# Alumni Return to Campus for Reunions

THESE HELPED TO "BRING 'EM BACK"

Here are five of the reunion secretaries whose loyalty and earnest work made the runion this year so successful. Left to right, above, they are: Ernest L. Becker, class of '11; Hazel Nollau, class of '34; Frances Lee (Mrs. Allan D.) McLean, class of '26; Elleen Lary (Mrs. W. S.) Webb, class of '01; and Robert C. Terrell, class of '06. Other retetaries who were not present when the picture was taken are: Louise Michot Mrs. E. T.) Proctor, class of '16; James Carnahan and J. Irvine Lyle, class of '96; Elle Victor Cromwell, class of 21; and Buena Mathis, class of '31.

### Classes Ending In "2" and "7" Are Scheduled to Return In June, 1937

With a tentative program including special celebrations in connection with the 70th annual Commencement festivities and reunions of classes ending in "2," "7," and the dass of '35, alumni can look forward to a great reunion in 1937.

Thursday, June 3, will be Alumni Day, and also on that day annual accalaureate exercises will be held.

Alumni events will include the class day exercises, reunion luncheons, baccalaureate services, a special tea at Maxwell Place and the alumni banquet in the evening.

Greater plans are being made for the reunions next year. Special attention will be devoted, during the year, to class organization and class

(Continued on Page Eight)

More than 600 strong, University alumni — old-timers, not so old-timers, and many comparatively new-timers—made their way back to the campus June 4 to indulge in gloried reminiscence and shake the hands of friends, old and new, in the most successful alumni reunion in many a year.

Thursday of commencement week was the day, and, in traditional Kentucky fashion, it dawned bright and sunny. Events officially began with registration at 9 o'clock in the Alumni Office. Grady Sellards, Lexington, of the reunion class of '21, was the first to "sign on the dotted line," and was only a few minutes ahead of Howell Spears, class of '07. The Alumni Office lounge was soon filled with returning grads renewing their friendships and connections, and talking over old times.

Annual Class Day exercises, given by the class of '36, were held in Memorial Hall at 10:30 a. m. Elvis J. Stahr, president of the class, was in charge, and a delightful and amusing program was presented.

Noon brought reunion class members together in reunion luncheons. Classes celebrating this year were those ending in '01 and '06 and the class of '34. Attendance at the various luncheons was the largest in many years and secretaries reported "a good time was had by all." Permanent class secretaries and college representatives in each class were elected at the luncheons.

The afternoon program included annual baccalaureate exercises held in Memorial hall at 3 p. m., with Dr. A. W. Fortune, pastor of the Central Christian church in Lexington, delivering the baccalaureate sermon. Following the services, President and Mrs. McVey were hosts at Maxwell Place for a tea in honor of the graduates, alumni and friends.

Over 350 alumni, guests, and friends, an all-time record, packed (Continued on Page Two)

Official organ of the Alumni Association of the University of Kentucky published quarterly on the campus of the University, at Lexten. Subscription to non-members, \$1.00, to members of the Association, 50 cents. Membership in the Association includes subtituding to the Alumnus.

# Alumni Return to Campus for Reunions

(Continued from Page One)

the Lafayette hotel ballroom for the annual banquet at 7 p. m. to enjoy an interesting and lively program. Lieutenant-Governor Keen Johnson, '22, president of the Association, presided and introduced the toastmaster, Mr. Harvey Babb, '11, president of Morehead State Teachers College. Accompanied by appropriate remarks by Mr. Babb, the program moved along in enjoyable fashion. Greetings were extended by Dr. Frank L. McVey for the University, Professor Merry L. Pence, '81, Professor Emeritus of Physics at the University, representing the oldest of the reunion classes, and Elvis J. Stahr, Rhodes-Scholar-elect, representing the class of '36.

A unique feature of the program was a fantasy dedicated to the reunion classes, entitled "Backward, Turn Backward," presented by University students under the direction of Helen King, '25, of the University Publicity Bureau. A parade of beautiful girls, attired in the fashions of each respective reunion class period, passed across the stage while the University radio orchestra, under the direction of Elmer G. Sulzer, director of radio and publicity at the University, played appropriate music. The orchestra also furnished music

throughout the dinner, presenting special numbers featuring Mary Louise McKenna, soprano, and Gentry Shelton, baritone, in classical and semi-classical selections.

The principal address of the evening was delivered by Hon. A. B. "Happy" Chandler, '23, Governor of Kentucky. Governor Chandler expressed sincere hopes for greater things in the University Alumni Association during the coming years, and pledged his whole-hearted support of all its undertakings. He lauded the graduates of the University who have become leaders in State and Nation, and expressed the hope that University men and women will continue to take the lead in public affairs.

