EDUCATION vs. TRADITION

On the frontier of present-day learning stands the undeniable fact that education is an opponent and not an ardent supporter of traditional ideas and methods.

The real purpose, then, of education is not to mould the younger generation into the narrow groove of tradition. It aims rather at preparing youth for a greater material and cultural achievement than the previous generation was able to accomplish.

A glance at the world picture emphasizes the need for this little recognized conception of education. A traditional economic order that has not kept pace with technological advancement is no longer able to decently care for its people.

Mental stogoes of the existing order are not going to lead society out of the mess in which it finds itself. Only intelligent thinkers who are free from traditional influences can add fresh color to the picture.

FRESHMAN CAPS

Tradition is essential to a university campus and must be preserved at any cost. In the past it has been traditional for the upperclassmen to subject the freshmen to various forms of hazing.

As civilization has progressed, so has the college man. Consequently, we no longer find such violent methods of horse-play by means of which the traditional subjection of freshmen is continued.

Instead of shaving the heads of the freshmen as had long been the custom, the upperclassmen grew kind-hearted and decided that it would be sufficient for them to wear caps in order that they might be distinguished as first-year men.

Now, the lowly freshmen, who do not appreciate how fortunate they are, refuse to wear the caps. As a result, the Men's Student Council, at the request of the Inter-Fraternity Council and the men in the dormitories, have decided to take action on the matter.

Members of the council will report any freshman not wearing his cap, and the offender will be called before the group for a hearing. If he cannot satisfy the council that he is justified in not wearing the insignia of his class, he will be punished in the form of a suspension from school for a period of not less than one week and not more than one month.

This seems drastic, but every other method has failed. The council is determined that the last trace of tradition on the University of Kentucky campus shall not die.

ANONYMOUS CONTRIBUTIONS

"Here shall the Kernel all student rights maintain." This traditional masthead has been, now is and shall continue to be the guiding principle by which all comment, editorial and otherwise, which comes to this desk will be considered.

To depart from this custom would be, in a certain sense, to take away the right of freedom of speech and freedom of the press. In carrying out this policy The Kernel is at present conflicted with one pressing problem—namely that of anonymous contributions in the form of student opinion.

Since all student opinion is published with merely the initials of the student as a signature, unless the writer specifically asks that his name be signed to the article, it is obvious that no precaution to prevent the disclosing of one's name to the student body at large is necessary on the part of the writer.

May we therefore reiterate that The Kernel will be glad to publish any and all communications submitted as student opinion provided they bear the signature of the writer. May we further reiterate that such articles will be published with only the initials of the writer as signature unless otherwise specified by the author.

Football's longest run from scrimmage was made by Wyllys Terry of Yale, against Wesleyan, November 4, 1884. Terry ran 115 yards for a touchdown, starting from five yards behind his own goal line.

Columbia University will receive a cash bequest of \$25,000 to be used "to found as many scholarships as it will in the schools of applied science" under the terms of the will of one of its graduates, Dr. Frank Vanderpoel of East Orange, N. J., who died last month.

Of the 800 students at CCNY, only 3 per cent are communists, according to a survey recently conducted by the American Legion Post No. 717, composed of Dr. Irving N. Rattner, commander; faculty members and graduates. It is Dr. Rattner's plan to reform all the student communists, who are really just misguided boys, he says.

A decided swing against the New Deal in the last 15 months among members of the Yale class of '24 is reflected in a recent poll. Sixty-nine per cent of the class voted against the President while 15 months ago 68 per cent favored New Deal policies.

The Fordham mascot, a ram, recently disgraced himself by mistaking an elderly woman for a football when she bent over to pick dandelions near the practice field. The woman was taken to the infirmary, where it was discovered her injuries were not serious.

Dr. Joseph Remensy, lecturer in comparative literature at Cleveland college, is completing his latest book, "Series of American Literary Portraits of Nineteenth Century American Writers." The book is written in Hungarian and will be published in Budapest.

Roscoe Pound, dean of Harvard Law School and one of the giants of American jurisprudence, was once blacklisted by the Daughters of the American Revolution.

Johns Hopkins University recently accepted a gift of 300 books from the Italian government. An expected anti-Fascist demonstration by students failed to materialize.

To solve the small school's problem of obtaining enough football material, five Iowa high schools of small enrollment have formed a conference and agreed to develop teams of six rather than eleven players.

"Camels don't get your Wind"

FAMOUS GOLFERS SAY

CRAIG WOOD (right)—Tommy Armour—Helen Hicks—Gene Sarazen—Bill Mehlhorn—Denny Shute—Willie Macfarlane!

Their names sound a roll call of tense moments that have made golfing history, when prime "condition" and healthy nerves were at a premium. All are outspoken in their preference for Camels.

"Camels are so smooth and mild they never affect my wind," says Craig Wood, pictured at the right as he paused to smoke a Camel. Willie Macfarlane adds: "Camels are mild. They don't get my wind." Miss Helen Hicks brings up the feminine viewpoint. "There's a delicacy of flavor in Camels that appeals to women. Camels never interfere with one's wind." And Denny Shute says: "I switched to Camels years ago. I smoke them constantly, without upsetting my nerves or disturbing my wind."

