Western head says no immediate changes in publications

Associated Press

BOWLING GREEN, Ky. — Western Kentucky University President Thomas Meredith assigned a low priority Friday to any changes will "remain on the back burner," Meredith said after the release of an internal report that had been prepared by a special panel for Kern Alexander before he gave up the presidency.

Meredith said he would study the issues in the report "in due time, which will probably be after the first of the year."

"This is not a high priority," Meredith told The Daily News.

"They know where I stand," he said of those outside and within the university who created a firestorm of controversy over earlier efforts to reorganize the manage-

ment of both the campus newspaper and yearbook.

Meredith said he was disappointed that the report was released without his permission, but Catherine Hancock McCarty, the Nashville, Tenn., lawyer who headed the panel, said, "I'd like to hear what he has to say about it."

"We sent Alexander a letter saying we wanted it released to the press immediately. We received a request for it, and I don't see why there should be any problem."

The report was given to Alexander on June 20.

The (Louisville) Courier-Journal, which carried a story on the recommendations Friday, said the panel's chairman and secretary released the report at his request.

The report was prepared last summer by a panel created by Alexander.

One panel member said the report did not rebuff Alexander's call for faculty editors and increased administrative control of the publications.

"The report contains no reference to what Dr. Alexander did or didn't recommend," said Don Stringer, managing editor of The Daily News.

Stringer said he previously had declined to discuss the recommendations because he considered it an internal report for the office of the university president and a matter which did not come under Kentucky's open records laws.

"We basically said hands-off; it's a good operation, don't mess with it," said Deryl Leaning, dean of the College of Liberal Arts at Marshall University in Huntington, W. Va.

Johann Albers, head of Western's journalism program, said the report contained

little more than previous faculty recommendations.

The latest proposal would, however, remove student publications from control of the journalism department, a point she said she favors.

That would increase the faculty in her department, she said.

While Meredith said release of the report was premature, Mrs. Albers said she would have understood his concern "if this had happened two months ago when he first got here, but now ...

"I want a resolution of the situation," she said.

Meredith said Friday he had met with students and faculty associated with the campus newspaper in September.

"I addressed the issue of publishing five days a week with them, even before I knew it was in this report," he said.

"I told them they could print seven days a week if they want to ... if they can raise the money ... there is no more university money for them. We don't have it."

The controversy began March 15 when Alexander called for the installation of faculty editors and additional administrative control of the award-winning College Heights Herald newspaper and the Talisman, the school's yearbook. His statement led to a storm of controversy and a demonstration by 400 students.

Alexander said that he never intended to censor the paper and that his ideas had been misinterpreted.

Jack Corn, director of photography at the Chicago Tribune and secretary of the committee, said the panel did not assess blame for the controversy, but instead looked to the future.

DOWN FOR THE COUNT: Alfred Jones is pulled down by Tennessee's Cedric Kline Saturday in Knoxville at Neyland Stadium. The Volunteers defeated the Cats 28 to 24. UK ended the season at 5-6.

Wildcats come up short once again

By BARRY REEVES
Staff Writer

KNOXVILLE, Tenn. — UK linebacker Randy Holleran shrugged his head in disgust just thinking about the type of season his football team had.

"It just didn't happen," Holleran said of the UK season that ended at Tennessee with a record of 5-6.

UK played an SEC opponent to the wire and lost again. UK lost to five SEC opponents by the total of 26 points. This time the Cats fell 28-24.

"We were so close. We lost to five SEC teams by a total of 26 points," UK coach Jerry Claiborne said. "It really hurts."

The players, especially the seniors, said they feel like they were so close to becoming a power in the SEC this season.

"We were so close, but it just slipped away," UK senior defensive end Jay Dorcich said. "That is a bitter feeling."

"I feel pretty bad for the seniors," UK junior quarterback Chuck Brough-

ton said. "We were so close, yet so far."

Tennessee's attack was headed by senior quarterback Jeff Francis. Francis connected on 27 of 37 passes (75.6 percent) for 282 yards against the No. 2 rated pass defense in the SEC.

Francis was the winning edge for the Vols Saturday as he accounted for all 28 Tennessee points with four touchdown passes in the pouring rain.

"He (Francis) was the key, no doubt about it," UK senior cornerback David Johnson said. "He has blossomed into one of the best quarterbacks in the nation."

"Francis had an outstanding game," Claiborne said. "He made some excellent passes and their receivers did a good job of catching the ball, especially in this weather."

"He was threading the needle and throwing strikes all day long," Dorcich said.

Tennessee had stabilized their offense with their running attack which was clicking despite the loss of preseason All-SEC Reggie Cobb.

Sophomore tailback Greg Amisler rambled for 121 yards on 30 carries.

"Amisler is a big back (6-5, 227)," UK linebacker Chris Chennault said. "He really gave them the ground game when they needed it."

Tennessee jumped out to a lead of 14-0 at the start of the second quarter. Francis hit on scoring strikes of 12 and 14 yards.

The dormant UK offense was jolted when Broughton replaced senior Glen Fohr at quarterback with the Cats down 14 points.

