was taken to surgery shortly after he was admitted.

Barbara Noel, 19, also a UK student, was taken to X-ray for examination. A report stated she had received head contusions and foot injury.

Both students were in a car that was struck by one driven by a Lexington resident. Several occupants of the other car were injured, none seriously, however.

Strange Things

"The strangest assortment of stage hands we've had in years" is the tag that Guignol Theater directors have stuck on this summer's group of stagecraft personnel who are preparing the settings for "The Marriage of Figaro," to be presented August 5-8. The all-English translation of Mozart's opera will be given jointly by the Guignol and the UK Summer Opera Workshop. Seated at left with brush is Paul Taylor, Washington, D. C., a senior in the College of Education. Standing holding cardboard is Hubert Jernigan, a biology teacher from Shelbyville. Sheila Strunk, standing with brush, is from Berea and has been appointed dramatics instructor at Salem Academy at Winston-Salem, N. C. Nancy Niles of Louisville, a sophomore art student is serving as set designer and is seated in the picture. Helen Talbot, seated with brush and bucket, has been appointed first grade teacher at Picadome and is a senior in the College of Education. Jim Hurt, on ladder, is a sophomore journalism major and is active as a musician in Central Kentucky. Standing with hand on bucket is Easton Stuhr who teaches dramatics and English in Mount Carroll, Ill., and is at UK this summer working on his doctorate in English. These qualifications and more are the reasons that Guignol directors claim a rarity this season in the form of their stage crew. Serving as co-directors for the production are Wallace Briggs, Guignol director, and Aimo Kiviniemi, summer workshop director. Lolo Robinson, associate director of the theater, is costuming the performance, and Ernest L. Rhodes, Guignol technical director, is supervising stage activities.

Music Recitals

Exon-Roberts

Jane Exon, mezzo-soprano, and Ina Eloise Roberts, soprano, will present a joint recital at 8 p.m. (CDT) tonight in the Laboratory Theater of the Fine Arts Building. The recital will be in partial fulfillment of the requirements of the Bachelor of Music degree in public school music.

Betty Shaw will accompany Miss Exon and Anna Hines will be the accompanist for Miss Roberts.

The program includes:

Nymphs and Shepherds Purcell
I Attempt from Love's Sickness

Borchardt

Richard Borchardt, clarinetist, will present his graduate recital at 4 p.m. (CDT) Sunday in the Laboratory Theater of the Fine Arts Building. The recital will be in partial fulfillment of the requirements for the Master of Music degree in applied music.

Ann Huddlestone will accompany Borchardt on the piano and Kenneth Wright, a Music Department faculty member will be included in one number as violinist.

The program will be as follows:
Sonata for Clarinet and

(Continued on Page 3)

Girls' Dorm Delayed Until Study Is Made

Plans for a new women's dormitory on the UK campus were cancelled temporarily this week until a study of the University's housing requirements are made.

The State Property and Buildings Commission at its monthly meeting Monday, empowered a three-man subcommittee to meet with University officials soon to discuss the program. The members are Gov. Lawrence Wetherby, George Stewart, acting finance commissioner, and Felix Joyner, budget director.

State aid totaling \$400,000 is being sought by the University for the dorm. The planned building would house 312 girls. Federal officials have approved the project and ear-marked \$722,000 for University use on a 3 per cent, 40-year loan basis. The federal money will be available when the states makes its grant.

W. T. Judy, executive director of the commission, said all of UK's proposed construction projects would be delayed with the exception of the new men's dorm. Bids on that project, he said, would be received in September.

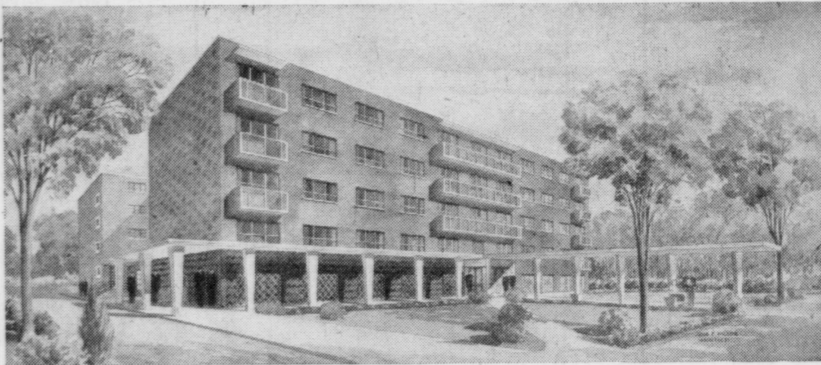

Among the University's requests to be studied by the group will be a \$75,000 electrical wiring project for the six houses now being constructed for fraternity row. A \$178,000 bid for renovation and repair of buildings on the experimental farm and the substation at Princeton, and painting of the four men's residential halls will also be studied. Judy said that one of the men's dorms had not been painted in 16 years.