Closing event of the program was announcement of officers of the Association for 1936–37, made by L. K. Frankel, '00, member of the Alumni Executive Committee. Mr. Frankel introduced Keen Johnson, re-elected president, and Miss Helen McCandless, '06, of Louisville, newly-elected vice-president.

Many alumni remained until Friday to attend the commencement program, which included exercises at 10 a. m. in the Alumni gymnasium, with Dr. Thomas Parran, surgeon-general of the United States, delivering the address, and the annual commencement luncheon at noon in the University Commons.

The annual meeting of the Alumni Association was held after the luncheon in the Faculty Club rooms adjoining the Commons. L. K. Frankel, of the Alumni Executive Committee, presided. Reports of the secretary and treasurer were heard and routine business discussed.

#### CLASS OF '81

Dr. Merry Lewis Pence, Professor Emeritus of Physics at the University, represented the class of '81, of which he is the only living graduate, this year, and extended greetings from his class at the banquet.

#### Bringing UK to You

A highly successful phase of the Association's program last year was the maintenance of headquarters in cities where the Wildcats played during the football season and at the Southeastern basketball tournament in the spring. Hundreds of alumni who are unable to get to Lexington were contacted and their associations with other alumni and the University renewed.

This plan will be continued during the coming football season. Alumni and former students will have the opportunity of renewing

their contacts at Kentucky headquarters to be established at Atlanta, Georgia, for the Georgia-Tech game, New York City for the Manhattan College game, and at Knoxville, for the Tennessee game.

Location of the headquarters will be announced in your weekly Kernel, in daily newspapers, and in letters to alumni living in territories where these games are being played. Make your plans to arrive in town Saturday morning and spend a little time at Kentucky headquarters before going to the game. Representatives of the Association and of the University, officers of local alumni clubs, and of course, other alumni, will be on hand to greet you. In several of the above cities, special events have been planned by the Kentucky alumni club there. Plans are already under way for a big celebration with the New York Alumni Club on November 7, when the Wildcats play Manhattan College. When you "hit town," look for

When you "hit town," look in Kentucky headquarters — we'll be looking for you!

## Annual Summer Session Opens With Second Largest Enrollment In Its History

With a total enrollment of 1,654, second largest in its history, representing 116 of Kentucky's 120 counties and thirty-two states, the first term of the University Summer Session started another big year June 15, featuring a well-arranged curriculum of special courses as well as a delightful series of extra-curricular activities.

The enrollment this year fell a little short of equalling the alltime summer school record of 1,716 made last year. This record enrollment, however, was attributed to the necessity for many teachers to fill the new requirements of the standard certificate set up last year. The second term enrollment last year was 1,028 which also was a record number. Officials of the Session estimated that this year's second term enrollment will run in

the same proportion as that of the first period.

Features of the first term included an opening convocation with President Frank L. McVey as speaker, a series of band concerts in the amphitheatre behind Memorial Hall, an All-University Picnic at Lexington reservoir, weekly teas in honor of the various colleges held at Maxwell Place with President and Mrs. McVey as hosts, two performances by the famous Coffer-Miller Players, presenting Shakesperian drama, and a presentation of Gilbert and Sullivan's "Pinafore" by the music department, under the direction of Professor Carl Lamp-

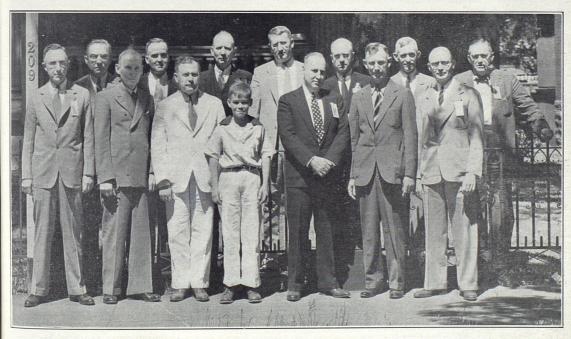

A series of ballroom dancing lessons was also offered by popular request during the term, and two Saturday night dances were held

for the benefit of the sociallyminded. For the first time in six years, the Kentucky Kernel was published during the summer, appearing weekly. Campus news, as well as interesting articles, editorials, and feature stories were carried in each issue.

Registration for the second term began June 20. Extra-curricular activities of this term include a series of Little Symphony concerts under the direction of Carl Lampert, a summer school party in Paterson Hall, two performances by the Chamber Opera Company, and a program by Herman Ivarson, Norwegian bass-baritone.