Broughton guided the UK offense 69 yards with sophomore tailback Al Baker scoring on a five-yard run to pull the Cats to within seven of the Vols.

Francis and the Volunteer offense struck again again as Francis hit split end Thomas Woods for a six-yard score to put Tennessee up 21-7.

The next UK score was set up when Jeff Brady blocked a Tennessee punt, and Albert Burks covered the ball at the Volunteer 15-yard line. On the next play, Broughton hit tight end Charlie

Kentuckians not as healthy as the rest of the nation

Associated Press

High blood pressure, diabetes and skin cancer are generally more prevalent in Kentucky than the rest of the nation, according to a new UK survey.

Just 31 percent of the Kentucky adults questioned in the Kentucky Health Survey ranked their health excellent, down from a figure of 39 percent in 1984, said Timothy Johnson, coordinator of UK's Survey Research Center, which conducted the poll.

"The extent of the difference "raised my eyebrows," Johnson said, adding that past studies have found that respondents' perceptions of their health are good indicators of their actual health.

"The fact that residents of Kentucky perceive their health to be less satisfactory than do Americans in general may mean that important health problems exist in Kentucky," he said.

The Kentucky Health Survey found that Kentucky adults were more likely than Americans as a whole to have been told by doctors that they have high blood pressure, diabetes and skin cancer.

James G. Hougland Jr., director of the Survey Research Center, said the 1988 survey, which was done by telephone in May, is the first of what may be an annual effort.

After collecting data for several years, the sponsors hope to be able to see trends in the health of Kentuckians and in the efforts they make to prevent disease. The results should prove useful for academic researchers as well as for health planners, Hougland said.

For example, Thomas C. Tucker, associate director for cancer control at UK's Markey Cancer Center, said the survey results eventually would be used in evaluating the impact of various programs to reduce the incidence of cancer.

"It's really going to be our ability to see what's happening," Tucker said. "Otherwise, we don't know whether the interventions we implement have any impact at all."

Hougland said the results of the first survey must be interpreted cautiously because they are based on people's perceptions of their own health and that of family members, rather than on physical examinations.

In cases where the number of people reporting particular conditions is small, the

validity of the results can be judged only after several years.

In addition, a significant number of Kentuckians do not have telephones, and they would be more likely to be unhealthy because of the low income that indicates.

"If anything, we're understating the extent of the problem," Hougland said.

The Survey Research Center questioned 720 Kentuckians 18 and older about themselves and other members of their household. Information was gathered on a total of 2,023 individuals. The poll, which Hougland estimated will cost \$15,000 a year, was paid for by the university and Appalachian Regional Healthcare.

The national figures were from the National Health Interview Survey, conducted annually by the National Center for Health Statistics.

The UK poll results suggest that Kentuckians' poorer health may be related in part to their behavior.

•31 percent said they smoke, compared to the latest national estimate of 27 percent.

•Although 92 percent of Kentucky women said they know how to examine their breasts for signs of cancer, only 43 percent actually do so at least once a month as public-health experts recommend.

•It is now recommended that all women 18 or older, and younger women who have been sexually active, should have an annual Papanicolaou test to detect cervical cancer unless a doctor recommends otherwise.

But only 39 percent of surveyed women had undergone the test in the previous year, and almost half said it had been at least three years since they were tested.

Among other findings of the study were these:

•9 percent of those polled have been told by a doctor that they have heart trouble, including 2 percent who have had a heart attack and 1 percent who have suffered a stroke.

•41 percent have had cancer.

•In the two weeks before they were interviewed, 8 percent of employed members of surveyed households missed work, and 14 percent of students missed school, because of illness or injury.

•Within the preceding two weeks, a physician had been consulted, either by phone or in person, about the health of 17 percent of those surveyed, and 5 percent had seen a dentist.

Kentucky Kernel smaller due to UK power outage

Staff reports

Today's Kernel is two pages shorter than what we had planned because of a brief power shortage. About 4:30 p.m. yesterday, the power in the Journalism Building went out for about five seconds which caused the Kernel's computer system to go down.

It took about 2½ hours before the system was back up, and Kernel editors decided to "drop down" to four pages so the paper would not be at the newsstands later in the day.

As a result of the decision, the View-

point and Diversion pages were not run today.

According to Ed Van Hook, a spokesman for Kentucky Utilities, an equipment failure at the Scott Street substation created a problem with the high-voltage circuit that caused a "dip" in the power around UK for about five seconds.

The high winds that came through Lexington yesterday afternoon brought some power lines down and caused power losses in some areas, Van Hook said.

Fraternity apologizes for racial incident

Associated Press

DANVILLE, Ky. — The nation's third oldest chapter of the Phi Delta Theta fraternity has apologized for a mocking hanging at Centre College that had racial overtones and members said they are waiting for their punishment.

"There is no excuse for our lack of foresight," Lee D. Tatum, president of Centre's Kentucky Alpha-Delta chapter of the fraternity, said in a prepared statement Friday. "We should have real-

ized how this action would be interpreted, and we are thoroughly embarrassed by our lack of sensitivity."