You'll Like Their Mildness Too!

Such experiences with Camels can be matched right among your own friends. You'll like Camels too. Camels are made from costlier tobaccos. They never tire your taste.

COSTLIER TOBACCOS!

Camels are made from finer, MORE EXPENSIVE TOBACCOS... Turkish and Domestic... than any other popular brand.

By JOE QUINN

Kentucky's Wildcats, thirty strong, will climb off the Pan-American this morning prepared to repulse every forward surge that Tulane's Green Wave should make tomorrow afternoon when the two teams get together for their annual football party.

When Coach Chester A. Wynne supervised the loading of upwards of two tons of averdupois, consisting of his Kentucky football squad, yesterday at Union station, the entire band of players was in probably the best physical shape that it has been in since the memorable Columbus affair.

Bert Johnson was apparently rid of the troublesome boils which have been hampering his performances of late. Stan Nevers and Sam Potter, the other two outstanding members of the 'Cat hospital list, were both returned to form, as they demonstrated last Saturday against the Floridians.

"Bo" McMillan has been attending classes with a hand fracture which will permit him to play, however, if necessary. Every other member of the squad, though, is in as good shape as might be expected of a football team that has been through more than ten weeks of a campaign.

Thus, with the players ready to perform again as a unit it may be expected that Kentucky will give the Greenies a great battle, in this the last of the Wildcat-Tulane series. Tulane is not included on the Kentucky schedule for 1936, as they have agreed to meet Alabama on the date that they have always played the 'Cats.

The present series between Kentucky and Tulane dates back to 1932. Tomorrow's battle will be the fourth; yet Kentucky has failed to win in any of the three previous tries.

## INTRAMURAL

More cups and more champions tonight at the Gym Annex where the Phi Tau's beat the S. A. E.'s for the winner's trophy in volleyball. The match will take place at 8:15.

In the first round of the tournament the Phi Tau's took the Kappa Sig's, S. A. E.'s over the S. P. E.'s, and the Sig Chi's won over the Triangles. In the second round the Phi Tau's beat the Sig X's and the S. A. E.'s trounced the Sig Chi's. Thus the Phi Tau's and the S. A. E.'s go into the finals.

The entries for ping pong and hand ball are to be in by 6 p. m. tonight. These matches will begin next week. The entries for boxing and wrestling have the dead line of 6:00 p. m. November 19, with bouts starting December 2. In the latter sports all participants are urged to begin their training as soon as possible since the competition this year is expected to be tougher than ever before.

Due to the weather the finals in tennis singles have not been played off and to do so the contestants will probably be forced to play off their match indoors.

So far the leaders in points for participation are the S. A. E.'s, first Phi Tau's, second, and the Sigma Chi's third. A complete list of the different groups and their points will be given in the next issue.

Managers notice: there will be a meeting of the managers at 4:30 this afternoon in the basement of the gym. Boxing and wrestling is to be discussed along with the eligibility for these sports. Managers be there!

## Executive Club To Meet Tonight

The first meeting of the Blue Grass School Executives club this year will be held tonight at 6 o'clock at the Lafayette hotel.

The election of officers for the coming year will be decided upon. The present officers of the club are Mrs. Mammie West Scott, superintendent of Estill County schools, Irvine, president, and Mrs. James E. Heird, superintendent of the Woodford County schools, Versailles, secretary.

The Paris High school choir will take part in the program that has been arranged for this occasion.

Importance of Rococo Period Emphasized by Art Head

The German club held its third meeting of the year in the Science room of the Library Wednesday, November 6, with Prof. Edward Rannels of the Department of Art as the principal speaker. In the absence of the president, Mr. Frank Lebus, Mr. Earl presided.

After a lecture on the German art of the 18th century, illustrated by many slides, the group adjourned and went to the Woman's building where refreshments were served and German songs sung. In Professor Rannels' talk, he emphasized the importance of the Rococo period (1721 to 1765) in which the introduction of porcelain was made in Germany. At this time, said Professor Rannels, the use of tea, coffee and cocoa were just being brought into effect. Many types of porcelain were made other than the useful articles such as statuettes, ornamental plates, vases and other ornamental fixtures.

The next meeting of the club will be held in the latter part of November. The date and program will be announced later.

## 73 TURN OUT FOR NET TEAM

Frosh Net Squad Is Largest Ever to Report for Initial Practice

Seventy-three men, the largest squad of freshmen basketball players in the history of the University, answered Coach Paul McBrayer's initial call for frosh net artists Monday night.

Besides being the largest squad, it is also a record setter as far as height is concerned. Of the 73 players, 31 of them are between 6 feet and 6 feet 4½ inches in height.

The present squad will practice until Saturday at which time it will cut out to about 40 men.

The Kittens are scheduled for seven games, but it is expected that eight or ten more will be added before the close of the season. Some of the teams to be met are Lawrenceburg High School, which has been tentatively set for the opening game on December 17; Manual Training High school of Louisville; Georgetown and Morehead college freshmen, and Pikeville Junior college.

A man is like a tack; he can go as far as his head will let him.
