ABBEY OF GETHSEMANI TRAPPIST KENTUCKY 40073

Oct 31, 1966

Dear Carolyn:

November is upon us. I wonder if Victor and you will be able to get over on the 12th, 19th or 26th. I am not too sure about the 26th for myself but the other two dates are wide open and the 26th remains a possibility. How about the 12th?

Under separate cover I send a few things. How Victor's portrait of me came to be reproduced in that magazine, I do not know. I hope he will not mind.

The other things I send-- some of my own, and others for general interest. Continuum is worth the Library subscribing to if you do not already. The speech of my friend Ferry is interesting: he is always quite good and anti-technological in a way that I think is fruitful.

Best wishes to you both, and do let me know if you plan to come -- which I hope you do soon.

Blessings and regards always,

*Tom.*