In the Report of the President to the Board of Trustees for the fiscal year 1951-52, President Donovan listed the building needs of the University in the order of their importance. They were:

1. Dormitories, residence halls, sorority and fraternity houses for under-graduates.
2. Apartments for graduate students and younger faculty members.
3. A science building for chemistry and physics.

'FIGARO' TICKETS

Tickets for the Summer Opera Workshop performance of "Marriage of Figaro" are on sale at the Guignol box office. The opera will be given at 7 p.m. CST, August 5-8.

PLANS COMPLETED FOR U. K. MEN'S RESIDENCE HALL—Construction is expected to begin in January on the University of Kentucky's new men's residence hall. The new \$1,900,000 dormitory, shown above in a drawing by architect John F. Wilson of Lexington, has been designed to house 365 students and to provide dining facilities for 1,200. A loan of \$1,400,000 has been approved by the federal government, and the Kentucky Property and Building Commission has allocated an additional \$500,000 for the structure. It will take at least two years to complete construction.

4. Repairs and alterations on the Experiment Station Farm.

5. A building on the campus to house the College of Pharmacy.

6. A building for the College of Pharmacy.

7. An animal industry building, a horticulture greenhouse and soil house, and a plant science building.

8. Completion of the Mineral Industries Building.

9. A library annex.

Donovan also stated in the report that the University could not have instructed the students who enrolled after World War II if the Federal Government had not provided temporary classroom and laboratory buildings. These buildings are deteriorating rapidly and should be replaced as soon as possible. Other buildings on the campus should be abandoned or modernized.

The subcommittee appointed Monday will study the building needs outlined in the report.

W. W. Dimock Dies At Home

Dr. William Wallace Dimock, formerly head of Animal Pathology, died at 9:15 a.m. Thursday, July 24, at his home, 323 Swigert Ave. Dr. Swigert, 73, had suffered a heart attack during the night.

He had been on a change of work status since March 1, 1950. Prior to that he had been with the Animal Pathology Department since 1918.

Dr. Dimock, a native of Connecticut, was born in that state Feb. 20, 1880, at Tolland. He was the son of the late Henry Eugene and Ellen M. Clark Dimock. He received a B.S. in Agriculture from the University of Connecticut in 1901 and a doctorate in veterinary medicine from Cornell University in 1905.

Dr. Dimock began his career in Cuba at the Cuban National Experiment Station as an investigator of animal diseases and as veterinarian to the National Board of Health. He received degrees from the University of Cuba and the University of Havana.

He returned to the United States in 1909 to become professor of pathology at Iowa State College, and remained there until coming to UK.

He is the author or co-author of 75 publications on animal disease. His most publicized work related to infections creating sterility and abortions in mares, and diseases of foals. He had also done research on diseases of swine and on botulism, John's disease in cattle and parasitic diseases of sheep and horses.

A testimonial dinner in Dr. Dimock's honor was held at the time of his change of work assignment. Livestock men of Kentucky and other states took part.

Dr. Dimock was a member of the American Veterinarian Association, American Association for the Advancement of Science, Kentucky Veterinarian Medical Association, Iowa Veterinarian Medicine Association, Kentucky Academy of Science, U. S. Live Stock Sanitary Association, Gamma Alpha, Phi Kappa Phi, Sigma Xi, and the Second Presbyterian church.

He is survived by his wife, Mrs. Ruth Atwill Mudge Dimock; four daughters, Mrs. Robert Douglas King, Merrow, Conn.; Mrs. Sumner B. Irish, Skillman, N. J.; Mrs. David M. Keedy, San Antonio, Texas, and Mrs. Robert O'Brien, Phoenix, Ariz.; a son, Shubael E. Dimock, Lexington; three sisters, Mrs. Stephen Crowell, Middletown, Conn.; Mrs. W. H. Webster, Stafford, Conn., and Mrs. A. B. Kibbe, Tolland, Conn.; a brother, Dr. E. R. Dimock, Merrow, Conn.; seven granddaughters and seven grandsons.

Mammoth Cave Booklet Is Out

An illustrated booklet which describes the geology of the Mammoth Cave National Park area has been published by the Kentucky Geological Survey at the University of Kentucky.