Annual summer school Commencement will begin with the commencement dinner Wednesday, August 19, in the University Commons. The annual reception for graduates will be held Thursday, August 20, and commencement exercises Friday, August 21, in Memorial hall.

#### THE CLASS OF 1911 - TWENTY-FIVE YEARS AFTER

Above are those who returned this year in the class of '11—the 25-year class—taken after their reunion luncheon at the Teacup Inn. They are, left to right: top row, E. L. Becker, reunion secretary, S. C. Ebbert, L. N. Weller, A. B. Phister, T. S. Slade, G. C. Routt, A. Carlton Ball; front row, F. T. Miles, Dean Emeritus C. R. Melcher, H. G. Lytle, Ebbert, Jr., B. M. Smarr, F. R. Naylor, A. B. Haswell.

## GRADUATING CLASS ENROLLS 100 PER CENT AS ASSOCIATION BEGINS NEW YEAR

Lieutenant-Governor Keen Johnson, president of the Alumni Association, is shown above receiving a check for \$400 from Elvis J. Stahr, president of the class of '36, in payment for Association memberships for one year of the 400 graduating members of his class. For the first time in the history of the University the graduating class joined the Association as a unit. Left to right in the picture are: Robert Hensley, treasurer of the class of '36; Francess Kerr, vice-president of the class of '36; Mr. Johnson; Mr. Stahr; and R. K. Salyers, secretary of the Association.

#### Plans for Current Year Announced

An increase in the number of active members, special attention to revision of alumni records and class reunions, and continuation of the liberal membership plan will be features of the Alumni Association during the current year.

The membership plan, which proved so satisfactory during 1936-37, will remain this year, with dues at \$1.00. Active members will again receive the weekly alumni edition of the Kentucky Kernel during the regular school year. You know the Kernel—one of the outstanding college publications in the nation—full of interesting articles about sports, campus activities and information that keeps you in close touch with all that goes on at the

#### THE ALUMNI FUND

Alumni dues were reduced to \$1.00 to meet the challenge of depression years and to bring Association membership within the reach of all. Occasionally someone asks, "How can you do it?" To be perfectly frank, it costs the alumni office practically the entire amount received in dues just to pay for sending the Kernel and other communications to active members.

You can help solve this problem by making a contribution to the alumni fund, which is used for the furtherance of general alumni activities and extension of alumni office services. This is entirely voluntarily and has no relation to the regular dues. University. Each issue sent active members will contain a column devoted exclusively to alumni news.

As was the case last year, the alumni office will devote a great deal of attention to revising alumni records. Keeping up with thousands of former Kentucky students is no easy matter and requires the cooperation of all concerned. By keeping the office informed of your correct address at all times, you can help it to keep in touch with you. As usual, the Association will sponsor various activities in connection with the home - coming game, including the annual homecoming dance in the Alumni gym-Headquarters will be nasium. maintained in Lexington hotels for registration of alumni who return for the event.

Alumni who are unable to return for the game at Lexington will have an opportunity to renew con-

## Doubling of Membership, Improved Financial Condition Features of 1935-36 Association Year

A membership more than double the 1934-35 total, improved financial condition, headquarters in cities where the Wildcats played, class reunions, and home-coming festivities were features of the past year's work of the Association as set out in the secretary's report approved at the annual meeting June 5.

During the year 1934-35, according to the report, there were 358 active members in the Association, including 56 life members. How-ever, with adoption of a new membership plan at the beginning of the year 1935-36, membership more than doubled, bringing the active number to 808, including the life members, at the end of the past year. Under this plan, dues remained at \$1.00, with all memberships expiring at the close of the Association's fiscal year. Active members were sent weekly, during the regular school year, an issue of the Kentucky Kernel, containing, beside regular campus news and features, a section devoted to news of special alumni in-

In addition to 31 issues of the Kernel, eight other mailings were sent from the Alumni Office, containing information on football and basketball games, glee club and band concerts, and other items of interest to all alumni. The Alumni Office has tried, at all times, to keep Association members informed of University activities.

In June, 1933, the report states, the Association had a deficit of approximately \$500. By June, 1934, this had been reduced to \$265, and at the close of the fiscal year ending May 31, 1935, the deficit had been reduced still further to \$150.94. The treasurer's report at the close of the fiscal year ending May 31, 1936, shows that this deficit had been wiped out and a cash balance of \$185.68 remained, with all bills paid. In addition, \$100 was transferred during the year to the sustaining fund.

For the first time in the history of the University, the entire 1936 graduating class joined the Association as a unit. Memberships will be paid from the class fund, through an arrangement with the class officers. This brings the Association more members with which to start this year than it had during the entire year of 1934-35.

