

My Dear Joe

26th June 1857

Mrs Barry has given me two
poultices, that she says if you will take will
cure you at once, and no mistake and without
any disagreeable effects or unpleasantness
You must take one of the poultices
only in a little milk, and then eat
nothing, but a little rice boiled for a day
or so; - She thinks one of the poultices will
effect the cure, and you must take it
at once without hesitation; - This by no
means does -

I will be up at dinner to see
how you are getting on -

The best of afflye your father
Wm. Napier