Author of the new booklet, first of a new series of publications to be prepared by the state agency, is Ann Livesay, instructor in the University's Department of Geology.

According to Geological Survey officials, the new book has been written in a semi-popular manner in order to furnish tourists with information, but it is scientifically sound for interested geologists.

The survey expects to issue similar reports on the Natural Bridge and Cumberland Falls State Park areas. All bulletins of this series will be profusely illustrated.

Included in the Mammoth Cave booklet are explanations of cave-forming processes along with comments on features of Mammoth Cave trips.

The publication may be purchased from the Geological Survey for 75 cents. It will be made available at other locations in the state later.

UK Students Attend Camp, Navy School

Nineteen UK students are undergoing AFROTC training for four weeks of summer camp at Craig AFB, Ala., this month.

Three of these were chosen for a special group that attended an aerial firepower demonstration earlier this month. Selected on the basis of performance during the first part of the summer camp were Melbourne C. Brough, Milford; James K. Cole, Lexington, and Capp E. Turner, Atlanta, Ga.

One UK representative, Forest E. Stone, Lexington, was in another group of 10 chosen, from 119 AFROTC members from 11 colleges and universities attending the encampment, for an orientation ride in a jet.

Three '53 UK graduates received officer's commissions at the close of a four-month course at the Navy's Officer Candidate School in Newport, R. I., earlier this month. They were Victor J. Hoff, Ft. Thomas; George W. Hakkio, Conneaut, Ohio, and Michael N. Cavaluzzi, Ft. Mitchell.

Thompsons Write Novel Directory

Dr. Lawrence S. Thompson, director of libraries at UK, and Mrs. Thompson are the authors of a new volume released Tuesday by the University of Kentucky Press.

The book, "The Kentucky Novel," contains an annotated listing of more than 400 full-length novels which have settings in Kentucky. According to Bruce Denbo, director of the University Press, the work also traces dime novels and juvenile fiction in separate sections.

This volume traces fiction writings of Kentucky from Gilbert Imlay, who wrote "The Emigrants" in 1793, to Henry Giles, who published "Harbin's in 1951."

A native of North Carolina, Dr. Thompson has served as library head at UK since 1949. He holds a Ph.D. degree from the University of North Carolina. Mrs. Thompson is a former art librarian at UK and was born in Bourbon county.

Crosley Vice-Prexy Is UK Graduate

Announcement was made this week of the appointment of Gilbert W. Kingsbury as vice-president of the Crosley Broadcasting Corporation.

Kingsbury is a graduate of the University, where he majored in journalism. He is a past Kernel news-editor and has been head of the newsroom of radio station WLW. He has also been the Washington correspondent for WLW and was formerly secretary to Senator Withers of Kentucky. He has been on the teaching staff of the University of Cincinnati night school where he taught journalism.

UK Golfers Win Laurels

Two UK undergraduates have added to previous achievements this summer with outstanding records in golf tournament competition. Pretty Charlene Cross, A & S sophomore from Winchester, has been pretty busy with her job as housing secretary in Dean Ab Kirwan's office, but found time to hit the tourney trail twice. And Gay Brewer, Jr., freshman from Lexington, has been "on the trail" much of the summer.

AFROTC Head Succeeds Davis

Col. Robert S. Larson has arrived at Lexington with his wife and two sons, and is to take over the UK Department of Air Science. He will assume his duties August 1. He will relieve Col. Edward G. Davis who is slated for a Korean tour of duty. Col. Larson comes to UK from the Florida Air Force Missile Testing Center. He was formerly attached to the Air Proving Ground in Florida. The Colonel served 25 months in Korea with the United States Army Military Government on detached duty from the Air Force. He has served in the Middle East, North Africa and Italy, and has had 14 years of active commissioned service. A native of Montana, Col. Larson graduated from Montana State College in 1937 with a B.A. in Journalism.

The outgoing air science head, who will leave Lexington Aug. 1, has completed a four-year assignment as professor of air science and tactics at U. K. Col. Davis will report to the Far East Air Force for duty in Korea.

The change in the air science department is the second in the University's ROTC program announced this week. Col. Henry H. Rogers, U. S. Army, arrived on campus at the first of the week to relieve Col. Charles M. Mount as professor of military science and tactics.

