Dearest Kentucky :- Thought I was feeling O. K. when today had another attack of acute indigestion. I've had most of the day (reading), but feel much better this evening but feel so weak. I can hardly stand without getting dizzy. Am planning to come back next week but don't know whether or not Mr. King will allow me.

Went to the movies last night and saw "The Spend Thrift" which was good. I just finished my new dress, which I have been working on.

I know I'll never get all the sewing done that I want because I never get up