The report points out, however, that with alumni dues at the low figure of \$1.00, funds received from this source are barely sufficient to pay for the mailing of the Kernel and other communications to active members. During the past year, the University has furnished the services of the secretary and a fulltime stenographer. The office has also had the help of several students working under the National Youth Administration. A fund of \$368.98 was obtained from the class of 1932. Proceeds of two dances given in cooperation with the Lexington Alumni club, netted \$500, and a basketball game, \$49.65.

In order that the Alumni Office

tinued during the remainder of the

The Association met with great success in the sponsorship of its various activities during the past year. The annual home-coming day was celebrated November 9 in connection with the Florida-Kentucky game. Alumni headquarters were set up in both down-town hotels, and several hundred alumni registered during the day. The annual home-coming dance was held in the Alumni Gymnasium in the evening. Headquarters were also set up for the Tennessee game on Thanksgiving Day, and another dance was held after that game.

A highly successful, though new, activity of the Association the past year was the maintenance of headquarters, with the secretary in charge, at Columbus, Montgomery, and Birmingham, in connection with football games played in those cities, and at Knoxville during the Southeastern Conference basketball tournament. Many alumni who seldom get to Lexington were contacted and in some cities special programs were put on by local alumni clubs. It is planned to continue these headquarters during the football season this year.

It was not possible this year to arrange for the regular alumni basketball game, but through the cooperation of Coach Adolph Rupp and the athletic department, the Association received the proceeds of the Wildcat-Berea game.

The Association entertained the mid-year graduating class with a dinner in the University Commons January 24, 1936. Judge Brady Stewart, of Paducah, delivered the principal address, and Marcus Red-wine, member of the Executive Committee, was toastmaster.

Annual reunions for classes end-ing in "0" and "5" and the class of '33 were held on May 30, 1935. All reunion classes were well represented and everyone enjoyed the splendid program of activities that had been arranged. Dr. A. M. Peter, member of the University staff for many years, represented the class of 1880 at its 55th reunion. Largest representation among the older classes was the class of '95.

The Executive Committee of the Association was authorized in May, 1935, to recommend to the University Board of Trustees a new plan for selection of members of the board. A plan was presented whereby six qualified alumni would be (Continued on Page Eight)

may carry on and extend its activities, it is essential that its income from dues be supplemented from other sources. It is planned, therefore, to give active members an opportunity to assist, in addition to payment of membership dues, through contributions to the alumni

One of the most difficult jobs of an alumni office is the securing of up-to-date addresses of former students. In January, 1936, the Association made application for a project under the National Youth Administration for checking the files and compiling a geographical list. This project was approved and has been under way for several months. It is hoped that this can be con-

#### Plans for Current Year Announced

(Continued from Page Four)

tacts with the University through headquarters to be maintained in New York, Atlanta, and Knoxville, in connection with the games with Manhattan, Georgia - Tech, and Tennessee.

Special attention will be devoted to class organization and class reunions during the year. Plans are already underway for the reunions to be held next June for classes ending in "2," "7," and the class of '35. Plans for class organization in connection with these reunions contemplates appointment of a class secretary where there is no record of a permanent secretary, and in addition, selection of a representative for each college having graduates in the class. If you don't hear from your secretary in the near future, write the alumni office and ask about plans being made for your class reunion.

Every day the alumni office handles requests for addresses of alumni, information about football and basketball games and other University matters. It is ready to serve in every possible way. Help it to serve you by giving it information about where you are and what you are doing.

nominated and become the candidates for membership on the board. These names were to be placed in alphabetical order on a ballot, together with three blank spaces, and the ballots sent to those alumni qualified to vote. Names of the three persons receiving the highest number of votes would then be submitted to the Governor and he would appoint one in accordance with the law. This plan was put into effect, resulting in the

largest number of ballots from alumni ever received. Mr. Louis Hillenmeyer, Lexington, was appointed as alumni member of the board for a six-year term.

Keen Johnson, lieutenant-governor of Kentucky, and president of the Association for the past year, was re-elected for the year 1936-37. Miss Helen McCandless, Louisville, was elected vice-president, and Senator Ray Moss and Dr. E. Cronley Elliott were elected members of the Executive Committee for three-year terms.

of the presidency of Doctor McVey, and special plans are being made to celebrate his administration. Of course, speakers for the various events have not yet been scheduled, but the tentative dates have been set. Alumni will be informed through the Kernel when permanent plans have been completed.

Seventieth Commencement exercises will be held on Friday, June 4, followed by the annual luncheon in the University Commons. The annual meeting of the Alumni Association will be held following this luncheon.
