#### The Library Associates

A group of faculty, alumni, and friends organized the Library Associates in 1954 for the purpose of promoting the growth and development of the University of Kentucky Libraries. Over a period of 10 years members of this organization made substantial contributions in terms of books, research materials, and funds for special purchases. Gradually, the Associates became inactive.

In 1977 the Associates were reactivated and reorganized with the primary objectives of building the library collections, increasing the organization's membership, and providing programs of interest to the public. Two years later they began publishing The Kentucky Review, designed as a general humanities journal with the added purpose of keeping the membership informed of worthwhile acquisitions and activities.