New Farm Agent Appointed By UK

Elmer Scheidenhelm of Tuscola, Ill., has been appointed UK field agent in dairying. He succeeds John Foster who resigned June 1 to manage Collinwood Farm at Columbia City, Ind. A graduate of the University of Illinois and Michigan State College,

Scheidenhelm has been an extension field agent in dairying in Nebraska, Michigan and New Jersey, and a county agent in Illinois.

Garland Bastin has been transferred from superintendent of UK's dairy to extension work in dairying. He replaces John Couey who left to work with an artificial breeding association in Wisconsin. The new dairy superintendent is Joseph Rust, formerly of Butler, Illinois and Michigan State College.

Maxson Services Held Thursday

Funeral services for Mrs. Jessie Taylor Maxson, 71, widow of Prof. Ralph N. Maxson, who was a member of the UK chemistry department for many years, were conducted Thursday at the grave in the Lexington Cemetery. Mrs. Maxson died Tuesday afternoon at her home, 366 Transylvania park.

A native of Cleveland, Ohio, Mrs. Maxson was the daughter of the late William and Mary Collins Ayars Taylor. She was a member of the First Presbyterian Church.

She is survived by two sons, Dr. William T. Maxson, Lexington, and Charles Maxson, Elmhurst, Ill., her stepmother, Mrs. William Taylor, Kansas City, seven grandchildren and two nephews.

Services were conducted by the Rev. Adolphus Gilliam. Bearers were Dr. E. I. Hifner, Jr., Lawrence A. Bradford, Harry Russell, John Hughson, John S. Gardner and Dr. Carl Fortune.

Children Win Latin Awards

Thirteen children who completed the University's four-week beginning course in oral Latin have been presented with certificates written in Latin as their rewards for finishing the course.

Four others completed classwork but did not receive certificates because they joined the class after it was fully organized.

Although the youngsters are still uneducated in formal Latin grammar, all have acquired an elementary speaking knowledge through a novel method rarely attempted by educators.

The class was taught by Dr. Jonah W. D. Skiles, head of the Department of Ancient Languages. He first introduced the method in Latin to the University in 1947 and has been directing summer demonstration classes since then.

Only grade school children who had not completed the fifth grade, and high school students who had not studied Latin, were eligible for the course.

Chemistry Grad Ends Own Life

Sherman Gayle Warner, 26, a graduate student and part time instructor at UK, ended his own life Saturday afternoon.

Deputy Coroner Aaron Smith listed the death as suicide and said that Warner drank poison. The only reason advanced for the act, the deputy coroner said, was overwork by Warner in his studies. He had been engaged in chemistry research for two years.

Warner, a resident of Georgetown, was scheduled to receive his master's degree in chemistry in August. He was graduated from UK with high distinction in 1951.

A veteran of World War II, Warner served in the European theater. He was a graduate of Garth High school at Georgetown and was a member of Georgetown Baptist Church.

At the University, he was a member of Pi Kappa Alpha social fraternity, and of three honorary fraternities, including Phi Beta Kappa, national scholastic honorary.

Leland's Score Second At Meade

Roger B. Leland, who is attending summer ROTC camp at Fort Meade, fired a 196 on the rifle range to place first in his company. His expert score placed him second in the number who fired for record on the range. The first place score was 197.

Leland was firing the M-1 rifle.

Other UK students attending summer camp at Fort Meade, Maryland are, Matt Franck, Claude McClure, Elton Asher, Kent Angel, Philip Dixon, John Van Cleve, William Buckner, Samuel Peege, W. C. Mudd, Raymond Wilson, Freddie Boyd, Thomas Prather, John Cross, Hugh Pedidd, John Shanahan, Glen McCormack, Edward Conder, Calvin Smith, Frank Werner, Hugh King, David May, William Cartee, Paul Beruff, Wilson Fuller, John Wente, Ribert Robbins, William Wilson, Douglas Williams, Sammie Baker, John Reese and James Carter.

YEARS AHEAD OF THEM ALL

1. Chesterfield Quality Highest 15% higher than its nearest competitor and 31% higher than the average of the five other leading brands... based on recent chemical analyses giving an index of good quality for the country's six leading cigarette brands. The index of good quality table—a ratio of high sugar to low nicotine—shows Chesterfield quality highest.

2. No adverse effects to nose, throat and sinuses from smoking Chesterfield. From the report of a medical specialist who has been giving a group of Chesterfield smokers regular examinations every two months for well over a year.

3. First with premium quality in both regular and king-size. Much Milder with an extraordinarily good taste.

Don't you want to try a cigarette with a record like this?

"I've been a Chesterfield smoker for 7 years and know they're best for me! Try them yourself."