The fraternity also hung a banner of apology outside a dining hall at the center of campus.

The mock hanging on Nov. 10 is an annual prank conducted around Halloween, said Art Jester, director of college relations.

While about 40 students and fraternity members — four dressed in gold robes and one dressed in a black robe — looked on,

one volunteer Phi Delta Theta member was placed in a mountain-climbing harness attached to a tree by a rope. Jester said "The member swung about six feet above ground."

His face was painted black with burnt cork, he said, and the five robe-wearing members carried makeshift torches during the 15-minute ceremony.

All fraternity brothers willingly participated in the event and no one was injured, Jester said.

Kentucky's basketball teams find openers tough to handle

Staff and AP reports

Duke waited until the second half to show why it was selected the No. 1 team in the preseason poll.

The Blue Devils used their depth and experience to pull away from undermanned Kentucky for an 80-55 victory in the 10th Tipoff Classic.

The game was tied 43-43 with 16:43 to play. The rest was all Duke.

"I thought we played a great second half," Duke coach Mike Krzyzewski said. "Maybe we were a little nervous at the start. We didn't seem to be playing with any rhythm."

The Blue Devils danced all over Kentucky in the second half.

"We were taught a pretty good lesson by an outstanding basketball

ELLIS

team," Kentucky coach Eddie Sutton said. "They are so deep, their shuffling just wore us down."

The Blue Devils returned to players from last year's Final Four team and were expected to open the season with an easy victory. However, Kentucky, which lost seven of its eight leading scorers from last year's NCAA tournament team and has been under the cloud of NCAA investigation, did make it close for 24 minutes.

Kentucky had tied the game at 43-43 on a lean-in by LeFon Ellis.

The Blue Devils went on a 16-0 run over the next 6:34. After Reggie Hanson's three-point play ended the Kentucky drought, Duke scored the next 13 points to go ahead 72-46 with 3:50 to play.

Duke missed all five of its 3-point attempts in the first half but the Blue Devils' first scoring burst of the second half featured four straight 3-pointers — two by Perry and one each by Quinn Snyder and Phil Henderson.

"The second half we played flawlessly. We really did play very

well," Krzyzewski said. "Snyder played just a great floor game and the 3-point shooting in the second half allowed us to blow the game open."

Henderson added 13 points for Duke, while Snyder and Robert Bricekey had 10 each.

Ellis led Kentucky with 17 points.

The game was a rematch of the first Tipoff Classic, when Duke prevailed 82-76 in overtime. There were no extra minutes needed this year.

Lady Kats fall to Swedes

The UK women's basketball team was beaten by the Sweden National Team 94-80 in an exhibition contest held at Memorial Coliseum Saturday night.

It was the first time this season that the Lady Kats had an opponent other than their Blue/White scrimmages.

"I think it was just an opportunity to see them playing together," UK coach Sharon Fanning said. "It

was the first opportunity that we had like this. And with a bunch of new people, it's just going to take some time and patience."

"We had one goal in this game," she added. "It was to try to get everyone in. We have eight new faces and that is something you want to do to see how they will react."

Even though Sweden had a 19-point lead at intermission, the Lady Kats did not give up as they

outscored their opponents 49-44 in the second half.

"Pressure wise, we did make a run at them, but they hit some big buckets," Fanning said. "When a team can shoot like that it makes it tough to comeback or win."

"I was pleased with the fact that we never quit," she added. "We kept working hard. We will try to take the last half and try to work from there."

Procedure for Recommending Revisions of Student Code

Pursuant to the Code of Student Conduct, Article VII, the Student Code Committee will accept and review recommendations from UK students, faculty and staff regarding proposed revisions of the Code. Such recommendations must be in writing, should be as explicit as possible, and should be addressed to the Committee, c/o Office of Vice Chancellor for Student Affairs, Lexington Campus, 529 Patterson Office Tower, 00273. Recommendations should indicate the name of the proposing individual or organization, mailing address, and telephone number. Recommended revisions should be submitted by December 6, 1988, and preferably earlier than that date. The Code is published as Part I (pages 1-30) of the document entitled "Student Rights and Responsibilities" dated August 16, 1988.

Kernel Personals —
The perfect gift

OMBUDSMAN'S CORNER Dead Week and Final Examinations

Dead Week — No examinations, except for "make-up" examination or laboratory practicals, shall be given the week of December 5-9 (Dead Week).

There will be regularly scheduled classes. Teachers planning to give a regular examination during this period (December 5-9) need to rearrange their schedules and offer this examination **before Dead Week**. Call this office if you have any questions.

Finals — No final examination shall be given before Monday, December 12, 1988.

Any student with more than two (2) final examinations scheduled on any one date (not within 24 hours) shall be entitled to have the examination for the class with the highest catalog number rescheduled at another time during the final examination period. In case this highest number is shared by more than one course, the one whose departmental prefix is first alphabetically will be rescheduled. The option to reschedule must be exercised *in writing* to the appropriate instructor two weeks prior to the last class meeting.
